Instructions to Authors (There are some major changes; please read carefully.) .................................................. 136

Brief Reviews: Autonomic Neural Influences on the Dysrhythmias Resulting from Myocardial Infarction. Peter B. Corr and Richard A. Gillis ................................................................. 1

Evidence for a Splanchnic Sodium Input Monitor Regulating Renal Sodium Excretion in Man: Lack of Dependence upon Aldosterone. Robert M. Carey ......................................................... 19

Effect of L-Dopa on Sympathetic Nerve Activity and Blood Pressure in the Spontaneously Hypertensive Rat. William V. Judy, August M. Watanabe, David P. Henry, H.R. Besch, Jr., and Barry Aprison ................................................................. 24

The Effects of Acetylcholine on the Electrical Activity of Canine Cardiac Purkinje Fibers. David C. Gadsby, Andrew L. Wit, and Paul F. Cranefield ................................................................. 29

Renal Function and Renin Secretion after Administration of Ouabain and Ouabain Plus Furosemide in Conscious Sheep. Edward H. Blaine and Mark B. Zimmerman ...................................................... 36

Aortic Pulse Wave Velocity, Elasticity, and Composition in a Nonhuman Primate Model of Atherosclerosis. David J. Farrar, Harold D. Green, M. Gene Bond, William D. Wagner, and Roberto A. Gobbee ................................................................. 52

Sequential Unipolar Strength-Interval Curves and Conduction Times during Myocardial Ischemia and Reperfusion in the Dog. Herbert J. Levine, Boaz Avitall, Stephen G. Pauker, and Shapur Naimi ................................................................. 63

Morphological Changes in Isolated Perfused Dog Lungs after Acute Hydrostatic Edema. David O. DeFouw and Peter B. Berendsen ........................................................................................................ 72

Initial Myocardial Adjustments to Brief Periods of Ischemia and Reperfusion in the Conscious Dog. Massimo Pagani, Stephen F. Vatner, Hank Baig, and Eugene Braunwald ................................................................. 83

Diastolic Coronary Artery Pressure-Flow Relations in the Dog. Ronald F. Bellamy ........................................................................................................ 92

Effects of Substrates on Tissue Metabolic Changes in the Isolated Rat Heart during Underperfusion and on Release of Lactate Dehydrogenase and Arrhythmias during Reperfusion. Owen L. Bricknell and Lionel H. Opie ........................................................................................................ 102

Suppression of Calcific Fibrous-Fatty Plaque Formation in Rabbits by Agents Not Affecting Elevated Serum Cholesterol Levels. The Effect of Thiophene Compounds. Catherine T. Chan, Herbert Wells, and Dieter M. Kramsch ........................................................................................................ 115

Erratum .......................................................................................................................................................... 135

News from the American Heart Association ........................................................................................................ 139
CONTENTS OF VOLUME 43

Prostaglandin-Mediated Inhibition of the Vasoconstrictor Responses of the Isolated Perfused Rat Splenic Vasculature to Adrenergic Stimulation. Kafeil U. Malik .......... 225
Enhancement of Platelet Aggregation by Tranexamic Acid in Mouse Cerebral Microvessels. William J. Rosenberg and Farouk El-Sabban .......... 238
Pressure-Flow Characteristics of Coronary Stenoses in Unsedated Dogs at Rest and during Coronary Vasodilatation. K. Lance Gould .......... 242
The Kallikrein-Kinin System and Prostaglandins in the Kidney: Their Relation to Furosemide-Induced Diuresis and to the Renin-Angiotensin-Aldosterone System in Man. Kaishi Abe, Nobuo Irokawa, Minoru Yasujima, Masahide Seino, Satoru Chiba, Yutaka Sakurai, Kaoru Yoshinaga, and Tetsuo Saito .......... 254
The Fate and Fibrogenic Potential of Subintimal Implants of Crystalline Lipid in the Canine Aorta: Quantitative Histological and Autoradiographic Studies. B. Greg Brown and Donald L. Fry .......... 261
Sequential Changes in Left Ventricular Compliance during Acute Coronary Occlusion in the Isovolumic Working Canine Heart. Bert Y. S. Wong, Masaaki Toyama, Robert L. Reis, and Allan V. N. Goodyer .......... 274
The Interpretation of Thallium-201 Cardiac Scintigrams: Studies in Experimental Ischemic Heart Disease in Dogs. A. P. Selwyn, E. Welsman, T. A. Pratt, J. Clark, C. McArthur, and J. P. Lavender .......... 287
Blood Pressure and Vascular Resistance in Genetically Hypertensive Rats Treated at Birth with 6-Hydroxydopamine. David W. J. Clark, David R. Jones, E. Linton Phelan, and Carrick E. Devine .......... 293
Simulation Studies of the Electrocardiogram. I. The Normal Heart. Walter T. Miller, Ill, and David B. Geselowitz .......... 301
Simulation Studies of the Electrocardiogram. II. Ischemia and Infarction. Walter T. Miller, III, and Judah B. Geselowitz .......... 315
Local Cerebral Blood Volume Response to Carbon Dioxide in Man. Josh B. Green, David A. Alavi, Martin Reivich, David Kuhl, and Barbara Uzzell .......... 324
Erratum .......... 331
Letters to the Editor .......... 332
News from the American Heart Association .......... 333

No. 3 (September)

Electrotone Interaction during Canine Ventricular Repolarization. Hideaki Toyoshima and Mary Jo Burgess .......... 348
Diet and Sire Effects on Serum Cholesterol and Cholesterol Absorption in Infant Baboons (Papio cynocephalus). Glen E. Mott, C. Alex McMahan, and Henry C. McGill, Jr .......... 364
Effects of Nifedipine on Myocardial Perfusion and Ischemic Injury in Dogs. Philip D. Henry, Wayne L. Miller, Jr., and Rafael Rubio .......... 372
Failure of Chronic Aldosterone Infusion to Increase Arterial Pressure in Dogs with Angiotensin-Induced Hypertension. Thomas E. Lohmeier, Allen W. Cowley, Jr., James W. DeClue, and Arthur C. Guyton .......... 381
Adenosine Production in the Ischemic Kidney. Wayne L. Miller, Rosemary A. Thomas, Robert M. Berne, and Rafael Rubio .......... 390
Enterotoxic Shock in Rhesus Monkeys: The Role of Selected Bloodborne Factors. George W. Pettit, Nadzata Yamada, David A. Wing, and Peter B. Jarling .......... 398
The Effects of Agents that Bind to Cytochrome P-450 on Hypoxic Pulmonary Vasconstriction. J. T. Sylvester and C. McGowan .......... 429
Pressor Responses to Norepinephrine in Rabbits with 3-Day and 30-Day Renal Artery Stenosis: The Role of Angiotensin II. Shuichi Ichikawa, J. Alan Johnson, Wayne L. Fowler, Jr., Charles G. Payne, Kenneth Kurz, and W. Ford Kieltz .......... 437
Inhibition of Prostaglandin Synthesis by Indomethacin Augments the Renal Vasodilator Response to Bradykinin in the Anesthetized Dog. Andrew J. Lonigro, Margarethe H. Hagemann, Alan H. Stephenson, and Cheri L. Fry .......... 447
Prediction of Infarct Size with Baboons: A Proposed Model for Accurately Determining the Efficacy of Therapeutic Interventions. Frank N. Faire, Gregory T. Smith, and J. Judson McNamara .......... 455
Mechanism of Adenosine-Mediated Decreases in Glomerular Filtration Rate in Dogs. Hartmut Osswald, William S. Spielman, and Franklyn G. Knox .......... 465
Actions of Lidocaine on Transmembrane Potentials of Subendocardial Purkinje Fibers Surviving in Infarcted Canine Hearts. J. Desmond Allen, F. James Brennan, and Andrew L. Wit .......... 470
News from the American Heart Association .......... 482
