In This Issue ................................................................. 825

Editorials

SNOs Differ: Methodological and Biological Implications
Divya Seth, Jonathan S. Stamler ........................................ 826

The Good and the Bad: Immune Cells and Hypertension
Meredith Hay ............................................................... 830

Hippo and Cardiac Hypertrophy: A Complex Interaction
Rebecca Windmueller, Edward E. Morrisey ......................... 832

New Methods in Cardiovascular Biology

★ Imaging Macrophage and Hematopoietic Progenitor Proliferation in Atherosclerosis

Molecular Medicine

★ Dual Labeling Biotin Switch Assay to Reduce Bias Derived From Different Cysteine Subpopulations: A Method to Maximize S-Nitrosylation Detection

★ Myeloid Suppressor Cells Accumulate and Regulate Blood Pressure in Hypertension
Kandarp H. Shah, Peng Shi, Jorge F. Giani, Tea Janjulia, Ellen A. Bernstein, You Li, Tuantuan Zhao, David G. Harrison, Kenneth E. Bernstein, Xiao Z. Shen ................................................................. 858

CIRCULATION RESEARCH (ISSN 0009-7330 print / 1524-4571 online) is published semimonthly for 24 total issues a year by Lippincott Williams & Wilkins at 16522 Hunters Green Parkway, Hagerstown, MD 21740. Business offices are located at Two Commerce Square, 2001 Market Street, Philadelphia, PA 19103. Production offices are located at 351 West Camden Street, Baltimore, MD 21201-2436. In the US, individuals may subscribe in print for their personal use at the following annual rates: $339 for members of any American Heart Association (AHA) scientific council or $717 for nonmembers. International: $399 for AHA members or $850 for nonmembers. Online-only and other additional rates can be found online at http://circres.ahajournals.org. AHA membership information can be found online at http://my.americanheart.org/membership. Periodicals postage paid at Hagerstown, MD, and additional mailing offices. POSTMASTER: Send address changes to Circulation Research, American Heart Association, Lippincott Williams & Wilkins, 16522 Hunters Green Parkway, Hagerstown, MD 21740.
MicroRNA-143 Activation Regulates Smooth Muscle and Endothelial Cell Crosstalk in Pulmonary Arterial Hypertension
Lin Deng, Francisco J. Blanco, Hannah Stevens, Ruifang Lu, Axelle Caudrillier, Martin McBride, John D. McClure, Jenny Grant, Matthew Thomas, Maria Frid, Kurt Stenmark, Kevin White, Anita G. Seto, Nicholas W. Morrell, Angela C. Bradshaw, Margaret R. MacLean, Andrew H. Baker ................. 870

**Cellular Biology**

Identification and Characterization of Hypoxia-Regulated Endothelial Circular RNA

**Integrative Physiology**

★ miR-206 Mediates YAP-Induced Cardiac Hypertrophy and Survival
Yanfei Yang, Dominic P. Del Re, Noritsugu Nakano, Sebastiano Sciarretta, Peiyong Zhai, Jiyeon Park, Danish Sayed, Akihiro Shirakabe, Shoji Matsumata, Yongkyu Park, Bin Tian, Maha Abdellatif, Junichi Sadoshima ................. 891

In September 2015, the average time from submission to first decision for all original research papers submitted to Circulation Research was 12.75 days.

On the Cover: Image shows bone marrow 18F-FLT uptake in a PET/CT scan obtained in a patient. See related article, page 835.
