350 Papers Scheduled For Heart Sessions

Approximately 350 papers on cardiovascular research and medicine will be presented at the American Heart Association's 42nd annual Scientific Sessions to be held in Dallas' Memorial Auditorium from Thursday, Nov. 13 through Sunday, Nov. 16. The sessions also will include panels, lectures, symposia, films and exhibits on a wide variety of cardiovascular subjects.

Arteriosclerosis Council Meets

In advance of AHA's Scientific Sessions, the Council on Arteriosclerosis has scheduled a scientific program on Tuesday and Wednesday, Nov. 11-12 in the Sheraton Dallas Hotel, to which all physicians and scientists are invited.

5 Postgraduate Seminars

Five all-day postgraduate seminars will be held on Wednesday, Nov. 12 in the Fairmont Hotel under sponsorship of AHA Councils on Basic Science, Cardiovascular Surgery, Circulation, High Blood Pressure Research, and Rheumatic Fever and Congenital Heart Disease.

Laennec Society Sessions

Also on Wednesday, Nov. 12, the Laennec Society's annual meeting will be held in the Fairmont Hotel under co-sponsorship of AHA's Council on Clinical Cardiology. The Society is an informal organization with membership open to all clinicians interested in various aspects of cardiovascular sound.

Clinical Nursing Conference

A two-day Clinical Nursing Conference, sponsored by the Association's new Council on Cardiovascular Nursing, has been set for Friday and Saturday, Nov. 14-15, in Dallas' Statler Hilton Hotel.

Scientific Sessions Highlights

The four-day Scientific Sessions program consists of eight meetings on Clinical Cardiology for the practicing physician, and concurrent sessions on cardiovascular research and medicine.

Thursday's opening program features the Conner Memorial Lecture by Abraham M. Rudolph on "Circulatory Adjustments at Birth: Their Importance in Congenital Heart Disease;" presentation of the 1969 Research Achievement Award; and lectures on "Etiology of Congenital Heart Disease," "Pulmonary Hypertension," and "Ventilation—Perfusion Relationships in the Lung."

The Third International Lecture, a highlight of Friday's meeting, will be given by J. Fraser Mustard on "Thromboembolism—a Manifestation of the Response of Blood to Injury." Lectures also are scheduled on "Blood Coagulation—the Clinical Implications of Recent Advances," and on "Potassium and the Heart."

Louis J. Tobian, Jr., will present this year's Brown Memorial Lecture on "Clues for Unraveling the Hypertension Problem" during Saturday's program, which also features lectures on "Cardiovascular Effects of Obesity" and "Effects of Aging on the Cardiovascular System." Cardiovascular Conferences for small group discussion are scheduled for Saturday evening.

Sunday's lectures cover "Management of Peripheral Vascular Disease," "Pericardial Disease," and "Nitroglycerine: A Contemporary Look at an Ancient Agent." Recently pro-
duced cardiovascular films will be shown all-
day Sunday.

The Association’s Annual Dinner will be
held on Sunday, Nov. 16 in the Fairmont
Hotel. On Monday and Tuesday, Nov. 17-18,
the Association’s national Assembly will hold
its Annual Meeting in the Fairmont Hotel.

Sessions in Mexico

“Problems in Cardiology” will be discussed
during three-days of special Scientific Sessions
in Mexico City from Thursday, Nov. 20 to
Saturday, Nov. 22.

Co-sponsored by AHA, Texas Heart Asso-
ciation and Instituto National de Cardiología,
the program will present leading cardiologists
from both Mexico and the United States.

Travel arrangements may be made through
the Heart Association Travel Headquarters,
1716 NBC Building, San Antonio, Texas 78205.

Registration forms for AHA’s four-day
Scientific Sessions, which include hotel reser-
vation requests, may be obtained from local
Heart Associations or the AHA National
Office.

3 Cities of Cardiology
Tour Set for Scandinavia

Following the outstanding success of its
postgraduate course, “Three Cities of Cardi-
ology” held last Spring in London, Edinburgh
and Washington, D. C., the American Heart
Association’s Council on Clinical Cardiology
is happy to announce that a similar course is
scheduled in three Scandinavian countries
from August 22 to September 8, 1970.

The program has been planned to include
medical meetings in hospitals and cardiovas-
cular centers in Copenhagen, Denmark; Stock-
holm, Sweden; and Oslo, Norway. The tour
ends in London, permitting members to at-
tend the Vlth World Congress of Cardiology
being held in that city from Sept. 6-12, 1970.

The “Three Cities of Cardiology” tour offers
a unique opportunity in professional education
for Fellows and Members of the Association’s
Council on Clinical Cardiology. The course is
co-sponsored by the Council and the Univer-
sity of Southern California School of Medicine. The faculty from the Scandinavian countries
and the United States will attend all of the
sessions and participate in the discussions.

Participating faculty will include David H.
Blankenhorn, Los Angeles; Richard Gorlin,
Boston; J. Willis Hurst, Atlanta; Phil R. Man-
nning, Los Angeles; A. Tybjaerg Hansen,
Copenhagen; Bengt Jonsson and Gunnar
Biorck, Stockholm; E. A. Ingemar Cullhed,
Uppsala; Christoffer Bjerkelund, Carsten Mul-
lar, Ole Storstein and Peter F. Hjort, Oslo.

Tuition fees for the course are $175 for
Fellows and Members of the AHA Council on
Clinical Cardiology, and $225 for non-mem-
ers. Because of housing problems, attendance
will be limited and early registration is urged.

Forms to register and further information
on the course may be obtained from the Medi-
cal Education Department, American Heart
Association, 44 E. 23rd Street, New York, N. Y.
10010.

3-Day Course Set
on CV Therapeutics

The American Heart Association’s Council
on Clinical Cardiology and the American
College of Cardiology are co-sponsoring a
“3 Days of Cardiology” postgraduate course on
the subject of Cardiovascular Therapeutics.

The course, from December 4-6 at the
Holiday Inn, La Jolla, Cal., is being held in
cooperation with the University of California,
San Diego, School of Medicine; the Scripps
Clinic and Research Foundation; San Diego
County Heart Association; and California
Heart Association. Co-directors of the course,
all on the faculty at University of California,
San Diego, School of Medicine, are Eugene
Braunwald, Professor and Chairman of the
Department of Medicine, Richard L. Kahler,
Associate Professor of Medicine and Director
of the Cardiopulmonary Division at Scripps
Clinic, and John Ross, Jr., Professor of
Medicine and Director of the Cardiovascular
Division.

Areas to be covered include “Treatment of
Coronary Artery Disease,” “Cardiac Pharma-
cology” and “Surgical Treatment of Heart
Disease.” Afternoon and evening sessions include inspection trips of the University Hospital’s cardiac catheterization laboratory, cardiac intensive care unit, myocardial infarction research unit, and the school’s basic science building.

Fees for attending the course are $50 for Fellows and Members of the Council on Clinical Cardiology and Fellows of the American College of Cardiology, and $85 for non-members. Forms for registering may be obtained from the AHA Department of Medical Education, 44 E. 23rd St., New York, N. Y. 10010.

New Volume Issued on Hypertension

The proceedings of the 1968 scientific sessions of the Association’s Council for High Blood Pressure Research have been published as Volume 17 in the Hypertension Series.

Entitled “Experimental Hypertension,” the 136-page publication was edited by Patrick J. Mulrow.

The volume is of interest to physicians, internists, cardiologists, investigators, medical schools and medical and hospital libraries, and may be obtained through local Heart Associations or the AHA National Office.

Earlier volumes in the series, covering the period from 1960 through 1967, also are available from AHA’s Distribution Department.

Offer Fellowships In Rehabilitation

Fellowships in cardiac rehabilitation for residents with a year’s training in internal medicine or physical medicine and rehabilitation are being offered by New York’s Montefiore Hospital and Medical Center for the fiscal periods beginning January or July, 1970.

Under the hospital’s new Program in Cardiac Rehabilitation, the fellowships provide for participation in the rehabilitation medicine inpatient service, in the functional evaluation of patients with recent cardiac episodes, in laboratory techniques of exercise electrocardiography, measurement of energy cost, various types of performance and exercise testing, disability evaluation and work physiology.

Stipends range from $10,250 to $12,250, depending on qualifications. Inquiries may be made to Mr. Nathan Zamoff, Department of Rehabilitation Medicine, Montefiore Hospital and Medical Center, 111 E. 210th St., Bronx, New York 10467.

Meetings Calendar

1969

October 22-25: Canadian Heart Foundation and Canadian Cardiovascular Society, Quebec City. Dr. John B. Armstrong, 1130 Bay St., Toronto 4, Ontario, Canada.

November 2-5: International Symposium on Atherosclerosis (2nd), Chicago. Dr. Robert W. Wissler, Chicago Heart Ass’n, 22 W. Madison, Chicago 60602.

November 7-8: Symposium, “Primary and Secondary Hypertension: Mechanisms, Diagnosis and Management” (AHA Council for High Blood Pressure Research, Cedars-Sinai Medical Center, Los Angeles County Heart Association), Los Angeles. Medical Education Dept., AHA, 44 E. 23rd St., New York 10010.

November 11-12: AHA Council on Artherosclerosis (Annual Meeting), Dallas. Dr. Alfred M. Bennett, AHA, 44 E. 23rd St., New York 10010.

November 30-December 3: American Medical Association (Clinical Convention), Denver. Dr. Ernest B. Howard, 535 N. Dearborn, Chicago 60610.

December 4-6: 3 Days of Cardiology (Cardiovascular Therapeutics, Course Directors, Eugene Braunwald, Richard L. Kahler, John
