Editorials

MicroRNA: A Toolkit Fine-Tuning the Dyadic “Fuzzy Space”?
Long-Sheng Song, Ang Guo, Richard Z. Lin .................. 816

Heparin and Bone Marrow-Derived Cell Therapy: Friend or Foe?
Edward T.H. Yeh, James T. Willerson ..................... 819

Mitofusin 2 Joins the Sarcoplasmic Reticulum and Mitochondria at the Hip to Sustain Cardiac Energetics
Klitos Konstantinidis, W. Jonathan Lederer, Rosario Rizzuto, Richard N. Kitsis . . . 821

Endothelial Cardiac Cell Therapy: Large-Animal Studies and the Elephant in the Room
Wei-Yu Chen, Richard T. Lee .................................. 824

Biased DNA Segregation and Cardiac Stem Cell Therapies
Richard P. Harvey, Shahragim Tajbakhsh ................. 827

Commentaries on Cutting Edge Science

Reprogrammed Cardiac Fibroblasts to the Rescue of Heart Failure
Yu Liu, Robert J. Schwartz ................................. 831

The NHLBI Page

On the Value of Portfolio Diversity in Heart, Lung, and Blood Research
Zorina S. Galis, W. Keith Hoots, James P. Kiley, Michael S. Lauer .......... 833

Brief UltraRapid Communication

Mir-24 Regulates Junctophilin-2 Expression in Cardiomyocytes
Ming Xu, Hao-Di Wu, Rong-Chang Li, Hai-Bo Zhang, Meng Wang, Jin Tao, Xin-Heng Feng, Yun-Bo Guo, Su-Fang Li, Shao-Ting Lai, Peng Zhou, Lin-Lin Li, Hua-Qian Yang, Guan-Zheng Luo, Yan Bai, Jianzhong J. Xi, Wei Gao, Qi-De Han, You-Yi Zhang, Xi-Jie Wang, Xu Meng, Shi-Qiang Wang ............... 837

Sulfenic Acid and Kv1.5 Expression
Svoboda et al., page 842

Mir-24 Regulates Junctophilin-2
Xu et al., page 837

Heparin Impairs Bone Marrow Cells
Seeger et al., page 854

Circulation Research (ISSN 0009-7330) is published semimonthly except one issue per month in November and December and three issues per month in March and August by Lippincott Williams & Wilkins, at 12107 Insurance Way, Hagerstown, MD 21740. Business offices are located at Two Commerce Square, 2001 Market Street, Philadelphia, PA 19103. Production offices are located at 351 West Camden Street, Baltimore, MD 21201-2436. Individuals may subscribe for their personal use at the following annual rates: Domestic: $240 for members and $558 for nonmembers. International: $297 for members of an American Heart Association scientific council and $697 for nonmembers. Contact Lippincott Williams & Wilkins for single copy rates and subscription rates for medical professionals in training and for libraries, reading rooms, and other multiple-use institutions. Periodicals postage paid at Hagerstown, MD, and additional mailing offices. POSTMASTER: Send address changes to CIRCULATION RESEARCH, American Heart Association, Lippincott Williams & Wilkins, 12107 Insurance Way, Hagerstown, MD 21740.
Redox-Sensitive Sulfenic Acid Modification Regulates Surface Expression of the Cardiovascular Voltage-Gated Potassium Channel Kv1.5
Laurie K. Svoboda, Khalilah G. Reddie, Lian Zhang, Eileen D. Vesely, Elizabeth S. Williams, Sarah M. Schumacher, Ryan P. O’Connell, Robin Shaw, Sharlene M. Day, Justus M. Anumonwo, Kate S. Carroll, Jeffrey R. Martens

Mitofusin 2-Containing Mitochondrial-Reticular Microdomains Direct Rapid Cardiomyocyte Bioenergetic Responses Via Interorganelle Ca²⁺ Crosstalk
Yun Chen, György Csordás, Casey Jowdy, Timothy G. Schneider, Norbert Csordás, Wei Wang, Yingqiu Liu, Michael Kohlhaas, Maxie Meiser, Stefanie Bergem, Jeanne M. Nerbonne, Gerald W. Dorn II, Christoph Maack

A Nodal-to-TGFβ Cascade Exerts Biphasic Control Over Cardiopoiesis
Wenqing Cai, Rosa M. Guazzo, Ke Wei, Erik Willems, Herman Davidovics, Mark Mercola

Integrative Physiology

Microfluidic Single-Cell Analysis Shows That Porcine Induced Pluripotent Stem Cell–Derived Endothelial Cells Improve Myocardial Function by Paracrine Activation
Mingxia Gu, Patricia K. Nguyen, Andrew S. Lee, Dan Xu, Shijun Hu, Jordan R. Plews, Leng Han, Bruno C. Huber, Won Hee Lee, Yongquan Gong, Patricia E. de Almeida, Jennifer Lyons, Fumi Ikeno, Cholawat Pacharinsak, Andrew J. Connolly, Sanjiv S. Gambhir, Michael T. Longaker, Joseph C. Wu

Tracking Chromatid Segregation to Identify Human Cardiac Stem Cells That Regenerate Extensively the Infarcted Myocardium
Jan Kajstura, Yingnan Bai, Donato Cappetta, Junghyun Kim, Christian Arraño, Fumihiro Sanada, Domenico D’Amario, Alex Matsuda, Silvana Bardelli, João Ferreira-Martins, Toru Hosoda, Annarosa Leri, Marcello Rota, Joseph Loscalzo, Piero Anversa

Clinical/Translational Research

Human Molecular Genetic and Functional Studies Identify TRIM63, Encoding Muscle RING Finger Protein 1, as a Novel Gene for Human Hypertrophic Cardiomyopathy

Reviews

Translational Success Stories: Development of Direct Thrombin Inhibitors
Michiel Coppens, John W. Eikelboom, David Gustafsson, Jeffrey I. Weitz, Jack Hirsh
Thematic Synopses

Circulation Research Thematic Synopsis: Cardiac Arrhythmias
The Editors [Online Only] ......................................................... e178

In July 2012, the average time from submission to first decision for all original research papers submitted to Circulation Research was 11.2 days.

On the cover: Immunofluorescence staining shows expression of the vascular markers CD31 and Von Willebrand factor (vWF) in endothelial cells generated from porcine induced pluripotent stem cells. Red: CD31; Green: vWF; Blue: Nuclei. See related article, page 882.
