In the *Circulation Research* article by Liu et al (Thrombospondin-1 (TSP1) Contributes to the Development of Vascular Inflammation by Regulating Monocytic Cell Motility in Mouse Models of Abdominal Aortic Aneurysm. *Circ Res*. 2015;117:129–141), the authors recently discovered two minor errors that should be corrected as follows:

In the Results section: “...the level of *Thbs1* mRNA in the aortic wall 3 days after surgery (Figure 1D),” the correct time should be “7 days after surgery” as stated in the figure legend.

In the Supplemental Methods section, under Mouse models of AAA: “((Final measurement-initial measurement)/Final measurement)*100” should be corrected to “((Final measurement-initial measurement)/Initial measurement)*100”.

The authors apologize for these errors, and they have been noted and corrected in the online version of the article, which is available at http://circres.ahajournals.org/content/117/2/129.full
