Contents of Volume 12, Number 2

Editorial:
Dissociation of Myosin Light Chains and Decreased Myosin ATPase Activity with Acidification of Synthetic Myosin Filaments: Possible Clues to the Fate of Myosin in Myocardial Ischemia and Infarction. T.C. Smitherman, D.W. Dycus and E.G. Richards

Cultured Embryonic Chick Heart Cells: Photometric Measurements of the Cell Pulsation and the Effects of Calcium Ions, Electrical Stimulation and Temperature. B. Koidl, H.A. Tritthart and S. Erkinger

Cardiac Membrane Cholesterol in Dystrophic and Verapamil-Treated Hamsters. B.E. Slack, R.J. Boegman, J.W. Downie and G. Jasmin

Inhibitory Activity of Blockers of the Slow Inward Current in Rat Myocardium, a Study in Steady State and of Rate of Action. M.D. Payet, O.F. Schanne, E. Ruiz-Ceretti and J.-M. Demers

Heterogeneity of Rat Cardiac Cells of Defined Origin in Single Cell Culture. C.R. Norwood, A.R. Castaneda and W.I. Norwood

Rapid Communications:
Influence of Neuraminidase Treatment on Rat Heart Sarcolemma. S. Taeko, M.J. Daly, M.B. Anand-Srivastava and N.S. Dhalla

Ionic Radius Specificity of Cardiac Muscle. J.A. Cartmill and C.B. Dos Remedios

A Protective Effect of Thiopentone on Hypoxic Heart Muscle. D.M. Sinclair, D. De Moes, A.B.T.J. Boink and T.J.C. Ruigrok
