Circulation Research
AN OFFICIAL JOURNAL OF THE AMERICAN HEART ASSOCIATION

VOLUME 38
January–June 1976

No. 1 (January)

Serum Dopamine β-Hydroxylase as an Index of Sympathetic Nervous System Activity in Man. Robert H. Noth and Patrick J. Mulrow .......................................................... 2
The Response of Atrial Stretch Receptors to Increases in Heart Rate in Dogs. Irving H. Zucker and Joseph P. Gilmore .......................................................... 15
Effect of Stimulation of Carotid Chemoreceptors on Total and Regional Cerebral Flow. Donald D. Heistad, Melvin L. Marcus, James C. Ehrhardt, and Francois M. Abboud ...... 20
Facilitation of Adrenergic Transmission by Locally Generated Angiotensin II in Rat Mesenteric Arteries. K.U. Malik and A. Nasjletti .......................................................... 26
Renal Cortical Blood Flow in Glycerol-Induced Acute Renal Failure in the Rat. Theodore W. Kurtz, Roy M. Maletz, and Chen H. Hsu .......................................................... 30
Atrial Rhythm during Ventricular Fibrillation in the Dog. Allen M. Scher, Robert M. Heethaar, Ariaen N. E. Zimmerman, and Frits L. Meijler .......................................................... 41
Instructions to Authors .................................................................................................................. 46
News from the American Heart Association .................................................................................. 49

No. 2 (February)

Brief Reviews: The Concept of Active State in Striated Muscle. Fred J. Julian and Richard L. Moss .......................................................... 53
Distribution of Myocardial Blood Flow in the Exercising Dog with Restricted Coronary Artery Inflow. Robert B. Ball and Robert J. Bache .......................................................... 60
Ventricular Elastic Modulus as a Function of Age in the Syrian Golden Hamster. Richard L. Kane, Thomas A. McMahon, Richard L. Wagner, and Walter H. Abelmann .......................................................... 74
Effect of Vagal Stimulation on the Overflow of Norepinephrine into the Coronary Sinus during Cardiac Sympathetic Nerve Stimulation in the Dog. Matthew N. Levy and Benjamin Blatberg .......................................................... 81
Triggered Activity in Cardiac Muscle Fibers of the Simian Mitral Valve. Andrew L. Wit and Paul F. Cranefield .......................................................... 85
Inhibition of Hypoxic Pulmonary Vasoconstriction by Calcium Antagonists in Isolated Rat Lungs. Ivan F. McMurtry, Allan B. Davidson, John T. Reeves, and Robert F. Grover .......................................................... 99
Contrasting Effects of Hypoglycemia on Plasma Renin Activity and Cyclic Adenosine 3',5'-Monophosphate (Cyclic AMP) in Low Renin and Normal Renin Essential Hypertension. Stephen C. Lowder, Pavel Hamet, and Grant W. Liddle 105

Circulating Catecholamine Levels in Human and Experimental Hypertension. Jacques de Champlain, Lise Farley, Daniel Cousineau, and Marie-Reine van Ameringen 109

The Effect of Procaine Amide on Components of Excitability in Long Mammalian Cardiac Purkinje Fibers. Morton F. Arnsdorf and J. Thomas Bigger, Jr. 115

Evidence for a Physiological Role of Renal Sympathetic Nerves in Adrenergic Stimulation of Renin Release in the Rat. Wataru Aoi, David P. Henry, and Myron H. Weinberger 123

News from the American Heart Association 127

No. 3 (March)

Brief Reviews: Cardiovascular and Pulmonary Dynamics by Quantitative Imaging. Earl H. Wood 131

Electron Microscopic Immunohistochemical Identification of Endothelial Cells in the Rabbit. Michael B. Stemerman, Frances A. Pitlick, and Herbert M. Dembitzer 146

The Effects of Tension on Acetylcholophantidin-Induced Transient Depolarizations and Aftercontractions in Canine Myocardial and Purkinje Tissues. Gregory R. Ferrier 156

Vascular Responses to Arachidonic Acid in the Perfused Canine Lung. Thomas C. Wicks, John C. Rose, Malcolm Johnson, Peter W. Ramwell, and Peter A. Kot 167

Adaptations of the Left Ventricle to Chronic Pressure Overload. Shigetake Sasayama, John Ross, Jr., Dean Franklin, Colin M. Bloor, Sanford Bishop, and Ralph B. Dilley 172

Depletion of Cardiac Norepinephrine during Two Forms of Hemolytic Anemia in the Rat. John W. Swann and Joseph F. Contrera 179

Renal Tubular Transport of 3H-Digoxin in Saline Diuresis in Rats: Evaluation by Micropuncture. Richard J. Roman and Michael L. Kauker 185

Effect of Hindlimb Isolation Procedure on Isogravimetric Capillary Pressure and Transcapillary Fluid Dynamics in Dogs. Robert A. Brace and Arthur C. Guyton 192

The Role of Angiotensin in the Canine Renal Vascular Response to Barbiturate Anesthesia. Bruno M. Burger, Timothy Hopkins, Allistair Tulloch, and Norman K. Hollenberg 196

The Effect of Lidocaine on Diastolic Transmembrane Currents Determining Pacemaker Depolarization in Cardiac Purkinje Fibers. Francis M. Weld and J. Thomas Bigger, Jr. 203

Afferent Neural Pathway in the Regulation of Cardiopulmonary Responses to Tissue Hypermetabolism. Chang-seng Liang and William B. Hood, Jr. 209

Letters to the Editor 215

News from the American Heart Association 217

No. 4 (April)

CONTENTS OF VOLUME 38

Effects of Activation Sequence on the Local Recovery of Ventricular Excitability in the Dog. J. A. Abildskov .......................................................... 240

The Relationship between Age and Relaxation of Vascular Smooth Muscle in the Rabbit and Rat. Jerome H. Fleisch and Carol S. Hooker ........................................... 243

Effect of Thoracic Blood Volume Changes on Steady State Cardiac Output. Wayne Mitzner, Howard Goldberg, and Samuel Lichtenstein ............... 255

The Vascular Basis for Acute Renal Failure in the Rat: Preglomerular and Postglomerular Vasoconstriction. Manjeri A. Venkatachalam, Helmut G. Rennke, and Deborah J. Sandstrom ............................................. 267

Cardiac Performance in Rats with Renal Hypertension. David B. Averill, Carlos M. Ferrario, Robert C. Tarazi, Subha Sen, and Ron Bajbus .......... 280

Length-Induced Changes in Activation during Contraction: A Study of Mechanical Oscillations in Strontium-Mediated Contractions of Cat and Frog Heart Muscle. Andrew H. Henderson and Martin R. Cattell ............................ 289

The Pumping Ability of the Left Heart and the Effect of Coronary Occlusion. Gis Elzenga and Nicolaas Westerhof .................................................. 297

Electrophysiological and Antiarrhythmic Effects of Propranolol in Canine Acute Myocardial Ischemia. Joel Kupersmith, Howard Shiang, Robert S. Litwak, and Michael V. Herman .................................................. 302

Effects on Myocardial Contractility of Blood-Borne Material Released from the Feline Small Intestine in Simulated Shock. Ove Lundgren, Ulf Haglund, Olle Isaksson, and Tetsuo Abe .................................................. 307

The Role of Arterial Baroreceptors in Mediating the Cardiovascular Response to a Cardiac Glycoside in Conscious Dogs. Robert J. McRitchie and Stephen F. Vatner .......... 321

News from the American Heart Association ............................................. 327

Brief Reviews: Macromolecules of the Extracellular Compartment of Embryonic and Mature Hearts. Francis J. Manasek .......................................................... 331

Vascular Capacitance and Fluid Shifts in Dogs during Prolonged Hemorrhagic Hypotension. Carl F. Rothe and John A. Drees .......... 347

Atrial Receptors with Nonmedullated Vagal Afferents in the Cat: Discharge Frequency and Pattern in Relation to Atrial Pressure. Peter N. Thorén ............................................. 357

Electrogenesis of Increased Norepinephrine Sensitivity of Arterial Vascular Muscle in Hypertension. Kent Hermansmeyer ............................................. 362

No. 5 (May)
The Relationship between Overdrive Suppression and Overdrive Excitation in Ventricular Pacemakers in Dogs. Mario Vassalle, Michael Cummins, Carlos Castro, and Jackson H. Stuckey ............................................................. 367
Abnormal Ion and Water Composition of Veins and Normotensive Arteries in Coarctation Hypertension in Rats. Motilal B. Pamnani and Henry W. Overbeck ................................. 375
Experimental Evidence for Regional Cardiac Influence in Body Surface Isopotential Maps of Dogs. J.A. Abildskov, Mary Jo Burgess, Robert L. Lux, and Roland F. Wyatt ........... 386
Maintained Stroke Volume but Impaired Arterial Oxygenation in Man at High Altitude with Supplemental CO2. Robert F. Grover, John T. Reeves, John T. Maher, Robert E. McCullough, Julio C. Cruz, Joseph C. Denniston, and Allen Cymerman ................................. 391
Mechanical Stimuli Exciting Type A Atrial Vagal Receptors in the Cat. Giorgio Recordati, Federico Lombardi, Vernon S. Bishop, and Alberto Malliani ....................................................... 397
Substructure of Intercellular Junctions in Freeze-Fractured Alveolar-Capillary Membranes of Mouse Lung. Eveline E. Schneeberger and Morris J. Karnovsky ............................... 404
Altered Venous Function in Hypertensive Rats. Geza Simon ......................................................... 412
Effects of Acetylsalicylic Acid on the Ductus Arteriosus and Circulation in Fetal Lambs in Utero. Michael A. Heymann and Abraham M. Rudolph .................................................. 418
Pumping Ability of the Hypertrophying Left Ventricle of the Spontaneously Hypertensive Rat. Marc A. Pfeffer, Janice M. Pfeffer, and Edward D. Frohlich ........................................... 423
Regional Myocardial Blood Flow during Acute Myocardial Infarction in the Conscious Dog. Sanford P. Bishop, Francis C. White, and Colin M. Bloor .................................................. 429
Relationship between Blood Flow to Ischemic Regions and Extent of Myocardial Infarction: Serial Measurement of Blood Flow to Ischemic Regions in Dogs. Frank Rivas, Frederick R. Cobb, Robert J. Bache, and Joseph C. Greenfield, Jr. .................................................. 439
Depression of Atrioventricular Sensitivity in the Dog by Successive Brief Bursts of Vagal Stimulation. Paul Martin ................................................................................................................. 448
Letters to the Editor ......................................................... 454
News from the American Heart Association .... 456

No. 6 (June)

Brief Reviews: Fatty Acids as Substrates for Heart and Skeletal Muscle. Kenneth L. Zierler . 459
Combined Effects of Rate, Membrane Potential, and Drugs on Maximum Rate of Rise (Vmax) of Action Potential Upstroke of Guinea Pig Papillary Muscle. Chia-Maou Chen and Leonard S. Gettes ................................................................. 464
Relation between Plasma Renin Activity, Angiotensin, and Aldosterone and Blood Pressure in Mild Untreated Hypertension. W. Gordon Walker, John S. Horvath, Michael A. Moore, Paul Whelton, and R. Patterson Russell .... 470
Plasma Renin Activity during Exercise in the Dog. Meyer D. Lifschitz and Lawrence D. Horwitz ................................................................. 483
The Relevance of Peripheral Baroreceptors and Chemoreceptors to Regulation of Cerebral Blood Flow in the Cat. David Bates and Thoralf M. Sundt, Jr. .................................................. 488
Arterial Lesions in Repeatedly Bred Spontaneously Hypertensive Rats. Bernard C. Wexler, Samuel G. Iams, and Joseph T. Judd ................................................................. 494
Enhanced Aldosterone Response to Angiotensin II in Human Hypertension. E.S. Kisch, R.G. Dluhy, and G.H. Williams ................................................................. 502

Turbulent Blood Flow in Humans: Its Primary Role in the Production of Ejection Murmurs. Hani N. Sabbah and Paul D. Stein ................................................................. 513

Basal Vascular Tone in the Kidney: Evaluation from the Static Pressure-Flow Relationship under Normal Autoregulation and at Maximal Dilation in the Dog. Rainer Gross, Hartmut Kirchheim, and Kurt Brandstetter ................................................................. 525

The Effects of Altered Sodium Balance and Adrenergic Blockade on Renin Release Induced in Rats by Angiotensin Antagonism. T. Kent Keeton, William A. Pettinger, and William B. Campbell ................................................................. 531

Experimental Myocardial Infarction in the Cat. I. Reversible Decline in Contractility of Non-infarcted Muscle. Peter Mathes, Dietmar Romig, Dieter Sack, and Wolfgang Erhardt ................................................................. 540

Modification of the Flow-Generating Capability of the Canine Heart-Lung Compartment by the Carotid Sinus Baroreceptor Reflex. David P. Kostiuk, Kiichi Sagawa, and Artin A. Shoukas ................................................................. 546

Effects of Chronic Anemia on the Coronary and Coronary Collateral Vasculature in Dogs. Konrad W. Scheel, Daniel A. Brody, Leslie A. Ingram, and Francis Keller ................................................................. 553

Cutaneous and Muscular Vasodilation in the Canine Hindlimb Evoked by Central Stimulation. William J. Lang, Christopher Bell, Elizabeth L. Conway, and Robert Padanyi ................................................................. 560

Regional Cardiac Prostaglandin Release during Myocardial Ischemia in Anesthetized Dogs. Harvey J. Berger, Barry L. Zaret, Leon Speroff, Lawrence S. Cohen, and Steven Wolfson ................................................................. 566

Vessel Caliber and Branch-Angle of Human Coronary Artery Branch-Points. Grover M. Hutchins, Martin M. Miner, and John K. Boitnott ................................................................. 572

Books Received ................................................................. 577

News from the American Heart Association ................................................................. 578

Volume Author Index ................................................................. 581

Volume Subject Index ................................................................. 583
