Circulation Research

SUBJECT INDEX

VOLUME XXIV

A

Acetylcholine
- autoregulation and vascular responsiveness, 599
- serial studies in acute respiratory failure, 51

Acetylcholinesterase (AChE)
- localization at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61

Acetylstrophanthidin
- effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303

Acid phosphatase
- lysosomal enzymes in myocardial infarction, 851

Acidemia
- preservation of ventricular function by adrenergic influences during metabolic acidosis in the cat, 373

Actin
- binding characteristics of myosin and, 657

Action potentials
- development in prenatal rat heart, 19
- electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
- halothane and cardiac fibers, 745
- influence of glucose on action potential of guinea-pig papillary muscle, 939
- inotropic effects of electric currents, 409
- interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361

Activation wave front
- electrical potential distribution, 857

Adenosine
- autoregulation and vascular responsiveness, 599

Adenosine triphosphate (ATP)
- effect on binding characteristics of myosin and actin, 657
- effect on metabolic state of the excised hypothermic heart, 893
- energy utilization in heart failure, 313
- glucose and action potential of cardiac muscle, 939

Adrenal cortex
- aldosterone secretion during hemorrhage, 893

Adrenal cortical steroids
- hydrocortisone potentiation, 383

Adrenergic-cholinergic interaction
- effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303

Adrenergic influences
- preservation of ventricular function during metabolic acidosis in the cat, 373

Adrenergic nerves
- norepinephrine in failing bovine heart, 71

Aldosterone
- biphasic stimulation of aldosterone secretion during hemorrhage in dogs, 893

Alloxan
- pulmonary blood flow distribution in edema, 807
- sodium recovery in pulmonary edema, 815

Amines
- hydrocortisone potentiation, 383

sympathomimetic glucose and action potential of cardiac muscle, 939

Aminophylline
- effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
- glucose and action potential of cardiac muscle, 939

Anatomy
- anatomical and ultrastructural study of the electrophysiological A-V node of the rabbit, 457

Anesthesia
- halothane, neural integration in arterial hypoxia, 757

Angiotensin
- autoregulation and vascular responsiveness, 599
- reflex regulation of arterial pressure during sleep, 109

Animals
- calves
  - norepinephrine in failing heart, 71
- cats
  - force velocity relationship, studied by isotonic and quick-release techniques, 821
- hemodynamic patterns during sleep, 923
- preservation of ventricular function by adrenergic influences during metabolic acidosis, 373
- sympathetic ganglia and the defense reaction, 843
- utilization of high-energy phosphates in experimental heart failure, 313
- dogs
  - aldosterone secretion during hemorrhage, 893
  - antiarrhythmic agents, 835
  - bilateral carotid sinus control of ventricle, 321
  - binding characteristics of myosin and actin, 657
  - cardiovascular performance of Alaska sled dogs during exercise, 33
  - cutaneous vasoconstrictor response to local cooling in the dog, 607
  - effect of ATP on excised hypothermic heart, 617
  - effect of left ventricular contractility response to vagus nerve stimulation, 303
  - effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias, 43
  - elastic symmetry of arterial segments, 1
- electrical potential distribution, 857
- electrophysiological actions of lidocaine on ventricular muscle and Purkinje fibers, 639
- hemodynamics of neurogenic hypertension, 911
- influence of sympathetic nerve stimulation on right ventricular pressure, 397
- interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361
- lactones and calcium metabolism, 793
- left ventricular fiber angle, 339
- luminal coronary collateral circulation, 735
- lysosomal enzymes in myocardial infarction, 851
- mechanical stress and intimal change, 93

Circulation Research, Vol. XXIV, June 1969

975
myocardial oxygen consumption and, 725
oxygen and myocardial blood flow in hemorrhagic shock, 901
pulmonary blood flow distribution in edema, 815
relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex, 447
right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705
sodium recovery in pulmonary edema, 815
sympathetic control of femoral artery, 349
vasopressin-induced bradycardia, 787
guinea pig
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
influence of glucose on action potential of papillary muscle, 939
mice
red cell velocity in cerebral microcirculation, 887
monkeys
endotoxin-induced regional circulatory changes in unanesthetized monkey, 777
rabbits
anatomical and ultrastructural study of the electrophysiological A-V node, 457
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
binding characteristics of myosin and actin, 657
effect of ouabain on energy output of cardiac muscle, 951
halothane and cardiac fibers, 745
hydrocortisone potentiation, 383
neural integration in arterial hypoxia, 757
rats
calcium exchange in rat cardiac cells, 589
development of action potential of the rat heart, 19
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
multigem origin of membranous septal defects, 629
norepinephrine in hypertension, 85
sheep
halothane and cardiac fibers, 745

Anoxia
glucose and action potential of cardiac muscle, 939

Antiarhythmic agents
qualitative distinction between beta-receptor-blocking and local anesthetic actions, 835

Aorta
elastic symmetry of arterial segments, 1
experimental constriction
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
hydrocortisone potentiation of responses to epinephrine and norepinephrine, 383
thoracic
histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93

Arrhythmias
antiarrhythmic agents, 835
effects of halothane on single atrial, ventricular, and Purkinje fibers, 745
effects of hyperthermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639

Arteries
elastic symmetry of arterial segments in dogs, 1
femoral, sympathetic control of, 349
hypoxia
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
neural integration in, 757
pressure, reflex regulation during sleep, 109
uterine, acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
walls
incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123

Arterioluminal and arteriosinusoidal vessels
luminal coronary collateral circulation, 735

Atherosclerosis
incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123

ATP
See Adenosine triphosphate

ATPase activity
effect of cardiotonic lactones on calcium metabolism of dog cardiac microsomes, 763

Atria
effects of halothane on fibers, 745
electrical potential distribution surrounding atria during depolarization and repolarization in the dog, 857

Atrial artery
left anterior luminal coronary collateral circulation, 735

Atrioventricular conduction
anatomical and ultrastructural study of the electrophysiological A-V node of the rabbit, 457
carotid sinus reflex, 447

Atropine
sympathetic ganglia and the defense reaction in the cat, 843

Autonomic nervous system
See Nervous system, autonomic

Autonomic transmission
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
during severe arterial hypoxia in the unanesthetized rabbit, 671

Autoregulation
and vascular responsiveness in dogs, 599

B

Baroreceptor reflexes
bilateral carotid sinus control of ventricular performance in the dog, 381
hemodynamics of sleep, 923
reflex regulation of arterial pressure during sleep, 109

Baroreceptors
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
neural integration in arterial hypoxia, 757

Beta-receptor blockade
preservation of ventricular function by adrenergic influences during metabolic acidosis in the cat, 373

Circulation Research, Vol. XXIV, June 1969
INDEX

977

effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303

effect of ouabain on energy output of rabbit cardiac muscle, 951
glucose and action potential of cardiac muscle, 939
healing-over of myocardial cells of toads, 475
inotropic effects of electric currents and excitation-contraction coupling, 409
qualitative distinction between the beta-receptor-blocking and local anesthetic actions of antarrhythmic agents, 835
Cardiac output

circulatory responses to heating and cooling, 711
endoxin-induced regional circulatory changes in unanesthetized monkey, 777
hemodynamics of neurogenic hypertension, 911
hemodynamics of sleep, 923
Cardioinhibitory center
vasopressin-induced bradycardia, 787
Cardiotonic activity
lactones and calcium metabolism, 793
Cardiotonic agents

effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
Cardiovascular reserve
of Alaska sled dogs, 33
Carotid arteries
elastic symmetry of arterial segments, 1
occlusions, carotid sinus reflex, 447
Carotid sinus
bilateral control of ventricular performance in the dog, 321
relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex in dogs, 447
vasopressin-induced bradycardia, 787
Catechol-O-methyl transferase
hydrocortisone potentiation, 383
Carboxylic acids

dopamine and coronary hemodynamics, 699
hydrocortisone potentiation, 383
renin excretion, 589
Nepesin-containing plasma, 847
Cholesterol
incorporation of oleic acid into lipid by foam cells in human atherosclerotic lesions, 123
lysosomal enzymes in myocardial infarction, 851
red cells
effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
velocity in cerebral microcirculation, 887
Chemistry

histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93
Chemoreceptors

autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 971
hemodynamics of sleep, 923
neural integration in arterial hypoxia, 757
Chlorothiazide
renin excretion, 689
Cholesterol
incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123

Beta-receptor stimulation
dopamine and coronary hemodynamics, 699
qualitative distinction between the beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835
Binding
norepinephrine in hypertensive rat, 85
Biochemistry
correlates of cardiac hypertrophy, increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
energy utilization in heart failure, 313
Blood flow
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
cardiovascular performance of Alaska sled dogs during exercise, 33
to cutaneous and muscular beds of forearm at rest and during leg exercise in normal subjects and in congestive heart failure, 799
effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
endoxin-induced regional circulatory changes in unanesthetized monkey, 777
myocardial oxygen metabolism and myocardial blood flow in dogs in hemorrhagic shock, 901
placental acetyleholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
pulmonary distribution in lung edema, 807
right ventricular pressure differences, 397
renal autoregulation and vascular responsiveness, 599
Blood pressure
arterial aldosterone secretion during hemorrhage, 893
hemodynamics of sleep, 923
bilateral carotid sinus control of ventricle, 321
cardiovascular performance of Alaska sled dogs during exercise, 33
endoxin-induced regional circulatory changes in unanesthetized monkey, 777
fiber orientation in canine left ventricle during diastole and systole, 339
oxygen and myocardial blood flow in shock, 901
vasopressin-induced bradycardia, 787
Blood vessels
erthrocyte velocity and velocity pulse in minute blood vessels on surface of the mouse brain, 887
pulmonary blood flow distribution in edema, 807
Blood volume
aldosterone secretion during hemorrhage, 893
circulatory responses to heating and cooling, 711
humoral coronary collateral circulation, 735
Books Received, 487
Bradydardia
mechanism of vasopressin-induced bradycardia in dogs, 787
Brain
dendoxin effects on regional circulation, 777
red cell velocity in cerebral microcirculation, 887
Bromochloro
erial studies in acute respiratory failure, 51
Buffer nerve section
hemodynamics of neurogenic hypertension, 911
Calcium
effect of cardiotonic lactones on calcium metabolism of dog cardiac microsomes, 793
Cocaine

Cutaneous venoconstrictor response to local cooling in the dog, 607

Hydrocortisone potentiation, 383

Computer analysis

Carotid sinus control of ventricle, 321

Electrical potential distribution, 857

Conduction

Electrical potential distribution surrounding atria during depolarization and repolarization in the dog, 857

Halothane and cardiac fibers, 745

Conduction block

Interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361

Congenital anomalies

Membranous septal defects, multigenic origin, 629

Congestive heart failure

Energy utilization in, 313

Skin and muscle blood flow with exercise, 799

Contrast reactivity

Bilateral carotid sinus control of ventricular performance in the dog, 321

Distinction between beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835

Effect of ouabain on energy output of rabbit cardiac muscle, 831

Effect on left ventricular response to vagus nerve stimulation in dogs, 303

Glucose and action potential of cardiac muscle, 939

Inotropic effects of electric currents, 409

Myocardial oxygen consumption and heart rate, 725

Control system

Autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671

Cooling technique

Cutaneous venoconstrictor response to local cooling in the dog, 607

Coronary arteries

Blood flow, effect of dopamine, 699

Luminal coronary collateral circulation, 735

Vasopressin-induced bradycardia, 787

Creatine phosphate

Energy utilization in heart failure, 313

D

Deoxyribonuclease

Lyosomal enzymes in myocardial infarction, 851

Depolarization

Diastolic

development of action potential of the prenatal rat heart, 19

electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639

Electrical potential distribution surrounding atria during depolarization and repolarization in the dog, 857

Inotropic effects of electric currents, 409

Deoxyxycorticosterone acetate

Synthesis and turnover of norepinephrine in hypertensive rat, 85

Diastole

development of action potential of the prenatal rat heart, 19

Fiber orientation in canine left ventricle during diastole and systole, 339

Dissociation constant

Binding characteristics of myosin and F-actin from dog hearts, 657

Diurnal variations

Renin excretion, 689

Dopamine

Effect on coronary hemodynamics in dogs, 699

Dreams

Reflex regulation of arterial pressure during sleep, 109

Drugs

Antiarrhythmic agents, qualitative distinction between the beta-receptor-blocking and local actions of, 835

Circulation Research, Vol. XXIV, June 1969
INDEX

E

Edema
  pulmonary
  blood flow distribution in, 807
  sodium recovery from normal and edematous lungs studied by indicator dilution curves, 815

EDTA
  healing-over of myocardial cells of toads, 475

Effective refractory period
  electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639

Elastic properties
  elastic symmetry of arterial segments in dogs, 1

Electric currents
  inotropic effects of, 409

Electrical potential distribution
  surrounding atria during depolarization and repolarization in the dog, 857

Electrical stimulation
  electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
  relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex in dogs, 447

Electroencephalograms
  hemodynamics of neurogenic hypertension, 911

Electrograms
  atrial, electrical potential distribution, 857

Electromagnetic flowmeters
  effect of hematocrit value upon sensitivity of, 875
  hemodynamics of neurogenic hypertension, 911

Electron microscope
  anatomical and ultrastructural study of the electrophysiological A-V node of the rabbit, 457
  healing-over of myocardial cells of toads, 475

Electroencephalograms
  hemodynamics of neurogenic hypertension, 911

Electrophysiology
  A-V node of the rabbit, 457
  development of action potential of the prenatal rat heart, 19
  electrical potential distribution surrounding atria during depolarization and repolarization in the dog, 857

Electrotonus in heart
  interaction of transmembrane potentials in Purkinje fibers and at Purkinje fiber-muscle junctions, 361

Embryonic heart
  development of action potential of the prenatal rat heart, 19

Emphysema
  serial studies in acute respiratory failure, 51

Endothelial cells
  mechanical stress and intimal change, 93

Endotoxin
  effects on regional circulatory changes in unanesthetized monkey, 777

Energy output
  effect of ouabain on energy output of rabbit cardiac muscle, 951
  mechanochemistry of cardiac muscle, utilization of high-energy phosphates in experimental heart failure in cats, 313

Enzymes
  lysosomal, in myocardial infarction, 851

Epinephrine
  electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
  hydrocortisone potentiation of responses to norepinephrine and, in rabbit aorta, 383

Family studies
  multigenic origin of membranous septal defects, 629

Fatty acids
  histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93
  incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123

Femoral artery
  range of sympathetic control of, in the dog, 349

Fibers
  effects of halothane on single atrial, ventricular and Purkinje fibers, 745
  interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361
  orientation in canine left ventricle during diastole and systole, 399
  ventricular, inotropic effects of electric currents, 409

Flowmeters, electromagnetic
  effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
  hemodynamics of neurogenic hypertension, 911

Fluorescence microscopy
  norepinephrine in failing bovine heart, 71

Force-velocity relationship
  cat cardiac muscle, studied by isotonic and quick-release techniques, 821

Forearm
  skin and muscle blood flow with exercise, 799

Freezing, ultrarapid
  pulmonary blood flow distribution in edema, 807

Frequency-response curve
  sympathetic control of the dog femoral artery, 349

Gan

Ganglion cells
  sympathetic ganglia and defense reaction in the cat, 843

Gastrointestinal tract
  endotoxin effects on regional circulation, 777
INDEX

[Genetics–Inotropic effects]

Hill’s equation
force-velocity relationship of cat cardiac muscle, studied by isotonic and quick-release techniques, 821

Histochecmy
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
fluorescent, norepinephrine in failing bovine heart, 71

Histology
chemical and histological responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93

Hydrocortisone
potentiation of responses of epinephrine and norepinephrine in rabbit aorta, 383

3-Hydroxytyramine
dopamine and coronary hemodynamics, 699

5-Hydroxytryptamine
cutaneous venoconstrictor response to local cooling in the dog, 607

Hyperoxia
myocardial oxygen metabolism and myocardial blood flow in dogs in hemorrhagic shock, 901

Hypertension
artificial hemodynamics of neurogenic hypertension, 911
hemodynamics of neurogenic, 911
luminal coronary collateral circulation, 735
norepinephrine in, 85
pulmonary
serial studies in acute respiratory failure, 51
reflex regulation of arterial pressure during sleep, 109

Hypertonic sucrose
healing-over of myocardial cell of toads, 475

Hypertrophy
biochemical correlates
increased rate of RNA synthesis in experimental cardiac hypertrophy in the rat, 9
ventricular
canine right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705

Hypothalamus
sympathetic ganglia and the defense reaction in the cat, 843

Hypothermia
effect of exogenous ATP on metabolism of excised hypothermic dog heart, 617
effects of promethanol and, on ionic correlates of ouabain arrhythmias in dogs, 43

Hypoxia
arterial
autonomic effects during severe, in unanesthetized rabbit, 671
central nervous integration of the circulatory and respiratory responses in rabbits, 757
pulmonary vasoconstriction
serial studies in acute respiratory failure, 51

I

Indicator dilution curves
sodium recovery from normal and edematous lungs, 815

Injury potentials
healing-over of myocardial cells of toads, 475

Innervation, cardiac
hemodynamics of sleep, 923

Isoelectric effects
of electric currents, 409
myocardial oxygen consumption and heart rate, 725
**Inotropic stimuli**  
Effect on contractility on left ventricular response to vagus nerve stimulation in dogs, 303

**Inotropic**  
Dopamine and coronary hemodynamics, 699

**Intercalated disks**  
Healing-over of myocardial cells of toads, 475

**Intercellular junctions**  
Healing-over of myocardial cells of toads, 475

**Intimal tissues**  
Histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of dog, 93

**Interna
tural den
eriation**  
Norepinephrine in hypertensive rat, 85

**Isometric studies**  
Effect of ouabain on energy output of cardiac muscle, 951

**Isotonic studies**  
Effect of ouabain on energy output of cardiac muscle, 951

**Isotope labeling**  
Sodium recovery in pulmonary edema, 815

**Isovolumetric preparation**  
Carotid sinus control of ventricular performance in the dog, 321

**Kidneys**  
Autoregulation and vascular responsiveness, 599

**Lactones**  
Effect on calcium metabolism, 793

**Left ventricles**  
Contractility, response to vagus nerve stimulation in dogs, 303

**Lesions**  
Atherosclerotic, incorporation of oleic acid into lipid by foam cells in, 123

**Lidocaine**  
Antiarrhythmic agents, 835

**Light scattering**  
Binding characteristics of myosin and F-actin from dog hearts, 657

**Lipids**  
Incorporation of oleic acid by foam cells in atherosclerotic lesions, 123

**Lumen, cardiac**  
Luminal coronary collateral circulation, 735

**Lungs**  
Neural integration in arterial hypoxia, 757

Ouabain
effect on energy output of rabbit cardiac muscle, 951
effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43
glucose and action potential of cardiac muscle, 939
Oxygen
myocardial oxygen consumption
effect of dopamine, 699
oxygen metabolism and blood flow in dogs in hemorrhagic shock, 901
serial studies in acute respiratory failure, 51
Pacing and pacemakers
development of action potential of the prenatal rat heart, 19
paired pacing, effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
Papillary muscles
effect of ouabain on energy output of, 951
force-velocity relationship, studied by isotonic and quick-release techniques, 821
glucose and action potential of cardiac muscle, 939
interaction of transmembrane potentials in Purkinje fibers and at Purkinje fiber-muscle junctions, 361
utilization of high-energy phosphates in experimental heart failure in cats, 513
Perfusion pressure
autoregulation and vascular responsiveness, 599
Peripheral circulation
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
Peripheral vascular resistance
circulatory responses to heating and cooling, 711
endotoxin effects on regional circulation, 777
hemodynamics of neurogenic hypertension, 911
Phenoxybenzamine
sympathetic ganglia and the defense reaction in the cat, 843
Phosphates
utilization of high-energy phosphates in experimental heart failure in cats, 313
Phospholipids
incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123
Physiology
calcium exchange in rat cardiac cells, 589
Plasma
effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
Postsynaptic potential
sympathetic ganglionic transmission and the cardiovascular changes of the defense reaction in the cat, 843
Potassium
effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43
Potential distribution
surrounding atria during depolarization and repolarization in the dog, 857
Potentiation
poststimulation, inotropic effects of electric currents, 409
Pregnancy
- acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61

Pressure
- arterial reflex regulation during sleep, 109
- perfusion autoregulation and pressure dependency or renal vascular responsiveness in dogs, 59
- right ventricular pressure differences, 397
- venous, circulatory responses to heating and cooling, 711

Pronethalol
- effects of hypothermia and, on ionic correlates of ouabain arrhythmias in dogs, 43

Propranolol
- antiarrhythmic agents, 835

Protein
- excretion, observations on origin of renin in urine, 689

Pulmonary artery
- arterial pressure serial studies in acute respiratory failure, 51
- banding canine right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705
- occlusion right ventricular pressure differences, 397

Pulsatile flow
- erythrocyte velocity and a velocity pulse in minute blood vessels on the surface of the mouse brain, 887

Pulse
- erythrocyte velocity and velocity pulse in minute blood vessels on surface of mouse brain, 887
- reflex regulation of arterial pressure during sleep, 109

Purkinje fibers
- effects of halothane on, 745
- electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
- interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361

Quinidine
- antiarrhythmic agents, 835

Radioactivity
- calcium exchange in rat cardiac cells, 589
- endotoxin effects on regional circulation, 777

Radioautography
- incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 125

Radiotelemetry
- cardiovascular performance of Alaska sled dogs during exercise, 33

Reflexes
- carotid sinus, 447
- reflex sensitivity regulation of arterial pressure during sleep, 109

Refractory period
- electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
- halothane and cardiac fibers, 745

Renin
- observations on excretion into urine, 689

Repolarization
electrical potential distribution surrounding atria during depolarization and, in the dog, 857
- glucose and action potential of cardiac muscle, 939

Reserpine
- hydrocortisone potentiation, 383

Resistance vessels
- hemodynamics of sleep, 923

Respiration
- neural integration in arterial hypoxia, 757
- serial studies in acute respiratory failure, 51

Rheology
- mechanical stress and intimal change in aorta of the dog, 93

Rhinencephalic preparations
- neural integration in arterial hypoxia, 757

Ribonucleic acid (RNA)
- base composition of, 9
- increased rate of RNA synthesis in experimental cardiac hypertrophy, 9

Salt
- norepinephrine in hypertensive rat, 85

Saphenous veins
- cutaneous venoconstrictor response to local cooling in the dog, 607

Sarcomere lengths
- canine right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705

Sarcoplasmic reticulum
- effect of cardiotonic lactones on calcium metabolism of doe cardiac microsomes, 793
- qualitative distinction between the beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835

Septal artery
- luminal coronary collateral circulation, 735

Septal defects
- membranous, multigenic origin, 629

Shearing strains
- elastic symmetry of arterial segments, 1
- fiber orientation in canine left ventricle during diastole and systole, 339

Shearing stress
- mechanical stress and intimal change in aorta of the dog, 93

Shock
- aldosterone secretion during hemorrhage, 893
- myocardial oxygen metabolism and blood flow in dogs in hemorrhagic shock, 901

Sinoaortic deafferentation
- hemodynamics of sleep, 923

Sinus rate
- relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex in dogs, 447

Skeletal muscles
- sympathetic ganglia and the defense reaction in the cat, 843

Skin
- circulatory responses to rapid changes during exercise, 711
- and muscle blood flow with exercise, 799

Sleep
- hemodynamic patterns during desynchronized sleep
- hemodynamics of neurogenic hypertension, 911
- reflex regulation of arterial pressure during, 109

Smooth muscles
- cutaneous venoconstrictor response to local cooling in the dog, 607
hydrocortisone potentiation, 383
sympathetic control of the dog femoral artery, 349
Sodium
effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43
norepinephrine in hypertensive rat, 85
recovery from normal and edematous lungs studied by indicator dilution curves, 815
Sodium
effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43
Sodium
effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43
Sodium
effects of hypothermia and pronethalol on ionic correlates of ouabain arrhythmias in dogs, 43
Sodium
renin excretion, 689
Sodium
renin excretion, 689
Sterile configuration
lactates and calcium metabolism, 793
Steroids
elastic symmetry of arterial segments in dogs, 1
Stress
histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of dog, 93
Stress-velocity relation
myocardial oxygen consumption and heart rate, 725
Stroke volume
circulatory responses to heating and cooling, 711
Surface precipitation reaction
healing-over of myocardial cells of toads, 475
Surgery
sympathectomy
cutaneous vasoconstrictor response to local cooling in the dog, 607
Surgery
carotid sinus reflex, 447
Sympathetic nervous system, See Nervous system, sympathetic
Sympathetic-parasympathetic interaction
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
Sympathetic tone
skin and muscle blood flow with exercise, 799
Sympathetic vasoconstrictor activity
hemodynamics of sleep, 923
Sympathomimetic amines
adenosine and action potential of cardiac muscle, 939
Sympathetic nervous system, See Nervous system, sympathetic
Sympathetic-parasympathetic interaction
effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
Systolic quick release
force-velocity relationship of cat cardiac muscle, 821
Telemetry
cardiovascular performance of Alaska sled dogs during exercise, 33
Temperature
effect of ouabain on energy output of cardiac muscle, 951
effect on binding characteristics of myosin and actin, 657
Systolic quick release
force-velocity relationship of cat cardiac muscle, 821
Thalamic preparations
neural integration in arterial hypoxia, 757
Tissues
cultures, calcium exchange in rat cardiac cells, 589
effect of exogenous ATP on metabolism of excised hypothermic dog heart, 617
lysoenzymes in myocardial infarction, 851
Total peripheral resistance
hemodynamics of sleep, 923
Transmembrane action potentials
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 659
interaction in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361
Tyramine hydrochloride
cutaneous vasoconstrictor response to local cooling in the dog, 607
Ultracentrifugation
binding characteristics of myosin and F-actin from dog hearts, 657
Ultrarapid freezing
pulmonary blood flow distribution in edema, 807
Ultrastucture
anatomical and ultrastructural study of the electrophysiological A-V node of the rabbit, 457
Uridine nucleotide pool
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
Urine
renin excretion, 689
Uterine artery
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
Vagovery sympathetic stimulation
right ventricular pressure differences, 397
Vagotomy
carotid sinus reflex, 447
Vagus nerves
effect of enhanced contractility on left ventricular response to vagus nerve stimulation in dogs, 303
sensitivity of arterial pressure during sleep, 109
vasopressin-induced bradycardia, 787
Vascular interface
response to acutely induced mechanical stress in aorta of dog, 93
Vascular morphology
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
Vascular reactivity
norepinephrine in hypertensive rat, 85
Vascular resistance
autoregulation and vascular responsiveness, 599
Vascular responsiveness
autoregulation and pressure dependency in renal vascular responsiveness, 599
Vasculat smooth muscle
sympathetic control of the dog femoral artery, 349
Vasoactive agents
autoregulation and vascular responsiveness, 599
Vasoconstriction
skin and muscle blood flow with exercise, 799
Vasodilation
after stimulation, sympathetic control of the dog femoral artery, 349
INDEX

985

effect of dopamine on coronary hemodynamics, 699
sympathetic ganglia and the defense reaction in the
cat, 843
Vasodilators
endotoxin-induced regional circulatory changes in
unanesthetized monkey, 777
Vasomotor innervation
acetylcholinesterase at a cholinergic vasodilator
nerve-arterial smooth muscle synapse, 61
Vasopressin
induced bradycardia in dogs, 787
Veins
anterior cardiac
luminal coronary collateral circulation, 735
cutaneous venoconstrictor response to local cooling
in the dog, 607
Velocity
erythrocyte velocity and velocity pulse in minute
blood vessels on surface of the mouse brain, 887
Venous return
hemodynamics of sleep, 923
Ventricles
bilateral carotid sinus control of ventricular per-
formance in the dog, 321
canine right and left ventricular cell and sarcomere
lengths after banding the pulmonary artery, 705
contractility, response to vagus nerve stimulation in
dogs, 303
effects of halothane on fibers, 745
electrophysiological actions of lidocaine on canine
ventricular muscle and Purkinje fibers, 639
fibers, isotropic effects of electric currents, 409
function
preservation by adrenergic influences during
metabolic acidosis in cats, 373
influence of sympathetic nerve stimulation on right
ventricular outflow-tract pressures in dogs, 397
left. See Left ventricles
vasopressin-induced bradycardia, 787
Ventricular septal defects
multigenic origin of membranous septal defects,
629
W
Wall stress
myocardial, oxygen consumption, and heart rate,
725
Water
sodium recovery from normal and edematous lungs
studied by indicator dilution curves, 815
X
Xenon
oxygen and myocardial blood flow in shock, 901
pulmonary blood flow distribution in edema, 807
