CIRCULATION RESEARCH (ISSN 0009-7330 print / 1524-4571 online) is published semimonthly for 24 total issues a year by Wolters Kluwer Health, Inc. at 14700 Citicorp Drive, Bldg 3, Hagerstown, MD 21742. Business offices are located at Two Commerce Square, 2001 Market Street, Philadelphia, PA 19103. Production offices are located at 351 West Camden Street, Baltimore, MD 21201-2436. Individuals may subscribe for their personal use at the following rates for print subscriptions: $225 for AHA/ASA Domestic and International Members (excluding General Membership level), or $790 for domestic non-members and $937 for international non-members. AHA membership information can be found online at professional.heart.org. Periodicals postage paid at Hagerstown, MD, and additional mailing offices. POSTMASTER: Send address changes to Circulation Research, American Heart Association, Wolters Kluwer Health, Inc., PO Box 1610, Hagerstown, MD 21740.
Cellular Biology

★ P2Y1 Nucleotide Receptor Prompts Human Cardiac Progenitor Cell Activation by Modulating Hippo Signaling
Farid G. Khalafalla, Steven Greene, Hashim Khan, Kelli Ilves, Megan M. Monsanto, Roberto Alvarez Jr, Monica Chavarria, Jonathan Nguyen, Benjamin Norman, Walter P. Dembisky, Mark A. Sussman ........................................... 1224

★ Cell Type-Specific Chromatin Signatures Underline Regulatory DNA Elements in Human Induced Pluripotent Stem Cells and Somatic Cells
Ming-Tao Zhao, Ning-Yi Shao, Shijun Hu, Ling Ma, Rajini Srinivasan, Fereshteh Jahanbani, Jaecheol Lee, Sophia L. Zhang, Michael P. Snyder, Joseph C. Wu ......................................................... 1237

Integrative Physiology

★ Cortical Bone Stem Cell Therapy Preserves Cardiac Structure and Function After Myocardial Infarction

Clinical Track

★ Dose Comparison Study of Allogeneic Mesenchymal Stem Cells in Patients With Ischemic Cardiomyopathy (The TRIDENT Study)

Corrections

Correction to: Association of Serum Retinoic Acid With Risk of Mortality in Patients With Coronary Artery Disease ................................................................. e84

Correction to: Association of Plasma 7-Ketocholesterol With Cardiovascular Outcomes and Total Mortality in Patients With Coronary Artery Disease ................................................................. e85

In September 2017, the average time from submission to first decision for all original research papers submitted to Circulation Research was 13 days.

On the Cover: A representative image demonstrating that human mesenchymal stem cells reduce scar size in patients with ischemic cardiomyopathy. See related article, page 1279.
