Circulation

VOL. XLIII       FEBRUARY, 1971       NUMBER 2

EDITORIALS:
On the Difference Between the Heart's Output and Its Contractile State. Eugene Braunwald
Direct Revascularization Procedures in the Management of Myocardial Ischemia. David C. Sabiston
Measurement of Serum Digitalis Glycosides: Clinical Implications. Thomas W. Smith

ORIGINAL ARTICLES:
Subacute Effusive-Constrictive Pericarditis. E. W. Hancock
Bundle Branch and Ventricular Activation in Man: A Study Utilizing Catheter Recordings of Left and Right Bundle Branch Potentials. Kenneth M. Rosen, Shahbudin H. Rahimtoola, M. Ziad Sinno, and Rolf M. Gunnar
Interrelationships of Hepatic Blood Flow, Cardiac Output, and Blood Levels of Lidocaine in Man. Robert E. Stenson, Robert T. Constantino, and Donald C. Harrison
Pathophysiology of the Pulmonary Circulation in Emphysema Associated with Alpha, Antitrypsin Deficiency. Paul D. Stein, Jerry D. Leu, Martin H. Welch, and Clarence A. Guenter
Analysis of Left Ventricular Function by Atrial Pacing. John O. Parker, Fareeduddin Khaja, and Robert B. Case
Resting and Postexercise Phonocardiogram and Electrocardiogram in Patients with Angina Pectoris and in Normal Subjects. Wilbert S. Aronow, Ronald R. Uyeyama, John Cassidy, and Joseph Nebol
Left Bundle Branch Block: Etiologic, Hemodynamic, and Ventriculographic Considerations. Jacob I. Haft, Michael V. Herman, and Richard Gorlin
Abnormal Responses of the Systolic Time Intervals to Exercise in Patients with Angina Pectoris. Jean M. Pouget, Willard S. Harris, Bart R. Mayron, and John P. Naughton
Mode of Action of Chlorophenoxyisobutyric Acid on Cholesterol Metabolism in Man. L. B. Horlick, B. J. Kudchodkar, and H. S. Sodhi

RADIOLOGIC NOTES IN CARDIOLOGY:
Obscuration of the Aortic Knob in Coarctation of the Aorta. Murray G. Baron

LETTERS TO THE EDITOR:
Modification of Infarct Size. John P. Boineau
Paroxysmal Supraventricular Tachycardia. R. Langendorf
Valvular Aortic Stenosis. James H. Moller

NEWS FROM THE AMERICAN HEART ASSOCIATION
Report of Inter-Society Commission for Heart Disease Resources: Optimal Radiologic Facilities for Examination of the Chest and the Cardiovascular System
### Contents

**Beta-Receptor Blockade and Myocardial Effects of Cardiac Glycosides.** Jan Koch-Weser .......................................................... 109

**Fourier Analysis of Left Ventricular Performance: Evaluation of Impedance Matching.** Francis L. Abel ............................................................... 119

**Effect of Oxygen on Growth of Cultured Myocardial Cells.** Milton Hollenberg .............................................................. 148

**Microsphere Measurement of Intrarenal Circulation of the Dog.** Lawrence M. Slotkoff, Alexander Logan, Pedro Jose, John D’Avella, and Gilbert M. Eisner .......................................................... 158

**Action of Diaxoxide on Skeletal Muscle Vascular Resistance.** Wm. John Powell, Jr., Richard M. Green, Richard B. Whiting, and Charles A. Sanders .......................................................... 167

**Distribution Theory of Resistance of Neurogenic Vasconstriction to Alpha-Receptor Blockade in the Rabbit.** John A. Bevan and Che Su .......................................................... 179

**Effects of 6-Hydroxydopamine on the Canine Sinus Node.** Victor Elharrar, Jacques de Champlain, and Réginald A. Nadeau .......................................................... 188

**Conduction of the Cardiac Impulse: I. Delay, Block, and One-Way Block in Depressed Purkinje Fibers.** Paul F. Cranefield, Herman O. Klein, and Brian F. Hoffman .......................................................... 199

**Conduction of the Cardiac Impulse: II. Summation and Inhibition.** Paul F. Cranefield and Brian F. Hoffman .......................................................... 220

**Mechanical Properties of Rat Cardiac Muscle during Experimental Hypertrophy.** Oscar H. L. Bing, Satoru Matsuchita, Barry L. Fanburg, and Herbert J. Levine .......................................................... 234

**Converting Enzyme Activity in Human Plasma.** Annette Fitz, Graham W. Boyd, and Stanley Peart .......................................................... 246

**Effects of Altered Smooth Muscle Tone on Aortic Diameter and Aortic Baroreceptor Activity in Anesthetized Rabbits.** Harold Aars .......................................................... 254

**Effect of Ischemia and Antianginal Drugs on the Distribution of Radioactive Microspheres in the Canine Left Ventricle.** Lewis C. Becker, Nicholas J. Fortuin, and Bertram Pitt .......................................................... 263

**Synergistic Effect of Propranolol and Nicotinic Acid on the Inhibition of Plasma Free Fatty Acid Release in the Dog.** Manuel J. Lipson, Shapur Naimi, and Samuel Proger .......................................................... 270

**Total Systemic Vascular Compliance Measured as Incremental Volume-Pressure Ratio.** Artin A. Shoukas and Kiichi Sagawa .......................................................... 277

**News from the American Heart Association.** .......................................................... 298
