Meta-Analysis of Cell Therapy Trials in HF
Fisher et al. page 1361

In February 2015, the average time from submission to first decision for all original research papers submitted to Circulation Research was 13.9 days.

On the Cover: In their editorial on Gyöngyösi et al (see page 1346), Kovacic and Fuster describe their impression of the current status of cell therapy studies to ameliorate cardiac damage and for cardiac regeneration. See related article, page 1287. [Created using Servier Medical Art licensed under a Creative Commons Attribution 3.0 Unported License.]
