SUBJECT INDEX

VOLUME XXIV

Acetylcholine
autoregulation and vascular responsiveness, 599
serial studies in acute respiratory failure, 51
Acetylcholinesterase (AChE)
localization at a cholinergic vasodilator nerve-
arterial smooth muscle synapse, 61
Acetylstrophanthidin
effect of contractility on left ventricular response to
vagus nerve stimulation in dogs, 303
Acid phosphatase
lysosomal enzymes in myocardial infarction, 851
Acidemia
preservation of ventricular function by adrenergic
influences during metabolic acidosis in the
cat, 373
Actin
binding characteristics of myosin and, 657
Action potentials
development in prenatal rat heart, 19
electrophysiological actions of lidocaine on canine
ventricular muscle and Purkinje fibers, 639
halothane and cardiac fibers, 745
influence of glucose on action potential of guinea-
pig papillary muscle, 939
inotropic effects of electric currents, 409
interaction of transmembrane potentials in canine
Purkinje fibers and at Purkinje fiber-muscle
junctions, 361
Activation wave front
electrical potential distribution, 857
Adenosine
autoregulation and vascular responsiveness, 599
Adenosine triphosphate (ATP)
effect on binding characteristics of myosin and
actin, 657
effect on metabolic state of the excised hypothermic
heart, 617
energy utilization in heart failure, 313
glucose and action potential of cardiac muscle, 939
Adrenal cortex
aldosterone secretion during hemorrhage, 893
Adrenal cortical steroids
hydrocortisone potentiation, 383
Adrenergic-cholinergic interaction
effect of contractility on left ventricular response to
vagus nerve stimulation in dogs, 303
Adrenergic influences
preservation of ventricular function during metabol-
ic acidosis in the cat, 373
Adrenergic nerves
norepinephrine in failing bovine heart, 71
Aldosterone
biphasic stimulation of aldosterone secretion during
hemorrhage in dogs, 893
Alloxan
pulmonary blood flow distribution in edema, 807
sodium recovery in pulmonary edema, 815
Amines
hydrocortisone potentiation, 383
sympathomimetic
glucose and action potential of cardiac muscle, 939
Aminophylline
effect of contractility on left ventricular response to
vagus nerve stimulation in dogs, 303
glucose and action potential of cardiac muscle, 939
Anatomy
anatomical and ultrastructural study of the electro-
physiological A-V node of the rabbit, 457
Anesthesia
halothane, neural integration in arterial hypoxia,
757
Angiotensin
autoregulation and vascular responsiveness, 599
reflex regulation of arterial pressure during sleep, 109
Animals
calves
norepinephrine in failing heart, 71
cats
force velocity relationship, studied by isotonic
and quick-release techniques, 821
hemodynamic patterns during sleep, 923
preservation of ventricular function by adrenergic
influences during metabolic acidosis, 373
sympathetic ganglia and the defense reaction, 843
utilization of high-energy phosphates in experi-
mental heart failure, 313
dogs
aldosterone secretion during hemorrhage, 893
antiarrhythmic agents, 835
bilateral carotid sinus control of ventricle, 321
binding characteristics of myosin and actin, 657
cardiovascular performance of Alaska sled dogs
during exercise, 33
cutaneous venoconstrictor response to local cool-
ing in the dog, 607
effect of ATP on excised hypothermic heart, 617
effect of left ventricular contractility response to
vagus nerve stimulation, 303
effects of hyperthermia and pronethalol on ionic
correlates of ouabain arrhythmias, 43
electric symmetry of arterial segments, 1
electrical potential distribution, 857
electrophysiological actions of lidocaine on
ventricular muscle and Purkinje fibers, 639
hemodynamics of neurogenic hypertension, 911
influence of sympathetic nerve stimulation on
right ventricular pressure, 397
interaction of transmembrane potentials in canine
Purkinje fibers and at Purkinje fiber-muscle
junctions, 361
lactones and calcium metabolism, 793
left ventricular fiber angle, 339
luminal coronary collateral circulation, 735
lysosomal enzymes in myocardial infarction, 851
mechanical stress and intimal change, 93
myocardial oxygen consumption and, 725
oxygen and myocardial blood flow in hemorrhagic shock, 901
pulmonary blood flow distribution in edema, 815
right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705
sodium recovery in pulmonary edema, 815
sympathetic control of femoral artery, 349
vasopressin-induced bradycardia, 787
guinea pig
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
influence of glucose on action potential of papillary muscle, 939
mice
red cell velocity in cerebral microcirculation, 887
monkeys
endotoxin-induced regional circulatory changes in unanesthetized monkey, 777
rabbits
anatomical and ultrastructural study of the electrophysiological A-V node, 457
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
binding characteristics of myosin and actin, 657
effect of ouabain on energy output of cardiac muscle, 951
halothane and cardiac fibers, 745
hydrocortisone potentiation, 383
neural integration in arterial hypoxia, 757
rats
calcium exchange in rat cardiac cells, 589
development of action potential of the rat heart, 19
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
multigenic origin of membranous septal defects, 629
norepinephrine in hypertension, 85
sheep
halothane and cardiac fibers, 745
toads
healing-over of myocardial cells, 475
Anoxia
glucose and action potential of cardiac muscle, 939
Antiarrhythmic agents
qualitative distinction between beta-receptor-blocking and local anesthetic actions, 835
Aorta
elastic symmetry of arterial segments, 1
experimental constriction
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9
hydrocortisone potentiation of responses to epinephrine and norepinephrine, 383
thoracic
histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93

Arteries
elastic symmetry of arterial segments in dogs, 1
hemodynamics of sleep, 923
reflex regulation of arterial pressure during sleep, 109
neural integration in arterial hypoxia, 757
Arterioluminal and arteriosinusoidal vessels
luminal coronary collateral circulation, 735
Atheroma
incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123
Atherosclerosis
histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93
lesions
incorporation of oleic acid into lipid by foam cells in, 123
ATP. See Adenosine triphosphate
ATPase activity
effect of cardiotonic lactones on calcium metabolism of dog cardiac microsomes, 793
Atria
effects of halothane on fibers, 745
electrical potential distribution surrounding atria during depolarization and repolarization in the dog, 857
Atrial artery
left anterior luminal coronary collateral circulation, 735
Atrioventricular conduction
anatomical and ultrastructural study of the electrophysiological A-V node of the rabbit, 457
carotid sinus reflex, 447
Atropine
sympathetic ganglia and the defense reaction in the cat, 843
Autonomic nervous system. See Nervous system, autonomic
Autonomic transmission
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
during severe arterial hypoxia in the unanesthetized rabbit, 671
Autoregulation
and vascular responsiveness in dogs, 599

B
Baroreceptor reflexes
bilateral carotid sinus control of ventricular performance in the dog, 321
hemodynamics of sleep, 923
reflex regulation of arterial pressure during sleep, 109
Baroreceptors
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
neural integration in arterial hypoxia, 757
Beta-receptor blockade
preservation of ventricular function by adrenergic influences during metabolic acidosis in the cat, 373
Calcium

effect of cardiotonic lactones on calcium metabolism of dog cardiac microsomes, 793

Books Received, 487

Brain

endotoxin effects on regional circulation, 777
red cell velocity in cerebral microcirculation, 887

Bronchitis

serial studies in acute respiratory failure, 51

Buffer nerve section

hemodynamics of neurogenic hypertension, 911

C

Calcium

effect of cardiotonic lactones on calcium metabolism of dog cardiac microsomes, 793
INDEX

Chromatography
Aldosterone secretion during hemorrhage, 893

Circulation
Endotoxin-induced regional circulatory changes in unanesthetized monkey, 777
Luminal coronary collateral circulation, 735
Microcirculation
Erythrocyte velocity and a velocity pulse in minute blood vessels on surface of the mouse brain, 857
Neural integration in arterial hypoxia, 757
Peripheral autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671

Classic Pages
Abolishment of alimentary lipemia following injection of heparin by Paul F. Hahn, 93
Blood circulation in the human limb; observations on the differences between the proximal and distal parts and remarks on the regulation of body temperature, by R. T. Grant and R. S. Bruce Pearson, 382
Comparative studies on the adrenergic neuro-hormonal control of resistance and capacitance blood vessels in the cat, by Stefan Mellander, 348
De l'obliteration du canal arteriel: Les theorites et les faits, by G. Gerard, 396
The dynamics of muscular contraction by H. S. Gasser and A. V. Hill, 312
Electric impedance of the squid giant axon during activity, by K. S. Cole and H. J. Curtis, 405
The isometric length-tension diagram of isolated skeletal muscle fibers of the frog, by Robert W. Ramsey and Sibyl F. Street, 338
Membrane potentials and excitation of impaled single muscle fibers, by Judith Graham and R. W. Gerard, 367
On reciprocal innervation in vasomotor reflexes and the action of strychnine and of chloroform thereon, by W. M. Bayliss, 32
Potentiel de repos et potentiels d'action du muscle cardiaque, mesures a l'aide d'electrodes internes, by E. Coraboeuf and S. Wiedmann, 456
The response to steady pressures of single end organs in the isolated carotid sinus, by D. W. Bronk and G. Stella, 448
The role of lipids and lipoproteins in atherosclerosis by John W. Gofman, (et al.), 122
Sur l'activite hemopoietique du serum au cours de la regeneration du sang, by Paul Carnot and C. Deflandre, 488

Cocaine
Cutaneous venoconstrictor response to local cooling in the dog, 607
Hydrocortisone potentiation, 383

Computer analysis
Carotid sinus control of ventricle, 321
Electrical potential distribution, 857

Conduction
Electrical potential distribution surrounding atria during depolarization and repolarization in the dog, 857
Halothane and cardiac fibers, 745

Conduction block
Interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361

Congenital anomalies
Membranous septal defects, multigenic origin, 629

Congestive heart failure
Energy utilization in, 313
Skin and muscle blood flow with exercise, 790

Contractility
Bilateral carotid sinus control of ventricular performance in the dog, 321
Distinction between beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835
Effect of ouabain on energy output of rabbit cardiac muscle, 951
Effect on left ventricular response to vagus nerve stimulation in dogs, 303
Glucose and action potential of cardiac muscle, 939
Inotropic effects of electric currents, 409
Myocardial oxygen consumption and heart rate, 723

Cooling technique
Cutaneous venoconstrictor response to local cooling in the dog, 607

Coronary arteries
Blood flow, effect of dopamine, 699
Luminal coronary collateral circulation, 735
Vasopressin-induced bradycardia, 787

Creatine phosphate
Energy utilization in heart failure, 313

D
Deoxyribonuclease
Lysozomal enzymes in myocardial infarction, 851

Depolarization
Diastolic development of action potential of the prenatal rat heart, 19
Electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
Electrical potential distribution surrounding atria during repolarization and, in the dog, 857
Inotropic effects of electric currents, 409

Desoxycorticosterone acetate
Synthesis and turnover of norepinephrine in hypertensive rat, 85

Diastole
development of action potential of the prenatal rat heart, 19
Fiber orientation in canine left ventricle during diastole and systole, 339

Dissociation constant
Binding characteristics of myosin and F-actin from dog hearts, 657

Diurnal variations
Renin excretion, 689

Dopamine
Effect on coronary hemodynamics in dogs, 699

Dreams
Reflex regulation of arterial pressure during sleep, 109

Drugs
Antiarrhythmic agents, qualitative distinction between the beta-receptor-blocking and local actions of, 835
INDEX

Edema
- pulmonary
  blood flow distribution in, 807
- sodium recovery from normal and edematous lungs studied by indicator dilution curves, 815

EDTA
- healing-over of myocardial cells of toads, 475

Effective refractory period
- electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639

Elastic properties
- elastic symmetry of arterial segments in dogs, 1

Electric currents
- inotropic effects of, 409
- electrical potential distribution surrounding atria during depolarization and repolarization in the dog, 857

Electrical stimulation
- electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
- relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex in dogs, 447

Electroencephalograms
- hemodynamics of neurogenic hypertension, 911

Electrograms
- atrial, electrical potential distribution, 857

Electromagnetic flowmeters
- effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
- hemodynamics of neurogenic hypertension, 911

Electron microscope
- anatomical and ultrastructural study of the electrophysiological A-V node of the rabbit, 457
- healing-over of myocardial cells of toads, 475

Electroencephalograms
- sympathetic ganglia and the defense reaction in the cat, 943

Electrophysiology
- A-V node of the rabbit, 457
- development of action potential of the prenatal rat heart, 19
- electrical potential distribution surrounding atria during depolarization and repolarization in the dog, 857

Electrotonus in heart
- interaction of transmembrane potentials in Purkinje fibers and at Purkinje fiber-muscle junctions, 361

Embryonic heart
- development of action potential of the prenatal rat heart, 19

Emphysema
- serial studies in acute respiratory failure, 51

Endothelial cells
- mechanical stress and intimal change, 93

Endotoxin
- effects on regional circulatory changes in unanesthetized monkey, 777

Energy output
- effect of ouabain on energy output of rabbit cardiac muscle, 951
- mechanochemistry of cardiac muscle, utilization of high-energy phosphates in experimental heart failure in cats, 313

Enzymes
- lysosomal, in myocardial infarction, 851

Epinephrine
- electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
- hydrocortisone potentiation of responses to norepinephrine and, in rabbit aorta, 383

Skin and muscle blood flow with exercise, 799

Erythrocytes
- velocity and velocity pulse in minute blood vessels on surface of the mouse brain, 887

Evans blue dye
- histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93

Excitation
- antiarrhythmic agents, 835
- electrical potential distribution surrounding atria during depolarization and repolarization, 857

Exercise
- cardiovascular performance of Alaska sled dogs, 33
- circulatory responses to heating and cooling, 711
- partition of blood flow to cutaneous and muscular beds of forearm at rest and during leg exercise in normal subjects and in congestive heart failure, 790

Extrasystolic potentiation
- inotropic effects of electric currents, 409

Extremities
- skin and muscle blood flow with exercise, 799

Family studies
- multigenic origin of membranous septal defects, 629

Fatty acids
- histological and chemical responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93
- incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123

Femoral artery
- range of sympathetic control of the, in the dog, 349

Fibers
- effects of halothane on single atrial, ventricular and Purkinje fibers, 745
- interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361
- orientation in canine left ventricle during diastole and systole, 309
- ventricular, inotropic effects of electric currents, 409

Flowmeters, electromagnetic
- effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
- hemodynamics of neurogenic hypertension, 911

Fluorescence microscopy
- norepinephrine in failing bovine heart, 71

Force-velocity relationship
- cat cardiac muscle, studied by isotonic and quick-release techniques, 821

Forearm
- skin and muscle blood flow with exercise, 799

Freezing, ultrarapid
- pulmonary blood flow distribution in edema, 807

Frequency-response curve
- sympathetic control of the dog femoral artery, 349

Ganglion cells
- sympathetic ganglia and defense reaction in the cat, 843

Gastrointestinal tract
- endotoxin effects on regional circulation, 777

Circulation Research, Vol. XXIV, June 1969
INDEX

[Genetics–Inotropic effects]

Genetics
- multigenic origin of membranous septal defects, 629

Glass scintillator
- calcium exchange in rat cardiac cells, 589

Glucose
- influence on transmembrane action potential of guinea-pig papillary muscle, 939

β Glucuronidase
- lysosomal enzymes in myocardial infarction, 851

γ Glutamyl-transpeptidase
- lysosomal enzymes in myocardial infarction, 851

Glycogenolysis
- effect of exogenous ATP on heart metabolism, 617

Glycolysis
- glucose and action potential of cardiac muscle, 939

Glucuronidase
- lysosomal enzymes in myocardial infarction, 851

Glycosides
- effect of contractility on left ventricular response to vagus nerve stimulation in dogs, 303
- effect of ouabain on energy output of rabbit cardiac muscle, 951

Growth and differentiation
- development of action potential of the prenatal rat heart, 19

Halothane
- central nervous integration of the circulatory and respiratory responses to arterial hypoxia in the rabbit, 757
- effects on single atrial, ventricular, and Purkinje fibers, 745

Healing-over
- of myocardial cells of toads, 475

Heart failure
- congestive. See Congestive heart failure
- energy utilization in, 313
- norepinephrine in failing bovine heart, 71

Heart rate
- circulatory responses to heating and cooling, 711
- myocardial oxygen consumption and, 725
- reflex regulation of arterial pressure during sleep, 109
- vasopressin-induced bradycardia, 787

Heart weight
- increased rate of RNA synthesis in experimental cardiac hypertrophy, 9

Heat dissipation
- skin and muscle blood flow with exercise, 799

Heat-tension relationship
- effect of ouabain on energy output of cardiac muscle, 951

Hemacrit
- effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875

Hemodynamics
- coronary, effect of dopamine on, 699
- endotoxin effects on the regional circulation, 777
- of neurogenic hypertension, 911
- patterns during desynchronized sleep in cats, 923

Hemorrhage disorders
- aldosterone secretion during, 893
- myocardial oxygen metabolism and myocardial blood flow in dogs in hemorrhagic shock, 901

Heredity
- multigenic origin of membranous septal defects, 629

Hexamethonium
- sympathetic ganglia and the defense reaction in the cat, 843

Hill’s equation
- force-velocity relationship of cat cardiac muscle, studied by isotonic and quick-release techniques, 821

Histochernistry
- acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
- fluorescent, norepinephrine in failing bovine heart, 71

Histology
- chemical and histological responses of vascular interface to acutely induced mechanical stress in aorta of the dog, 93

Hydrocortisone
- potentiation of responses of epinephrine and norepinephrine in rabbit aorta, 383

3-Hydroxytyramine
- dopamine and coronary hemodynamics, 699

5-Hydroxytryptamine
- cutaneous vasoconstrictor response to local cooling in the dog, 607

Hyperoxia
- myocardial oxygen metabolism and myocardial blood flow in dogs in hemorrhagic shock, 901

Hypertension
- arterial, hemodynamics of neurogenic hypertension, 911
- hemodynamics of neurogenic, 911
- luminal coronary collateral circulation, 735
- norepinephrine in, 85
- pulmonary
- serial studies in acute respiratory failure, 51
- reflex regulation of arterial pressure during sleep, 109

Hypertonic sucrose
- healing-over of myocardial cell of toads, 475

Hypertrophy
- biochemical correlates
- increased rate of RNA synthesis in experimental cardiac hypertrophy in the rat, 9
- ventricular
- canine right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705

Hypothalamus
- sympathetic ganglia and the defense reaction in the cat, 843

Hypothermia
- effect of exogenous ATP on metabolism of excised hypothermic dog heart, 617
- effects of pronethalol and, on ionic correlates of ouabain arrhythmias in dogs, 43

Hypoxia
- arterial
- autonomic effects during severe, in unanesthetized rabbit, 671
- central nervous integration of the circulatory and respiratory responses in rabbits, 757
- pulmonary vasconstriction
- serial studies in acute respiratory failure, 51

Indicator dilution curves
- sodium recovery from normal and edematous lungs, 815

Injury potentials
- healing-over of myocardial cells of toads, 475

Innervation, cardiac
- hemodynamics of sleep, 923

Inotropic effects
- of electric currents, 409
- myocardial oxygen consumption and heart rate, 725

force-velocity relationship, studied by isotonic and quick-release techniques, 821
glucose and action potential of cardiac muscle, 939
interaction of transmembrane potentials in Purkinje fibers and at Purkinje fiber-muscle junctions, 361
utilization of high-energy phosphates in experimental heart failure in cats, 313
Perfusion pressure
autoregulation and vascular responsiveness, 599
Peripheral circulation
autonomic effects during severe arterial hypoxia in unanesthetized rabbit, 671
Peripheral vascular resistance
circulatory responses to heating and cooling, 711
endotoxin effects on regional circulation, 777
hemodynamics of neurogenic hypertension, 911
Phenoxybenzamine
sympathetic ganglia and the defense reaction in the cat, 843
Phosphates
utilization of high-energy phosphates in experimental heart failure in cats, 313
Phospholipids
incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123
Physiology
calcium exchange in rat cardiac cells, 589
Plasma
effect of hematocrit value upon electromagnetic flowmeter sensitivity, 875
Postsynaptic potential
sympathetic ganglionic transmission and the cardiovascular changes of the defense reaction in the cat, 843
Potassium
effects of hypothermia and pronethalol on ionic correlates of oxabain arrhythmias in dogs, 43
Potential distribution
surrounding atria during depolarization and repolarization in the dog, 857
Potentiation
poststimulation, inotropic effects of electric currents, 409

Circulation Research, Vol. XXIV, June 1969
Pregnancy
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61

Pressure
arterial reflex regulation during sleep, 109
serial studies in acute respiratory failure, 51
perfusion autoregulation and pressure dependency or renal vascular responsiveness in dogs, 599
right ventricular pressure differences, 397
venous, circulatory responses to heating and cooling, 711

Pronethalol
effects of hypothermia and, on ionic correlates of ouabain arrhythmias in dogs, 43

Propranolol
antiarrhythmic agents, 835

Protein
excretion, observations on origin of renin in urine, 689

Pulmonary artery
arterial pressure serial studies in acute respiratory failure, 51
banding canine right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705
occlusion right ventricular pressure differences, 397

Pulsatile flow
erthrocyte velocity and a velocity pulse in minute blood vessels on the surface of the mouse brain, 887

Pulse
erthrocyte velocity and velocity pulse in minute blood vessels on surface of mouse brain, 887
reflex regulation of arterial pressure during sleep, 109

Purkinje fibers
effects of halothane on, 745
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
interaction of transmembrane potentials in canine Purkinje fibers and at Purkinje fiber-muscle junctions, 361

Quinidine
antiarrhythmic agents, 835

R

Radioactivity
calcium exchange in rat cardiac cells, 589
endotoxin effects on regional circulation, 777

Radioautography
incorporation of oleic acid into lipid by foam cells in atherosclerotic lesions, 123

Radiotelemetry
cardiovascular performance of Alaska sled dogs during exercise, 33

Reflexes
carotid sinus, 447

Reflex sensitivity
regulation of arterial pressure during sleep, 109

Refractory period
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
halothane and cardiac fibers, 745

Renin
observations on excretion into urine, 689

Repolalization
electrical potential distribution surrounding atria during depolarization and, in the dog, 837
glucose and action potential of cardiac muscle, 939

Reserpine
hydrocortisone potentiation, 383

Resistance vessels
hemodynamics of sleep, 923

Respiration
neural integration in arterial hypoxia, 757
serial studies in acute respiratory failure, 51

Rheology
mechanical stress and intimal change in aorta of the dog, 93

Rhinencephalic preparations
neural integration in arterial hypoxia, 757

Ribonucleic acid (RNA)
base composition of, 9
increased rate of RNA synthesis in experimental cardiac hypertrophy, 9

Salt
norepinephrine in hypertensive rat, 85

Saphenous veins
cutaneous vasoconstrictor response to local cooling in the dog, 607

Sarcomere lengths
canine right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705

Sarcoplasmic reticulum
effect of cardiotonic lactones on calcium metabolism of dog cardiac microsomes, 783
qualitative distinction between the beta-receptor-blocking and local anesthetic actions of antiarrhythmic agents, 835

Septal artery
luminal coronary collateral circulation, 735

Septal defects
membranous, multigenic origin, 629

Shearing strains
elastic symmetry of arterial segments, 1
fiber orientation in canine left ventricle during diastole and systole, 339

Shearing stress
mechanical stress and intimal change in aorta of the dog, 93

Shock
aldosterone secretion during hemorrhage, 893
myocardial oxygen metabolism and blood flow in dogs in hemorrhagic shock, 901

Sinoaortic deafferentation
hemodynamics of sleep, 923

Sinus rate
relative roles of sympathetic and parasympathetic nervous systems in carotid sinus reflex in dogs, 447

Skeletal muscles
neural integration in arterial hypoxia, 757

Skin
circulatory responses to rapid changes during exercise, 711
and muscle blood flow with exercise, 799

Sleep
hemodynamic patterns during desynchronized sleep and sinoaortic deafferentation, 923
hemodynamics of neurogenic hypertension, 911
reflex regulation of arterial pressure during, 109

Smooth muscles
cutaneous vasoconstrictor response to local cooling in the dog, 607
Thalamic preparations
neural integration in arterial hypoxia, 757

Tissues
cultures, calcium exchange in rat cardiac cells, 589
effect of exogenous ATP on metabolism of excised hypothermic dog heart, 617
lysosomal enzymes in myocardial infarction, 851

Total peripheral resistance
cardiovascular performance of Alaska sled dogs during exercise, 33

Vagal activity
effect of enhanced contractility on left ventricular response to vagus nerve stimulation in dogs, 303
reflex regulation of arterial pressure during sleep, 109
vasopressin-induced bradycardia, 787

Vascu1ar smooth muscle
effect of ouabain on energy output of cardiac muscle, 951

Vasoactive agents
effect of ouabain on energy output of cardiac muscle, 951

Uterine artery
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
INDEX

effect of dopamine on coronary hemodynamics, 699
sympathetic ganglia and the defense reaction in the cat, 843
Vasodilators
endotoxin-induced regional circulatory changes in unanesthetized monkey, 777
Vasomotor innervation
acetylcholinesterase at a cholinergic vasodilator nerve-arterial smooth muscle synapse, 61
Vasopressin
induced bradycardia in dogs, 787
Veins
anterior cardiac luminal coronary collateral circulation, 735
cutaneous venoconstrictor response to local cooling in the dog, 607
Velocity
erythrocyte velocity and velocity pulse in minute blood vessels on surface of the mouse brain, 887
Venous return
hemodynamics of sleep, 923
Ventricles
bilateral carotid sinus control of ventricular performance in the dog, 321
canine right and left ventricular cell and sarcomere lengths after banding the pulmonary artery, 705
contractility, response to vagus nerve stimulation in dogs, 303
Xenon
oxygen and myocardial blood flow in shock, 901
pulmonary blood flow distribution in edema, 807
effects of halothane on fibers, 745
electrophysiological actions of lidocaine on canine ventricular muscle and Purkinje fibers, 639
fibers, inotropic effects of electric currents, 409
function preservation by adrenergic influences during metabolic acidosis in cats, 373
influence of sympathetic nerve stimulation on right ventricular outflow-tract pressures in dogs, 397
left. See Left ventricles
vasopressin-induced bradycardia, 787
Ventricular septal defects
multigenic origin of membranous septal defects, 629

W
Wall stress
myocardial, oxygen consumption, and heart rate, 725
Water
sodium recovery from normal and edematous lungs studied by indicator dilution curves, 815

Xenon
oxygen and myocardial blood flow in shock, 901
pulmonary blood flow distribution in edema, 807
