### Circulation Research

**SUBJECT INDEX**

**VOLUME XXIV JANUARY-JUNE, 1969**

| A | Acetylcholine autoregulation and vascular responsiveness, 599  
|   | serial studies in acute respiratory failure, 51  
|   | Acetylcholinesterase (AChE) localization at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61  
|   | Acetylstrophanthidin effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303  
|   | Acid phosphatase lysosomal enzymes in myocardial infarction, 851  
|   | Acidemia preservation of ventricular function by adrenergic influences during metabolic acidosis in the cat, 373  
|   | Actin binding characteristics of myosin and, 657  
|   | Action potentials development in prenatal rat heart, 19  
|   | electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639  
|   | halothane and cardiac fibers, 745  
|   | influence of glucose on action potential of guinea-pig papillary muscle, 939  
|   | inotropic effects of electric currents, 409  
|   | interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361  
|   | Activation wave front electrical potential distribution, 857  
|   | Adenosine autoregulation and vascular responsiveness, 599  
|   | Adenosine triphosphate (ATP) effect on binding characteristics of myosin and actin, 657  
|   | effect on metabolic state of the excised hypothermic dog heart, 817  
|   | energy utilization in heart failure, 313  
|   | glucose and action potential of cardiac muscle, 939  
|   | Adrenal cortex aldosterone secretion during hemorrhage, 893  
|   | Adrenal cortical steroids hydrocortisone potentiation, 383  
|   | Adrenergic-cholinergic interaction effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303  
|   | Adrenergic influences preservation of ventricular function during metabolic acidosis in the cat, 373  
|   | Adrenergic nerves norepinephrine in failing bovine heart, 71  
|   | Aldosterone biphasic stimulation of aldosterone secretion during hemorrhage in dogs, 893  
|   | Allophan pulmonary blood flow distribution in edema, 807  
|   | sodium recovery in pulmonary edema, 815  
|   | Amines hydrocortisone potentiation, 383  

| A | sympathomimetic glucose and action potential of cardiac muscle, 939  
| Aminophylline effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303  
|   | glucose and action potential of cardiac muscle, 939  
|   | Anatomy anatomical and ultrastructural study of the electrophysiological A-V node of the rabbit, 457  
|   | Anesthesia halothane, neural integration in arterial hypoxia, 757  
|   | Angiotensin autoregulation and vascular responsiveness, 599  
|   | reflex regulation of arterial pressure during sleep, 109  
|   | Animals calves norepinephrine in failing heart, 71  
|   | cats force velocity relationship, studied by isotonic and quick-release techniques, 821  
|   | hemodynamic patterns during sleep, 923  
|   | preservation of ventricular function by adrenergic influences during metabolic acidosis, 373  
|   | sympathetic ganglia and the defense reaction, 843  
|   | utilization of high-energy phosphates in experimental heart failure, 313  
|   | dogs aldosterone secretion during hemorrhage, 893  
|   | antiarrhythmic agents, 835  
|   | bilateral carotid sinus control of ventricle, 321  
|   | binding characteristics of myosin and actin, 657  
|   | cardiovascular performance of Alaska sled dogs during exercise, 33  
|   | cutaneous venoconstrictor response to local cooling in the dog, 607  
|   | effect of ATP on excised hypothermic heart, 617  
|   | effect of left ventricular contractility response to vagus nerve stimulation, 303  
|   | effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias, 43  
|   | elastic symetry of arterial segments, 1  
|   | electrical potential distribution, 857  
|   | electrophysiological actions of lidocaine on ventricular muscle and Purkinje fibers, 639  
|   | hemodynamics of neurogenic hypertension, 911  
|   | influence of sympathetic nerve stimulation on right ventricular pressure, 397  
|   | interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361  
|   | lactones and calcium metabolism, 793  
|   | left ventricular fiber angle, 339  
|   | luminal coronary collateral circulation, 735  
|   | lysosomal enzymes in myocardial infarction, 851  
|   | mechanical stress and intimal change, 93  

Circulation Research, Vol. XXIV, June 1969

975
myocardial oxygen consumption and, 725
oxygen and myocardial blood flow in hemor-
rhagic shock, 901
relative roles of sympathetic and parasympathetic
nervous systems in carotid sinus reflex, 447
right and left ventricular cell and sarcomere
lengths after banding the pulmonary artery,
705
sodium recovery in pulmonary edema, 815
sympathetic control of femoral artery, 349
vasopressin-induced bradycardia, 787
guinea pig
acetylcholinesterase at a cholinergic vasodilator
nerve-arterial smooth muscle synapse, 61
influence of glucose on action potential of
papillary muscle, 939
mice
red cell velocity in cerebral microcirculation,
887
monkeys
endothelin-induced regional circulatory changes in
unanesthetized monkey, 777
rabbits
anatomical and ultrastructural study of the
electrophysiological A-V node, 457
autonomic effects during severe arterial hypoxia
in unanesthetized rabbit, 671
binding characteristics of myosin and actin,
657
effect of ouabain on energy output of cardiac
muscle, 951
halothane and cardiac fibers, 745
hydrocortisone potentiation, 383
neural integration in arterial hypoxia, 757
rats
calcium exchange in rat cardiac cells, 589
development of action potential of the rat heart,
19
increased rate of RNA synthesis in experimental
cardiac hypertrophy, 9
multigenic origin of membranous septal defects,
629
norepinephrine in hypertension, 85
sheep
halothane and cardiac fibers, 745
toads
healing-over of myocardial cells, 475
Anoxia
glucose and action potential of cardiac muscle, 939
Antiarrhythmic agents
qualitative distinction between beta-receptor-block-
ing and local anesthetic actions, 635
Aorta
elastic symmetry of arterial segments, 1
experimental constriction
increased rate of RNA synthesis in experimental
cardiac hypertrophy, 9
hydrocortisone potentiation of responses to epineph-
rine and norepinephrine, 383
thoracic
histological and chemical responses of vascular
interface to acutely induced mechanical
stress in aorta of the dog, 93
Arteries
elastic symmetry of arterial segments in dogs, 1
hemodynamics of sleep, 923
reflex regulation of arterial pressure during sleep, 169
Arterioventricular conduction
anatomical and ultrastructural study of the electro-
physiological A-V node of the rabbit, 457
baroreceptor reflexes
bilateral carotid sinus control of ventricular
performance in the dog, 381
hemodynamics of sleep, 923
reflex regulation of arterial pressure during sleep, 169
Autonomic nervous system. See Nervous system, autonomic
Autonomic transmission
acetylcholinesterase at a cholinergic vasodilator
nerve-arterial smooth muscle synapse, 61
during severe arterial hypoxia in the unanesthetized
rabbit, 671
Autoregulation
and vascular responsiveness in dogs, 599

Baroreceptor reflexes
bilateral carotid sinus control of ventricular
performance in the dog, 381
hemodynamics of sleep, 923
reflex regulation of arterial pressure during sleep, 169
Baroreceptors
autonomic effects during severe arterial hypoxia in
unanesthetized rabbit, 671
neural integration in arterial hypoxia, 757
Beta-receptor blockade
preservation of ventricular function by adrenergic
influences during metabolic acidosis in the
cat, 573
INDEX 977

Beta-receptor stimulation
dopamine and coronary hemodynamics, 699 qualitative distinction between the beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835

Binding
norepinephrine in hypertensive rat, 85

Biochemistry
correlates of cardiac hypertrophy, increased rate of RNA synthesis in experimental cardiac hypertrophy, 9 energy utilization in heart failure, 313

Blood flow
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671 cardiovascular performance of Alaska sled dogs during exercise, 33 to cutaneous and muscular beds of forearm at rest and during leg exercise in normal subjects and in congestive heart failure, 799 effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875 endotoxin effects on regional circulation, 777 myocardial oxygen metabolism and myocardial blood flow in dogs in hemorrhagic shock, 901 placental acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61 pulmonary distribution in lung edema, 807 right ventricular pressure differences, 397 renal autoregulation and vascular responsiveness, 599

Blood pressure
arterial aldosterone secretion during hemorrhage, 893 hemodynamics of sleep, 923 bilateral carotid sinus control of ventricle, 321 cardiovascular performance of Alaska sled dogs during exercise, 33 endotoxin-induced regional circulatory changes in unanesthetized monkey, 777 fiber orientation in canine left ventricle during diastole and systole, 339 oxygen and myocardial blood flow in shock, 901 vasopressin-induced bradycardia, 787

Blood vessels
erythrocyte velocity and velocity pulse in minute blood vessels on surface of the mouse brain, 887 pulmonary blood flow distribution in edema, 807

Blood volume
aldosterone secretion during hemorrhage, 893 circulatory responses to heating and cooling, 711 luminal coronary collateral circulation, 735

Books Received, 487

Bradydardia
mechanism of vasopressin-induced bradycardia in dogs, 787

Brain
dendritic effects on regional circulation, 777 red cell velocity in cerebral microcirculation, 887

Bronchitis
serial studies in acute respiratory failure, 51

Buffer nerve section
hemodynamics of neurogenic hypertension, 911

Calcium
effect of cardiotonic lactones on calcium metabolism of dog cardiac microsomes, 793

C

effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
effect of ouabain on energy output of rabbit cardiac muscle, 951 glucose and action potential of cardiac muscle, 939 healing-over of myocardial cells of toads, 475 inotropic effects of electric currents and excitation-contraction coupling, 409 qualitative distinction between the beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835 Cardiac output
circulatory responses to heating and cooling, 711 endotoxin-induced regional circulatory changes in unanesthetized monkey, 777 hemodynamics of neurogenic hypertension, 911 hemodynamics of sleep, 923 Cardiornhibitory center
vasopressin-induced bradycardia, 787

Cardiotonic activity
lactones and calcium metabolism, 793 Cardiotonic agents
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303 Cardiovascular reserve of Alaska sled dogs, 33 Carotid arteries
elastic symmetry of arterial segments, 1 occlusions, carotid sinus reflex, 447

Carotid sinus
bilateral control of ventricular performance in the dog, 321 relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex in dogs, 447 vasopressin-induced bradycardia, 787
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
effect of ouabain on energy output of rabbit cardiac muscle, 951 glucose and action potential of cardiac muscle, 939 healing-over of myocardial cells of toads, 475 inotropic effects of electric currents and excitation-contraction coupling, 409 qualitative distinction between the beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835 Cardiac output
circulatory responses to heating and cooling, 711 endotoxin-induced regional circulatory changes in unanesthetized monkey, 777 hemodynamics of neurogenic hypertension, 911 hemodynamics of sleep, 923 Cardiornhibitory center
vasopressin-induced bradycardia, 787

Cardiotonic activity
lactones and calcium metabolism, 793 Cardiotonic agents
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303 Cardiovascular reserve of Alaska sled dogs, 33 Carotid arteries
elastic symmetry of arterial segments, 1 occlusions, carotid sinus reflex, 447

Carotid sinus
bilateral control of ventricular performance in the dog, 321 relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex in dogs, 447 vasopressin-induced bradycardia, 787
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
effect of ouabain on energy output of rabbit cardiac muscle, 951 glucose and action potential of cardiac muscle, 939 healing-over of myocardial cells of toads, 475 inotropic effects of electric currents and excitation-contraction coupling, 409 qualitative distinction between the beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835 Cardiac output
circulatory responses to heating and cooling, 711 endotoxin-induced regional circulatory changes in unanesthetized monkey, 777 hemodynamics of neurogenic hypertension, 911 hemodynamics of sleep, 923 Cardiornhibitory center
vasopressin-induced bradycardia, 787

Cardiotonic activity
lactones and calcium metabolism, 793 Cardiotonic agents
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303 Cardiovascular reserve of Alaska sled dogs, 33 Carotid arteries
elastic symmetry of arterial segments, 1 occlusions, carotid sinus reflex, 447

Carotid sinus
bilateral control of ventricular performance in the dog, 321 relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex in dogs, 447 vasopressin-induced bradycardia, 787
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
effect of ouabain on energy output of rabbit cardiac muscle, 951 glucose and action potential of cardiac muscle, 939 healing-over of myocardial cells of toads, 475 inotropic effects of electric currents and excitation-contraction coupling, 409 qualitative distinction between the beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835 Cardiac output
circulatory responses to heating and cooling, 711 endotoxin-induced regional circulatory changes in unanesthetized monkey, 777 hemodynamics of neurogenic hypertension, 911 hemodynamics of sleep, 923 Cardiornhibitory center
vasopressin-induced bradycardia, 787

Cardiotonic activity
lactones and calcium metabolism, 793 Cardiotonic agents
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303 Cardiovascular reserve of Alaska sled dogs, 33 Carotid arteries
elastic symmetry of arterial segments, 1 occlusions, carotid sinus reflex, 447
INDEX

[Chromatography—Drugs]

Chromatography
aldosterone secretion during hemorrhage, 893

Circulation
endoxin-induced regional circulatory changes in unanesthetized monkey, 777
luminal coronary collateral circulation, 735
microcirculation
erythrocyte velocity and a velocity pulse in minute blood vessels on surface of the mouse brain, 887
neural integration in arterial hypoxia, 757
peripheral
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
pulmonary
blood flow distribution in edema, 807
responses to heating and cooling, 711
skin and muscle blood flow with exercise, 799

Cocaine
cutaneous venoconstrictor response to local cooling in the dog, 607
hydrocortisone potentiation, 383

Computer analysis
caratid sinus control of ventricle, 321
electrical potential distribution, 857

Conduction
electrical potential distribution surrounding atria during depolarization and repolarization in the dog, 857
halothane and cardiac fibers, 745

Conduction block
interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361

Congenital anomalies
membranous septal defects, multigenic origin, 629

Congestive heart failure
energy utilization in, 313
skin and muscle blood flow with exercise, 799

Contractility
bilateral carotid sinus control of ventricular performance in the dog, 321
distinction between beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835
effect of ouabain on energy output of rabbit cardiac muscle, 851
effect on left ventricular response to vagus nerve stimulation in dogs, 303
glucose and action potential of cardiac muscle, 939
inotropic effects of electric currents, 409
myocardial oxygen consumption and heart rate, 725

Cooling technique
cutaneous venoconstrictor response to local cooling in the dog, 607

Coronary arteries
blood flow, effect of dopamine, 699
luminal coronary collateral circulation, 735
vasopressin-induced bradycardia, 787

Creatine phosphate
energy utilization in heart failure, 313

D
Deoxyribonuclease
lysosomal enzymes in myocardial infarction, 851

Depolarization
diastolic
development of action potential of the prenatal rat heart, 19
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
electrical potential distribution surrounding atria during repolarization and, in the dog, 857
inotropic effects of electric currents, 409

Deoxyoctocorticosterone acetate
synthesis and turnover of norepinephrine in hypertensive rat, 85

Diastole
development of action potential of the prenatal rat heart, 19
fiber orientation in canine left ventricle during diastole and systole, 339

Dissociation constant
binding characteristics of myosin and F-actin from dog hearts, 657

Diurnal variations
renin excretion, 689

Dopamine
effect on coronary hemodynamics in dogs, 699

Dreams
reflex regulation of arterial pressure during sleep, 109

Drugs
antiarrhythmic agents, qualitative distinction between the beta-receptor-blocking and local actions of, 835

Circulation Research, Vol. XXIV, June 1969
Edema
pulmonary
blood flow distribution in, 807
sodium recovery from normal and edematous lungs studied by indicator dilution curves, 815

EDTA
healing-over of myocardial cells of toads, 475

Effective refractory period
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639

Elastic properties
elastic symmetry of arterial segments in dogs, 1

Electric currents
inotropic effects of, 409

Electrical potential distribution
surrounding atria during depolarization and repolarization in the dog, 857

Electrical stimulation
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex in dogs, 447

Electroencephalograms
hemodynamics of neurogenic hypertension, 911

Electrograms
atrial, electrical potential distribution, 857

Electromagnetic flowmeters
effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
hemodynamics of neurogenic hypertension, 911

Electron microscope
anatomical and ultrastructural study of the electrophysiological A-V node of the rabbit, 457
healing-over of myocardial cells of toads, 475

Electron neurograms
sympathetic ganglia and the defense reaction in the cat, 943

Electrophysiology
A-V node of the rabbit, 457
development of action potential of the prenatal rat heart, 19
electrical potential distribution surrounding atria during depolarization and repolarization in the dog, 857

Electrotonus in heart
interaction of transmembrane potentials in Purkinje fibers and at Purkinje fiber-muscle junctions, 361

Embryonic heart
development of action potential of the prenatal rat heart, 19

Emphysema
serial studies in acute respiratory failure, 51

Endothelial cells
mechanical stress and interstitial change, 93

Endotoxin
effects on regional circulatory changes in unanesthetized monkey, 777

Energy output
effect of ouabain on energy output of rabbit cardiac muscle, 951
mechanochemistry of cardiac muscle, utilization of high-energy phosphates in experimental heart failure in cats, 313

Enzymes
lysosomal, in myocardial infarction, 851

Epinephrine
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
hydrocortisone potentiation of responses to norepinephrine and, in rabbit aorta, 383

INDEX

skin and muscle blood flow with exercise, 799

Erythrocytes
velocity and velocity pulse in minute blood vessels on surface of the mouse brain, 887

Evans blue dye
histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93

Excitation
antiarrhythmic agents, 835
electrical potential distribution surrounding atria during depolarization and repolarization, 857

Exercise
cardiovascular performance of Alaska sled dogs, 33
circulatory responses to heating and cooling, 711
partition of blood flow to cutaneous and muscular beds of forearm at rest and during leg exercise in normal subjects and in congestive heart failure, 790

Extra-axial potentiation
inotropic effects of electric currents, 409

Extremities
skin and muscle blood flow with exercise, 799

Family studies
multigenic origin of membranous septal defects, 629

Fatty acids
histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93
incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123

Femoral artery
range of sympathetic control of the, in the dog, 349

Fibers
effects of halothane on single atrial, ventricular and Purkinje fibers, 745
interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361
orientation in canine left ventricle during diastole and systole, 339
ventricular, inotropic effects of electric currents, 409

Flowmeters, electromagnetic
effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
hemodynamics of neurogenic hypertension, 911

Fluorescence microscopy
norepinephrine in failing bovine heart, 71

Force-velocity relationship
cat cardiac muscle, studied by isotonic and quick-release techniques, 821

Forearm
skin and muscle blood flow with exercise, 799

Freezing, ultrarapid
pulmonary blood flow distribution in edema, 807

Frequency-response curve
sympathetic control of the dog femoral artery, 349

Ganglion cells
sympathetic ganglia and defense reaction in the cat, 843

Gastrointestinal tract
detoxin effects on regional circulation, 777
Genetics
multigenic origin of membranous septal defects, 629
Glass scintillator
calcium exchange in rat cardiac cells, 589
Glucose
influence on transmembrane action potential of guinea-pig papillary muscle, 939
β Glucuronidase
lysosomal enzymes in myocardial infarction, 851
γ Glutamyl-transpeptidase
lysosomal enzymes in myocardial infarction, 851
Glycogenolysis
effect of exogenous ATP on heart metabolism, 617
Glycolysis
glucose and action potential of cardiac muscle, 939
Glycosides
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
effect of ouabain on energy output of rabbit cardiac muscle, 951
Growth and differentiation
development of action potential of the prenatal rat heart, 19

Halothane
central nervous integration of the circulatory and respiratory responses to arterial hypoxia in the rabbit, 757
effects on single atrial, ventricular, and Purkinje fibers, 745
Healing-over
of myocardial cells of toads, 475
Heart failure
congestive. See Congestive heart failure
energy utilization in, 313
norepinephrine in failing bovine heart, 71
Heart rate
circulatory responses to heating and cooling, 711
myocardial oxygen consumption and, 725
reflex regulation of arterial pressure during sleep, 109
vasopressin-induced bradycardia, 787
Heart weight
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
Heat dissipation
skin and muscle blood flow with exercise, 799
Heat-tension relationship
effect of ouabain on energy output of cardiac muscle, 951
Hematocrit
effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
Hemodynamics
coronary, effect of dopamine on, 699
endotoxin effects on the regional circulation, 777
of neurogenic hypertension, 911
patterns during desynchronized sleep in cats, 923
Hemorrhage disorders
aldosterone secretion during, 893
myocardial oxygen metabolism and myocardial blood flow in dogs in hemorrhagic shock, 901
Heredity
multigenic origin of membranous septal defects, 629
Hexamethonium
sympathetic ganglia and the defense reaction in the cat, 843

Hill’s equation
force-velocity relationship of cat cardiac muscle, studied by isotonic and quick-release techniques, 821
Histochernistry
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
fluorescent, norepinephrine in failing bovine heart, 71
Histology
chemical and histological responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93
Hydrocortisone
potentiation of responses of epinephrine and norepinephrine in rabbit aorta, 383
3-Hydroxytyramine
dopamine and coronary hemodynamics, 699
5-Hydroxytryptamine
cutaneous vasoconstrictor response to local cooling in the dog, 607
Hyperoxia
myocardial oxygen metabolism and myocardial blood flow in dogs in hemorrhagic shock, 901
Hypertension
arterial, hemodynamics of neurogenic hypertension, 911
hemodynamics of neurogenic, 911
luminal coronary collateral circulation, 735
norepinephrine in, 85
pulmonary
serial studies in acute respiratory failure, 51
reflex regulation of arterial pressure during sleep, 109
Hypertonic sucrose
healing-over of myocardial cell of toads, 475
Hypertrophy
biochemical correlates
increased rate of RNA synthesis in experimental cardiac hypertrophy in the rat, 9
ventricular
canine right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705
Hypothalamus
sympathetic ganglia and the defense reaction in the cat, 843
Hypothermia
effect of exogenous ATP on metabolism of excised hypothermic dog heart, 617
effects of pronethalol and, on ionic correlates of ouabain arrhythmias in dogs, 43
Hypoxia
arterial
autonomic effects during severe, in unanesthetized rabbit, 671
central nervous integration of the circulatory and respiratory responses in rabbits, 757
pulmonary vasconstriction
serial studies in acute respiratory failure, 51

Indicator dilution curves
sodium recovery from normal and edematous lungs, 815
Injury potentials
healing-over of myocardial cells of toads, 475
Innervation, cardiac
hemodynamics of sleep, 923
Inotropic effects
of electric currents, 409
myocardial oxygen consumption and heart rate, 725

Circulation Research, Vol. XXIV, June 1969
Inotropic stimuli
  effect on contractility on left ventricular response to vagus nerve stimulation in dogs, 303
Inotropism
  dopamine and coronary hemodynamics, 699
Intercalated disks
  healing-over of myocardial cells of toads, 475
Intercellular junctions
  healing-over of myocardial cells of toads, 475
Intimal tissues
  histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of dog, 93
Intraneuronal deamination
  norepinephrine in hypertensive rat, 85
Isometric studies
  effect of ouabain on energy output of cardiac muscle, 951
Isotonic studies
  effect of ouabain on energy output of cardiac muscle, 951
Isotope labeling
  sodium recovery in pulmonary edema, 815
Isovolumetric preparation
  carotid sinus control of ventricular performance in the dog, 321

K
Kidneys
  autoregulation and vascular responsiveness, 599
  endotoxin effects on regional circulation, 777

L
Lactones
  effect on calcium metabolism, 793
Left ventricles
  contractility, response to vagus nerve stimulation in dogs, 303
  fiber angle during diastole and systole, 339
  isovolumic contractions
    myocardial oxygen consumption and heart rate, 725
  wall structure
    fiber orientation during diastole and systole, 339
Leg exercise
  skin and muscle blood flow with exercise, 799
Length-force curve
  force-velocity relationship of cat cardiac muscle, 821
Lesions
  atherosclerotic, incorporation of oleic acid into lipid by foam cells in, 123
Lidocaine
  antiarrhythmic agents, 835
  electrophysiological actions on canine ventricular muscle and Purkinje fibers, 639
Light scattering
  binding characteristics of myosin and F-actin from dog hearts, 657
Lipids
  incorporation of oleic acid by foam cells in atherosclerotic lesions, 123
Lumen, cardiac
  luminal coronary collateral circulation, 735
Lungs
  neural integration in arterial hypoxia, 757
  pulmonary blood flow distribution in edema, 807
  sodium recovery from normal and edematous lungs studied by indicator dilution curves, 815

M
Magnesium ions
  healing-over of myocardial cells of toads, 475
Mast cells
  norepinephrine in failing bovine heart, 71
Membrane potentials
  effects of halothane on single atrial, ventricular, and Purkinje fibers, 745
Membranous septal defects
  multigenic origin, 629
Metabolism
  effect of adenosine triphosphate on excised hypothermic dog heart, 617
  myocardial oxygen consumption and heart rate, 735
Microcinematography
  red cell velocity in cerebral microcirculation, 887
Microcirculation
  erythrocyte velocity and velocity pulse in minute blood vessels on surface of the mouse brain, 887
Microscopy
  healing-over of myocardial cells of toads, 475
  structure of the electrophysiological A-V node, 457
Microsomal fraction
  effect of cardiotonic lactones on calcium metabolism of dog cardiac microsomes, 793
Microspheres
  endotoxin effects on regional circulation, 777
  endotoxin effects on regional circulation, 777
Models
  carotid sinus control of ventricles, 321
Monitoring
  radiotelemetry
    cardiovascular performance of Alaska sled dogs during exercise, 33
Muscles
  localization of acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
  papillary
    effect of ouabain on energy output of, 951
  force-velocity relationships, 821
  influence of glucose on action potential of, 839
  interaction of transmembrane potentials in Purkinje fiber and at Purkinje fiber-muscle junctions, 361
  skeletal
    sympathetic ganglia and the defense reaction in the cat, 843
    skin and muscle blood flow with exercise, 799
    smooth
      cutaneous venoconstrictor response to local cooling in the dog, 607
      hydrocortisone potentiation, 383
      sympathetic control of the dog femoral artery, 349
Myocardial infarction
  lysosomal enzymes in, 851
Myocardium
  cells
    study on the healing-over, 475
    continuum
      fiber orientation in canine left ventricle during diastole and systole, 339
    contractility
      bilateral carotid sinus control of ventricular performance in the dog, 351
    distinction between beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835

Circulation Research, Vol. XXIV, June 1969
preservation of ventricular function by adrenergic influences during metabolic acidosis in the cat, 373
force-velocity relationship, studied by isotonic and quick-release techniques, 821
infarction. See Myocardial infarction
innervation
norepinephrine in failing bovine heart, 71
nucleotides, increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
oxygen consumption
effect of dopamine, 699
heart rate in dogs and, 725
oxygen metabolism and blood flow in dogs in hemorrhage shock, 901.
Myosin
binding characteristics of actin and, 657
Myothermic techniques
effect of ouabain on energy output of cardiac muscle, 951
N
Nerves
left ventricular contractility response to vagus nerve stimulation in dogs, 303
localization of acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
Nervous system
autonomic
carotid sinus control of ventricle, 321
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
effects during severe arterial hypoxia in unanesthetized rabbit, 671
preservation of ventricular function by adrenergic influences during metabolic acidosis in the cat, 373
central
integration of the circulatory and respiratory responses to arterial hypoxia in the rabbit, 797
sympathectomy, cutaneous vasoconstrictor response to local cooling in the dog, 607
sympathetic
endotoxin effects on regional circulation 777
influence of stimulation on right ventricular outflow-tract pressures in dogs, 397
range of sympathetic control of the dog femoral artery, 349
relative roles of sympathetic and parasympathetic, in carotid sinus reflex in dogs, 447
Norepinephrine
autoregulation and vascular responsiveness, 599
cutaneous vasoconstrictor response to local cooling in the dog, 607
in the failing bovine heart, 71
hydrocortisone potentiation of responses to epinephrine and, in rabbit aorta, 383
in hypertensive rat, 85
Nucleotides
myocardial, increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
O
Occlusions
pulmonary arteries, right ventricular pressure differences, 397
Oil immersion technique
hydrocortisone potentiation, 383
Oleic acid
incorporation into lipid by foam cells in human atherosclerotic lesions, 123
Orthotropic elastic properties
elastic symmetry of arterial segments in dogs, 1
Ouabain
effect on energy output of rabbit cardiac muscle, 951
effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43
glucose and action potential of cardiac muscle, 939
Oxygen
myocardial oxygen consumption
effect of dopamine, 699
oxygen metabolism and blood flow in dogs in hemorrhagic shock, 901
serial studies in acute respiratory failure, 51
Pacing and pacemakers
development of action potential of the prenatal rat heart, 19
paired pacing, effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
Papillary muscles
effect of ouabain on energy output of, 951
force-velocity relationship, studied by isotonic and quick-release techniques, 821
glucose and action potential of cardiac muscle, 939
interaction of transmembrane potentials in Purkinje fibers and at Purkinje fiber-muscle junctions, 301
utilization of high-energy phosphates in experimental heart failure in cats, 313
Perfusion pressure
autoregulation and vascular responsiveness, 599
Peripheral circulation
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
Peripheral vascular resistance
circulatory responses to heating and cooling, 711
endotoxin effects on regional circulation, 777
hemodynamics of neurogenic hypertension, 911
Phenoxybenzamine
sympathetic ganglia and the defense reaction in the cat, 843
Phosphates
utilization of high-energy phosphates in experimental heart failure in cats, 313
Phospholipids
incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123
Physiology
calcium exchange in rat cardiac cells, 589
Plasma
effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
Postsynaptic potential
sympathetic ganglionic transmission and the cardiovascular changes of the defense reaction in the cat, 843
Potassium
effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43
Potential distribution
surrounding atria during depolarization and repolarization in the dog, 857
Potentiation
poststimulation, inotropic effects of electric currents, 409

Circulation Research, Vol. XXIV, June 1969
Pregnancy
- acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61

Pressure
- arterial reflex regulation during sleep, 109
- serial studies in acute respiratory failure, 51
- perfusion autoregulation and pressure dependency or renal vascular responsiveness in dogs, 599
- right ventricular pressure differences, 397
- venous, circulatory responses to heating and cooling, 711

Propranolol
- effects of hypothermia and, on ionic correlates of ouabain arrhythmias in dogs, 43

Protein
- excretion, observations on origin of renin in urine, 689

Pulmonary artery
- arterial pressure serial studies in acute respiratory failure, 51
- banding canine right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705
- occlusion right ventricular pressure differences, 397

Pulsatile flow
- erythrocyte velocity and a velocity pulse in minute blood vessels on the surface of the mouse brain, 887

Pulse
- erythrocyte velocity and velocity pulse in minute blood vessels on surface of mouse brain, 887
- reflex regulation of arterial pressure during sleep, 109

Purkinje fibers
- effects of halothane on, 745
- electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
- interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361

Quinidine
- antiarrhythmic agents, 835

R

Radioactivity
- calcium exchange in rat cardiac cells, 589
- endotoxin effects on regional circulation, 777

Radioautography
- incorporation of oleic acid into lipid by foam cells in atheroecrotic lesions, 125

Radiotelemetry
- cardiovascular performance of Alaska sled dogs during exercise, 33

Reflexes
- carotid sinus, 447
- reflex sensitivity regulation of arterial pressure during sleep, 109

Refractory period
- electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
- halothane and cardiac fibers, 745

Renin
- observations on excretion into urine, 689

Circulation Research, Vol. XXIV, June 1969

INDEX

Repolarization
electrical potential distribution surrounding atria during depolarization and, in the dog, 837
- glucose and action potential of cardiac muscle, 939

Reserpine
- hydrocortisone potentiation, 383

Resistance vessels
- hemodynamics of sleep, 923

Respiration
- neural integration in arterial hypoxia, 757
- serial studies in acute respiratory failure, 51

Rheology
- mechanical stress and intimal change in aorta of the dog, 93

Rhinecephalic preparations
- neural integration in arterial hypoxia, 757

Ribonucleic acid (RNA)
- base composition of, 9
- increased rate of RNA synthesis in experimental cardiac hypertrophy, 9

Salt
- norepinephrine in hypertensive rat, 85

Saphenous veins
- cutaneous vasoconstrictor response to local cooling in the dog, 607

Sarcomere lengths
- canine right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705

Sarcoplasmic reticulum
- effect of cardiotonic lactones on calcium metabolism of dog cardiac microsomes, 783
- qualitative distinction between the beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835

Septal artery
- luminal coronary collateral circulation, 735

Septal defects
- membranous, multigenic origin, 629

Shearing strains
- elastic symmetry of arterial segments, 1
- fiber orientation in canine left ventricle during diastole and systole, 339

Shearing stress
- mechanical stress and intimal change in aorta of the dog, 93

Shock
- aldosterone secretion during hemorrhage, 893
- myocardial oxygen metabolism and blood flow in dogs in hemorrhagic shock, 901

Sinoaortic deafferentation
- hemodynamics of sleep, 923

Sinus rate
- relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex in dogs, 447

Skeletal muscles
- sympathetic ganglia and the defense reaction in the cat, 843

Skin
- circulatory responses to rapid changes during exercise, 711
- and muscle blood flow with exercise, 799

Sleep
- hemodynamic patterns during desynchronized sleep and sinoaortic deafferentation, 923
- hemodynamics of neurogenic hypertension, 911
- reflex regulation of arterial pressure during, 109

Smooth muscles
- cutaneous vasoconstrictor response to local cooling in the dog, 607
INDEX

hydrocortisone potentiation, 383
sympathetic control of the dog femoral artery, 349

Sodium
effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43
norepinephrine in hypertensive rat, 85
recovery from normal and edematous lungs studied by indicator dilution curves, 815
renin excretion, 689

Spironolactone
renin excretion, 689

Sterile configuration
lactones and calcium metabolism, 793

Steroids
elastic symmetry of arterial segments in dogs, 1

Stress
histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of dog, 93
Stress-velocity relation
myocardial oxygen consumption and heart rate, 725

Stroke volume
circulatory responses to heating and cooling, 711

Surface precipitation reaction
healing-over of myocardial cells of toads, 475

Surgery
sympathectomy
cutaneous vasoconstrictor response to local cooling in the dog, 607
vagotomy
carotid sinus reflex, 447

Sympathetic nervous system, See Nervous system, sympathetic

Sympathetic-parasympathetic interaction
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303

Sympathetic tone
skin and muscle blood flow with exercise, 799

Sympathetic vasoconstrictor activity
hemodynamics of sleep, 923

Sympathomimetic amines
glucose and action potential of cardiac muscle, 939

SYNOCTAL
fibro orientation in canine left ventricle during diastole and systole, 339

Systolic quick release
force-velocity relationship of cat cardiac muscle, 821

Telemetry
cardiovascular performance of Alaska sled dogs during exercise, 33

Temperature
effect of ouabain on energy output of cardiac muscle, 951
effect on binding characteristics of myosin and actin, 657
skin
circulatory responses to rapid changes in, during exercise, 711

Tension-independent heat
effect of ouabain on energy output of cardiac muscle, 951

Terasaki
antiarrhythmic agents, 835

Thalamic preparations
neural integration in arterial hypoxia, 757

Tissues
cultures, calcium exchange in rat cardiac cells, 589
effect of exogenous ATP on metabolism of excised hypertensive dog heart, 617
lysosomal enzymes in myocardial infarction, 851

Total peripheral resistance
hemodynamics of sleep, 923

Transmembrane action potentials
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
interaction in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361

Tyramine hydrochloride
cutaneous vasoconstrictor response to local cooling in the dog, 607

U

Ultracentrifugation
binding characteristics of myosin and F-actin from dog hearts, 657

Ultrarapid freezing
pulmonary blood flow distribution in edema, 807

Ultrastucture
anatomical and ultrastructural study of the electro-physiological A-V node of the rabbit, 457

Uridine nucleotide pool
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9

Urine
renin excretion, 689

Uterine artery
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61

V

Vagosympathetic stimulation
right ventricular pressure differences, 397

Vagotomy
carotid sinus reflex, 447

Vagus nerves
effect of enhanced contractility on left ventricular response to vagus nerve stimulation in dogs, 303
reflex regulation of arterial pressure during sleep, 109
vasopressin-induced bradycardia, 787

Vascular interface
response to acutely induced mechanical stress in aorta of dog, 93

Vascular morphology
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61

Vascular reactivity
norepinephrine in hypertensive rat, 85

Vascular resistance
autoregulation and vascular responsiveness, 599

Vascular responsiveness
autoregulation and pressure dependency in renal vascular responsiveness, 599

Vascular smooth muscle
sympathetic control of the dog femoral artery, 349

Vasoactive agents
autoregulation and vascular responsiveness, 599

Vasoconstriction
skin and muscle blood flow with exercise, 799

Vasodilation
after stimulation, sympathetic control of the dog femoral artery, 349
INDEX

985

Vasodilation-Xenon

effect of dopamine on coronary hemodynamics, 699
sympathetic ganglia and the defense reaction in the cat, 843

Vasodilators
endotoxin-induced regional circulatory changes in unanesthetized monkey, 777

Vasomotor innervation
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61

Vasopressin
induced bradycardia in dogs, 787

Veins
anterior cardiac luminal coronary collateral circulation, 735
cutaneous venoconstrictor response to local cooling in the dog, 607

Velocity
erthrocyte velocity and velocity pulse in minute blood vessels on surface of the mouse brain, 887

Venous return
hemodynamics of sleep, 923

Ventricles
bilateral carotid sinus control of ventricular performance in the dog, 321
canine right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705
contractility, response to vagus nerve stimulation in dogs, 303
effects of halothane on fibers, 745
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
fibers, inotropic effects of electric currents, 409
function preservation by adrenergic influences during metabolic acidosis in cats, 373
influence of sympathetic nerve stimulation on right ventricular outflow-tract pressures in dogs, 397
left. See Left ventricles
vasopressin-induced bradycardia, 787

Ventricular septal defects
multigenic origin of membranous septal defects, 629

Wall stress
myocardial oxygen consumption, and heart rate, 725

Water
sodium recovery from normal and edematous lungs studied by indicator dilution curves, 815

X

Xenon
oxygen and myocardial blood flow in shock, 901
pulmonary blood flow distribution in edema, 807
