Circulation Research
AN OFFICIAL JOURNAL OF THE AMERICAN HEART ASSOCIATION

VOLUME 48
January-June 1981

No. 1 (January)

Brief Reviews: Lipid-Membrane Interactions and the Pathogenesis of Ischemic Damage in the Myocardium. Arnold M. Katz and Frank C. Messineo .................................................. 1
Role of Changes in Microsomal Calcium Uptake in the Effects of Reperfusion of Ca2+-Deprived Rat Hearts. Lauri E. Alto and Naranjan S. Dhalla .......................................................... 17
Reduction of Maximal Coronary Vasodilator Capacity in Conscious Dogs with Severe Right Ventricular Hypertrophy. Paul A. Murray and Stephen F. Valentine ........................................... 25
Decreased Vascular and Increased Adrenal and Renal Sensitivity to Angiotensin II in the Newborn Lamb. Sharon R. Siegel .................................................. 34
pH-Dependent Electrophysiological Effects of Quinidine and Lidocaine on Canine Cardiac Purkinje Fibers. Stanley Nattel, Victor Elharrar, Douglas P. Zipes, and John C. Bailey .................................................. 55
Effects of Cholinergic Nerves on Cerebral Blood Flow in Cats. David W. Busija and Donald D. Heistad .................................................. 62
Effects of Intracoronary Administration of Bradykinin on the Impulse Activity of Afferent Sympathetic Unmyelinated Fibers with Left Ventricular Endings in the Cat. Federico Lombardi, Paolo Della Bella, Rodolfo Casati, and Alberto Malliani .................................................. 69
Intravenous Bovine Testicular Hyaluronidase Depolymerizes Myocardial Hyaluronic Acid in Dogs with Coronary Artery Occlusion. Robert A. Wolf, Lee-Yuh Chaung, James E. Muller, Robert A. Klone, and Eugene Braunwald .................................................. 88
Inhibition by Free Radical Scavengers and by Cyclooxygenase Inhibitors of Pial Arteriolar Abnormalities from Concussive Brain Injury in Cats. Enoch P. Wei, Hermes A. Kontos, W. Dalton Dietrich, John T. Pavlishok, and Earl F. Ellis .................................................. 95
Regulation of the Postsynaptic a-Adrenergic Receptor in Rat Mesenteric Artery. Effects of Chemical Sympathectomy and Epinephrine Treatment. Wilson S. Colucci, Michael A. Gimbrone, Jr., and R. Wayne Alexander .................................................. 104
β-Adrenergic Regulation of Total Systemic Intravascular Volume in the Dog. David L. Rutlen, Edward N. Supple, and Wm. John Powell, Jr. .................................................. 112
Regional Edema Formation in Isolated Perfused Dog Lungs. Charles A. Hales, David J. Kanarek, Bhagwat Aihuwala, Alexander Latty, John Erdmann, Shahrakho Javaheri, and Homayoun Kazemi .................................................. 121
Instructions to Authors .................................................. 149
News from the American Heart Association .................................................. 152

No. 2 (February)

Brief Reviews: Role of the Intrarenal Renin-Angiotensin System in the Control of Renal Function. Nigel R. Levens, Michael J. Peach, and Robert M. Carey .................................................. 157
Mechanism of Generation of Body Surface Electrocardiographic P-Waves in Normal, Middle, and Lower Sinus Rhythms. William J. Effer, Emilio Macchi, Hendrik Jan Ritsma, van Eck, B. Milan Horacek, and Pentti M. Rautaharju .................................................. 166
Effects of Angiotensin II on the Blood Flow and Its Distribution in Fetal Lambs. Harriet S. Iwamoto and Abraham M. Rudolph .................................................. 183
Characteristics of Sarcomere Shortening in Single Frog Atrial Cardiac Cells during Lightly Loaded Contractions. Merrill Tarr, John W. Tranke, and Paul Leiffer .................................................. 189
Evidence That the Velocity of Sarcomere Shortening in Single Frog Atrial Cardiac Cells is Load Dependent. Merrill Tarr, John W. Tranke, Paul Leiffer, and Neal Shepherd .................................................. 200
Mechanisms Mediating the Coronary Vascular Response to Behavioral Stress in the Dog. George E. Billman and David C. Randall .................................................. 214

Downloaded from http://circres.ahajournals.org/ by guest on November 4, 2016
No. 3 (March)

Controversies in Cardiovascular Research: Similarities of Genetic (Spontaneous) Hypertension. Man and Rat. Nick C. Trippodo and Edward D. Frohlich

Age Dependence of Myocardial Na⁺-K⁺-ATPase Activity and Digitalis Intoxication in the Dog and Guinea Pig. Allan J. Marsh, Brian L. Lloyd, and Roger R. Taylor

Leukocytes Are Required for Increased Lung Microvascular Permeability after Microembolization in Sheep. Michael R. Flick, Azriel Perel, and Norman C. Staub

Relaxation Properties of Mammalian Atrial Muscle. Marie M. Coutlenye, Nora M. De Clerck, Marc A. Goethals, and Dirk L. Brutsaert

Pressure-Diameter Relations during Early Diastole in Dogs: Incompatibility with the Concept of Passive Left Ventricular Filling. Hanif N. Sabbah and Paul D. Stein

The Effect of Nitroglycerin and Nitroprusside on Intramural Carbon Dioxide Tension during Acute Experimental Myocardial Ischemia in Dogs. L. David Hillis, Carl Davis, and Shukri F. Khuri

Carnitine Transport in Isolated Adult Rat Heart Myocytes and the Effect of 7,8-diOH Chlorpromazine. Nick C. Trippodo and Edward D. Frohlich

Pericardial Modulation of Right and Left Ventricular Diastolic Interaction. Joel Spadaro, Oscar H.L. Bing, William H. Gaasch, and Ronald M. Weintraub

Nuclear Uptake of Sex Steroid Hormones in the Cardiovascular System of the Baboon. Henry C. McGill, Jr., and Peter J. Sheridan

Developmental Changes in the Sensitivity of the Chick Embryo Ventricles to β-Adrenergic Agonist during Adrenergic Innervation. Dennis Higgins and Achilles J. Pappano

Relative Contributions of Arginine Vasopressin and Angiotensin II to Maintenance of Systemic Arterial Pressure in the Anesthetized Water-Deprived Rat. Charles E. Andrews, Jr., and Barry M. Brenner

Inhibitory Action of Adenosine on Histamine- and Dopamine-Stimulated Cardiac Contractility and Adenylate Cyclase in Guinea Pigs. Gert Baumann, Jürgen Schrader, and Eckehart Gerlach

Partition of Carotid Sinus Baroreceptor Response in Dogs with Chronic Renal Hypertension. Esmail Koushanpour and Karlie J. Kenfield

The Effect of Nitroglycerin and Nitroprusside on Intramural Carbon Dioxide Tension during Acute Experimental Myocardial Ischemia in Dogs. L. David Hillis, Carl Davis, and Shukri F. Khuri

Acute Hypertension after the Local Injection of Kainic Acid into the Nucleus Tractus Solitarii of Rats. William T. Talman, Mark H. Perrone, and Donald J. Reis

Letters to the Editor

News from the American Heart Association
CONTENTS OF VOLUME 48

No. 4 (April)

1. Controversies in Cardiovascular Research: The Rat with Spontaneous Genetic Hypertension is Not a Suitable Model of Human Essential Hypertension. John C. McGiff and Caroline P. Quillay ................. 455

3. Diffusional Shunting in the Canine Myocardium. Allan C. Roth and Eric O. Feigl ........................................ 470

4. Relationship between Blood Flow Direction and Endothelial Cell Orientation at Arterial Branch Sites in Rabbits and Mice. B. Lowell Langille and S. Lee Adamson ........... 481

12. Energy Turnover and Mechanical Properties of Resting and Contracting Aortas and Portal Veins from Normotensive and Spontaneously Hypertensive Rats. Anders Arner and Per Hellstrand .... 539

14. Postnatal Development of the M-Band in Rat Cardiac Myofibrils. Piero Anversa, Giorgio Olivetti, Pier-Giovanni Bracchi, and Alden V. Loud .......... 561

15. Effects of Nitroglycerin on Regional Myocardial Ischemia Induced by Atrial Pacing in Dogs. Joseph L. Gerry, Jr., Hartzell V. Schaft, Clayton H. Kallman, and John T. Flaherty .......... 569

18. Reply. Allen M. Scher ........................................................................................................ 589

19. Letters to the Editor ........................................................................................................ 592

20. News from the American Heart Association ................................................................. 595

No. 5 (May)

2. The Opposing Effects of Chronic Angiotensin-Converting Enzyme Blockade by Captopril on the Responses to Exogenous Angiotensin II and Vasopressin vs. Norepinephrine in Rats. François Spertini, Hans R. Brunner, Bernard Waeder, and Haralambos Gavros .......... 612

3. An Oscillatory Current in Sheep Cardiac Purkinje Fibers. Mario Vassalle and Alessandro Mugelli .......... 618

6. The Selective Inhibition of Serotonin-Induced Contractions of Rabbit Cerebral Vascular Smooth Muscle by Calcium-Antagonistic Dihydropyridines: An Investigation of the Mechanism of Action of Nimodipine, Robertson Toward .......... 650

CONTENTS OF VOLUME 48

Afterpotentials and Triggered Activity in Hypertrophied Myocardium from Rats with Renal Hypertension. Ronald S. Aronson .......................................................... 720
Control of Rat Renal Vascular Resistance during Alterations in Sodium Balance. Paul A. Johnston,
David B. Bernard, Nancy S. Perrin, Leonard Arbeit, Wilfred Lieberthal, and Norman G. Levinsky 728
Control of Rat Renal Vascular Resistance at Reduced Perfusion Pressure. Paul A. Johnston, Nancy S. Perrin,
David B. Bernard, and Norman G. Levinsky ........................................... 734
Relationship between Structure and Fatty Acid Metabolism in Mitochondria Isolated from Ischemic Rat Hearts.
Danielle Feuvray and Jean Picouët .................................................. 740
Comparison of Microsphere and Xenon-133 Clearance Method in Measuring Skeletal Muscle and Cerebral
Blood Flow. Melvin L. Marcus, Charles J. Bischof, and Donald D. Heistad .............. 748
News from the American Heart Association ........................................ 762

No. 6 (June)

Brief Reviews: Hormonal and Metabolic Reactions Evoked by Acute Myocardial Infarction. Leszek Ceremuzynski .................................................. 767
Effect of Carotid Occlusion and of Perfusion Pressure on Renal Function in Conscious Dogs. Rainer Gross,
Hartmut Kirchheim, and Kai Ruffmann .................................................. 777
Regional Myocardial Blood Flow and Coronary Vascular Reserve in Unanesthetized Young Calves with Severe
Concentric Right Ventricular Hypertrophy. Murli Manohar, John C. Thurmon, William J. Tranquilli,
Michael D. Devois, Sr., Michael C. Theodorakis, Richard V. Shawley, Douglas L. Feller, and
John G. Benson .................................................................................. 785
Load-Insensitive Relaxation Caused by Hypoxia in Mammalian Cardiac Muscle. Leonard H.S. Chuck,
Mark A. Goethals, William W. Parmley, and Dirk L. Bruatsaert ...................... 797
Adaptation to Prolonged β-Blockade of Rabbit Atrial, Purkinje, and Ventricular Potentials, and of Papillary
Muscle Contraction: Time-Course of Development of and Recovery from Adaptation. A.E.G. Raine and
E.M. Vaughan Williams ................................................................. 804
Volume Loading Slows Left Ventricular Isovolumic Relaxation Rate: Evidence of Load-Dependent Relaxation in
the Intact Dog Heart. Gilbert L. Raff and Stanton A. Glantz .......................................................... 813
The Circulatory Effects of Acute Hypervolemia and Hemodilution in Conscious Rabbits. Irwin B. Faris,
John Iannos, Glyn G. Jamieson, and John Ludbrook .................................. 825
Role of the Prostaglandins in Norepinephrine Release during Augmented Renal Sympathetic Nerve Activity in
the Dog. Juan A. Oliver, Robert R. Sciacca, John Pinto, and Paul J. Cannon ........... 835
Non-Steroidal Anti-Inflammatory Drugs Potentiate the Vasconstrictor Effects of Ouabain in the Dog.
Alan S. Nies and John G. Gerber ........................................................................ 844
The Utilization by Rabbit Aorta of Carbohydrates, Fatty Acids, Ketone Bodies, and Amino Acids as Substrates
for Energy Production. Kenneth V. Chace and Richard Odessy ............... 850
Effects of Carnitine isomers on Fatty Acid Metabolism in Ischemic Swine Hearts. A. James Liedtke,
Stephen H. Nellis, and Larry F. Whitesell .................................................. 859
Electrophysiological Effects of the Optical Isomers of Disopyramide and Quinidine in the Dog: Dependence on
Stereochemistry. Michael J. Mirro, August M. Watanabe, and John C. Bailey ......... 867
Uneven Distribution of Postjunctional Alpha,- and Alpha,- like Adrenoceptors in Canine Arterial and Venous
Smooth Muscle. Jo De Mey and Paul M. Vanhoutte ..................................... 875
Influence of Secobarbital and α-Chloralose, and of Vagal and Sympathetic Interruption, on Left Ventricular
Activation after Acute Coronary Artery Occlusion in the Dog. Rodolphe Ruffy,
D. Eugene Lovelace, Suzanne B. Knoebel, and John Ludbrook ...................... 884
Vascular Responses of the Perfused Intestine to Vasoactive Agents during the Development of Two-Kidney,
One-Clip Goldblatt Hypertension in Dogs. Stan Greenberg ......................... 895
The Effect of Hyphophysectomy on Experimental Endothelial Cell Regrowth and Intimal Thickening in the Rat.
Michael A. Bettmann, Michael B. Steerman, and Bernard J. Ransil .................. 907
The Significance of the NH₂-NH₂ Equilibrium on the Passage of 15N-Ammonia from Blood to Brain: A New
Regional Residue Detection Model. Marcus E. Raichle and Kenneth B. Larson ...... 913
Variable Effect of Nifedipine on Myocardial Blood Flow at Three Grades of Coronary Occlusion in the Dog.
William S. Weintraub, Shigehiko Hatton, Jai Agarwal, Monty M. Bodenheimer, Vidya S. Banka, and
Richard H. Helfant ............................................................................. 937
News from the American Heart Association .............................................. 943
Volume Author Index ............................................................................. 948
Volume Subject Index ............................................................................. 950
Supplement Author Index ....................................................................... 956
Supplement Subject Index ....................................................................... 957
