Circulation Research
AN OFFICIAL JOURNAL OF THE AMERICAN HEART ASSOCIATION

VOLUME 48
January-June 1981

No. 1 (January)

Brief Reviews: Lipid-Membrane Interactions and the Pathogenesis of Ischemic Damage in the Myocardium.
Arnold M. Katz and Frank C. Messineo .......................................................... 1

Role of Changes in Microsomal Calcium Uptake in the Effects of Reperfusion of Ca\(^{2+}\)-Deprived Rat Hearts.
Lauri E. Alto and Naranjan S. Dhalla ......................................................... 17

Reduction of Maximal Coronary Vasodilator Capacity in Conscious Dogs with Severe Right Ventricular Hypertrophy.
Paul A. Murray and Stephen F. Vatner ....................................................... 25

Decreased Vascular and Increased Adrenal and Renal Sensitivity to Angiotensin II in the Newborn Lamb.
Sharon R. Siegel ......................................................................................... 34

pH-Dependent Electrophysiological Effects of Quinidine and Lidocaine on Canine Cardiac Purkinje Fibers.
Stanley Nattel, Victor Elharrar, Douglas P. Zipes, and John C. Bailey .................. 55

Effects of Cholinergic Nerves on Cerebral Blood Flow in Cats. David W. Busija and Donald D. Heistad ................................................................. 62

Effects of Intraarterial Administration of Bradykinin on the Impulse Activity of Afferent Sympathetic Unmyelinated Fibers with Left Ventricular Endings in the Cat. Federico Lombardi, Paolo Della Bella, Rodolfo Casali, and Alberto Malliani ......................................................... 69

Regional Myocardial Blood Flow during Exercise in Dogs with Chronic Left Ventricular Hypertrophy.

Intravenous Bovine Testicular Hyaluronidase Depolymerizes Myocardial Hyaluronic Acid in Dogs with Coronary Artery Occlusion. Robert A. Wolf, Lee-Yuh Chaung, James E. Muller, Robert A. Klener, and Eugene Braunwald ................................................................. 88

Inhibition by Free Radical Scavengers and by Cyclooxygenase Inhibitors of Pial Arteriolar Abnormalities from Concussive Brain Injury in Cats. Enoch P. Wei, Hermes A. Kontos, W. Dalton Dietrich, John T. Povlishock, and Earl F. Ellis ................................................................. 95

Regulation of the Postsynaptic \(\alpha\)-Adrenergic Receptor in Rat Mesenteric Artery. Effects of Chemical Sympathectomy and Epinephrine Treatment. Wilson S. Colucci, Michael A. Gimbrone, Jr., and R. Wayne Alexander ................................................................. 104

\(\beta\)-Adrenergic Regulation of Total Systemic Intravascular Volume in the Dog. David L. Rutlen, Edward N. Supple, and Wm. John Powell, Jr. ................................................................. 112

Regional Edema Formation in Isolated Perfused Dog Lungs. Charles A. Hales, David J. Kanarek, Bhagwat Ahuwalia, Alexander Latty, John Erdmann, Shahrkhor Javaheri, and Homayoun Kazemi ......................................................... 121

Instructions to Authors ............................................................................... 149

News from the American Heart Association .................................................. 152

No. 2 (February)

Brief Reviews: Role of the Intrarenal Renin-Angiotensin System in the Control of Renal Function.
Nigel R. Levens, Michael J. Peach, and Robert M. Carey .................................. 157

Mechanism of Generation of Body Surface Electrocardiographic P-Waves in Normal, Middle, and Lower Sinus Rhythms. William J. Effler, Emilio Macchi, Hendrik Jan Ritsema van Eck, B. Milan Horacek, and Pentti M. Rautakarju ................................................................. 166

Effects of Angiotensin II on the Blood Flow and Its Distribution in Fetal Lambs. Harriet S. Iwamoto and Abraham M. Rudolph ................................................................. 183

Characteristics of Sarcomere Shortening in Single Frog Atrial Cardiac Cells during Lightly Loaded Contractions. Merrill Tarr, John W. Trank, and Paul Leiffer ................................................................. 189

Evidence That the Velocity of Sarcomere Shortening in Single Frog Atrial Cardiac Cells is Load Dependent. Merrill Tarr, John W. Trank, Paul Leiffer, and Neal Shepherd ................................................................. 199

Mechanisms Mediating the Coronary Vascular Response to Behavioral Stress in the Dog. George E. Billman and David C. Randall ................................................................. 214
CONTENTS OF VOLUME 48

No. 3 (March)

The Effect of Verapamil on Mechanical Performance of Acutely Ischemic and Reperfused Myocardium in the Conscious Dog. Lon G. Sherman, Chang-seng Liang, William E. Boden, and William B. Hood, Jr. 224

Pericardial Modulation of Right and Left Ventricular Diastolic Interaction. Joel Spadaro, Oscar H.L. Bing, William H. Gaasch, and Ronald M. Weintraub 233

Nuclear Uptake of Sex Steroid Hormones in the Cardiovascular System of the Baboon. Henry C. McGill, Jr., and Peter J. Sheridan 238

Developmental Changes in the Sensitivity of the Chick Embryo Ventricile to β-Adrenergic Agonist during Adrenergic Innervation. Dennis Higgins and Achilles J. Pappano 245

Relative Contributions of Arginine Vasopressin and Angiotensin II to Maintenance of Systemic Arterial Pressure in the Anesthetized Water-Deprived Rat. Charles E. Andrews, Jr., and Barry M. Brenner 254

Inhibitory Action of Adenosine on Histamine- and Dopamine-Stimulated Cardiac Contractility and Adenylate Cyclase in Guinea Pigs. Gert Baumann, Jürgen Schrader, and Eckehart Gerlach 259

Partition of Carotid Sinus Baroreceptor Response in Dogs with Chronic Renal Hypertension. Esmail Koushanpour and Karlie J. Kenfield 267

Angiotensin-Converting Enzyme Activity and Its Modulation by Oxygen Tension in the Guinea Pig Fetal-Placental Unit. Dennis Davidson, S. Alex Stalcup, and Robert B. Mellins 286

Acute Hypertension after the Local Injection of Kainic Acid into the Nucleus Tractus Solitarii of Rats. William T. Talman, Mark H. Perrone, and Donald J. Reis 292

Letters to the Editor 299

News from the American Heart Association 302

Controversies in Cardiovascular Research: Similarities of Genetic (Spontaneous) Hypertension. Man and Rat. Nick C. Trippodo and Edward D. Frohlich 309

Age Dependence of Myocardial Na⁺-K⁺-ATPase Activity and Digitalia Intoxication in the Dog and Guinea Pig. Allan J. Marsh, Brian L. Lloyd, and Roger R. Taylor 329

Leukocytes Are Required for Increased Lung Microvascular Permeability after Microembolization in Sheep. Michael R. Flick, Azriel Perel, and Norman C. Staub 344

Relaxation Properties of Mammalian Atrial Muscle. Marie M. Coultenye, Nora M. De Clerck, Marc A. Goethals, and Dirk L. Bruutsaert 352

Pressure-Diameter Relations during Early Diastole in Dogs: Incompatibility with the Concept of Passive Left Ventricular Filling. Hani N. Sabah and Paul D. Stein 357

The Effect of Nitroglycerin and Nitroprusside on Intramural Carbon Dioxide Tension during Acute Experimental Myocardial Ischemia in Dogs. L. David Hillis, Carl Davis, and Shukri F. Khuri 372

Carnitine Transport in Isolated Adult Rat Heart Myocytes and the Effect of 7,8-diOH Chlorpromazine. Joseph Bahl, Thomas Navin, Albert A. Manian, and Rubin Bresser 378

The Effect of Hemorrhagic Hypotension on Urinary Kallikrein Excretion, Renin Activity, and Renal Cortical Blood Flow in the Pig. Manfred Maier, Michael Starlinger, Michael Wagner, Dieter Meyer, and Bernd R. Binder 386

Inhibitors of Oxidative ATP Production Cause Transient Vasodilatation and Block Subsequent Pressor Responses in Rat Lungs. Sharon Rounds and Ivan F. McMurtrey 393

Effects of Anesthesia on the Canine Carotid Chemoreceptor Reflex. Michael Zimpfer, Siu Po Sit, and Stephen F. Vatner 400

Letters to the Editor 449

News from the American Heart Association 449
CONTENTS OF VOLUME 48

No. 4 (April)

Controversies in Cardiovascular Research: The Rat with Spontaneous Genetic Hypertension is Not a Suitable Model of Human Essential Hypertension. John C. McGiff and Caroline P. Quilliy

Diffusional Shunting in the Canine Myocardium. Allan C. Roth and Eric O. Feigl

Relationship between Blood Flow Direction and Endothelial Cell Orientation at Arterial Branch Sites in Rabbits and Mice. B. Lowell Langille and S. Lee Adamson

Chronic Progressive Pressure Overload of the Cat Right Ventricle. George Cooper, IV, Robert J. Tomanek, James C. Ehrhardt, and Melvin L. Marcus

Phosphorylation and Adenosine Triphosphatase Activity of Myofibrils from Thyrototoxic Rabbit Hearts. Raye Z. Litten, Ill, Barbara Jill Martin, Elizabeth R. Howe, Norman R. Alpert, and R. John Solaro

Reflex a-Adrenergic Coronary Vasoconstriction during Hindlimb Static Exercise in Dogs. Ronald Aung-Din, Jere H. Mitchell, and John C. Longhurst

Oscillatory Afterpotentials in Dog Ventricular Muscle Fibers. Masayasu Hiraoka, Yasutaka Okamoto, and Toyomi Sano

Effects of Exercise on the Coronary and Collateral Vasculature of Beagles with and without Coronary Occlusion. Konrad W. Scheel, Leslie A. Ingram, and Jack L. Wilson

Pacing-Induced Automaticity in Sheep Purkinje Fibers. Robert W. Wald and Menashe B. Waxman

Energy Turnover and Mechanical Properties of Resting and Contracting Aortas and Portal Veins from Normotensive and Spontaneously Hypertensive Rats. Anders Arner and Per Hellstrand

Postnatal Development of the M-Band in Rat Cardiac Myofibrils. Piero Anversa, Giorgio Olivetti, Pier-Giovanni Bracchi, and Alden V. Loud

Effects of Nitroglycerin on Regional Myocardial Ischemia Induced by Atrial Pacing in Dogs. Joseph L. Gerry, Jr., Hartzell V. Schaff, Clayton H. Kallman, and John T. Flaherty

Hypertension following Arterial Baroreceptor Denervation in the Unanesthetized Dog. Cyril S. Ito and Allen M. Scher

Comment: Baroreceptor Denervation Hypertension? Allen M. Cowley, Jr.

Reply. Allen M. Scher

Letters to the Editor

News from the American Heart Association

No. 5 (May)

Brief Reviews: Protein Synthesis and Degradation in Cardiac Stress. Sidney S. Schreiber, Carole D. Evans, Murray Oratz, and Marcus A. Rothschild

The Opposing Effects of Chronic Angiotensin-Converting Enzyme Blockade by Captopril on the Responses to Exogenous Angiotensin II and Vasopressin vs. Norepinephrine in Rats. François Spertiini, Hans R. Brunner, Bernard Waerbe, and Haralambus Gavros

An Oscillatory Current in Sheep Cardiac Purkinje Fibers. Mario Vassalle and Alessandro Mugelli

Altered Renal Hemodynamic and Urinary Prostaglandin Response to Acute Hypoxemia after Inhibition of Prostaglandin Synthesis in the Anesthetized Dog. Douglas N. Weismann

The Selective Inhibition of Serotonin-Induced Contractions of Rabbit Cerebral Vascular Smooth Muscle by Calcium-Antagonistic Dihydropyridines: An Investigation of the Mechanism of Action of Nimodipine. Robertson Towart

The Electrophysiological Properties of Normal Neonatal and Adult Canine Cardiac Purkinje Fibers. Robert F. Reder, Dennis S. Mura, Peter Danilo, Jr., and Michael R. Rosen

Hyperemia of the Aortic Wall in Atherosclerotic Monkeys. Donald D. Heistad, Mark L. Armstrong, and Melvin L. Marcus

Operational Sensitivity and Acute Resetting of Aortic Baroreceptors in Dogs. Hazel M. Coleridge, John C.G. Coleridge, Marc P. Kaufman, and Albert Dangel

The Cardiovascular Sympathetic Reflex during Coronary Occlusion in Anesthetized Dogs. Robert B. Felder and Marc D. Thames

The Role of the Right Heart in Acute Cardiac Tamponade in Dogs. Roy Ditchey, Robert Engler, Martin LeWinter, Richard Pavelec, Valmik Bhargava, James Covell, William Moores, and Ralph Shabetai

Phospholipid Alterations in Canine Ischemic Myocardium: Temporal and Topographical Correlations with Tc-99m-PP1 Accumulation and an in Vitro Sarcolemmal Ca2+ Permeability Defect. Kenneth R. Chien, John P. Reeves, L. Maximilian Buja, Frederick Bonte, Robert W. Parkey, and James T. Willerson
