SUBJECT INDEX

VOLUME XXIV

Circulation Research

JANUARY-JUNE, 1969

Acetylcholine
autoregulation and vascular responsiveness, 599
serial studies in acute respiratory failure, 51
Acetylcholinesterase (AChE)
localization at a cholinergic vasodilator nerve-
arterial smooth muscle synapse, 61
Acetylsalicylic acid
effect of contractility on left ventricular response to
vagus nerve stimulation in dogs, 303
Acid phosphatase
lysosomal enzymes in myocardial infarction, 851
Acidemia
preservation of ventricular function by adrenergic
influences during metabolic acidosis in the
cat, 373
Actin
binding characteristics of myosin and, 657
Action potentials
development in prenatal rat heart, 19
electrophysiological actions of lidocaine on canine
ventricular muscle and Purkinje fibers, 639
halothane and cardiac fibers, 745
influence of glucose on action potential of guinea-
pig papillary muscle, 839
inotropic effects of electric currents, 409
interaction of transmembrane potentials in canine
Purkinje fibers and at Purkinje fiber-muscle
junctions, 361
Activation wave front
electrical potential distribution, 857
Adenosine
autoregulation and vascular responsiveness, 599
Adenosine triphosphate (ATP)
effect on binding characteristics of myosin and
actin, 657
effect on metabolic state of the excised hypothermic
dog heart, 817
energy utilization in heart failure, 313
glucose and action potential of cardiac muscle, 939
Adrenal cortex
aldosterone secretion during hemorrhage, 893
Adrenal cortical steroids
hydrocortisone potentiation, 383
Adrenergic-cholinergic interaction
effect of contractility on left ventricular response to
vagus nerve stimulation in dogs, 303
Adrenergic influences
preservation of ventricular function during metabol-
ic acidosis in the cat, 373
Adrenergic nerves
norepinephrine in failing bovine heart, 71
Aldosterone
biphasic stimulation of aldosterone secretion during
hemorrhage in dogs, 893
Alloxan
pulmonary blood flow distribution in edema, 807
sodium recovery in pulmonary edema, 815
Amines
hydrocortisone potentiation, 383
sympathomimetic
action potential of cardiac muscle, 939
Aminophylline
effect of contractility on left ventricular response to
vagus nerve stimulation in dogs, 303
Aminophylline
glucose and action potential of cardiac muscle, 939
Anatomy
anatomical and ultrastructural study of the electro-
physiological A-V node of the rabbit, 457
Anesthesia
halothane, neural integration in arterial hypoxia, 757
Angiotensin
autoregulation and vascular responsiveness, 599
reflex regulation of arterial pressure during sleep, 109
Animals
calves
norepinephrine in failing heart, 71
cats
force velocity relationship, studied by isotonic
and quick-release techniques, 821
hemodynamic patterns during sleep, 923
preservation of ventricular function by adrenergic
influences during metabolic acidosis, 373
sympathetic ganglia and the defense reaction, 843
utilization of high-energy phosphates in experi-
mental heart failure, 313
dogs
aldosterone secretion during hemorrhage, 893
antiarrhythmic agents, 835
bilateral carotid sinus control of ventricle, 321
binding characteristics of myosin and actin, 657
cardiovascular performance of Alaska sled dogs
during exercise, 33
cutaneous venoconstrictor response to local cool-
ing in the dog, 607
effect of ATP on excised hypothermic heart, 617
effect of left ventricular contractility response to
vagus nerve stimulation, 303
effects of hypothermia and pronethalol on ionic
correlates of ouabain arrhythmias, 43
electric symetry of arterial segments, 1
electrical potential distribution, 857
electrophysiological actions of lidocaine on
ventricular muscle and Purkinje fibers, 639
hemodynamics of neurogenic hypertension, 911
influence of sympathetic nerve stimulation on
right ventricular pressure, 397
interaction of transmembrane potentials in canine
Purkinje fibers and at Purkinje fiber-muscle
junctions, 361
lactones and calcium metabolism, 793
left ventricular fiber angle, 339
luminal coronary collateral circulation, 735
lysosomal enzymes in myocardial infarction, 851
mechanical stress and intimal change, 93
myocardial oxygen consumption and, 725
oxygen and myocardial blood flow in hemorrhagic shock, 901
pulmonary blood flow distribution in edema, 815
relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex, 447
right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705
sodium recovery in pulmonary edema, 815
sympathetic control of femoral artery, 349
vasopressin-induced bradycardia, 787
guinea pig acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
influence of glucose on action potential of papillary muscle, 939
mice red cell velocity in cerebral microcirculation, 887
monkeys endotoxin-induced regional circulatory changes in unanesthetized monkey, 777
rabbits anatomical and ultrastructural study of the electrophysiological A-V node, 457
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
binding characteristics of myosin and actin, 657
effect of ouabain on energy output of cardiac muscle, 951
halothane and cardiac fibers, 745
hydrocortisone potentiation, 383
neural integration in arterial hypoxia, 757
rats calcium exchange in rat cardiac cells, 589
development of action potential of the rat heart, 19
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
multigenic origin of membranous septal defects, 629
norepinephrine in hypertension, 85
sheep halothane and cardiac fibers, 745
toads healing-over of myocardial cells, 475
Anoxia glucose and action potential of cardiac muscle, 939
Antiarhythmic agents qualitative distinction between beta-receptor-blocking and local anesthetic actions, 835
Aorta elastic symmetry of arterial segments, 1
experimental constriction
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
hydrocortisone potentiation of responses to epinephrine and norepinephrine, 383
thoracic histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93
Baroreceptors sympathetic ganglia and the defense reaction in the cat, 843
Baroreceptor reflexes bilateral carotid sinus control of ventricular performance in the dog, 381
hemodynamics of sleep, 923
reflex regulation of arterial pressure during sleep, 109
Baroreceptors autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
neural integration in arterial hypoxia, 757
Beta-receptor blockade preservation of ventricular function by adrenergic influences during metabolic acidosis in the cat, 573
Circulation Research, Vol. XXIV, June 1969
Circulation Research, Vol. XXIV, June 1969

INDEX 977

Beta-receptor stimulation
correlates of cardiac hypertrophy, increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
effect of ouabain on energy output of rabbit cardiac muscle, 951
glucose and action potential of cardiac muscle, 939
healing-over of myocardial cells of toads, 475
inotropic effects of electric currents and excitation-contraction coupling, 409
qualitative distinction between the beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835
Cardiac output
circulatory responses to heating and cooling, 711
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
Cardiovascular reserve of Alaska sled dogs, 33
Carotid arteries
calcium exchange in, studied by direct counting of cellular activity of labeled calcium, 589
cardioinhibitory center
Cardiotonic agents
cardiospecific agents, 381
effective roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex in dogs, 447
vasopressin-induced bradycardia, 787
Catechol-O-methyl transferase
effect of ouabain on energy output of rabbit cardiac muscle, 951
Cardiotonic activity
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
Cardiovascular performance of Alaska sled dogs autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
cardiovascular performance of Alaska sled dogs during exercise, 33
to cutaneous and muscular beds of forearm at rest and during leg exercise in normal subjects and in congestive heart failure, 799
effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
endothelin effects on regional circulation, 777
myocardial oxygen metabolism and myocardial blood flow in dogs in hemorrhagic shock, 901
placental acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
pulmonary distribution in lung edema, 807
right ventricular pressure differences, 397
renal autoregulation and vascular responsiveness, 599
Blood pressure
arterial
aldosterone secretion during hemorrhage, 893
hemodynamics of sleep, 923
bilateral carotid sinus control of ventricle, 321
cardiovascular performance of Alaska sled dogs during exercise, 33
endothelin effects on regional circulation, 777
fibrin orientation in canine left ventricle during diastole and systole, 339
oxygen and myocardial blood flow in shock, 901
vasopressin-induced bradycardia, 787
Blood vessels
erthrocyte velocity and velocity pulse in minute blood vessels on surface of the mouse brain, 887
pulmonary blood flow distribution in edema, 807
Blood volume
cortisol secretion during hemorrhage, 893
circulatory responses to heating and cooling, 711
fibers of the coronary collateral circulation, 739
Books Received, 487
Bradycardia
mechanism of vasopressin-induced bradycardia in dogs, 787
Brain
endothelin effects on regional circulation, 777
cell velocity in cerebral microcirculation, 887
Bronchitis
serial studies in acute respiratory failure, 51
Buffer nerve section
dopamine and coronary hemodynamics, 699
dopamine and coronary hemodynamics, 699
hemodynamics of unanesthetized rabbit, 971
hemodynamics of sleep, 923
neural integration in arterial hypoxia, 757
Chlorothiazide
renin excretion, 689
Cholesterol
incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123
INDEX

Chromatography
  aldosterone secretion during hemorrhage, 893

Circulation
  endotoxin-induced regional circulatory changes in unanesthetized monkey, 777
  luminal coronary collateral circulation, 735
  microcirculation
    erythrocyte velocity and a velocity pulse in minute blood vessels on surface of the mouse brain, 887
  neural integration in arterial hypoxia, 757
  peripheral
    autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671

Conduction
  blood flow distribution in edema, 807
  responses to heating and cooling, 711
  skin and muscle blood flow with exercise, 799

Classic Pages
  Abolishment of alimentary lipemia following injection of heparin by Paul F. Hahn, 92
  Blood circulation in the human limb; observations on the differences between the proximal and distal parts and remarks on the regulation of body temperature, by R. T. Grant and R. S. Bruce Pearson, 382
  Comparative studies on the adrenergic neuro-hormonal control of resistance and capacitance blood vessels in the cat, by Stefan Mellander, 348
  De l'obliteration du canal arteriel: Les theories et les faits, by G. Gerard, 396
  The dynamics of muscular contraction by H. S. Gasser and A. V. Hill, 312
  Electric impedance of the squid giant axon during activity, by K. S. Cole and H. J. Curtis, 408
  The isometric length-tension diagram of isolated skeletal muscle fibers of the frog, by Robert W. Ramsey and Sibyl F. Street, 338
  Membrane potentials and excitation of impaled single muscle fibers, by Judith Graham and R. W. Gerard, 360
  On reciprocal innervation in vasmotor reflexes and the action of strychnine and of chloroform thereon, by W. M. Bayliss, 32
  Potentiel de repos et potentiels d'action du muscle cardiaque, mesures a l'aide d'electrodes internes, by E. Coraboeuf and S. Wiedmann, 456
  The response to steady pressures of single end organs in the isolated carotid sinus, by D. W. Bronk and G. Stella, 446
  The role of lipids and lipoproteins in atherosclerosis by John W. Gofman, (et al.), 122
  Sur l'activite hemopoietique du serum au cours de la regeneration du sang, by Paul Carnot and C. Deflandre, 486

Cocaine
  cutaneous vasoconstrictor response to local cooling in the dog, 607
  hydrocortisone potentiation, 383

Computer analysis
  carotid sinus control of ventricle, 321
  electrical potential distribution, 857

Conduction
  electrical potential distribution surrounding atria during depolarization and repolarization in the dog, 857
  halothane and cardiac fibers, 745

Conduction block
  interaction of transmembrane potentials in canine

D

Deoxyribonuclease
  lysosomal enzymes in myocardial infarction, 851

Depolarization
  diastolic
    development of action potential of the prenatal rat heart, 19
  electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
  electrical potential distribution surrounding atria during repolarization and, in the dog, 857
  inotropic effects of electric currents, 409

Desoxytocicosterone acetate
  synthesis and turnover of norepinephrine in hypertensive rat, 85

Diastole
  development of action potential of the prenatal rat heart, 19
  fiber orientation in canine left ventricle during diastole and systole, 339

Dissociation constant
  binding characteristics of myosin and F-actin from dog hearts, 657

Diurnal variations
  renin excretion, 689

Dopamine
  effect on coronary hemodynamics in dogs, 699

Dreams
  reflex regulation of arterial pressure during sleep, 109

Drugs
  antiarrhythmic agents, qualitative distinction between the beta-receptor-blocking and local actions of, 835

Circulation Research, Vol. XXIV, June 1969
INDEX

Edema
- pulmonary blood flow distribution in, 807
- sodium recovery from normal and edematous lungs studied by indicator dilution curves, 815

EDTA
- healing-over of myocardial cells of toads, 475

Effective refractory period
- electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639

Elastic properties
- elastic symmetry of arterial segments in dogs, 1

Electric currents
- inotropic effects of, 409

Electrical potential distribution
- surrounding atria during depolarization and repolarization in the dog, 857

Electrical stimulation
- electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
- relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex in dogs, 447

Electroencephalograms
- hemodynamics of neurogenic hypertension, 911

Electrograms
- atrial, electrical potential distribution, 857

Electromagnetic flowmeters
- effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
- hemodynamics of neurogenic hypertension, 911

Electron microscope
- anatomical and ultrastructural study of the electrophysiological A-V node of the rabbit, 457
- healing-over of myocardial cells of toads, 475

Electrophysiology
- A-V node of the rabbit, 457
- development of action potential of the prenatal rat heart, 19
- electrical potential distribution surrounding atria during depolarization and repolarization in the dog, 857

Electrotonus in heart
- interaction of transmembrane potentials in Purkinje fibers and at Purkinje fiber-muscle junctions, 361

Embryonic heart
- development of action potential of the prenatal rat heart, 19

Emphysema
- serial studies in acute respiratory failure, 51

Endothelial cells
- mechanical stress and intimal change, 93

Endotoxin
- effects on regional circulatory changes in unanesthetized monkey, 777

Energy output
- effect of ouabain on energy output of rabbit cardiac muscle, 951
- mechanochemistry of cardiac muscle, utilization of high-energy phosphates in experimental heart failure in cats, 313

Enzymes
- lysosomal, in myocardial infarction, 851

Epinephrine
- electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
- hydrocortisone potentiation of responses to norepinephrine and, in rabbit aorta, 383

Circulation Research, Vol. XXIV, June 1969

 skin and muscle blood flow with exercise, 799

Erythrocytes
- velocity and velocity pulse in minute blood vessels on surface of the mouse brain, 887

Evans blue dye
- histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93

Excitation
- antiarrhythmic agents, 835
- electrical potential distribution surrounding atria during depolarization and repolarization, 857

Exercise
- cardiovascular performance of Alaska sled dogs, 33
- circulatory responses to heating and cooling, 711
- partition of blood flow to cutaneous and muscular beds of forearm at rest and during leg exercise in normal subjects and in congestive heart failure, 790

Extrasystolic potentiation
- inotropic effects of electric currents, 409

Extremities
- skin and muscle blood flow with exercise, 799

F

Family studies
- multifogenic origin of membranous septal defects, 629

Fatty acids
- histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93
- incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123

Femoral artery
- range of sympathetic control of the, in the dog, 349

Fibers
- effects of halothane on single atrial, ventricular and Purkinje fibers, 745
- interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361
- orientation in canine left ventricle during diastole and systole, 399
- ventricular, inotropic effects of electric currents, 409

Flowmeters, electromagnetic
- effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
- hemodynamics of neurogenic hypertension, 911

Fluorescence microscopy
- norepinephrine in failing bovine heart, 71

Force-velocity relationship
- cat cardiac muscle, studied by isotonic and quick-release techniques, 821

Forearm
- skin and muscle blood flow with exercise, 799

Freezing, ultrarapid
- pulmonary blood flow distribution in edema, 807

Frequency-response curve
- sympathetic control of the dog femoral artery, 349

G

Ganglion cells
- sympathetic ganglia and defense reaction in the cat, 843

Gastrointestinal tract
- endotoxin effects on regional circulation, 777
Genetics
multigenic origin of membranous septal defects, 629

Glass scintillator
calcium exchange in rat cardiac cells, 589

Glucose
influence on transmembrane action potential of guinea-pig papillary muscle, 939

β-Glucuronidase
lysosomal enzymes in myocardial infarction, 851

γ-Glutamyl-transpeptidase
lysosomal enzymes in myocardial infarction, 851

Glycogenolysis
effect of exogenous ATP on heart metabolism, 617

Glycolysis
glucose and action potential of cardiac muscle, 939

Glycosides
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
effect of ouabain on energy output of rabbit cardiac muscle, 951

Growth and differentiation
development of action potential of the prenatal rat heart, 19

H

Halothane
central nervous integration of the circulatory and respiratory responses to arterial hypoxia in the rabbit, 757
effects on single atrial, ventricular, and Purkinje fibers, 745

Healing-over
of myocardial cells of toads, 475

Heart failure
congestive. See Congestive heart failure
energy utilization in, 313

effect of ouabain on energy output of rabbit cardiac muscle, 951

Heart rate
circulatory responses to heating and cooling, 711
myocardial oxygen consumption and, 725
reflex regulation of arterial pressure during sleep, 109

vasopressin-induced bradycardia, 787

Heart weight
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9

Heat dissipation
skin and muscle blood flow with exercise, 799

Heat-tension relationship
effect of ouabain on energy output of cardiac muscle, 951

Hematocrit
effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875

Hemodynamics
coronary, effect of dopamine on, 699
endotoxin effects on the regional circulation, 777
patterns during desynchronized sleep in cats, 923

Hemorrhage disorders
aldosterone secretion during, 893
myocardial oxygen metabolism and myocardial blood flow in dogs in hemorrhagic shock, 901

Heredity
multigenic origin of membranous septal defects, 629

Hexamethonium
sympathetic ganglia and the defense reaction in the cat, 843

Hill's equation
force-velocity relationship of cat cardiac muscle, studied by isotonic and quick-release techniques, 821

Histochecmistry
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
fluorescent, norepinephrine in failing bovine heart, 71

Histology
chemical and histological responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93

Hydrocortisone
potentiation of responses of epinephrine and norepinephrine in rabbit aorta, 383

3-Hydroxytyramine
dopamine and coronary hemodynamics, 699

5-Hydroxytryptamine
cutaneous vasoconstrictor response to local cooling in the dog, 607

Hyperoxia
myocardial oxygen metabolism and myocardial blood flow in dogs in hemorrhagic shock, 901

Hypertension
arterial, hemodynamics of neurogenic hypertension, 911
hemodynamics of neurogenic, 911
luminal coronary collateral circulation, 735
norepinephrine in, 85
pulmonary
serial studies in acute respiratory failure, 51

Hypertonic sucrose
healing-over of myocardial cell of toads, 475

Hypertrophy
dopamine and coronary hemodynamics, 699

Hypothermia
effect of exogenous ATP on metabolism of excised hypothermic dog heart, 617
effects of propranolol and, on ionic correlates of ouabain arrhythmias in dogs, 43

Hypoxia
arterial
autonomic effects during severe, in unanesthetized rabbit, 671
central nervous integration of the circulatory and respiratory responses in rabbits, 757
pulmonary vasoconstriction
serial studies in acute respiratory failure, 51

I

Indicator dilution curves
sodium recovery from normal and edematous lungs, 815

Injury potentials
healing-over of myocardial cells of toads, 475

Innervation, cardiac
hemodynamics of sleep, 923

Inotropic effects
of electric currents, 409

myocardial oxygen consumption and heart rate, 725

Circulation Research, Vol. XXIV, June 1969
Inotropic stimuli
- effect on contractility on left ventricular response to vagus nerve stimulation in dogs, 303

Inotropism
dopamine and coronary hemodynamics, 699

Intercalated disks
healing-over of myocardial cells of toads, 475

Intercellular junctions
healing-over of myocardial cells of toads, 475

Intrinsic tissues
histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of dog, 93

Interventricular denervation
norepinephrine in hypertensive rat, 85

Isometric studies
effect of ouabain on energy output of cardiac muscle, 951

Isotonic studies
effect of ouabain on energy output of cardiac muscle, 951

Isotope labeling
sodium recovery in pulmonary edema, 815

Isovolumetric preparation
carotid sinus control of ventricular performance in the dog, 321

Kidneys
autoregulation and vascular responsiveness, 599
endotoxin effects on regional circulation, 777

Lactones
effect on calcium metabolism, 793

Left ventricles
contractility, response to vagus nerve stimulation in dogs, 303
fiber angle during diastole and systole, 339
isovolumic contractions
myocardial oxygen consumption and heart rate, 725
wall structure
fiber orientation during diastole and systole, 339

Leg exercise
skin and muscle blood flow with exercise, 799

Length-force curve
force-velocity relationship of cat cardiac muscle, 821

Lesions
atherosclerotic, incorporation of oleic acid into lipid by foam cells in, 123

Lidocaine
antiarrhythmic agents, 835
electrophysiological actions on canine ventricular muscle and Purkinje fibers, 639

Light scattering
binding characteristics of myosin and F-actin from dog hearts, 657

Lipids
incorporation of oleic acid by foam cells in atherosclerotic lesions, 123

Lumen, cardiac
luminal coronary collateral circulation, 735

Lungs
neural integration in arterial hypoxia, 757
pulmonary blood flow distribution in edema, 807
sodium recovery from normal and edematous lungs studied by indicator dilution curves, 815

Circulation Research, Vol. XXIV, June 1969
preservation of ventricular function by adrenergic influences during metabolic acidosis in the cat, 373
force-velocity relationship, studied by isotonic and quick-release techniques, 821
infarction. See Myocardial infarction
innervation
norepinephrine in failing bovine heart, 71
nucleotides, increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
oxygen consumption
effect of dopamine, 699
heart rate in dogs and, 725
oxygen metabolism and blood flow in dogs in hemorrhage shock, 901.
Myosin
binding characteristics of actin and, 657
Myothermic techniques
effect of ouabain on energy output of cardiac muscle, 951

N
Nerves
left ventricular contractility response to vagus nerve stimulation in dogs, 303
localization of acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
Nervous system
autonomic
carotid sinus control of ventricle, 321
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
effects during severe arterial hypoxia in unanesthetized rabbit, 671
preservation of ventricular function by adrenergic influences during metabolic acidosis in the cat, 373
central
integration of the circulatory and respiratory responses to arterial hypoxia in the rabbit, 757
sympathectomy, cutaneous venoconstrictor response to local cooling in the dog, 607
sympathetic
donotoxin effects on regional circulation 777
influence of stimulation on right ventricular outflow-tract pressures in dogs, 397
range of sympathetic control of the dog femoral artery, 349
relative roles of sympathetic and parasympathetic, in carotid sinus reflexes in dogs, 447

Norepinephrine
autoregulation and vascular responsiveness, 599
cutaneous venoconstrictor response to local cooling in the dog, 607
in the failing bovine heart, 71
hydrocortisone potentiation of responses to epinephrine and, in rabbit aorta, 383
in hypertensive rat, 85
Nucleotides
myocardial, increased rate of RNA synthesis in experimental cardiac hypertrophy, 9

O
Occlusions
pulmonary arteries, right ventricular pressure differences, 397
Oil immersion technique
hydrocortisone potentiation, 383
Oleic acid
incorporation into lipid by foam cells in human atherosclerotic lesions, 123
Orthotropic elastic properties
elastic symmetry of arterial segments in dogs, 1
Ouabain
effect on energy output of rabbit cardiac muscle, 951
effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43
glucose and action potential of cardiac muscle, 939
Oxygen
myocardial oxygen consumption
effect of dopamine, 699
oxygen metabolism and blood flow in dogs in hemorrhagie shock, 901.
serial studies in acute respiratory failure, 51
Pacing and pacemakers
development of action potential of the prenatal rat heart, 19
paired pacing, effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
Papillary muscles
effect of ouabain on energy output of, 951
force-velocity relationship, studied by isotonic and quick-release techniques, 821
glucose and action potential of cardiac muscle, 939
interaction of transmembrane potentials in Purkinje fibers and at Purkinje fiber-muscle junctions, 361
utilization of high-energy phosphates in experimental heart failure in cats, 313
Perfusion pressure
autoregulation and vascular responsiveness, 599
Peripheral circulation
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
Peripheral vascular resistance
circulatory responses to heating and cooling, 711
donotoxin effects on regional circulation, 777
hemodynamics of neurogenic hypertension, 911
Phenoxybenzamine
sympathetic ganglia and the defense reaction in the cat, 843
Phosphates
utilization of high-energy phosphates in experimental heart failure in cats, 313
Phospholipids
incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123
Physiology
calcium exchange in rat cardiac cells, 589
Plasma
effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
Postsynaptic potential
sympathetic ganglionic transmission and the cardiovascular changes of the defense reaction in the cat, 843
Potassium
effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43
Potential distribution
surrounding atria during depolarization and repolarization in the dog, 857
Potentiation
poststimulation, inotropic effects of electric currents, 409

Circulation Research, Vol. XXIV, June 1969
Pregnancy
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61

Pressure
arterial reflex regulation during sleep, 109
perfusion autoregulation and pressure dependency or renal vascular responsiveness in dogs, 599
right ventricular pressure differences, 397
venous, circulatory responses to heating and cooling, 711

Propranolol
antiarrhythmic agents, 835

Protein
excretion, observations on origin of renin in urine, 689

Pulmonary artery
arterial pressure serial studies in acute respiratory failure, 51
banding canine right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705
occlusion right ventricular pressure differences, 397
Pulsatile flow
erthrocyte velocity and a velocity pulse in minute blood vessels on the surface of the mouse brain, 887
Pulse
erthrocyte velocity and velocity pulse in minute blood vessels on surface of mouse brain, 887
reflex regulation of arterial pressure during sleep, 109

Purkinje fibers
effects of halothane on, 745
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 561

Quinidine
antiarrhythmic agents, 835

R
Radioactivity
calcium exchange in rat cardiac cells, 589
endotoxin effects on regional circulation, 777

Radioautography
incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 125

Radiotelemetry
cardiovascular performance of Alaska sled dogs during exercise, 33

Reflexes
carotid sinus, 447
reflex sensitivity regulation of arterial pressure during sleep, 109

Refractory period
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
halothane and cardiac fibers, 745

Renin
observations on excretion into urine, 689

INDEX

983

Repolarization
electrical potential distribution surrounding atria during depolarization and, in the dog, 837
glucose and action potential of cardiac muscle, 939

Reserpine
hydrocortisone potentiation, 383

Resistance vessels
hemodynamics of sleep, 923
Respiration
neural integration in arterial hypoxia, 757
serial studies in acute respiratory failure, 51

Rheology
mechanical stress and intimal change in aorta of the dog, 93

Rhinencephalic preparations
neural integration in arterial hypoxia, 757

Ribonucleic acid (RNA)
base composition of, 9
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9

Salt
norepinephrine in hypertensive rat, 85

Saphenous veins
cutaneous venoconstrictor response to local cooling in the dog, 607

Sarcomere lengths
canine right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705

Sarcoplasmic reticulum
effect of cardiotonic lactones on calcium metabolism of dog cardiac microsomes, 783
qualitative distinction between the beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835

Septal artery
luminal coronary collateral circulation, 735

Septal defects
membranous, multigenic origin, 629

Shearing strains
elastic symmetry of arterial segments, 1
fiber orientation in canine left ventricle during diastole and systole, 339

Shearing stress
mechanical stress and intimal change in aorta of the dog, 93

Shock
aldosterone secretion during hemorrhage, 893
myocardial oxygen metabolism and blood flow in dogs in hemorrhagic shock, 901

Sinoaortic deafferentation
hemodynamics of sleep, 923

Sinus rate
relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex in dogs, 447

Skeletal muscles
sympathetic ganglia and the defense reaction in the cat, 843

Skin
circulatory responses to rapid changes during exercise, 711
and muscle blood flow with exercise, 799

Sleep
hemodynamic patterns during desynchronized sleep and sinoaortic deafferentation, 923
hemodynamics of neurogenic hypertension, 911
reflex regulation of arterial pressure during, 109

Smooth muscles
cutaneous venoconstrictor response to local cooling in the dog, 607

Circulation Research, Vol. XXIV, June 1969
hydrocortisone potentiation, 383
sympathetic control of the dog femoral artery, 349
Sodium
effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43
norepinephrine in hypertensive rat, 85
recovery from normal and edematous lungs studied by indicator dilution curves, 815
renin excretion, 689
Spironolactone
renin excretion, 689
Sodium effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43
norepinephrine in hypertensive rat, 85
recovery from normal and edematous lungs studied by indicator dilution curves, 815
renin excretion, 689
Steric configuration
taunolactone, 475
tissue cultures, calcium exchange in rat cardiac cells, 589
Tissues
calculations, calcium exchange in rat cardiac cells, 589
effect of exogenous ATP on metabolism of excised hypothermic dog heart, 617
lysosomal enzymes in myocardial infarction, 851
Total peripheral resistance
hemodynamics of sleep, 923
Transmembrane action potentials
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
interaction in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361
Tyramine hydrochloride
cutaneous venoconstrictor response to local cooling in the dog, 607
U
Ultracentrifugation
binding characteristics of myosin and F-actin from dog hearts, 657
Ultrapid freezing
pulmonary blood flow distribution in edema, 807
Ultrastucture
anatomical and ultrastructural study of the electrophysiological A-V node of the rabbit, 457
Uridine nucleotide pool
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
Urinary renin excretion, 689
Uterine artery
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
Sympathetic nervous system, See Nervous system, sympathetic
Sympathetic-parasympathetic interaction
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
Sympathetic tone
skin and muscle blood flow with exercise, 799
Sympathetic vasoconstrictor activity
hemodynamics of sleep, 923
Sympathomimetic amines
glucose and action potential of cardiac muscle, 939
Systoles
fiber orientation in canine left ventricle during diastole and systole, 339
Systolic quick release
force-velocity relationship of cat cardiac muscle, 821
Thalamic preparations
neural integration in arterial hypoxia, 757
Tissues
cultures, calcium exchange in rat cardiac cells, 589
effect of exogenous ATP on metabolism of excised hypothermic dog heart, 617
lysosomal enzymes in myocardial infarction, 851
Total peripheral resistance
hemodynamics of sleep, 923
Vagodynamite action potentials
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
interaction in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361
Tyramine hydrochloride
cutaneous venoconstrictor response to local cooling in the dog, 607
Ultracentrifugation
binding characteristics of myosin and F-actin from dog hearts, 657
Ultrapid freezing
pulmonary blood flow distribution in edema, 807
Ultrastucture
anatomical and ultrastructural study of the electrophysiological A-V node of the rabbit, 457
Uridine nucleotide pool
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
Urinary renin excretion, 689
Uterine artery
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
Vagal sympathetic stimulation
right ventricular pressure differences, 397
Vagotomy
carotid sinus reflex, 447
Vagus nerves
effect of enhanced contractility on left ventricular response to vagus nerve stimulation in dogs, 303
reflex regulation of arterial pressure during sleep, 109
vasopressin-induced bradycardia, 787
Vascular interface
response to acutely induced mechanical stress in aorta of dog, 93
Vascular morphology
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
Vascular reactivity
to in hypertensive rat, 85
Vascular resistance
autoregulation and vascular responsiveness, 599
Vascular responsiveness
autoregulation and pressure dependency in renal vascular responsiveness, 599
Vascular smooth muscle
ten, the control of the dog femoral artery, 349
Vasoactive agents
autoregulation and vascular responsiveness, 599
Vasodilator
skin and muscle blood flow with exercise, 799
Vasodilation
after stimulation, sympathetic control of the dog femoral artery, 349
effect of dopamine on coronary hemodynamics, 699
sympathetic ganglia and the defense reaction in the
cat, 843
Vasodilators
endotoxin-induced regional circulatory changes in
unanesthetized monkey, 777
Vasomotor innervation
acetylcholinesterase at a cholinergic vasodilator
nerve-arterial smooth muscle synapse, 61
Vasopressin
induced bradycardia in dogs, 787
Veins
anterior cardiac
luminal coronary collateral circulation, 735
cutaneous venoconstrictor response to local cooling
in the dog, 607
Velocity
erthrocyte velocity and velocity pulse in minute
blood vessels on surface of the mouse brain,
887
Venous return
hemodynamics of sleep, 923
Ventricles
bilateral carotid sinus control of ventricular per-
formance in the dog, 321
canine right and left ventricular cell and sarcomere
lengths after banding the pulmonary artery,
705
contractility, response to vagus nerve stimulation in
dogs, 303
W
Wall stress
myocardial, oxygen consumption, and heart rate,
725
Water
sodium recovery from normal and edematous lungs
studied by indicator dilution curves, 815
X
Xenon
oxygen and myocardial blood flow in shock, 901
pulmonary blood flow distribution in edema, 807
