Research Support Applications
Invited by Heart Association

Investigators may now apply to AHA for support of studies to be conducted during the fiscal year beginning July 1, 1970.

September 15, 1969 is the deadline for submitting applications for Established Investigatorships, Foreign Visiting Scientists and British-American Research Fellowships. Applications in the Grants-in-Aid category are due by November 1, 1969.

Awards for 1970-71 will be made as follows:

Established Investigatorships, five year awards to scientists of proven ability who have developed their careers to the point where they are able to conduct independent research. Stipends begin at $13,000 with $1,000 yearly increments and fringe benefits. An additional $1,000 is given as a departmental grant to the investigator’s institution.

Foreign Visiting Scientists, awarded for three to 12 month periods, enabling American Investigators to invite experienced foreign scientists to the U. S. for research collaboration. Stipend negotiable per comparable positions at host institution, and travel allowances. Application must be initiated by U. S. host scientist. The primary deadline is Sept. 15, but additional applications will be received until December 31, 1969, subject to the availability of funds.

British-American Research Fellowships: one-year awards to U. S. citizens usually with two years of postdoctoral research training at time of application, to work in a qualified institution in Great Britain. Stipend $7,500 plus dependency and travel allowances. Departmental grant, $750.

Application forms may be obtained from the Research Department, American Heart Association, 44 East 23rd Street, New York, N. Y. 10010.

Registration Forms Ready
For Scientific Sessions

Registration forms for the 1969 Scientific Sessions of the American Heart Association may now be obtained from the Association’s National Office or through local Heart groups.

The meeting covers a four-day period from Thursday, Nov. 13 through Sunday, Nov. 16 in Dallas’ Memorial Auditorium. It features eight sessions on clinical cardiology of special interest to the practicing physician and simultaneous sessions on various aspects of cardiovascular research and medicine.

The Association’s Council on Arteriosclerosis has scheduled its annual scientific meeting to immediately precede AHA’s Scientific Sessions. The Council program, open to all physicians and scientists, runs on Tuesday and Wednesday, Nov. 11-12 in Dallas’ Sheraton Hotel.

A tentative outline of the Scientific Sessions follows:

Thursday, Nov. 13: Opening address by AHA President Walter B. Frommeyer, Jr.; the Conner Memorial Lecture on “Circulatory Adjustments at Birth: Their Importance in Congenital Heart Disease,” by Abraham M. Rudolph. The Clinical program includes lectures on “Etiology of Congenital Heart Disease” by Josef Warkany; on “Pulmonary Hypertension” by Rejane Harvey; and on “Ventilation—Perfusion Relationships in the Lung” by John West. A symposium on “Left Ventricular Hypertrophy and Cardiac Function,” to be moderated by Norman Alpert, is scheduled during the concurrent program.

Friday, Nov. 14: Clinical Sessions include the Third International Lecture on “Thromboembolism—A Manifestation of the Re-

Circulation Research, Vol. XXV, July 1969

Saturday, Nov. 15: Clinical program features include symposia on "Clinical Application of Left Ventricular Function Tests," and "Ultrasonic Methods in Cardiovascular Disease," to be moderated respectively by Harold T. Dodge and Claude R. Joyner, Jr.; lectures on "Cardiovascular Effects of Obesity" by James K. Alexander; and on "Effects of Aging on the Cardiovascular System," by Nathan Shock. A symposium on "Parenchymal Renal Disease and Hypertension: Pathophysiology, Diagnosis and Management," with John H. Laragh as moderator; and the Brown Memorial Lecture, highlight the Scientific Sessions.

A number of Cardiovascular Conferences for small group discussion will again be held on Saturday evening.

Sunday, Nov. 16: Included in the clinical sessions are lectures on "Management of Peripheral Vascular Disease" by Ray W. Gifford; on "Pericardial Disease" by Noble O. Fowler; and on "Nitroglycerine: A Contemporary Look at an Ancient Agent" by Maurice McGregor; and a symposium on "Management of Circulatory Failure in Acute Myocardial Infarction," moderated by Elliot Rapaport. A simultaneous session on cerebrovascular disease features a symposium on "Microcirculation of Brain and Retina," with Arthur Waltz as moderator.

Recently produced cardiovascular films will be shown all day Sunday.

Scientific and industrial exhibits will be on display throughout the four-day meeting. Space for industrial exhibits may be requested through Steven K. Herlitz, Inc., 850 Third Ave., New York, N. Y. 10022.

Teaching Scholarships Available From AHA

Candidates who show promise of excellent future development as medical teachers are now being considered by AHA for five-year teaching scholarships in cardiology beginning with the July 1, 1970 academic year.

Medical schools with well-defined programs of cardiovascular education and research must sponsor candidates for the scholarships. The scholarships carry a base stipend of $11,000 with annual increments of $1,000 to a $15,000 maximum. The sponsoring school is expected to supplement the stipend to a level commensurate with the teacher's experience.

Forms for proposing candidates may be obtained from the Director of Medical Education, AHA, 44 E. 23rd Street, New York, N. Y. 10010. August 15, 1969 is the deadline for returning these forms.

Bibliography Issued on Hypertension

A Recurrent Bibliography of Hypertension, which brings together in one convenient listing references from world literature now scattered through Index Medicus, is being published by the American Heart Association.

The publication is issued bi-monthly in cooperation with the National Library of Medicine and its computer-based Medical Literature Analysis and Retrieval System (MEDLARS).

Of special interest to clinicians and investigators in the field of hypertension, the bibliography provides a rapid survey of currently published developments in the area. Headings are selected under the direction of J. Edwin Wood, M.D. of Charlottesville, Va.

One-year subscriptions (May-June 1969 through May-June 1970), at $8 in the United States and Canada, $9 in foreign countries, may be obtained through the Publishing Office, American Heart Association, 44 E. 23rd St., New York, N. Y. 10010.
Meetings Calendar

1969

July 31-August 2: 3 Days of Cardiology (Clinical Decisions in Cardiology, Course Directors, Thomas N. James, Lewis E. January, Richard S. Ross), San Francisco. Inquiries to: Medical Education Dept., AHA, 44 E. 23rd Street, New York 10010.

September 5-7: Cardiovascular Symposium (AHA Council on Clinical Cardiology), Williamsburg, Va. Tidewater Heart Ass’n., 523 Boush St., Norfolk, Va. 23510.

September 18-20: Scientific Sessions (AHA Council on Clinical Cardiology and Texas Heart Ass’n.), Houston. Texas Heart Ass’n., P.O. Box 24041, Houston 77005.

September 20-29: Symposium, “Prevention—Bedside Diagnosis—Treatment” (AHA Council on Clinical Cardiology and Great Plains Regional Heart Ass’n.), Iowa City. Dr. William R. Wilson, University Hospitals, University of Iowa, Iowa City 52240.

September 25-27: 3 Days of Cardiology for Nurses (Recent Advances in Cardiac Nursing), Seattle. Assistant Director, AHA Dept. of Medical Education, 44 E. 23rd St., New York 10010.

September 29-October 1: 3 Days of Cardiology (Coronary Disease; A Comprehensive Outlook, Course Director, Richard Gorlin), Boston. Inquiries to: Medical Education Dept., AHA, 44 E. 23rd St., New York 10010.

October 2-4: 3 Days of Cardiology (Modern Cardiac Physical Diagnosis, Course Director, Noble O. Fowler), Cincinnati. AHA Council on Clinical Cardiology, Ohio State Heart Ass’n., Heart Ass’n. of Southwestern Ohio, University of Cincinnati. Inquiries to: Medical Education Dept., AHA, 44 E. 23rd St., New York 10010.

October 22-25: Canadian Heart Foundation and Canadian Cardiovascular Society, Quebec City. Dr. John B. Armstrong, 1130 Bay St., Toronto 4, Ontario Canada.

October 30-31: International Conference, “Blood Cells as a Tissue” Philadelphia. Dr. W. L. Holmes, Division of Research, Lankenau Hospital, Philadelphia 19151.

November 2-5: International Symposium on Atherosclerosis (2nd), Chicago. Dr. Robert W. Wissler, Chicago Heart Ass’n., 22 W. Madison, Chicago 60602.

November 7-8: Clinical Aspects of Hypertensive CV Disease (AHA Council for High Blood Pressure Research, Los Angeles County Heart Ass’n., California Heart Ass’n.), Los Angeles. Medical Education Dept., AHA, 44 E. 23rd St., New York 10010.

November 11-12: AHA Council on Arteriosclerosis (Annual Meeting), Dallas. Dr. Alfred M. Bennett, AHA, 44 E. 23rd St., New York 10010.

December 4-6: Symposium on Congenital Heart Defects, Toronto. Dr. John Keith, Ontario Heart Foundation, Ontario, Canada.

1970

February 2-4: 3 Days of Cardiology (Modern Cardiac Physical Diagnosis, Course Director, Noble O. Fowler), Cincinnati. AHA Council on Clinical Cardiology, Ohio State Heart Ass’n., Heart Ass’n. of Southwestern Ohio, University of Cincinnati. Inquiries to: Medical Education Dept., AHA, 44 E. 23rd St., New York 10010.

April 12-17: American College of Physicians, Philadelphia. Dr. E. C. Rosenow, Jr., 4200 Pine St., Philadelphia 19104.

Abroad

1969

July 1-5: Asia Pacific Congress on Chest Diseases, Kyoto, Japan. Murray Kornfeld, American College of Chest Physicians, 112 E. Chestnut St., Chicago 60611.

September 1-4: International Society of Geographical Pathology, Jerusalem. Dr. I. S. Levij, Hadassah Medical School, P. O. Box 1172, Jerusalem, Israel.

September 2-4: International Congress on Hyperbaric Medicine (4th), Sapporo, Japan. Dr. Juro Wada, Sapporo Medical College, South 1, West 16, Sapporo, Japan.

September 15-18: International Congress of Internal Medicine, Warsaw. Prof. Marian Tulczynski, ul Lekarska 11, Warsaw, Poland.

September 17-20: Brazilian Congress of Angiology, Santa Maria, Brazil. Prof. Jose Mariano da Rocha, Cidade Universitaria, Santa Maria, Brazil.

December 7-13: South American Congress of Cardiology (4th), and Uruguayan Society of Cardiology (2nd), Punta del Este, Uruguay. Dr. Herman Artucio, Av. A. Graciada 1464, Montevideo, Uruguay.

1970

September 1-5: International Congress of Angiology (7th), Liege, Belgium. Dr. J. Lambert, 59 Boulevard de la Constitution, Liege, Belgium.
