CONTENTS OF VOLUME 42

Regional Oxygen Saturation of Small Arteries and Veins in the Canine Myocardium.  
Harvey R. Weiss and A. K. Sinha ................................................................. 119

Pathophysiologica Differences between Paired and Communal Breeding of Male and  
Female Sprague-Dawley Rats. Bernard C. Wexler and Bruce P. Greenberg ........... 126

Hemodynamic Components of a Cardiogenic Hypertensive Chemoreflex in Dogs.  
Ferdinand Uthaler, Gilbert R. Hageman, and Thomas N. James .......................... 135

Pharmacological Analysis of 5-Hydroxytryptamine Receptors in Isolated Intracranial  
and Exocranial Vessels of Cat and Man. Lars Edvinsson, Jan Erik Hardebo, and  
Christofer Owman .......................................................... 143

Fluid Dynamics of Coronary Artery Stenosis. Robert E. Mates, Ramji L. Gupta,  
Adam C. Bell, and Francis J. Klocke ........................................................... 152

Errata ........................................................... 162
Instructions to Authors ............................................................. 163
News from the American Heart Association .................................................. 166

No. 2 (February)

Brief Reviews: Factors Which Affect the Diastolic Pressure-Volume Curve.  
Stanton A. Glantz and William W. Parmley .................................................... 171

Diameter of Afferent Arterioles during Autoregulation Estimated from Microsphere Data  
in the Dog Kidney. Lars Morkrid, Jarle Ofstad, and Yngvar Willansen .......... 181

Cardiovascular Responses to PGI₂ (Prostacyclin) in the Dog. Thomas M. Fitzpatrick,  
Israel Alter, Elias J. Corey, Peter W. Ramwell, John C. Rose, and Peter A. Kot ...... 192

Effects of Bilateral and Unilateral Stellate Stimulation on Canine Ventricular Refractory  
Periods at Sites of Overlapping Innervation. Charles W. Haws and Mary Jo Burgess . 195

Electrophysiological Studies on the Mechanism of Electrically Induced Sustained  
Rhythmic Activity in the Rabbit Right Atrium. Takehiko Saito, Motohiro Otoguro, and  
Tetsu Matsubara .......................................................... 199

Mechanism of Suppression of Renin Secretion by Clonidine in the Dog. Peter L. Nolan  
and Ian A. Reid .................................................................. 206

The Influence of Aging and Growth on the Postnatal Development of Cardiac Muscle in  
Rats. Karel Rakusan, Sankaranarayanan Raman, Ross Layberry, and Borivoj Korecky 212

Prostaglandin-Induced Preservation of the Ischemic Myocardium. Martin L. Ogletree  
and Allan M. Lefer .......................................................... 218

Adenosine, Theophylline, and Perfusate pH in the Isolated, Perfused Guinea Pig Heart.  
Gary F. Merrill, Francis J. Haddy, and Joe M. Dabney ........................................ 225

Regulation of Arterial Blood Pressure by Aortic Baroreceptors in the Unanesthetized  
Dog. Cyril S. Ito and Allen M. Scher ............................................................ 230

Neural Control of Renin Secretion in Anesthetized Dogs: Interaction of Cardiopulmonary  
and Carotid Baroreceptors. Marc D. Thames, Marek Jarecki, and David E. Donald ... 237

Steady State and Time-Dependent Slowing of Conduction in Canine Hearts: Effects of  
Potassium and Lidocaine. Satoshi Saito, Chia-Maou Chen, Jack Buchanan, Jr.,  
Leonard S. Gettes, and Milton R. Lynch ......................................................... 246

Predicted Effect of Chronic Apical Aneurysms on the Passive Stiffness of the Human  
Left Ventricle. Ronald F. Janz and Robert J. Waldron ....................................... 255

Contribution of Vagal Pathways to the Renal Responses to Head-Out Immersion in the  

Failure of Left Atrial Distension to Alter Renal Function in The Nonhuman Primate.  
Joseph P. Gilmore and Irving H. Zucker ......................................................... 267

Comparative Studies of the Acid Mucopolysaccharide Composition of Rheumatic and  
Normal Heart Valves in Man. M. Mansoor Baig, George R. Daicoff, and Elia M. Ayoub 271

Effects of Norepinephrine, Calcium, and Rate of Discharge on ⁴²K Movements in Canine  
Cardiac Purkinje Fibers. Ezio Musso and Mario Vassalle ................................... 276
CONTENTS OF VOLUME 42

News from the American Heart Association .................................................. 291

No. 3 (March)

Controversies in Cardiovascular Research: Evidence that Neural Mechanisms Do Not Have Important Effects on Cerebral Blood Flow. Donald D. Heistad and Melvin L. Marcus ................................................................. 295

Pressure-Induced Cardiac Enlargement in Neonatal and Adult Rats: Left Ventricular Functional Characteristics and Evidence of Cardiac Muscle Cell Proliferation in the Neonate. Russell T. Dowell and Robert E. McManus, III ........................ 303

Myocardial Chromatin Activation in Experimental Hyperthyroidism in Rats: Role of Nuclear Non-Histone Proteins. Constantinos J. Limas and Christine Chan-Stier ............... 311

Stimulation of Microsomal Prostaglandin Synthesis by a Blood Plasma Constituent which Augments Autoregulation and Maintenance of Vascular Tone in Isolated Rabbit Hearts. Richard L. Moretti and S. Abraham ........................................... 317

Dynamic Stiffness of Cat Heart Muscle in Ba2+-Induced Contracture. Yasutake Saeki, Kiichi Sagawa, and Hiroyuki Suga ................................................................. 324

The Effects of Ouabain on the Transmembrane Potentials and Intracellular Potassium Activity of Canine Cardiac Purkinje Fibers. Dennis S. Miura and Michael R. Rosen ...... 333

The Electrocardiographic Recognition of Cardiac States at High Risk of Ventricular Arrhythmias: An Experimental Study in Dogs. Paul M. Urie, Mary Jo Burgess, Robert L. Lux, Roland F. Wyatt, and J. A. Abildskov ................................................ 350

Adenosine Metabolism in Canine Myocardial Reactive Hyperemia. R. A. Olsson, J. A. Snow, and M. K. Gentry ......................................................... 358

A Human Arterial Preparation for Studying the Effects of Vasoactive Agents. Rolf A. Jauernig and Robert F. W. Moulds .................................................. 363

The Renin Response to Diuretic Therapy: A Limitation of Anti-hypertensive Potential. E. Darracott Vaughan, Jr., Robert M. Carey, Michael J. Peach, John A. Ackerly, and Carlos R. Ayers .................................................. 376

Isoproterenol-Evoked Renin Release from the in Situ Perfused Kidney: Dose-Response Characteristics in Spontaneously Hypertensive and Normotensive Wistar Rats. Alan R. Sinaiko and Bernard L. Mirkin .............................................. 381

Participation of Atrial Specialized Conduction Pathways in Atrial Flutter. Gustavo Pastelin, Rafael Mendez, and Gordon K. Moe ........................................... 386

Quantitative Determination of Regional Oxygen Consumption in the Dog Heart. Harvey R. Weiss, Judith A. Neubauer, J. A. Lipp, and A. K. Sinha .......................... 394

Relative Effect of CO2 on Canine Coronary Vascular Resistance. Robert B. Case, Alexis Felix, Maria Wachter, George Kyriakidis, and Frank Castellana ...................... 410

News from the American Heart Association ................................................. 442

The Structural Proteins of Normal and Diseased Human Myocardium. Dixie W. Frederiksen, Jack M. Hoffnung, Rand T. Frederiksen, and R. Bruce Williams . 459

Negative Chronotropic and Antiarrhythmic Properties of Atropine and Other Tropane Analogues on Isolated Cat Heart Preparations. Ralph D. Tanz, Anne Kloka, Brian Harwood, and Deborah Rightmier ........................................ 467

The Effects of Morphine on the Mechanical Properties of the Systemic Circulation in the Dog. Jerry Franklin Green, Alan P. Jackman, and Gibbe Parsons ................................. 474

Regional Myocardial Dysfunction and Hemodynamic Abnormalities during Strenuous Exercise in Dogs with Limited Coronary Flow. Hitonobu Tomoike, Dean Franklin, Daniel McKown, W. Scott Kemper, Michael Guberek, and John Ross, Jr. ......................... 487

Plasma Renin Activity in Psychosocial Hypertension of CBA Mice. Arthur J. Vander, James P. Henry, Patricia M. Stephens, Linda L. Kay, and David R. Mow ........................................ 496

The Relationship between Body Fluid Volume, Sodium Ion Concentration, and Sensitivity to Pressor Effect of Angiotensin II in Dogs. Allen W. Cowley, Jr., and Thomas E. Lohmeier ................................................................. 503

Mechanically Dependent Changes in Action Potentials Recorded from the Intact Frog Ventricle. Max J. Lab ................................................................. 519

Changes in Central Catecholaminergic Neurons in the Spontaneously (Genetic) Hypertensive Rat. Juan M. Saavedra, Horst Grobecker, and Julius Axelrod ......................... 529

Neurogenic Vasodilation of Cat Cerebral Arteries. Tony J-F. Lee, Wyatt R. Hume, Che Su, and John A. Bevan ................................................................. 535

Regulation of Cardiac Output by Stroke Volume and Heart Rate in Conscious Dogs. Stephen F. Vatner and Dedo H. Boettcher ................................................................. 557

The Effect of Agents Interfering with Soft Tissue Calcification and Cell Proliferation on Calcific Fibrous-Fatty Plaques in Rabbits. Dieter M. Kramisch and Catherine T. Chan ................................................................. 562

Erratum ................................................................. 572

News from the American Heart Association ................................................................. 573

Brief Reviews: Cardiac Transmembrane Potentials and Metabolism. Edward Carmeliet ................................................................. 577

Converting Enzyme Inhibitor and Saralasin Infusion in Rats. Evidence for an Additional
CONTENTS OF VOLUME 42

Vasodepressor Property of Converting Enzyme Inhibitor. Herbert Thurston and John D. Swales ................................................................. 588
Morphometry of the Small Pulmonary Arteries in Man. Keith Horsfield ................................................................. 593
Age-Related Changes in the Concentration of Plasma Cholesterol and Triglycerides in Two Groups of Rats with Inherited Widely Different Levels of Spontaneous Physical Activity. E. W. Rasmussen and A. T. Hestmark ........................................... 598
Mechanism and Time Course of S-T and T-Q Segment Changes during Acute Regional Myocardial Ischemia in the Pig Heart Determined by Extracellular and Intracellular Recordings. André G. Kléber, Michiel J. Janse, Frans J. L. van Capelle, and Dirk Durrer ................................................... 603
Release of Renin by the Carotid Baroreflex in Anesthetized Dogs. Role of Cardiopulmonary Vagal Afferents and Renal Arterial Pressure. Marek Jarecki, Peter N. Thorén, and David E. Donald ................................................................. 614
The Effect of an Increase in Inotropic State and End-Diastolic Volume on the Pumping Ability of the Feline Left Heart. Gijs Elzinga and Nicolaas Westerhof ......................................................... 620
Nuclear Proteins in the Heart of the Cardiomyopathic Syrian Hamster. Fractionation of Phenol-Soluble Nonhistone Proteins by Two-Dimensional Polyacrylamide Gel Electrophoresis. Choong-Chin Liew and Michael J. Sole ................................................................. 628
Nuclear Proteins in the Heart of the Cardiomyopathic Syrian Hamster. Phosphorylation of Phenol-Soluble Nonhistone Proteins. Choong-Chin Liew and Michael J. Sole ................................................................. 637
The Influence of the Pituitary on Arterial Intimal Proliferation in the Rat. Melvin L. Tiell, Michael B. Stemerman, and Theodore H. Spaet ................................................................. 644
Cerebral Circulatory Responses to Arterial Hypoxia in Normal and Chemodenervated Dogs. Richard J. Traystman, Robert S. Fitzgerald, and Susan C. Loscutoff ................................................................. 649
Regional Choline Acetyltransferase Activity in the Guinea Pig Heart. Phillip G. Schmid, Barbara J. Greif, Donald D. Lund, and Robert Roskoski, Jr. ................................................................. 657
Inverse Calculation of QRS-T Epicardial Potentials from Body Surface Potential Distributions for Normal and Ectopic Beats in the Intact Dog. Roger C. Barr and Madison S. Spach ................................................................. 661
Equivalent Generator Properties of Acute Ischemic Lesions in the Isolated Rabbit Heart. David M. Mirvis, Francis W. Keller, Raymond E. Ideker, David G. Zettergren, and Robert F. Dowdie ................................................................. 676
Analytical Description of Force-Time and Force-Velocity Relations of Isometric Contractions in Feline Isolated Heart Muscle and in the Intact Human Heart. Eduardo E. Castellano ................................................................. 686
Baroreceptor Dynamics and Their Relationship to Afferent Fiber Type and Hypertension. Arthur M. Brown, William R. Saum, and Syozo Yasui ................................................................. 694
Canine Atrial and Ventricular Muscle Mechanics Studied as a Function of Age. Ferdinand Urrthaler, Alfred A. Walker, Keishiro Kawamura, Lloyd L. Hefner, and Thomas N. James ................................................................. 703
Sodium Sensitivity of Baroreceptors: Reflex Effects on Blood Pressure and Fluid Volume in the Cat. Diana L. Kunze and Arthur M. Brown ................................................................. 714
Renal Function of Conscious Spontaneously Hypertensive Rats. William H. Beierwaltes and William J. Arendshorst ................................................................. 721
Letters to the Editor ................................................................. 732
News from the American Heart Association ................................................................. 736
CONTENTS OF VOLUME 42
No. 6 (June)

Brief Reviews: Ventricular Arrhythmias and Electrophysiological Consequences of Myocardial Ischemia and Infarction. Ralph Lazzara, Nabil El-Sherif, Ronald R. Hope, and Benjamin J. Scherlag ......................................................... 740

A Theoretical Examination of Ventricular Repolarization and the Secondary T Wave.
Leo G. Horan, R. Chris Hand, Jennifer C. Johnson, Marandapalli R. Sridharan, Thomas B. Rankin, and Nancy C. Flowers .................................................. 750

The Magnitude of the Electromotive Force of Canine Ventricular Myocardium.
Saburo Mashima, Kenichi Harumi, and Satoru Murao ............................................. 757

Whole Body Vascular Reactivity during the Development of Deoxycorticosterone Acetate Hypertension in the Pig. Kathleen H. Berecek and David F. Bohr ......................................................... 764

Continuous Assessment of Regional Myocardial Perfusion in Dogs Using Krypton-81m.
Andrew P. Selwyn, Terry Jones, J. Harvey Turner, Tim Pratt, John Clark, and Peter Lavender .......................................................... 771

Carlos D. Flombaum, Shyan-Yih Chou, Jerome G. Porush, Paul A. Slater, Leon F. Ferder, Daniel L. Levin, and Rajinder S. Gadhok .................................................. 778

Inhibition of Protein Degradation in Mouse Hearts by Agents That Cause Lysosomal Dysfunction. Kern Wildenthal, Jacqueline R. Wakeland, Phyllis C. Morton, and Edmond E. Griffin .......................................................... 787

Velocity Distribution and Intimal Proliferation in Autologous Vein Grafts in Dogs.
Stanley E. Rittgers, Panayotis E. Karayannacos, Julia F. Guy, Robert M. Nerem, George M. Shaw, Jeptha R. Hostetler, and John S. Vasko ........................................ 792

Mechanism of Impaired Water Excretion in Acute Right Ventricular Failure in Conscious Dogs. Meir Yaron and Cleaves M. Bennett .................................................. 801

The Equivalent Strap Muscle of the Left Ventricle. A Model for Describing Myocardial Force and Length, and Mean Endocardial Fiber-Shortening Rate in Man. Colin Grant .......................................................... 806

Hydrolase Activities in the Rat Aorta. I. Effects of Diabetes Mellitus and Insulin Treatment. Harvey Wolinsky, Sidney Goldfischer, Loic Capron, Frederique Capron, Bernice Coltoff-Schiller, and Lisa Kasak .................................................. 821

Hydrolase Activities in the Rat Aorta. II. Effects of Hypertension Alone and in Combination with Diabetes Mellitus. Harvey Wolinsky, Loic Capron, Sidney Goldfischer, Frederique Capron, Bernice Coltoff-Schiller, and Lisa E. Kasak .................................................. 831

Postnatal Changes in the Circulation and Responses to Volume Loading in Sheep.
H. Sidney Klopfenstein and Abraham M. Rudolph .................................................. 839

Inhibition of Myocardial Monovalent Cation Active Transport by Subtoxic Doses of Ouabain in the Dog. Thomas J. Hougen and Thomas W. Smith .................................................. 856

The Pressor Response to Angiotensin II in Patients with Low Renin Essential Hypertension. Allan D. Marks, Dawn B. Marks, Young N. Kim, Jesus Moctezuma, E. Victor Adlin, and Bertram J. Channick .................................................. 864
CONTENTS OF VOLUME 42

Metabolism and Uptake of Adenosine Triphosphate and Adenosine by Porcine Aortic and Pulmonary Endothelial Cells and Fibroblasts in Culture. Yvonne Dieterle, Christiane Ody, Alice Ehrensberger, Hans Stalder, and Alain F. Junod ..................... 869

Letters to the Editor ............................................................... 877

Publishing Office
AMERICAN HEART ASSOCIATION
7320 Greenville Ave.
Dallas, Texas 75231
Contents of Volume 10  Number 3

Lack of correlation between the positive intropic effect evoked by α-adrenoceptor stimulation and the levels of cyclic AMP and/or cyclic GMP in the isolated ventricle strip of the rabbit. O. E. Brodde, S. Motomura, M. Endoh and H. J. Schumann

Effect of diabetic ketosis on enzyme release from isolated perfused rat hearts with experimental myocardial infarction. B. C. Sinclair-Smith and L. H. Opie

Biochemical studies on the sarcolemmal function in the hypertrophied rabbit heart. J. M. J. Lamers, J. T. Stinis, W. J. Kort and W. C. Hülsmann

The effect of adenosine on myocardial metabolism and oxygen consumption in the isolated dog heart preparation. G. J. Jesmok, G. J. Gross and H. F. Hardman

Ultrastructural modifications of nexuses (gap junctions) during early myocardial ischemia. M. Ashraf and C. Halverson

Effects of lanthanum ion on calcium transport by guineapig, rat and canine cardiac sarcoplasmic reticulum. J. Dunnett, A. M. Katz and W. G. Nayler

Increase of cyclic AMP levels induced by isoproterenol in cultured and noncultured chick embryonic hearts. J. F. Renaud, N. Sperelakis and G. Le Dourain

Surface characteristics of cells isolated from adult rat myocardium. T. Powell, E. M. Steen, V. W. Twist and N. Woolf

Effect of peripheral sympathectomy on left ventricular ultrastructure in young spontaneously hypertensive rats. E. Page and S. Oparil
