Circulation Research

AN OFFICIAL JOURNAL OF THE AMERICAN HEART ASSOCIATION

VOLUME 37

July-December 1975

No. 1 (July)

Brief Reviews: Ultrastructure of the Myocardial Sarcolemma. N. Scott McNutt ......... 1

Effect of Sympathetic Denervation on Smooth Muscle Cell Proliferation in the Growing Rabbit Ear Artery. Rosemary D. Bevan ....................... 14

Effect of Lidocaine and Quinidine on Steady-State Characteristics and Recovery Kinetics of (dV/dt)_max in Guinea Pig Ventricular Myocardium. Chia-Maou Chen, Leonard S. Gettes, and Bertram G. Katzung ....................... 20

Reflex Heart Rate Control Via Specific Aortic Nerve Afferents in the Rabbit. Merrill B. Kardon, D. Fred Peterson, and Vernon S. Bishop ....................... 41

The Differences in Atrioventricular Conduction of Premature Beats in Young and Adult Goats. William B. Gough and E. Neil Moore ....................... 48

Disappearance of Bradykinin in the Renal Circulation of Dogs: Effects of Kininase Inhibition. Alberto Nasjletti, Jose Colina-Chourio, and John C. McGiff ....................... 59

Control of Aldosterone Secretion in the Spontaneously Hypertensive Rat. Ronald H. Freeman, James O. Davis, Nora Varsano-Aharon, Stanley Ulick, and Myron H. Weinberger ........................................ 66

Localization Patterns of Plasma Apolipoproteins in Human Atherosclerotic Lesions. Henry F. Hoff, Carol L. Heideman, Richard L. Jackson, Roberto J. Bayardo, Han-Seob Kim, and Antonio M. Gotto, Jr. ........................................ 72

Effect of Norepinephrine and Fluid Administration on Pulmonary Extravascular Water Volume in Dogs. James H. Ellis, Jr., and John F. Murray ....................... 80

Control of Myocardial Oxygen Tension by Sympathetic Coronary Vasoconstriction in the Dog. Eric O. Feigl ........................................ 88

Vascular Angiotensin II Receptors and Sodium Balance in Rats: Role of Kidneys and Vascular Renin Activity. John D. Swales, John D. Tange, and Herbert Thurston ....................... 96

Effects of Norepinephrine and Angiotensin II on the Determinants of Glomerular Ultrafiltration and Proximal Tubule Fluid Reabsorption in the Rat. Bryan D. Myers, William M. Deen, and Barry M. Brenner ........................................ 101

Uniformity of Transmural Perfusion in Anesthetized Dogs with Maximally Dilated Coronary Circulations. H. Fred Downey, Fouad A. Bashour, Roger B. Boatwright, Paul E. Parker, and Sarkis J. Kechejian ........................................ 111

Effects of Extracellular Calcium and Sodium on Depolarization-Induced Automaticity in Guinea Pig Papillary Muscle. Bertram G. Katzung ....................... 118

Instructions to Authors ........................................ 128

News from the American Heart Association ........................................ 132
Brief Reviews: Estimation of Extravascular Lung Water by Indicator-Dilution Techniques. Francis P. Chinard ................................................................. 137

The Sequence of Retrograde Atrial Activation in the Canine Heart: Correlation with Positive and Negative Retrograde P Waves. Albert L. Waldo, Kari J. Vitikainen, and Brian F. Hoffman .................................................. 156

Alpha-Receptor Stimulation by Endogenous and Exogenous Norepinephrine and Blockade by Phentolamine in Pial Arteries of Cats. Wolfgang Kuschinsky and Michael Wahl .................................................. 168

Reflex Parasympathetic Coronary Vasodilation Elicited from Cardiac Receptors in the Dog. Eric O. Feigl ........................................................................ 175

Analysis of Changes in Reactivity of Rabbit Arteries and Veins Two Weeks after Induction of Hypertension by Coarctation of the Abdominal Aorta. John A. Bevan, Rosemary D. Bevan, Potter C. Chang, Barbara L. Pegram, Ralph E. Purdy, and Che Su .................................................. 183

Regional Differences in Myocardial Performance in the Left Ventricle of the Dog. Martin M. LeWinter, Richard S. Kem, John M. Kroener, Thomas E. Carew, and James W. Covell .................................................................. 191

Role of Cardiac, Pulmonary, and Carotid Mechanoreceptors in the Control of Hind-Limb and Renal Circulation in Dogs. Giuseppe Mancia, John T. Shepherd, and David E. Donald .................................................. 200

Visceromotor Organization within Descending Spinal Sympathetic Pathways in the Dog. Susan M. Barman and Robert D. Wurster .................................................. 209

Effects of an Inotropic Agent, RO 2-2985 (X-537A), on Regional Blood Flow and Myocardial Function in Chronically Instrumented Conscious Dogs and Anesthetized Dogs. Henry G. Hanley, Robert M. Lewis, Craig J. Hartley, Dean Franklin, and Arnold Schwartz .................................................. 215

Fulminating Arterial Hypertension with Pulmonary Edema from Release of Adrenomedullary Catecholamines after Lesions of the Anterior Hypothalamus in the Rat. Marc A. Nathan and Donald J. Reis .................................................. 226

Ventricular Intramural and Epicardial Potential Distributions during Ventricular Activation and Repolarization in the Intact Dog. Madison S. Spach and Roger C. Barr .................................................. 243

News from the American Heart Association .................................................. 258

No. 3 (September)

Brief Reviews: Myocardial Reactive Hyperemia. Ray A. Olsson .................................................. 263

Bronchopulmonary Arterial Shunting without Anatomic Anastomosis in the Dog. Albert L. Hyman, David S. Knight, Paul D. Joiner, and Philip J. Kadowitz .................................................. 285
CONTENTS OF VOLUME 37

Sarcomere Length-Tension Relations in Living Rat Papillary Muscle. Fred J. Julian and Michael R. Sollins ........................................... 299

Interaction between Cyclic Adenosine Monophosphate and Cyclic Guanosine Monophosphate in Guinea Pig Ventricular Myocardium. August M. Watanabe and Henry R. Besch, Jr. .................................... 309

Direct Effect of Beta-Adrenergic Stimulation on Renin Release by the Rat Kidney Slice In Vitro. Myron H. Weinberger, Wataru Aoi, and David P. Henry ............ 318

Effects of Potassium Ion on the Microcirculation of the Hamster. Brian R. Duling .... 325

Altered Ion Transport in Aortic Smooth Muscle during Deoxycorticosterone Acetate Hypertension in the Rat. Allan W. Jones and Robert G. Hart .................. 333

Sleep-Stage Regulation of Ventricular Arrhythmias in the Unanesthetized Pig. James E. Skinner, David N. Mohr, and Peter Kellaway ...................... 342

Selective Inhibition by des-1-Asp-8-Ile-Angiotensin II of the Steroidogenic Response to Restricted Sodium Intake in the Rat. Christina A. Sarstedt, E. Darracott Vaughan, Jr., and Michael J. Peach ........................................ 350

Effect of Exercise on Dilution Estimates of Extravascular Lung Water and on the Carbon Monoxide Diffusing Capacity in Normal Adults. Carl A. Goresky, J. Wayne Warnica, John H. Burgess, and Brita E. Nadeau ........................................... 379

Glycoside Inotropy in the Absence of an Increase in Potassium Efflux in the Rabbit Heart. Philip A. Poole-Wilson and Glenn A. Langer ............... 390

Letters to the Editor .......................................................... 396

News from the American Heart Association ...................................... 398

No. 4 (October)

Brief Reviews: The Voltage Clamp and Cardiac Electrophysiology. Harry A. Fozzard and George W. Beeler, Jr. ........................................... 403

Sinoatrial Transmission and Atrial Invasion during Normal Rhythm in the Rabbit Heart. Masako Oya Masuda and Antonio Paes de Carvalho ........................................... 414

Influence of Cardiopulmonary Vagal Afferent Activity on Carotid Chemoreceptor and Baroreceptor Reflexes in the Dog. Hiyoyuki Koike, Allyn L. Mark, Donald D. Heistad, and Phillip G. Schmid ........................................... 422

Effect of Spatial Variations in Shear on Diffusion at the Wall of an Arterial Branch. Morton H. Friedman and Louis W. Ehrlich ........................................... 446

Changes in Intramyocardial ST Segment Voltage and Gas Tensions with Regional Myocardial Ischemia in the Dog. Shukri F. Khuri, John T. Fiherty, John B. O'Riordan, Bertram Pitt, Robert K. Brawley, James S. Donahoo, and Vincent L. Gott ........................................... 455

Precordial and Epicardial Surface Potentials during Myocardial Ischemia in the Pig: A Theoretical and Experimental Analysis of the TQ and ST Segments. Roger P. Holland and Harold Brooks ........................................... 471
**CONTENTS OF VOLUME 37**

**Stress, Deformation, and Atelectasis of the Lung. Yuan-Cheng Fung** .......................... 481

**Does the Surface Tension Make the Lung Inherently Unstable? Yuan-Cheng Fung**  .... 497

**Evidence for an Increase in Adrenergic Nerve Function in Blood Vessels from Experimental Hypertensive Rabbits. Rosemary D. Bevan, Ralph E. Purdy, Che Su, and John A. Bevan** .......................... 503

**Letters to the Editor** ........................................ 521

**News from the American Heart Association** .................................................. 522

**No. 5 (November)**

**Brief Reviews: The Metabolic Significance of the Malate-Aspartate Cycle in Heart. Brian Safer** ........................................ 527

**Interaction of Sequential Stimuli Applied during the Relative Refractory Period in Relation to Determination of Fibrillation Threshold in the Canine Ventricles. Juan Tamargo, Bruce Moe, and Gordon K. Moe** ........................................ 534

**Acetylcholine-Induced Reversal of Canine and Feline Atrial Myocardial Depression during Stretch, Cardiac Failure, and Drug Toxicity. Henry Gelband, Robert J. Myerburg, Brian F. Hoffman, and Arthur L. Bassett** ........................................ 542

**Pathogenesis of Acute Renal Failure following Temporary Renal Ischemia in the Rat. William J. Arendshorst, William F. Finn, and Carl W. Gottschalk** ........................................ 558

**Central and Peripheral Adrenergic Mechanisms in the Development of Deoxycorticosterone-Saline Hypertension in Rats. John L. Reid, Justin A. Zivin, and Irwin J. Kopin** ........................................ 569

**Calcium-Accumulating Properties of Subcellular Fractions of Bovine Vascular Smooth Muscle. George D. Ford and Michael L. Hess** ........................................ 580

**Potassium Influx in the Frog Atrium during the Cardiac Cycle. David F. Juncker, Peter Y. H. Lee, Ernest A. Greene, Richard Stish, and Victor Lorber** ........................................ 597

**Active and Passive Immunization Against Angiotensin II in the Rat and Rabbit: Evidence for a Normal Regulation of the Renin-Angiotensin System. Peter Oster, Harald Bauknecht, and Eberhard Hackenthal** ........................................ 607

**Abnormalities of Renal Perfusion and the Renal Pressor System in Dogs with Chronic Aortic Coarctation. Susan P. Bagby, Walter J. McDonald, David W. Strong, George A. Porter, William M. Bennett, and Lawrence I. Bonech** ........................................ 615

**Influence of Potassium Ions and Osmolality on the Resting Membrane Potential of Rabbit Ventricular Papillary Muscle with Estimation of the Activity and the Activity Coefficient of Internal Potassium. Toshio Akiyama and Harry A. Fozzard** ........................................ 621

**Effect of Lidocaine on the Early Inward Transient Current in Sheep Cardiac Purkinje Fibers. Francis M. Weld and J. Thomas Bigger, Jr.** ........................................ 630

**Effect of the Angiotensin II Blocker 1-Sar-8-Ala-Angiotensin II on Renal Artery Clip Hypertension in the Rat. Graham J. Macdonald, Graham W. Boyd, and W. Stanley Peart** ........................................ 640

**Increased Sheep Lung Vascular Permeability Caused by Histamine. Kenneth L. Brigham and Patty Jill Owen** ........................................ 647
CONTENTS OF VOLUME 37

Dissociation Constant of the Norepinephrine-Receptor Complex in Normotensive and Hypertensive Rats. Robert B. Strecker, Walter C. Hubbard, and Andrew M. Michelakis .......................................................... 658

Membrane Currents and Tension in Cat Ventricular Muscle Treated with Cardiac Glycosides. Terence F. McDonald, Hermann Nawrath, and Wolfgang Trautwein .... 674

News from the American Heart Association .......................................................... 690

No. 6 (December)

Expansion of Extracellular Space in the Nonischemic Zone of the Infarcted Heart and Concomitant Changes in Tissue Electrolyte Contents in the Rat. Philip I. Polimeni and Jafar Al-Sadir .................................................. 725

Mechanisms of Glycolytic Inhibition in Ischemic Rat Hearts. Michael J. Rovetto, William F. Lamberton, and James R. Neely ............ 742

Comparison of Contractile Performance of Canine Atrial and Ventricular Muscles. Ferdinand Urrthaler, Alfred A. Walker, Lloyd L. Hefner, and Thomas N. James ......... 762

Baroreceptor Reflex Control of Arterial Hemodynamics in the Dog. Robert H. Cox and Roger J. Bagshaw ........................................ 772

Muscle Stiffness Determined from Canine Left Ventricular Pressure-Volume Curves. Stanton A. Glantz and Robert S. Kernoff ........................................ 787

Hypotensive Effect of Clonidine during Sodium Depletion in the Rat. Donald T. Pals ........................................ 795

Glomerular Filtration Response to Elevated Ureteral Pressure in Both the Hydropenic and the Plasma-Expanded Rat. Roland C. Blantz, Karen S. Konnen, and Bryan J. Tucker ........................................ 819

Analysis of Ventricular Activation and Repolarization from Intramural and Epicardial Potential Distributions for Ectopic Beats in the Intact Dog. Madison S. Spach and Roger C. Barr ........................................ 830
Electrophysiological Actions of Disopyramide Phosphate on Canine Ventricular Muscle and Purkinje Fibers. Teresa Kus and Betty I. Sasyniuk  844

Books Received  ......................................................... 863

Acknowledgment to Reviewers ........................................ 864

News from the American Heart Association  ......................... 867

Volume Author Index .................................................... 871

Volume Subject Index ................................................... 873
