CIRCULATION RESEARCH (ISSN 0009-7330 print / 1524-4571 online) is published semimonthly for 24 total issues a year by Wolters Kluwer Health, Inc. at 14700 Citicorp Drive, Bldg 3, Hagerstown, MD 21742. Business offices are located at Two Commerce Square, 2001 Market Street, Philadelphia, PA 19103. Production offices are located at 351 West Camden Street, Baltimore, MD 21201–2436. Individuals may subscribe for their personal use at the following rates for print subscriptions: $225 for AHA/ASA Domestic and International Members (excluding General Membership level), or $790 for domestic non-members and $937 for international non-members. AHA membership information can be found online at professional.heart.org. Periodicals postage paid at Hagerstown, MD, and additional mailing offices. POSTMASTER: Send address changes to Circulation Research, American Heart Association, Wolters Kluwer Health, Inc., PO Box 1610, Hagerstown, MD 21740.
Molecular Medicine

★ Exploring the Causal Pathway From Telomere Length to Coronary Heart Disease: A Network Mendelian Randomization Study
Yiqiang Zhan, Ida K. Karlsson, Robert Karlsson, Annika Tillander, Chandra A. Reynolds, Nancy L. Pedersen, Sara Hägg 214

★ Dynamin-Related Protein 1 Inhibition Attenuates Cardiovascular Calcification in the Presence of Oxidative Stress
Maximillian A. Rogers, Natalia Maldonado, Joshua D. Hutcheson, Claudia Goetsch, Shinji Goto, Iwao Yamada, Tyler Faits, Hiromi Sesaki, Masanori Aikawa, Elena Aikawa 220

★ The Dendritic Cell Receptor DNGR-1 Promotes the Development of Atherosclerosis in Mice

Anti-Inflammatory Effects of OxPAPC Involve Endothelial Cell–Mediated Generation of LXA4
Yunbo Ke, Noureddine Zebda, Olga Oskolkova, Taras Afonyushkin, Evgeny Berdyshev, Yufeng Tian, Fanyong Meng, Nicolene Sarich, Valery N. Bochkov, Ji Ming Wang, Anna A. Birukova, Konstantin G. Birukov 244

Integrative Physiology

★ Brain Perivascular Macrophages Initiate the Neurovascular Dysfunction of Alzheimer Aβ Peptides
Laibaik Park, Ken Uekawa, Lidia Garcia-Bonilla, Kenzo Koizumi, Michelle Murphy, Rose Pistik, Linda Younkin, Steven Younkin, Ping Zhou, George Carlson, Josef Anrather, Costantino Iadecola 258

X-Box Binding Protein-1 Dependent Plasma Cell Responses Limit the Development of Atherosclerosis
Andrew P. Sage, Meritxell Nus, Jayashree Bagchi Chakraborty, Dimitrios Tsiantoulas, Stephen A. Newland, Alison J. Finigan, Leanne Masters, Christoph J. Binder, Ziad Mallat 270

Reviews

PI3K and Calcium Signaling in Cardiovascular Disease
Alessandra Ghigo, Muriel Laffargue, Mingchuan Li, Emilio Hirsch 282

Multimodal Regulation of Cardiac Myocyte Proliferation
Xuejun Yuan, Thomas Braun 293
AHA Scientific Statement

Fundamental Cardiovascular Research: Returns on Societal Investment:
A Scientific Statement From the American Heart Association

On the Cover: Confocal microscopy image illustrating dextran-positive perivascular
macrophages (green) juxtaposed to penetrating neocortical arterioles labeled by transcardiac
perfusion with the lipophilic dye DiO (red). The neocortical surface is at the top of the
picture. See related article, page 258.

In May 2017, the average time from submission to first decision for all original
research papers submitted to Circulation Research was 12.28 days.
