Circulation Research

SUBJECT INDEX

VOLUME XXIV JANUARY-JUNE, 1969

Acetylcholine
- autoregulation and vascular responsiveness, 599
- serial studies in acute respiratory failure, 51

Acetylcholinesterase (AChE)
- localization at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61

Acetylstrophanthidin
- effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303

Acid phosphatase
- lysosomal enzymes in myocardial infarction, 851

Acidemia
- preservation of ventricular function by adrenergic influences during metabolic acidosis in the cat, 373

Actin
- binding characteristics of myosin and, 657

Action potentials
- development in prenatal rat heart, 19
- electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
- halothane and cardiac fibers, 745
- influence of glucose on action potential of guinea-pig papillary muscle, 939
- inotropic effects of electric currents, 409
- interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361

Activation wave front
- electrical potential distribution, 857

Adenosine
- autoregulation and vascular responsiveness, 599
- Adenosine triphosphate (ATP)
  - effect on binding characteristics of myosin and actin, 657
  - effect on metabolic state of the excised hypothermic dog heart, 617
  - energy utilization in heart failure, 313
  - glucose and action potential of cardiac muscle, 939

Adrenal cortex
- aldosterone secretion during hemorrhage, 893

Adrenal cortical steroids
- hydrocortisone potentiation, 383

Adrenergic-cholinergic interaction
- effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303

Adrenergic influences
- preservation of ventricular function during metabolic acidosis in the cat, 373

Adrenergic nerves
- norepinephrine in failing bovine heart, 71

Aldosterone
- biphasic stimulation of aldosterone secretion during hemorrhage in dogs, 893

Alloxan
- pulmonary blood flow distribution in edema, 807
- sodium recovery in pulmonary edema, 815

Amines
- hydrocortisone potentiation, 383

sympathomimetic glucose and action potential of cardiac muscle, 939

Aminophylline
- effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303

Anatomy
- anatomical and ultrastructural study of the electrophysiological A-V node of the rabbit, 457

Anesthesia
- halothane, neural integration in arterial hypoxia, 757

Angiotensin
- autoregulation and vascular responsiveness, 599

Angiotensin II
- reflex regulation of arterial pressure during sleep, 109

Animals
- calves
  - norepinephrine in failing heart, 71
- cats
  - force velocity relationship, studied by isotonic and quick-release techniques, 821
  - hemodynamic patterns during sleep, 923
  - preservation of ventricular function by adrenergic influences during metabolic acidosis, 373
  - sympathetic ganglia and the defense reaction, 843
  - utilization of high-energy phosphates in experimental heart failure, 313
- dogs
  - aldosterone secretion during hemorrhage, 893
  - antiarrhythmic agents, 835
  - bilateral carotid sinus control of ventricle, 321
  - binding characteristics of myosin and actin, 657
  - cardiovascular performance of Alaska sled dogs during exercise, 33
  - cutaneous vasoconstrictor response to local cooling in the dog, 607
  - effect of ATP on excised hypothermic heart, 617
  - effect of left ventricular contractility response to vagus nerve stimulation, 303
  - effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias, 43
  - elastic symmetry of arterial segments, 1
  - electrical potential distribution, 857
  - electrophysiological actions of lidocaine on ventricular muscle and Purkinje fibers, 639
  - hemodynamics of neurogenic hypertension, 911
  - influence of sympathetic nerve stimulation on right ventricular pressure, 397
  - interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361
- lactones and calcium metabolism, 793
- left ventricular fiber angle, 339
- luminal coronary collateral circulation, 735
- lysosomal enzymes in myocardial infarction, 851
- mechanical stress and intimal change, 93

Circulation Research, Vol. XXIV, June 1969

January-June, 1969

975
myocardial oxygen consumption and, 725
oxygen and myocardial blood flow in hemorrhagic shock, 901
relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex, 447
right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705
sodium recovery in pulmonary edema, 815
sympathetic control of femoral artery, 349
vasopressin-induced bradycardia, 787

index

[Animals-Beta-receptor blockade]

electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
Arteries
elastic symmetry of arterial segments in dogs, 1
femoral, sympathetic control of, 349
hypoxia
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
neural integration in, 757
pressure, reflex regulation during sleep, 109
uterine, acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
walls
incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123
Arterioluminal and arteriosinusoidal vessels
luminal coronary collateral circulation, 735
Atherosoma
incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123
Atherosclerosis
histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93
lesions
incorporation of oleic acid into lipid by foam cells in, 123
ATP. See Adenosine triphosphate
ATPase activity
effect of cardiotonic lactones on calcium metabolism of dog cardiac microsomes, 793
Atria
effects of halothane on fibers, 745
electrical potential distribution surrounding atria during depolarization and repolarization in the dog, 857
Atrial artery
left anterior lumenal coronary collateral circulation, 735
Atrioventricular conduction
anatomical and ultrastructural study of the electrophysiological A-V node of the rabbit, 457
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
binding characteristics of myosin and actin, 657
effect of ouabain on energy output of cardiac muscle, 951
halothane and cardiac fibers, 745
hydrocortisone potentiation, 383
neural integration in arterial hypoxia, 757
rats
calcium exchange in rat cardiac cells, 589
development of action potential of the rat heart, 19
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
malignant origin of membranous septal defects, 629
norepinephrine in hypertension, 85
sheep
halothane and cardiac fibers, 745
toads
healing-over of myocardial cells, 475
Anoxia
glucose and action potential of cardiac muscle, 939
Antiarrhythmic agents
cellular basis of the antiarrhythmic actions of adenosine on ventricular tissue, 835
Qualitative and quantitative distinction between beta-receptor-blocking and local anesthetic actions, 835
Aorta
elastic symmetry of arterial segments, 1
experimental constriction
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
hydrocortisone potentiation of responses to epinephrine and norepinephrine, 383
thoracic
histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93
Arrhythmias
antiarrhythmic agents, 835
effects of halothane on single atrial, ventricular, and Purkinje fibers, 745
effects of hypothermia and propentanol on ionic correlates of ouabain arrhythmias in dogs, 43
Baroreceptor reflexes
bilateral carotid sinus control of ventricular performance in the dog, 381
hemodynamics of sleep, 923
reflex regulation of arterial pressure during sleep, 109
Baroreceptors
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
neural integration in arterial hypoxia, 757
Beta-receptor blockade
preservation of ventricular function by adrenergic influences during metabolic acidosis in the cat, 573

Circulation Research, Vol. XXIV, June 1969
### INDEX

- **Beta-receptor stimulation**
  - dopamine and coronary hemodynamics, 699
  - qualitative distinction between the beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835
- **Binding**
  - norepinephrine in hypertensive rat, 85
- **Biochemistry**
  - correlates of cardiac hypertrophy, increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
  - energy utilization in heart failure, 313
- **Blood flow**
  - autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
  - cardiovascular performance of Alaska sled dogs during exercise, 33
to cutaneous and muscular beds of forearm at rest and during leg exercise in normal subjects and in congestive heart failure, 799
  - effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
  - endotoxin effects on regional circulation, 777
- **Circulatory responses to heating and cooling**
  - myocardial oxygen metabolism and myocardial blood flow in dogs in hemorrhagic shock, 901
  - renal autoregulation and vascular responsiveness, 599
- **Blood pressure**
  - arterial aldosterone secretion during hemorrhage, 893
  - hemodynamics of sleep, 923
  - bilateral carotid sinus control of ventricle, 321
  - cardiovascular performance of Alaska sled dogs during exercise, 33
  - endotoxin-induced regional circulatory changes in unanesthetized monkey, 777
  - fiber orientation in canine left ventricle during diastole and systole, 359
  - oxygen and myocardial blood flow in shock, 901
  - vasopressin-induced bradycardia, 787
- **Blood vessels**
  - erythrocyte velocity and velocity pulse in minute blood vessels on surface of the mouse brain, 887
  - pulmonary blood flow distribution in edema, 807
- **Brain**
  - aldosterone secretion during hemorrhage, 893
  - circulatory responses to heating and cooling, 711
  - luminal coronary collateral circulation, 735
- **Books Received**, 487
- **Bradycardia**
  - mechanism of vasopressin-induced bradycardia in dogs, 787
- **Chemistry**
  - histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93
- **Chemoreceptors**
  - autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 971
  - hemodynamics of sleep, 923
  - neural integration in arterial hypoxia, 757
- **Chlorothiazide**
  - renin excretion, 689
- **Cholesterol**
  - incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123

---

**Calcium**
- effect of cardiotonic lactones on calcium metabolism of dog cardiac microsomes, 793

*Circulation Research, Vol. XXIV, June 1969*
INDEX

[Chromatography–Drugs]

Purkinje fibers and at Purkinje fiber-muscle
junctions, 361

Congenital anomalies
membranous septal defects, multigenic origin,
629

Congestive heart failure
energy utilization in, 313

skin and muscle blood flow with exercise, 799

Contractility
bilateral carotid sinus control of ventricular
performance in the dog, 321
distinction between beta-receptor-blocking and
local anesthetic actions of antiarrhythmic
agents, 835
effect of ouabain on energy output of rabbit
cardiac muscle, 939

effect on left ventricular response to vagus nerve
stimulation in dogs, 303

glucose and action potential of cardiac muscle,
939

inotropic effects of electric currents, 409

myocardial oxygen consumption and heart rate,
725

Control system
autonomic effects during severe arterial hypoxia in
unanesthetized rabbit, 671

Cooling technique
cutaneous venoconstrictor response to local cooling
in the dog, 607

Coronary arteries
blood flow, effect of dopamine, 699

luminal coronary collateral circulation, 735

vasopressin-induced bradycardia, 787

Creatine phosphate
energy utilization in heart failure, 313

D

Deoxyribonuclease
lysosomal enzymes in myocardial infarction, 851

Depolarization
diastolic
development of action potential of the prenatal
rat heart, 19
electrophysiological actions of lidocaine on
canine ventricular muscle and Purkinje
fibers, 639
electrical potential distribution surrounding atria
during repolarization and, in the dog, 857

inotropic effects of electric currents, 409

Deoxytococristosterone acetate
synthesis and turnover of norepinephrine in
hypertensive rat, 85
diastole
development of action potential of the prenatal rat
heart, 19

fiber orientation in canine left ventricle during
diastole and systole, 339

Dissociation constant
binding characteristics of myosin and F-actin from
dog hearts, 657

Diurnal variations
renin excretion, 689

Dopamine
effect on coronary hemodynamics in dogs, 699

Dreams
reflex regulation of arterial pressure during sleep,
109

Drugs
antiarrhythmic agents, qualitative distinction be-
tween the beta-receptor-blocking and local
actions of, 835

Circulation Research, Vol. XXIV, June 1969
Edema
pulmonary
blood flow distribution in, 807
sodium recovery from normal and edematous lungs studied by indicator dilution curves, 815
EDTA
healing-over of myocardial cells of toads, 475
Effective refractory period
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
Elastic properties
elastic symmetry of arterial segments in dogs, 1
Electric currents
inotropic effects of, 409
Electrical potential distribution
surrounding atria during depolarization and repolarization in the dog, 857
Electrical stimulation
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex in dogs, 447
Electroencephalograms
hemodynamics of neurogenic hypertension, 911
Electrograms
atrial, electrical potential distribution, 857
Electromagnetic flowmeters
effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
hemodynamics of neurogenic hypertension, 911
Electron microscope
anatomical and ultrastructural study of the electrophysiological A-V node of the rabbit, 457
healing-over of myocardial cells of toads, 475
Electroencephalograms
sympathetic ganglia and the defense reaction in the cat, 943
Electrophysiology
A-V node of the rabbit, 457
development of action potential of the prenatal rat heart, 19
electrical potential distribution surrounding atria during depolarization and repolarization in the dog, 857
Electrotonus in heart
interaction of transmembrane potentials in Purkinje fibers and at Purkinje fiber-muscle junctions, 361
Embryonic heart
development of action potential of the prenatal rat heart, 19
Emphysema
serial studies in acute respiratory failure, 51
Endothelial cells
mechanical stress and intimal change, 93
Endotoxin
effects on regional circulatory changes in unanesthetized monkey, 777
Energy output
effect of ouabain on energy output of rabbit cardiac muscle, 951
mechanochemistry of cardiac muscle, utilization of high-energy phosphates in experimental heart failure in cats, 313
Enzymes
lysosomal, in myocardial infarction, 851
Epinephrine
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
hydrocortisone potentiation of responses to norepinephrine and, in rabbit aorta, 383

INDEX

E

Edema
pulmonary
blood flow distribution in, 807
sodium recovery from normal and edematous lungs studied by indicator dilution curves, 815

F

Family studies
cardiovascular performance of Alaska sled dogs, 33
circulatory responses to heating and cooling, 711
partition of blood flow to cutaneous and muscular beds of forearm at rest and during leg exercise in normal subjects and in congestive heart failure, 790
Extrasyntolic potentiation
inotropic effects of electric currents, 409
Extremities
skin and muscle blood flow with exercise, 799

G

Ganglion cells
sympathetic ganglia and defense reaction in the cat, 843
Gastrointestinal tract
detoxin effects on regional circulation, 777

Circulation Research, Vol. XXIV, June 1969
Genetics
multigenic origin of membranous septal defects, 629
Glass scintillator
calcium exchange in rat cardiac cells, 589
Glucose
influence on transmembrane action potential of guinea-pig papillary muscle, 939
β Glucuronidase
lysosomal enzymes in myocardial infarction, 851
γ Glutamyl-transpeptidase
lysosomal enzymes in myocardial infarction, 851
Glycogenolysis
effect of exogenous ATP on heart metabolism, 617
Glycolysis
glucose and action potential of cardiac muscle, 939
Glycodies
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
effect of ouabain on energy output of rabbit cardiac muscle, 951
Growth and differentiation
development of action potential of the prenatal rat heart, 19

II
Halothane
central nervous integration of the circulatory and respiratory responses to arterial hypoxia in the rabbit, 757
effects on single atrial, ventricular, and Purkinje fibers, 745
Healing-over
of myocardial cells of toads, 475
Heart failure
congestive. See Congestive heart failure
energy utilization in, 313
norepinephrine in failing bovine heart, 71
Heart rate
circulatory responses to heating and cooling, 711
myocardial oxygen consumption and, 725
reflex regulation of arterial pressure during sleep, 109
vasopressin-induced bradycardia, 787
Heart weight
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
Heat dissipation
skin and muscle blood flow with exercise, 799
Heat-tension relationship
effect of ouabain on energy output of cardiac muscle, 951
Hemotocrit
effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
Hemodynamics
coronary, effect of dopamine on, 699
endotoxin effects on the regional circulation, 777
of neurogenic hypertension, 911
patterns during desynchronized sleep in cats, 923
Hemorrhage disorders
aldosterone secretion during, 893
myocardial oxygen metabolism and myocardial blood flow in dogs in hemorrhagic shock, 901
Heredity
multigenic origin of membranous septal defects, 629
Hexamethonium
sympathetic ganglia and the defense reaction in the cat, 843

Hill's equation
force-velocity relationship of cat cardiac muscle, studied by isotonic and quick-release techniques, 821
Histochemy
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
fluorescent, norepinephrine in failing bovine heart, 71
Histology
chemical and histological responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93
Hydrocortisone
potentiation of responses of epinephrine and norepinephrine in rabbit aorta, 383
3-Hydroxytyramine
dopamine and coronary hemodynamics, 699
5-Hydroxytryptamine
cutaneous vasoconstrictor response to local cooling in the dog, 607
Hyperoxia
myocardial oxygen metabolism and myocardial blood flow in dogs in hemorrhagic shock, 901
Hypertension
arterial, hemodynamics of neurogenic hypertension, 911
hemodynamics of neurogenic, 911
luminal coronary collateral circulation, 735
norepinephrine in, 85
pulmonary
serial studies in acute respiratory failure, 51
reflex regulation of arterial pressure during sleep, 109
Hypertonic sucrose
healing-over of myocardial cell of toads, 475
Hypertropomy
biochemical correlates
increased rate of RNA synthesis in experimental cardiac hypertrophy in the rat, 9
ventricular
canine right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705
Hypothalamus
sympathetic ganglia and the defense reaction in the cat, 843
Hypothermia
effect of exogenous ATP on metabolism of excised hypothermic dog heart, 617
effects of pronethalol and, on ionic correlates of ouabain arrhythmias in dogs, 43
Hypoxia
arterial
autonomic effects during severe, in unanesthetized rabbit, 671
central nervous integration of the circulatory and respiratory responses in rabbits, 757
pulmonary vasconstriction
serial studies in acute respiratory failure, 51

I
Indicator dilution curves
sodium recovery from normal and edematous lungs, 815
Injury potentials
healing-over of myocardial cells of toads, 475
Innervation, cardiac
hemodynamics of sleep, 923
Inotropic effects
of electric currents, 409
myocardial oxygen consumption and heart rate, 725

Circulation Research, Vol. XXIV, June 1969

Circulation Research, Vol. XXIV, June 1969
preservation of ventricular function by adrenergic influences during metabolic acidosis in the cat, 373
force-velocity relationship, studied by isotonic and quick-release techniques, 821
infarction. See Myocardial infarction
innervation
norepinephrine in failing bovine heart, 71
nucleotides, increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
oxygen consumption
effect of dopamine, 609
heart rate in dogs and, 725
oxygen metabolism and blood flow in dogs in hemorrhage shock, 901.
Myosin
binding characteristics of actin and, 657
Myothermic techniques
effect of ouabain on energy output of cardiac muscle, 951
N
Nerves
left ventricular contractility response to vagus nerve stimulation in dogs, 303
localization of acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
Nervous system
autonomic
carotid sinus control of ventricle, 321
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
effects during severe arterial hypoxia in unanesthetized rabbit, 671
preservation of ventricular function by adrenergic influences during metabolic acidosis in the cat, 373
central
integration of the circulatory and respiratory responses to arterial hypoxia in the rabbit, 757
sympathectomy, cutaneous venoconstrictor response to local cooling in the dog, 607
sympathetic
endotoxin effects on regional circulation 777
influence of stimulation on right ventricular outflow-tract pressures in dogs, 307
range of sympathetic control of the dog femoral artery, 349
relative roles of sympathetic and parasympathetic, in carotid sinus reflexes in dogs, 447
Norepinephrine
autoregulation and vascular responsiveness, 599
cutaneous venoconstrictor response to local cooling in the dog, 607
in the failing bovine heart, 71
hydrocortisone potentiation of responses to epinephrine and, in rabbit aorta, 383
in hypertensive rat, 85
Nucleotides
myocardial, increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
O
Occlusions
pulmonary arteries, right ventricular pressure differences, 397
Oil immersion technique
hydrocortisone potentiation, 383
Oleic acid
incorporation into lipid by foam cells in human atherosclerotic lesions, 123
Orthotropic elastic properties
elastic symmetry of arterial segments in dogs, 1
Ouabain
effect on energy output of rabbit cardiac muscle, 951
effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43
glucose and action potential of cardiac muscle, 939
Oxygen
myocardial oxygen consumption
effect of dopamine, 699
oxygen metabolism and blood flow in dogs in hemorrhagic shock, 901
serial studies in acute respiratory failure, 51
Pacing and pacemakers
development of action potential of the prenatal rat heart, 19
paired pacing, effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 503
Papillary muscles
effect of ouabain on energy output of, 951
force-velocity relationship, studied by isotonic and quick-release techniques, 821
glucose and action potential of cardiac muscle, 939
interaction of transmembrane potentials in Purkinje fibers and at Purkinje fiber-muscle junctions, 301
utilization of high-energy phosphates in experimental heart failure in cats, 513
Perfusion pressure
autoregulation and vascular responsiveness, 599
Peripheral circulation
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
Peripheral vascular resistance
circulatory responses to heating and cooling, 711
endotoxin effects on regional circulation, 777
hemodynamics of neurogenic hypertension, 911
Phenoxybenzamine
sympathetic ganglia and the defense reaction in the cat, 843
Phosphates
utilization of high-energy phosphates in experimental heart failure in cats, 313
Phospholipids
incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123
Physiology
calcium exchange in rat cardiac cells, 589
Plasma
effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
Postsynaptic potential
sympathetic ganglionic transmission and the cardiovascular changes of the defense reaction in the cat, 843
Potassium
effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43
Potential distribution
surrounding atria during depolarization and repolarization in the dog, 857
Potentiation
poststimulation, inotropic effects of electric currents, 409

Circulation Research, Vol. XXIV, June 1969
Pregnancy
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
Pressure
arterial reflex regulation during sleep, 109
perfusion
autoregulation and pressure dependency or renal vascular responsiveness in dogs, 599
right ventricular pressure differences, 397
venous, circulatory responses to heating and cooling, 711
Pronethalol
effects of hypothermia and, on ionic correlates of ouabain arrhythmias in dogs, 43
Propranolol
antiarrhythmic agents, 835
Protein
excretion, observations on origin of renin in urine, 689
Pulmonary artery
arterial pressure serial studies in acute respiratory failure, 51
banding
canine right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705
occlusion
right ventricular pressure differences, 397
Pulsatile flow
erthrocyte velocity and a velocity pulse in minute blood vessels on the surface of the mouse brain, 887
Pulse
erthrocyte velocity and velocity pulse in minute blood vessels on surface of mouse brain, 887
reflex regulation of arterial pressure during sleep, 109
Purkinje fibers
effects of halothane on, 745
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361
Quinidine
antiarrhythmic agents, 835
R
Radioactivity
calcium exchange in rat cardiac cells, 589
endotoxin effects on regional circulation, 777
Radioautography
incorporation of oleic acid into lipid by foam cells in atheroerotic lesions, 123
Radiotelemetry
cardiovascular performance of Alaska sled dogs during exercise, 33
Reflexes
carotid sinus, 447
Reflex sensitivity
regulation of arterial pressure during sleep, 109
Refractory period
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
halothane and cardiac fibers, 745
Renin
observations on excretion into urine, 689

INDEX

983

Repolarization
electrical potential distribution surrounding atria during depolarization and, in the dog, 837
glucose and action potential of cardiac muscle, 939
Reserpine
hydrocortisone potentiation, 383
Resistance vessels
hemodynamics of sleep, 923
Respiration
neural integration in arterial hypoxia, 757
serial studies in acute respiratory failure, 51
Rheology
mechanical stress and intimal change in aorta of the dog, 93
Rhinecephalic preparations
neural integration in arterial hypoxia, 757
Ribonucleic acid (RNA)
base composition of, 9
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
Salt
norepinephrine in hypertensive rat, 85
Saphenous veins
cutaneous venoconstrictor response to local cooling in the dog, 607
Sarcomere lengths
canine right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705
Sarcoplasmic reticulum
effect of cardiotonic lactones on calcium metabolism of dog cardiac microsomes, 793
qualitative distinction between the beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835
Septal artery
luminal coronary collateral circulation, 735
Septal defects
membranous, multigenic origin, 629
Shearing strains
elastic symmetry of arterial segments, 1
fiber orientation in canine left ventricle during diastole and systole, 339
Shearing stress
mechanical stress and intimal change in aorta of the dog, 93
Shock
aldosterone secretion during hemorrhage, 893
myocardial oxygen metabolism and blood flow in dogs in hemorrhagic shock, 901
Sinoaortic deafferentation
hemodynamics of sleep, 923
Sinus rate
relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex in dogs, 447
Skeletal muscles
sympathetic ganglia and the defense reaction in the cat, 843
Skin
circulatory responses to rapid changes during exercise, 711
and muscle blood flow with exercise, 799
Sleep
hemodynamic patterns during desynchronized sleep and sinoaortic deafferentation, 923
hemodynamics of neurogenic hypertension, 911
reflex regulation of arterial pressure during, 109
Smooth muscles
cutaneous venoconstrictor response to local cooling in the dog, 607

Circulation Research, Vol. XXIV, June 1969
hydrocortisone potentiation, 383
sympathetic control of the dog femoral artery, 349

Sodium
effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43
norepinephrine in hypertensive rat, 85
recovery from normal and edematous lungs studied by indicator dilution curves, 815
renin excretion, 689

Spironolactone
renin excretion, 689

Sterile configuration
lactones and calcium metabolism, 793

Steroids
elastic symmetry of arterial segments in dogs, 1

Stress
histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of dog, 93
Stress-velocity relation
myocardial oxygen consumption and heart rate, 725

Stroke volume
circulatory responses to heating and cooling, 711

Surface precipitation reaction
healing-over of myocardial cells of toads, 475

Surgery
sympathectomy
cutaneous venoconstrictor response to local cooling in the dog, 607

Sympathetic nervous system, See Nervous system, sympathetic

Sympathetic-parasympathetic interaction
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303

Sympathetic tone
skin and muscle blood flow with exercise, 799

Sympathetic vasoconstrictor activity
hemoodynamics of sleep, 923

Symphathomimetic amines
glucose and action potential of cardiac muscle, 939

Sympoles
fiber orientation in canine left ventricle during diastole and systole, 339

Systolic quick release
force-velocity relationship of cat cardiac muscle, 821

Telemetry
cardiovascular performance of Alaska sled dogs during exercise, 33

Temperature
effect of ouabain on energy output of cardiac muscle, 951
effect on binding characteristics of myosin and actin, 657
skin circulatory responses to rapid changes in, during exercise, 711

Tension-independent heat
effect of ouabain on energy output of cardiac muscle, 951

Tetracaine
antiarrhythmic agents, 835

Thalamic preparations
neural integration in arterial hypoxia, 757

Tissues
cultures, calcium exchange in rat cardiac cells, 589
effect of exogenous ATP on metabolism of excised hypothermic dog heart, 617
lysosomal enzymes in myocardial infarction, 851

Total peripheral resistance
hemodynamics of sleep, 923

Transmembrane action potentials
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 659
interaction in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361

Tyramine hydrochloride
cutaneous venoconstrictor response to local cooling in the dog, 607

U

Ultracentrifugation
binding characteristics of myosin and F-actin from dog hearts, 657

Ultrarapid freezing
pulmonary blood flow distribution in edema, 807

Ultrastucture
anatomical and ultrastructural study of the electrophysiological A-V node of the rabbit, 457

Uridine nucleotide pool
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9

Urine
renin excretion, 689

Uterine artery
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61

V

Vagosympathetic stimulation
right ventricular pressure differences, 397

Vagotomy
carotid sinus reflex, 447

Vagus nerves
effect of enhanced contractility on left ventricular response to vagus nerve stimulation in dogs, 303
reflex regulation of arterial pressure during sleep, 109
vasopressin-induced bradycardia, 787

Vascular interface
response to acutely induced mechanical stress in aorta of dog, 93

Vascular morphology
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61

Vascular reactivity
norepinephrine in hypertensive rat, 85

Vascular resistance
autoregulation and vascular responsiveness, 599

Vascular responsiveness
autoregulation and pressure dependency in renal vascular responsiveness, 599

Vascular smooth muscle synthesis of the control of the dog femoral artery, 349

Vasoactive agents
autoregulation and vascular responsiveness, 599

Vasoconstriction
skin and muscle blood flow with exercise, 799

Vasodilation
after stimulation, sympathetic control of the dog femoral artery, 349

Circulation Research, Vol. XXIV, June 1969
