Acetylcholine
autoregulation and vascular responsiveness, 599
serial studies in acute respiratory failure, 51
Acetylcholinesterase (ACHE)
localization at a cholinergic vasodilator nerve-
arterial smooth muscle synapse, 61
Acetylstrophanthidin
effect of contractility on left ventricular response to
vagus nerve stimulation in dogs, 303
Acid phosphatase
lysosomal enzymes in myocardial infarction, 851
Acidemia
preservation of ventricular function by adrenergic
influences during metabolic acidosis in the
cat, 373
Actin
binding characteristics of myosin and, 657
Action potentials
development in prenatal rat heart, 19
electrophysiological actions of lidocaine on canine
ventricular muscle and Purkinje fibers, 639
halothane and cardiac fibers, 745
influence of glucose on action potential of guinea-
pig papillary muscle, 939
inotropic effects of electric currents, 409
interaction of transmembrane potentials in canine
Purkinje fibers and at Purkinje fiber-muscle
junctions, 361
Activation wave front
electrical potential distribution, 857
Adenosine
autoregulation and vascular responsiveness, 599
Adenosine triphosphate (ATP)
effect on binding characteristics of myosin and
actin, 657
effect on metabolic state of the excised hypothermic
dog heart, 617
energy utilization in heart failure, 313
glucose and action potential of cardiac muscle,
939
Adrenal cortex
aldosterone secretion during hemorrhage, 893
Adrenal cortical steroids
hydrocortisone potentiation, 383
Adrenergic-cholinergic interaction
effect of contractility on left ventricular response to
vagus nerve stimulation in dogs, 303
Adrenergic influences
preservation of ventricular function during metabol-
ic acidosis in the cat, 373
Adrenergic nerves
norepinephrine in failing bovine heart, 71
Aldosterone
biphasic stimulation of aldosterone secretion during
hemorrhage in dogs, 893
Alloxan
pulmonary blood flow distribution in edema, 807
sodium recovery in pulmonary edema, 815
Amines
hydrocortisone potentiation, 383
sympathomimetic
glucose and action potential of cardiac muscle,
939
Aminophylline
effect of contractility on left ventricular response to
vagus nerve stimulation in dogs, 303
Anatomy
anatomical and ultrastructural study of the electro-
physiological A-V node of the rabbit, 457
Anesthesia
halothane, neural integration in arterial hypoxia,
757
Angiotensin
autoregulation and vascular responsiveness, 599
reflex regulation of arterial pressure during sleep,
109
Animals
calves
norepinephrine in failing heart, 71
cats
force velocity relationship, studied by isotonic
and quick-release techniques, 821
hemodynamic patterns during sleep, 923
preservation of ventricular function by adrenergic
influences during metabolic acidosis, 373
sympathetic ganglia and the defense reaction,
843
utilization of high-energy phosphates in experimen-
tal heart failure, 313
dogs
aldosterone secretion during hemorrhage, 893
antiarrhythmic agents, 835
bilateral carotid sinus control of ventricle, 321
binding characteristics of myosin and actin,
657
cardiovascular performance of Alaska sled dogs
during exercise, 33
cutaneous venoconstrictor response to local cool-
ing in the dog, 607
effect of ATP on excised hypothermic heart,
617
effect of left ventricular contractility response to
vagus nerve stimulation, 303
effects of hyperthermia and pronethalol on ionic
correlates of ouabain arrhythmias, 43
electric symmetry of arterial segments, 1
electrical potential distribution, 857
electrophysiological actions of lidocaine on
ventricular muscle and Purkinje fibers, 639
hemodynamics of neurogenic hypertension, 911
influence of sympathetic nerve stimulation on
right ventricular pressure, 397
interaction of transmembrane potentials in canine
Purkinje fibers and at Purkinje fiber-muscle
junctions, 361
lactones and calcium metabolism, 793
left ventricular fiber angle, 339
luminal coronary collateral circulation, 735
lysosomal enzymes in myocardial infarction,
851
mechanical stress and intimal change, 93
INDEX

myocardial oxygen consumption and, 725
Myocardial blood flow distribution in edema, 815
relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex, 447
right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705
sodium recovery in pulmonary edema, 815
sympathetic control of femoral artery, 349
vasopressin-induced bradycardia, 787

Guinea pig
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
influence of glucose on action potential of papillary muscle, 939

Monkeys
endotoxin-induced regional circulatory changes in unanesthetized monkey, 777

Rabbits
anatomical and ultrastructural study of the electrophysiological A-V node, 457
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
binding characteristics of myosin and actin, 657
effect of ouabain on energy output of cardiac muscle, 951
halothane and cardiac fibers, 745
hydrocortisone potentiation, 383
neural integration in arterial hypoxia, 757

Rats
calcium exchange in rat cardiac cells, 589
development of action potential of the rat heart, 19
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
multigenic origin of membranous septal defects, 629
norepinephrine in hypertension, 85

Sheep
halothane and cardiac fibers, 745

Toads
healing-over of myocardial cells, 475

Anoxia
glucose and action potential of cardiac muscle, 939

Antiarrhythmic agents
qualitative distinction between beta-receptor-blocking and local anesthetic actions, 835

Aorta
elastic symmetry of arterial segments, 1
experimental constriction
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
hydrocortisone potentiation of responses to epinephrine and norepinephrine, 383
thoracic histologica and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93

Arrhythmias
antiarrhythmic agents, 835
effects of halothane on single atrial, ventricular, and Purkinje fibers, 745
effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639

Arteries
elastic symmetry of arterial segments in dogs, 1
femoral, sympathetic control of, 349
hypoxia
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
neural integration in, 757
pressure, reflex regulation during sleep, 109
uterine, acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
walls
incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123

Arterioluminal and arteriosinusoidal vessels
luminal coronary collateral circulation, 735

Atheroma
incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123

Atherosclerosis
histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93

ATP. See Adenosine triphosphate
ATPase activity
effect of cardiotonic lactones on calcium metabolism of dog cardiac microsomes, 793

Atria
effects of halothane on fibers, 745
electrical potential distribution surrounding atria during depolarization and repolarization in the dog, 857

Atrial artery
left anterior luminal coronary collateral circulation, 735

Atrioventricular conduction
anatomical and ultrastructural study of the electrophysiological A-V node of the rabbit, 457
carotid sinus reflex, 447

Atropine
sympathetic ganglia and the defense reaction in the cat, 843

Autonomic nervous system. See Nervous system, autonomic

Autonomic transmission
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
during severe arterial hypoxia in the unanesthetized rabbit, 671

Autoregulation
and vascular responsiveness in dogs, 599

Baroreceptor reflexes
bilateral carotid sinus control of ventricular performance in the dog, 381
hemodynamics of sleep, 923
reflex regulation of arterial pressure during sleep, 109

Baroreceptors
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
neural integration in arterial hypoxia, 757

Beta-receptor blockade
preservation of ventricular function by adrenergic influences during metabolic acidosis in the cat, 373

Circulation Research, Vol. XXIV, June 1969
Beta-receptor stimulation
dopamine and coronary hemodynamics, 699
qualitative distinction between the beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835

Binding
norepinephrine in hypertensive rat, 85

Biochemistry
correlates of cardiac hypertrophy, increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
energy utilization in heart failure, 313

Blood flow
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
cardiovascular performance of Alaska sled dogs during exercise, 33
to cutaneous and muscular beds of forearm at rest and during leg exercise in normal subjects and in congestive heart failure, 799
effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
endotoxin effects on regional circulation, 777
myocardial oxygen metabolism and myocardial blood flow in dogs in hemorrhagic shock, 901
placental
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
pulmonary distribution in lung edema, 807
right ventricular pressure differences, 397
renal
autoregulation and vascular responsiveness, 599

Blood pressure
arterial
aldosterone secretion during hemorrhage, 893
hemodynamics of sleep, 923
bilateral carotid sinus control of ventricle, 321
cardiovascular performance of Alaska sled dogs during exercise, 33
derived from aortic and coronary hemodynamic changes in unanesthetized monkey, 777
fiber orientation in canine left ventricle during diastole and systole, 339
oxygen and myocaridal blood flow in shock, 901
vasopressin-induced bradycardia, 787

Blood vessels
erythrocyte velocity and velocity pulse in minute blood vessels on surface of the mouse brain, 887
pulmonary blood flow distribution in edema, 807

Blood volume
aldosterone secretion during hemorrhage, 893
circulatory responses to heating and cooling, 711
hemodynamics of neurogenic hypertension, 911

Books Received
487

Bradycardia
mechanism of vasopressin-induced bradycardia in dogs, 787

Brain
dopamine and coronary hemodynamics, 699
energ>' utilization in heart failure, 313
endotoxin effects on regional circulation, 777

Bronchitis
serial studies in acute respiratory failure, 51

Buffer nerve section
hemodynamics of neurogenic hypertension, 911

Calcium
effect of cardiac function on calcium metabolism of dog cardiac microsomes, 793

Cardiac output
circulatory responses to heating and cooling, 711
derived from aortic and coronary hemodynamic changes in unanesthetized monkey, 777
hemodynamics of sleep, 923
vasopressin-induced bradycardia, 787

Cardioinhibitory center
bilateral control of ventricular performance in the dog, 321
relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex in dogs, 447
vasopressin-induced bradycardia, 787

Catechol-O-methyl transferase
hydrocortisone potentiation, 383

Catecholamines
 dopamine and coronary hemodynamics, 699
hydrocortisone potentiation, 383
norepinephrine in hypertensive rat, 85

Cells
calcium exchange in, studied by direct counting of cellular activity of labeled calcium, 589
cholinergic, norepinephrine in failing bovine heart, 71
effect of exogenous adenosine triphosphate on metabolism of hypothermic dog heart, 617
endothelial, mechanical stress and intimal change, 93
intimal
incorporation of oleic acid into lipid by foam cells in human atherosclerotic lesions, 123
lysosomal enzymes in myocardial infarction, 851
red cells
effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
velocity in cerebral microcirculation, 887

Chemistry
histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93

Chemoreceptors
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 971
hemodynamics of sleep, 923
neural integration in arterial hypoxia, 757

Chlorothiazide
renin excretion, 689

Cholesterol incorportation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123

INDEX

E

Edema
  pulmonary
  blood flow distribution in, 807
  sodium recovery from normal and edematous lungs studied by indicator dilution curves, 815

EDTA
  healing-over of myocardial cells of toads, 475

Effective refractory period
  electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639

Elastic properties
  elastic symmetry of arterial segments in dogs, 1

Electric currents
  inotropic effects of, 409

Electrical potential distribution
  surrounding atria during depolarization and repolarization in the dog, 857

Electrical stimulation
  electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
  relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex in dogs, 447

Electroencephalograms
  hemodynamics of neurogenic hypertension, 911

Electrograms
  atrial, electrical potential distribution, 857

Electromagnetic flowmeters
  effect of hematocrit value upon sensitivity of, 875
  hemodynamics of neurogenic hypertension, 911

Electron microscope
  anatomical and ultrastructural study of the electrophysiological A-V node of the rabbit, 457
  healing-over of myocardial cells of toads, 475

Electroencephalograms
  sympathetic ganglia and the defense reaction in the cat, 943

Electrophysiology
  A-V node of the rabbit, 457
  development of action potential of the prenatal rat heart, 19
  electrical potential distribution surrounding atria during depolarization and repolarization in the dog, 857

Electrotonus in heart
  interaction of transmembrane potentials in Purkinje fibers and at Purkinje fiber-muscle junctions, 361

Embryonic heart
  development of action potential of the prenatal rat heart, 19

Emphysema
  serial studies in acute respiratory failure, 51

Endothelial cells
  mechanical stress and intimal change, 93

Endotoxin
  effects on regional circulatory changes in unanesthetized monkey, 777

Energy output
  effect of ouabain on energy output of rabbit cardiac muscle, 951
  mechanism of cardiac muscle, utilization of high-energy phosphates in experimental heart failure in cats, 313

Enzymes
  lysosomal, in myocardial infarction, 851

Epinephrine
  electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
  hydrocortisone potentiation of responses to norepinephrine and, in rabbit aorta, 383

Circulation Research, Vol. XXIV, June 1969

skin and muscle blood flow with exercise, 799

Erythrocytes
  velocity and velocity pulse in minute blood vessels on surface of the mouse brain, 887

Evans blue dye
  histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93

Excitation
  antiarrhythmic agents, 835
  electrical potential distribution surrounding atria during depolarization and repolarization, 857

Exercise
  cardiovascular performance of Alaska sled dogs, 33
  circulatory responses to heating and cooling, 711
  partition of blood flow to cutaneous and muscular beds of forearm at rest and during leg exercise in normal subjects and in congestive heart failure, 790

Extrasystolic potentiation
  inotropic effects of electric currents, 409

Extremities
  skin and muscle blood flow with exercise, 799

F

Family studies
  multigenic origin of membranous septal defects, 629

Fatty acids
  histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93
  incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123

Femoral artery
  range of sympathetic control of the, in the dog, 349

Fibers
  effects of halothane on single atrial, ventricular and Purkinje fibers, 745
  interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361
  orientation in canine left ventricle during diastole and systole, 399
  ventricular, inotropic effects of electric currents, 409

Flowmeters, electromagnetic
  effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
  hemodynamics of neurogenic hypertension, 911

Fluorescence microscopy
  norepinephrine in failing bovine heart, 71

Force-velocity relationship
  cat cardiac muscle, studied by isotonic and quick-release techniques, 821

Forearm
  skin and muscle blood flow with exercise, 799

Freezing, ultrarapid
  pulmonary blood flow distribution in edema, 807

Frequency-response curve
  sympathetic control of the dog femoral artery, 349

G

Ganglion cells
  sympathetic ganglia and defense reaction in the cat, 843

Gastrointestinal tract
  endotoxin effects on regional circulation, 777

H

Genetics
multigenic origin of membranous septal defects, 629
Glass scintillator
calcium exchange in rat cardiac cells, 589
Glucose
influence on transmembrane action potential of guinea-pig papillary muscle, 939
\[ \beta \]
Glucuronidase
lysosomal enzymes in myocardial infarction, 851
\[ \gamma \]
Glutamyl-transpeptidase
lysosomal enzymes in myocardial infarction, 851
Glycogenolysis
effect of exogenous ATP on heart metabolism, 617
Glycolysis
glucose and action potential of cardiac muscle, 939
Glycodies
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
effect of ouabain on energy output of rabbit cardiac muscle, 951
Growth and differentiation
development of action potential of the prenatal rat heart, 19
Halothane
central nervous integration of the circulatory and respiratory responses to arterial hypoxia in the rabbit, 757
effects on single atrial, ventricular, and Purkinje fibers, 745
Healing-over
of myocardial cells of toads, 475
Heart failure
congestive. See Congestive heart failure
energy utilization in, 313
norepinephrine in failing bovine heart, 71
Heart rate
circulatory responses to heating and cooling, 711
myocardial oxygen consumption and, 725
reflex regulation of arterial pressure during sleep, 109
vasopressin-induced bradycardia, 787
Heart weight
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
Heat dissipation
skin and muscle blood flow with exercise, 799
Heat-tension relationship
effect of ouabain on energy output of cardiac muscle, 951
Hemotocrit
effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
Hemodynamics
coronary, effect of dopamine on, 699
endotoxin effects on the regional circulation, 777
of neurogenic hypertension, 911
patterns during desynchronized sleep in cats, 923
Hemorrhage disorders
adrenosterone secretion during, 893
myocardial oxygen metabolism and myocardial blood flow in dogs in hemorrhagic shock, 901
Heredity
multigenic origin of membranous septal defects, 629
Hexamethonium
sympathetic ganglia and the defense reaction in the cat, 843
Hill's equation
force-velocity relationship of cat cardiac muscle, studied by isotonic and quick-release techniques, 821
Histochromy
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
fluorescent, norepinephrine in failing bovine heart, 71
Histology
chemical and histological responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93
Hydrcortisone
tentiation of responses of epinephrine and norepinephrine in rabbit aorta, 383
3-Hydroxytyramine
dopamine and coronary hemodynamics, 699
5-Hydroxytryptamine
cutaneous vasoconstrictor response to local cooling in the dog, 607
Hyperxia
myocardial oxygen metabolism and myocardial blood flow in dogs in hemorrhagic shock, 901
Hypertension
arterial, hemodynamics of neurogenic hypertension, 911
hemodynamics of neurogenic, 911

INDEX

Inotropic stimuli
- effect on contractility on left ventricular response to vagus nerve stimulation in dogs, 303

Inotropism
dopamine and coronary hemodynamics, 699

Intercalated disks
healing-over of myocardial cells of toads, 475

Intercellular junctions
healing-over of myocardial cells of toads, 475

Intimal tissues
- histological and chemical responses of vascular interface to acute induced mechanical stress in aorta of dog, 93

Intraneuronal demineralization
norepinephrine in hypertensive rat, 85

Isometric studies
- effect of ouabain on energy output of cardiac muscle, 951

Isotonic studies
- effect of ouabain on energy output of cardiac muscle, 951

Isotope labeling
sodium recovery in pulmonary edema, 815

Isovolumetric preparation
carotid sinus control of ventricular performance in the dog, 321

K

Kidneys
- autoregulation and vascular responsiveness, 599
- endotoxin effects on regional circulation, 777

L

Lactones
- effect on calcium metabolism, 793

Left ventricles
- contractility, response to vagus nerve stimulation in dogs, 303
- fiber angle during diastole and systole, 339
- isovolumic contractions
- myocardial oxygen consumption and heart rate, 725
- wall structure
- fiber orientation during diastole and systole, 339

Leg exercise
- skin and muscle blood flow with exercise, 799

Length-force curve
- force-velocity relationship of cat cardiac muscle, 821

Lesions
- atherosclerotic, incorporation of oleic acid into lipid by foam cells in, 123

Lidocaine
- antiarrhythmic agents, 835
- electrophysiological actions on canine ventricular muscle and Purkinje fibers, 639

Light scattering
- binding characteristics of myosin and F-actin from dog hearts, 657

Lipids
- incorporation of oleic acid by foam cells in atherosclerotic lesions, 123

Lumen, cardiac
- luminal coronary collateral circulation, 735

Lungs
- neural integration in arterial hypoxia, 757
- pulmonary blood flow distribution in edema, 807
- sodium recovery from normal and edematous lungs studied by indicator dilution curves, 815

Circulation Research, Vol. XXIV, June 1969
preservation of ventricular function by adrenergic influences during metabolic acidosis in the cat, 373

force-velocity relationship, studied by isotonic and quick-release techniques, 821

infarction. See Myocardial infarction innervation

norepinephrine in failing bovine heart, 71

nucleotides, increased rate of RNA synthesis in experimental cardiac hypertrophy, 9

oxygen consumption

effect of dopamine, 609

heart rate in dogs and, 725

oxygen metabolism and blood flow in dogs in hemorrhage shock, 901.

Myosin

binding characteristics of actin and, 657

Myothermic techniques

effect of ouabain on energy output of cardiac muscle, 951

N

Nerves

left ventricular contractility response to vagus nerve stimulation in dogs, 303

localization of acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61

Nervous system

autonomic

carotid sinus control of ventricle, 321

effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303

effects during severe arterial hypoxia in unanesthetized rabbit, 671

preservation of ventricular function by adrenergic influences during metabolic acidosis in the cat, 373

central

integration of the circulatory and respiratory responses to arterial hypoxia in the rabbit, 757

sympathectomy, cutaneous venoconstrictor response to local cooling in the dog, 607

sympathetic

endotoxin effects on regional circulation 777

influence of stimulation on right ventricular outflow-tract pressures in dogs, 307

range of sympathetic control of the dog femoral artery, 349

relative roles of sympathetic and parasympathetic, in carotid sinus reflexes in dogs, 447

Norepinephrine

autoregulation and vascular responsiveness, 599

cutaneous venoconstrictor response to local cooling in the dog, 607

in the failing bovine heart, 71

hydrocortisone potentiation of responses to epinephrine and, in rabbit aorta, 383

in hypertensive rat, 85

Nucleotides

myocardial, increased rate of RNA synthesis in experimental cardiac hypertrophy, 9

O

Occlusions

pulmonary arteries, right ventricular pressure differences, 397

Oil immersion technique

hydrocortisone potentiation, 383

Oleic acid

incorporation into lipid by foam cells in human atherosclerotic lesions, 123

Orthotopic elastic properties

elastic symmetry of arterial segments in dogs, 1

Ouabain

effect on energy output of rabbit cardiac muscle, 951

effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43

glucose and action potential of cardiac muscle, 939

Oxygen

myocardial oxygen consumption

effect of dopamine, 699

oxygen metabolism and blood flow in dogs in hemorrhagic shock, 901.

serial studies in acute respiratory failure, 51

Pacing and pacemakers

development of action potential of the prenatal rat heart, 19

paired pacing, effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 503

Papillary muscles

effect of ouabain on energy output of, 951

force-velocity relationship, studied by isotonic and quick-release techniques, 821

glucose and action potential of cardiac muscle, 939

interaction of transmembrane potentials in Purkinje fibers and at Purkinje fiber-muscle junctions, 361

utilization of high-energy phosphates in experimental heart failure in cats, 513

Perfusion pressure

autoregulation and vascular responsiveness, 599

Peripheral circulation

autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671

Peripheral vascular resistance

circulatory responses to heating and cooling, 711

endotoxin effects on regional circulation, 777

hemodynamics of neurogenic hypertension, 911

Phenoxybenzamine

sympathetic ganglia and the defense reaction in the cat, 843

Phosphates

utilization of high-energy phosphates in experimental heart failure in cats, 313

Phospholipids

incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123

Physiology

calcium exchange in rat cardiac cells, 589

Plasma

effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875

Postsynaptic potential

sympathetic ganglionic transmission and the cardiovascular changes of the defense reaction in the cat, 843

Potassium

effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43

Potential distribution

surrounding atria during depolarization and repolarization in the dog, 857

Potentiation

poststimulation, inotropic effects of electric currents, 409

Circulation Research, Vol. XXIV, June 1969
Pregnancy
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61

Pressure
arterial reflex regulation during sleep, 109
serial studies in acute respiratory failure, 51
perfusion autoregulation and pressure dependency or renal vascular responsiveness in dogs, 599
right ventricular pressure differences, 397
venous, circulatory responses to heating and cooling, 711

Pronethalol
effects of hypothermia and, on ionic correlates of ouabain arrhythmias in dogs, 43

Propranolol
antiarrhythmic agents, 835

Protein
excretion, observations on origin of renin in urine, 689

Pulmonary artery
arterial pressure serial studies in acute respiratory failure, 51
banding canine right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705
occlusion right ventricular pressure differences, 397
Pulsatile flow
erthrocyte velocity and a velocity pulse in minute blood vessels on the surface of the mouse brain, 887
Pulse
erthrocyte velocity and velocity pulse in minute blood vessels on surface of mouse brain, 887
reflex regulation of arterial pressure during sleep, 109

Purkinje fibers
effects of halothane on, 745
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361

Quinidine
antiarrhythmic agents, 835

Radioactivity
calcium exchange in rat cardiac cells, 589
endotoxin effects on regional circulation, 777

Radioautography
incorporation of oleic acid into lipid by foam cells in atheroerotic lesions, 123

Radiotelemetry
cardiovascular performance of Alaska sled dogs during exercise, 33

Reflexes
carotid sinus, 447

Reflex sensitivity
regulation of arterial pressure during sleep, 109

Refractory period
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
halothane and cardiac fibers, 745

Renin
observations on excretion into urine, 689

S
Salt
norepinephrine in hypertensive rat, 85

Saphenous veins
cutaneous vasoconstrictor response to local cooling in the dog, 607

Sarcomere lengths
canine right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705

Sarcoplasmic reticulum
effect of cardiotonic lactones on calcium metabolism of dog cardiac microsomes, 783
qualitative distinction between the beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835

Septal artery
luminal coronary collateral circulation, 735

Septal defects
membranous, multigenic origin, 629

Shearing strains
elastic symmetry of arterial segments, 1
fiber orientation in canine left ventricle during diastole and systole, 339

Shearing stress
mechanical stress and intimal change in aorta of the dog, 93

Shock
aldosterone secretion during hemorrhage, 893
myocardial oxygen metabolism and blood flow in dogs in hemorrhagic shock, 901

Sinoaortic deafferentation
hemodynamics of sleep, 923

Sinus rate
relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex in dogs, 447

Skeletal muscles
sympathetic ganglia and the defense reaction in the cat, 843

Skin
circulatory responses to rapid changes during exercise, 711
and muscle blood flow with exercise, 799

Sleep
hemodynamic patterns during desynchronized sleep and sinoaortic deafferentation, 923
hemodynamics of neurogenic hypertension, 911
reflex regulation of arterial pressure during, 109

Smooth muscles
cutaneous vasoconstrictor response to local cooling in the dog, 607
INDEX

[Smooth muscles—Vasodilation]

Thalamic preparations
neural integration in arterial hypoxia, 757

Tissues
cultures, calcium exchange in rat cardiac cells, 589
effect of exogenous ATP on metabolism of excised hypothemic dog heart, 617
lysosomal enzymes in myocardial infarction, 851

Total peripheral, resistance
hemodynamics of sleep, 923

Transmembrane action potentials
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 659
interaction in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361

Tyramine hydrochloride
cutaneous vasoconstrictor response to local cooling in the dog, 607

U

Ultracentrifugation
binding characteristics of myosin and F-actin from dog hearts, 657

Ultrarapid freezing
pulmonary blood flow distribution in edema, 807

Ultrastрукture
anatomical and ultrastructural study of the electrophysiological A-V node of the rabbit, 457

Uridine nucleotide pool
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9

Urine
renin excretion, 689

Uterine artery
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61

V

Vagosympathetic stimulation
right ventricular pressure differences, 397

Vagotomy
carotid sinus reflex, 447

Vagus nerves
effect of enhanced contractility on left ventricular response to vagus nerve stimulation in dogs, 303
reflex regulation of arterial pressure during sleep, 109
vasopressin-induced bradycardia, 787

Vascular interface
response to acutely induced mechanical stress in aorta of dog, 93

Vascular morphology
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61

Vascular reactivity
norepinephrine in hypertensive rat, 85

Vascular resistance
autoregulation and vascular responsiveness, 599

Vascular responsiveness
autoregulation and pressure dependency in renal vascular responsiveness, 599

Vascu'l r smooth muscle
syn...thetic control of the dog femoral artery, 349

Vasoactive agents
autoregulation and vascular responsiveness, 599

Vasoconstriction
skin and muscle blood flow with exercise, 799

Vasodilation
after stimulation, sympathetic control of the dog femoral artery, 349

Circulation Research, Vol. XXIV, June 1969
effect of dopamine on coronary hemodynamics, 699
sympathetic ganglia and the defense reaction in the
cat, 843
Vasodilators
endotoxin-induced regional circulatory changes in
unanesthetized monkey, 777
Vasomotor innervation
acetylcholinesterase at a cholinergic vasodilator
nerve-arterial smooth muscle synapse, 61
Vasopressin
induced bradycardia in dogs, 787
Veins
anterior cardiac
luminal coronary collateral circulation, 735
cutaneous venoconstrictor response to local cooling
in the dog, 607
Velocity
erthrocyte velocity and velocity pulse in minute
blood vessels on surface of the mouse brain,
887
Venous return
hemodynamics of sleep, 923
Ventricles
bilateral carotid sinus control of ventricular per-
formance in the dog, 321
canine right and left ventricular cell and sarcomere
lengths after banding the pulmonary artery,
705
contractility, response to vagus nerve stimulation in
dogs, 303
effects of halothane on fibers, 745
electrophysiological actions of lidocaine on canine
ventricular muscle and Purkinje fibers, 639
fibers, inotropic effects of electric currents, 409
function
preservation by adrenergic influences during
metabolic acidosis in cats, 373
influence of sympathetic nerve stimulation on right
ventricular outflow-tract pressures in dogs,
397
left. See Left ventricles
vasopressin-induced bradycardia, 787
Ventricular septal defects
multigenic origin of membranous septal defects,
629
W
Wall stress
myocardial, oxygen consumption, and heart rate,
725
Water
sodium recovery from normal and edematous lungs
studied by indicator dilution curves, 815
X
Xenon
oxygen and myocardial blood flow in shock, 901
pulmonary blood flow distribution in edema, 807
