Circulation Research
AN OFFICIAL JOURNAL OF THE AMERICAN HEART ASSOCIATION

VOLUME 40
January-June 1977

No. 1 (January)

Editorials:

The Cost of Scientific Communication: The Scientist As Ad-Man. Michael R. Rosen and Brian F. Hoffman ........................................... 1

Special Article: The Unidentified Information Content of the Electrocardiogram. J.A. Abildskov, Mary Jo Burgess, Paul M. Urie, Robert L. Lux, and Roland F. Wyatt ................. 3

A Possible Molecular Mechanism of the Action of Digitalis: Ouabain Action on Calcium Binding to Sites Associated with a Purified Sodium-Potassium-Activated Adenosine Triphosphatase from Kidney. Andre Gervais, Lois K. Lane, Beatrice M. Anner, George E. Lindenmayer, and Arnold Schwartz ......................... 8

Separation of Primary and Secondary Cardiovascular Events in Systemic Anaphylaxis. James H. Zavecz and Roberto Levi ...................................................... 15

Cardiac Lysosomal Derangements in Mouse Heart after Long-Term Exposure to Non-metabolizable Sugars. Kern Wildenthal, Jane H. Dees, and L. Maximilian Buja .............. 26

The Effect of Indomethacin Blockade of Prostaglandin Synthesis on Blood Pressure of Normal Rabbits and Rabbits with Renovascular Hypertension. J. Carlos Romero and Cameron G. Strong ......................................................... 35

Re recuperative Potential of Cardiac Muscle following Relief of Pressure Overload Hypertrophy and Right Ventricular Failure in the Cat. Richard L. Coulson, Shahriar Yazdanfar, Emir Rubio, Alfred A. Bove, Gerald M. Lemole, and James F. Spann .......................... 41

The Intrinsic Innervation of the Canine Heart: A Functional Study. Donald V. Priola, Harold A. Spurgeon, and W. Peter Geis .......................................................... 50

Quantification of Apolipoprotein B in Grossly Normal Human Aorta. Henry F. Hoff, Carol L. Heideman, John W. Gaubatz, Antonio M. Gotto, Jr., Ethel E. Erickson, and Richard L. Jackson ......................................................... 56

Chronic Labile Hypertension Produced by Lesions of the Nucleus Tractus Solitarii in the Cat. Marc A. Nathan and Donald J. Reis ......................................................... 72

Paradoxical Dynamic Interaction of Heart Period and Vagal Activity on Atrioventricular Conduction in the Dog. Paul Martin ......................................................... 81

Sarclemmal Sodium Permeability and Contractile Force of Guinea Pig Papillary Muscle: Effects of Germtrin. Peter Honerjager and Melchior Reiter ........................................... 90

CONTENTS OF VOLUME 40

Effects of Extracellular Potassium on Ventricular Automaticity and Evidence for a Pacemaker Current in Mammalian Ventricular Myocardium. Bertram G. Katzung and James A. Morgenstern ........................................ 105
Instructions to Authors .................................................................................. 112
News from the American Heart Association .................................................. 115

No. 2 (February)

Brief Review: Calcium Release from the Sarcoplasmic Reticulum. Alexandre Fabiato and Francoise Fabiato .................................................. 119
Hemodynamic Effects of Rapid Atrial Stimulation in Adult and Young Dogs. Nestor J. Truccone and Ehud Krongrad .................................................. 130
Effect of Physical Training on Calcium Transport by Rat Cardiac Sarcoplasmic Reticulum. Somsong Penpargkul, Doris I. Repke, Arnold M. Katz, and James Scheuer .................................................. 134
Steady State Aldosterone Dose-Response Relationships. David B. Young and Arthur C. Guyton .................................................. 138
Change in Liver Blood Flow and Blood Content in Dogs during Direct and Reflex Alteration of Hepatic Sympathetic Nerve Activity. João J. Carneiro and David E. Donald .................................................. 150
Regional Myocardial Function and Dimensions Early and Late after Myocardial Infarction in the Unanesthetized Dog. Pierre Theroux, John Ross, Jr., Dean Franklin, J.W. Covell, C.M. Bloor, and Shigetake Sasayama .................................................. 158
Effect of Intrarenal Angiotensin II Blockade on Renal Function in Conscious Dogs. Houston M. Kimbrough, Jr., E. Darracott Vaughan, Jr., Robert M. Carey, and Carlos R. Ayers .................................................. 174
Cardiac Output and Renal Blood Flow in Glycerol-Induced Acute Renal Failure in the Rat. Chen H. Hsu, Theodore W. Kurtz, and Thomas P. Waldinger .................................................. 178
The Distribution of Labeled Albumin across the Rabbit Thoracic Aorta in Vivo. Robert L. Bratzler, Guy M. Chisolm, Clark K. Colton, Kenneth A. Smith, Donald B. Zilversmit, and Robert S. Lees .................................................. 182
The Amino Acid Composition of Actin and Myosin and Ca^{2+}-Activated Myosin Adenosine Triphosphatase in Chronic Canine Congestive Heart Failure. Robert R. Raszkowski, Joseph D. Welty, and Myron B. Peterson .................................................. 191
Effects of Angiotensin II on Steroid Metabolism and Hepatic Blood Flow in Man. Franz H. Messerli, Wojciech Nowaczynski, Masanobu Honda, Jacques Genest, Roger Boucher, Otto Kuchel, and José Manuel Rojo-Ortega .................................................. 204
Inhibition of Sympathetic Neurotransmission in Canine Blood Vessels by Adenosine and Adenine Nucleotides. Raymond H. Verhaeghe, Paul M. Vanhoutte, and John T. Shepherd .................................................. 208
News from the American Heart Association .................................................. 216

No. 3 (March)

Pressor Response to 1-Sar-8-Ala-Angiotensin II (Saralasin) in Hypertensive Subjects. Gunnar H. Anderson, Jr., David H.P. Streeter, and Theodore G. Dalakos ............ 243

Responses of the Cerebral Circulation to Hypercapnia and Hypoxia after 7th Cranial Nerve Transection in Baboons. Julian T. Hoff, Eric T. Mackenzie, and A. Murray Harper ...... 258

The Renin-Angiotensin-Aldosterone System in Rabbits with Congestive Heart Failure Produced by Aortic Constriction. Brian J. Morris, James O. Davis, Marvin L. Zatzman, and Gary M. Williams .............. 275

The Diastolic Viscous Properties of Cat Papillary Muscle. Mark I.M. Noble ................. 288

Mechanism of Renin Release during Acute Ureteral Constriction in Dogs. Ivar Eide, Einar Løyning, Øivind Langård, and Fredrik Kiil ................... 293

Role of the Thyroid Gland in the Development and Maintenance of Spontaneous Hypertension in Rats. F. Rioux and B.A. Berkowitz .......... 306

Prostaglandins and the Control of Blood Flow in the Canine Myocardium. Thomas H. Hintze and Gabor Kaley .............. 313

Platelet Aggregation in the Cerebral Microcirculation: Effect of Aspirin and Other Agents. William I. Rosenblum and Farouk El-Sabban .......... 320

News from the American Heart Association .......... 329

No. 4 (April)

Controversies in Cardiovascular Research: Molecular Mechanisms of Contraction. M.I.M. Noble and G.H. Pollack ........... 333

Distribution of Coronary Artery Flow to the Canine Right Atrium and Sinoatrial Node. Carl W. White, Melvin L. Marcus, and Francois M. Abboud .......... 342

CONTENTS OF VOLUME 40

Partition of Xenon and lodoantipyrine among Erythrocytes, Plasma, and Myocardium. 
Ronald Carlin and Shu Chien .......................................................... 497

Effect of Hematocrit on the Washout of Xenon and lodoantipyrine from Dog Myocardium 
Ronald Carlin and Shu Chien .......................................................... 505

Effects of Physical Training on End-Diastolic Volume and Myocardial Performance of Isolated 
Rat Hearts. Malcolm M. Bersohn and James Scheuer ......................... 510

The Effect of Ouabain, Dinitrophenol, and Lithium on the Pacemaker Current in Sheep 
Cardiac Purkinje Fibers. Ronald S. Aronson and Jeremiah M. Gelles ........... 517

Letters to the Editor ........................................................................... 525

News from the American Heart Association ....................................... 526

No. 6 (June)

Effect of Stellectomy and Vagotomy on Ventricular Refractoriness in Dogs. 
Peter J. Schwartz, Richard L. Verrier, and Bernard Lown ....................... 536

Histamine Receptors in the Coronary Circulation of the Dog: Effects of Mepyramine and 
Metiamide on Responses to Histamine Infusions. Robert W. Giles, Goeffrey Heiss and 
David E. L. Wilcken ........................................................................ 541

A Method for Determining Segmental Resistances in the Microcirculation from Pressure- 

Renal Responses of the Fetal Lamb or Maternal Volume Expansion. John K. Hurley, 
Stanley E. Kirkpatrick, Paul T. Pittlick, William F. Friedman, and Stanley A. Mendoza 557

Voltage Clamp Analysis of the Effects of Dopamine on the Transmembrane Ionic Cur- 
rents Underlying the Action Potential of Sheep Cardiac Purkinje Fibers. 
Jeremiah M. Gelles and Ronald S. Aronson ........................................ 561

The Effects of Hyaluronidase on Coronary Blood Flow following Coronary Artery Occlu- 
sion in the Dog. Joseph Askenazi, L. David Hillis, Pablo E. Diaz, Michael A. Davis, 
Eugene Braunwald, and Peter R. Maroko ............................................. 566

Reflex Regulation of Sympathetic Activity in the Spontaneously Hypertensive Rat. 
John H. Coote and Yuko Sato ................................................................ 571

Myocardial Function and Coronary Blood Flow Response to Acute Ischemia in Chronic 
Canine Diabetes. Bunyad Haider, S. Sultan Ahmed, Christos B. Moschos, 
Henry A. Oldewurtel, and Timothy J. Regan .......................................... 577

Maximum Rate of Tension Fall during Isometric Relaxation at End-Systolic Fiber Length 
in Canine Papillary Muscle. Kouichi Tamiya, Sho Kikkawa, Atsuki Gunji, 
Motokazu Hori, and Yasuhisa Sakurai ................................................. 584

Contribution of Prostaglandins to the Renal Circulation in Conscious, Anesthetized, and 
Laparotomized Dogs. Nortberto A. Terragno, D. Alicia Terragno, and John C. McGiff 590
α-Adrenergic Reduction of Cyclic Adenosine Monophosphate Concentrations in Rat Myocardium. August M. Watanabe, David R. Hathaway, Henry R. Besch, Jr., Barbara B. Farmer, and Robert A. Harris
