Circulation Research
AN OFFICIAL JOURNAL OF THE AMERICAN HEART ASSOCIATION

VOLUME XXXIII
July-December
1973

No. 1 (July)

Brief Reviews: Transcapillary Fluid Exchange in the Renal Cortex.
William M. Deen, Channing R. Robertson, and Barry M. Brenner .... 1

Comparison of Sympathetic Nerve Activity in Normotensive and Hypertensive Subjects. B. Gunnar Wallin, Wolfram Delius, and Karl-Erik Hagbarth .................................................. 9

Control of Total Systemic Vascular Capacity by the Carotid Sinus Baroreceptor Reflex. Artin A. Shoukas and Kiichi Sagawa ........... 22

Left Circumflex Coronary Artery Hemodynamics in Conscious Dogs with Congenital Subaortic Stenosis. R. Lee Pyle, Howard S. Lowensohn, Edward M. Khouri, Donald E. Gregg, and Donald F. Patterson ..... 34

Depolarization and Action Potential Duration in Cardiac Purkinje Fibers.
Makoto Arita and Borys Surawicz ........................................... 39

Microelectrode Demonstration of Wedensky Facilitation in Canine Cardiac Purkinje Fibers. John C. Bailey, Joseph F. Spear, and E. Neil Moore 45

Circus Movement in Rabbit Atrial Muscle as a Mechanism of Tachycardia. Mauritits A. Allesgie, Felix I. M. Bonke, and Francien J. G. Schopman 54

Integrative Reflex Control of Heart Rate in the Rabbit during Hypoxia and Hyperventilation. Paul I. Korner, John Shaw, Malcolm J. West, Judith R. Oliver, and Roland B. Hilder ....................... 63

Adrenergic Control of the Peripheral Circulation in Cardiomyopathic Hamsters with Heart Failure. Allyn L. Mark, Howard E. Mayer, Phillip G. Schmid, Donald D. Heistad, and Francois M. Abboud .... 74

Adrenergic Component of Renin Release Induced by Vasodilating Antihypertensive Drugs in the Rat. William A. Pettinger, William B. Campbell, and Kent Keeton ..................................... 82

Responsiveness of Isolated Cerebral and Peripheral Arteries to Serotonin, Norepinephrine, and Transmural Electrical Stimulation.
Noboru Toda and Yuzo Fujita .................................................. 98

Instructions to Authors ...................................................... 123

News from the American Heart Association ............................. 127

No. 2 (August)

Brief Reviews: Circulatory Reflexes from Mechanoreceptors in the Cardio-Aortic Area. Conrad L. Pelletier and John T. Shepherd .... 131
Evaluation of Several Methods for Computing Stroke Volume from Central Aortic Pressure. C. Frank Starmer, Philip A. McHale, Frederick R. Cobb, and Joseph C. Greenfield, Jr. .................................................. 139
Sympathetic Control of Canine Abdominal Aorta. Mária Gerová, Ján Gero, Svatopluk Doležel, and Ida Blázková-Huzuláková .............................................. 149
Modifications of the Aortic and Vagal Depressor Reflexes by Hypercapnia in the Rabbit. Norbert T. Ott and John T. Shepherd ........................................... 160
Effects of Norepinephrine and Sympathetic Stimulation on Extraction of Oxygen and 86Rb in Perfused Canine Small Bowel. A. Pitt Shepherd, David Mailman, Thomas F. Burks, and Harris J. Granger ................. 166
Comparative Effects of Castration and Antiandrogen Treatment on the Aortas of Hypertensive and Normotensive Male Rats. Harvey Wolinsky ............. 183
Morphometry of the Human Pulmonary Arterial Tree. Siam Singhal, Robert Henderson, Keith Horsfield, Keith Harding, and Gordon Cumming .......... 190
Mechanism for the Abnormal Energetics of Pressure-Induced Hypertrophy of Cat Myocardium. George Cooper, IV, Richard M. Satava, Jr., Carlos E. Harrison, and Henry Neal Coleman, III ........................................... 213
Studies on the Coronary Circulation during Rejection of the Heterotopically Transplanted Dog Heart. Henry J. Paoloni, David E. L. Wilcken, and Athol W. J. Lykke .................................................. 224
Assessment of Passive Elastic Stiffness for Isolated Heart Muscle and the Intact Heart. Israel Mirsky and William W. Parmley .................... 233
Multiple Pacemaker Sites in Spontaneously Active Vascular Muscle. Kent Hermsmeyer .......................................................... 244
News from the American Heart Association .................................................. 251

No. 3 (September)
Brief Reviews: Hemodynamic Theories of Atherogenesis. Fred B. Gessner 259
Myocardial Reactive Hyperemia and Coronary Vascular Reactivity in the Dog. Eduards Eikens and David E. L. Wilcken .............................................. 267
Evaluation of Several Geometric Models for Estimation of Left Ventricular Circumferential Wall Stress. Philip A. McHale and Joseph C. Greenfield, Jr. .............................................. 303

(Continued)
CONTENTS OF VOLUME XXXIII

Time Course of Vascular Resistance and Venous Oxygen Changes following Brief Tetanus of Dog Skeletal Muscle. David E. Mohrman, James R. Cant, and Harvey V. Sparks ........................................... 323

Resistance and Venous Oxygen Dynamics during Sinusoidal Exercise of Dog Skeletal Muscle. David E. Mohrman and Harvey V. Sparks ............. 337

Cardiovascular and Metabolic Effects of Whole or Fractionated Gram-Negative Bacterial Endotoxin in the Unanesthetized Rhesus Monkey. Michael J. Reichgott, Kenneth L. Melmon, Ralph P. Forsyth, and Dirk Greineder .................................................. 346

Reduction by Propranolol of Myocardial Necrosis following Temporary Coronary Artery Occlusion in Dogs. Keith A. Reimer, Margaret M. Rasmussen, and Robert R. Jennings .......... 353

News from the American Heart Association .............................................. 364

No. 4 (October)

Brief Reviews: Magnesium in Heart Muscle. Philip I. Polimeni and Ernest Page .................. 367

Role of the Atrium in Determining the Functional and Effective Refractory Periods and the Conductivity of the Atrioventricular Transmission System. Gregory R. Ferrier and Peter E. Dresel ........................................... 375

Role of Muscular Contraction in the Reflex Vascular Responses to Stimulation of Muscle Afferents in the Dog. Denis L. Clement, Conrad L. Pelletier, and John T. Shepherd ................. 386

Effect of Neomycin and Other Antibiotics on Serum Cholesterol Levels and on 7α-Dehydroxylation of Bile Acids by the Fecal Bacterial Flora in Man. Paul Samuel, Charles M. Hiltzman, Edward Mellman, and Ignacy Sekowski .................................................. 393

Further Observations on the Activation and Inhibition of Lipoprotein Lipase by Apolipoproteins. Ronald M. Krauss, Peter N. Herbert, Robert I. Levy, and Donald S. Fredrickson ............................ 403

Mechanisms of Activation of Cardiac Glycogen Phosphorylase in Ischemia and Anoxia. James G. Dobson, Jr., and Steven E. Mayer .................. 412

Inactivation of Bradykinin in the Pulmonary Vascular Bed of Newborn and Fetal Lambs. Beat Friedli, Geraldine Kent, and Peter M. Olley ............. 421

Contribution of Intrarenal Generation of Prostaglandin to Autoregulation of Renal Blood Flow in the Dog. Krystyna Herbaczynska-Cedro and John R. Vane .................................................. 428

Redistribution of Renal Intracortical Blood Flow during Dopamine Infusion in Dogs. William T. Hardaker, Jr., and Andrew S. Wechsler ............. 437

(Continued)
CONTENTS OF VOLUME XXXIII

Cardiac Extracellular Potentials: Analysis of Complex Wave Forms about the Purkinje Networks in Dogs. Madison S. Spach, Roger C. Barr, Edward A. Johnson, and J. Mairen Kootsey .................................................. 465

Letters to the Editor ................................................................. 474

News from the American Heart Association ................................... 476

No. 5 (November)

Brief Reviews: Prostaglandins and the Kidney. John C. McGiff and Harold D. Itskovitz ............................................................. 479

Mechanism for Flow Distribution in Normal and Ischemic Myocardium during Increased Ventricular Preload in the Dog. John K. Kjekshus ................................................................. 489

Mechanism of Renal Handling of Angiotensin II in the Dog. Suzanne Oparil and Michael D. Bailie .................................................. 500

Effect of Calcium on Acetylstrophanthidin-Induced Transient Depolarizations in Canine Purkinje Tissue. Gregory R. Ferrier and Gordon K. Moe ................................................................. 508

Role of the Adrenal Glands in the Development of Severe Hypertension. Oscar A. Carretero, Gary Enzmann, Carl Polomski, Alexandra Piwonska, Narendra B. Oza, and Anthony Schork ................................................................. 516

Ventricular Conduction Delay and Arrhythmias during Regional Hyperkalemia in the Dog: Electrical and Myocardial Ion Alterations. Philip O. Ettinger, Timothy J. Regan, Henry A. Oldewurtel, and Mohammad I. Khan ................................................................. 521

A Two-Compartment Model Describing the Release and Negative Inotropic Action of Acetylcholine on the Heart. Max E. Valentinuzzi, Hebbel E. Hoff, and Leslie A. Geddes ................................................................. 532

Effect of Sodium Balance on Arterial Blood Pressure and Renal Responses to Prostaglandin A, in Man. Lawrence B. Krakoff, Daisy De Guia, Nicholas Vlachakis, Jennie Stricker, and Marvin Goldstein ................................................................. 539

Effect of Dietary Sodium Intake on the Intrarenal Distribution of Nephron Glomerular Filtration Rates in the Rat. Jaime B. Coelho ................................................................. 547

Altered Ion Transport in Vascular Smooth Muscle from Spontaneously Hypertensive Rats: Influences of Aldosterone, Norepinephrine, and Angiotensin. Allan W. Jones ................................................................. 563

Regional Distribution of Diffusible Tracers and Carbonized Microspheres in the Left Ventricle of Isolated Dog Hearts. Tada Yiptsoi, William A. Dobbs, Jr., Paul D. Scanlon, Thomas J. Knopp, and James B. Bassingthwaighte ................................................................. 573

Effects of Increased Myocardial Oxygen Consumption on Coronary Reactive Hyperemia in the Awake Dog. Robert J. Bache, Frederick R. Cobb, and Joseph C. Greenfield, Jr. ................................................................. 588

Survival of Subendocardial Purkinje Fibers after Extensive Myocardial Infarction in Dogs: In Vitro and In Vivo Correlations. Peter L. Friedman, James R. Stewart, John J. Fenoglio, Jr., and Andrew L. Wit ................................................................. 597

(Continued)
CONTENTS OF VOLUME XXXIII

Spontaneous and Induced Cardiac Arrhythmias in Subendocardial Purkinje Fibers Surviving Extensive Myocardial Infarction in Dogs. Peter L. Friedman, James R. Stewart, and Andrew L. Wit 612

Letters to the Editor 627

News from the American Heart Association 628

No. 6 (December)

Force-Frequency Relationship: A Basis for a New Index of Cardiac Contractility? Page A. W. Anderson, Andres Manring, and Edward A. Johnson 665

Left Atrial Receptor Discharge during Atrial Arrhythmias in the Dog. Irving H. Zucker and Joseph P. Gilmore 672

Reactivity of Vascular Smooth Muscle in Hypertensive Rats. Edwin T. Holloway and David F. Bohr 678

Radioimmunoassay of Prostaglandin A: Intrarenal PGA 2 as a Factor Mediating Saline-Induced Natriuresis. Ahmad A. Attallah and James B. Lee 696

Inhibition of Adrenergic Outflow to Peripheral Blood Vessels by Vagal Afferents from the Cardiopulmonary Region in the Dog. Giuseppe Mancia, David E. Donald, and John T. Shepherd 713

Electrophysiological Properties of Canine Purkinje Cells in One-Day-Old Myocardial Infarction. Ralph Lazzara, Nabil El-Sherif, and Benjamin J. Scherlag 722

Dynamics of Plasma-Interstitial Fluid Distribution following Intravenous Infusions in Dogs: An Experimental and Computer Simulation Study. Joel I. Leonard and Peter H. Abbrecht 735

Letters to the Editor 757

Books Received 758

Acknowledgment to Reviewers 759
