# CONTENTS OF VOLUME 54

**Mechanism of 5-HT Contraction in Isolated Bovine Ventricular Coronary Arteries: Evidence for Transient Receptor-Operated Calcium Influx Channels.**

Paul H. Ratz and Stephen F. Flaim ........................................... 135

**A Comparison of Calcium Currents in Rat and Guinea Pig Single Ventricular Cells.**

I.R. Josephson, J. Sanchez-Chapula, and A.M. Brown ..................... 144

**Early Outward Current in Rat Single Ventricular Cells.**

I.R. Josephson, J. Sanchez-Chapula, and A.M. Brown ..................... 157

**Influence of Vasopressin and Angiotensin on Baroreflexes in the Dog.**

Allen W. Cowley, Jr., David Merrill, John Osborn, and B.J. Barber .... 163

**Pericardial Influences on Ventricular Filling in the Conscious Dog: An Analysis Based on Pericardial Pressure.**

George S. Tyson, Jr., George W. Maier, Craig O. Olsen, James W. Davis, and J. Scott Rankin .......................... 173

**Responses of Renal Hemodynamics and Function to Acute Volume Expansion in the Conscious Dog.**

Siu Po Sit, Hironobu Morita, and Stephen F. Vatner ...................... 185

**BRIEF COMMUNICATIONS**

**Long-Term Responses of Atrial Rate and Peripheral Resistance to Changes in Ventricular Pacing Rate in Awake Dogs with Atrioventricular Block.**

Stephen J. Fisher, Allen M. Scher, and Craig R. Wyss .................... 196

**Increase in Collateral Blood Flow Following Repeated Coronary Artery Occlusion and Nitroglycerin Administration.**

Susan Brazzamano, Arthur E. Mays, Judith C. Rembert, and Joseph C. Greenfield, Jr. .......................... 204

**LETTERS TO THE EDITOR** .............................................. 208

**NEWS FROM THE AMERICAN HEART ASSOCIATION** ......................... 211

**No. 3 (March)**

**Biochemical Properties of Membranes Isolated from Calcium-Depleted Rabbit Hearts.**

Jos M.J. Lamers, Johanna T. Stinis, and Tom J.C. Ruigrok .................. 217

**Chronic Lability of the Arterial Blood Pressure Produced by Electrolytic Lesions of the Nucleus Tractus Solitarii in the Rat.**

R. Allen Buchholz and Marc A. Nathan ........................................ 227

**Ventricular Receptors Activated following Myocardial Prostaglandin Synthesis Initiate Reflex Hypotension, Reduction in Heart Rate, and Redistribution of Cardiac Output in the Dog.**

Thomas H. Hintze and Gabor Kaley ............................................ 239

**Inhibitory Influences from Arterial Baroreceptors on Vasopressin Release Elicited by Fastigial Stimulation in Rats.**

Alberto Del Bo, Allan F. Sved, and Donald J. Reis ........................ 248

**Electron Probe Analysis of Sodium and Other Elements in Hypertrophied and Sodium-Loaded Smooth Muscle.**

James L. Junker, Arthur J. Wasserman, Peter F. Berner, and Andrew P. Somlyo .............................................. 254

**Passive Stiffness of Isolated Cardiac and Skeletal Myocytes in the Hamster.**

Daniel Fish, Jan Orenstein, and Sherman Bloom ............................. 267

**Canine Myocardial Reperfusion Injury: Its Reduction by the Combined Administration of Superoxide Dismutase and Catalase.**

**Identification and Characterization of the Rabbit Angiotensin II Myocardial Receptor.**

Kenneth M. Baker, Christopher P. Campianl, George J. Trachte, and Michael J. Peach .......................... 286

**Pericardial Adaptations during Chronic Cardiac Dilation in Dogs.**

Gregory L. Freeman and Martin M. LeWinter .................................... 294

**Developmental Aspects of the Renal Responses to Hemorrhage during Converting-Enzyme Inhibition in Fetal Lambs.**

R. Ariel Gomez and Jean E. Robillard .......................................... 301

**Accumulation of Unesterified Arachidonic Acid in Ischemic Canine Myocardium: Relationship to a Phosphatidylcholine Decylation-Reacylation Cycle and the Depletion of Membrane Phospholipids.**

Kenneth R. Chien, Aena Han, Anjan Sen, L. Maximilian Buja, and James T. Willerson .......................... 313
CONTENTS OF VOLUME 54

Complete Reversibility of Cat Right Ventricular Chronic Progressive Pressure Overload.
George Cooper, IV and Thomas A. Marino .......................................................... 323

Activation Sequence and Potential Distribution Maps Demonstrating Multicentric Atrial Impulse
Origin in Dogs.
John P. Boineau, Carey B. Miller, Richard B. Schuessler, William R. Roeske, Linda J. Autry,
Anita C. Wyllys, and Debra A. Hill ................................................................. 332

LETTERS TO THE EDITOR ................................................................................. 348

NEWS FROM THE AMERICAN HEART ASSOCIATION ........................................ 349

No. 4 (April)

SPECIAL ARTICLE
The Angiotensin II Pressor System of the Rat Forebrain.
Diane K. Hartle and Michael J. Brody ............................................................... 355

Atrophy Reversal and Cardiocyte Redifferentiation in Reloaded Cat Myocardium.
Ed W. Thompson, Thomas A. Marino, Cornelius E. Uhoh, Robert L. Kent, and George Cooper, IV .... 367

Mechanism of Impaired Baroreflex Control in Prehypertensive Dahl Salt-Sensitive Rats.
Frank J. Gordon and Aliya L. Mark .................................................................... 378

Altered Coronary Vascular Responsiveness to Leukotrienes in Alloxan-Diabetic Rats.
David M. Roth, Diane K. Reibel, and Allan M. Lefer ........................................... 388

Calcium-Dependent Mechanical Oscillations Occur Spontaneously in Unstimulated Mammalian
Cardiac Tissues.
Arthur A. Kort and Edward G. Lakatta .................................................................. 396

High Energy Phosphate Depletion and Lactate Accumulation in the Interventricular Septum and
Left Ventricular Free Wall of the Dog after Total Coronary Occlusion.
Robert B. Dunn ................................................................................................... 405

Ultrastructure of Isolated Sarcolemma from Dog and Rabbit Myocardium: Comparison to Intact
Tissue.
J.S. Frank, K.D. Philipson, and S. Beydler ........................................................... 414

The Role of Cardiac Receptor and Arterial Baroreceptor Reflexes in Control of the Circulation
during Acute Change of Blood Volume in the Conscious Rabbit.
John Ludbrook and William F. Graham .............................................................. 424

Vagal Control of Pacemaker Periodicity and Intraneural Conduction in the Rabbit Sinoatrial Node.
Victor A.J. Slenter, Joseph J. Salata, and Jose Jalife ............................................. 436

Identification of Vascular Postsynaptic \( a_1 \)– and \( a_2 \)–Adrenoceptors in Man.
Kenneth Jie, Peter van Brummelen, Pieter Vermeir, Pieter B.M.W.M. Timmermans, and
Pieter A. van Zweiten .......................................................................................... 447

Myocardial Monovalent Cation Transport during the Quinidine-Digoxin Interaction in Dogs.
Natalie J. Warner, J. Thomas Barnard, Edward B. Leahy, Jr., Thomas J. Houghen, J. Thomas Bigger, Jr.,
and Thomas W. Smith ......................................................................................... 453

BRIEF COMMUNICATIONS
Transsarcolemmal Calcium Movements in Arterially Perfused Rabbit Right Ventricle Measured
with Extracellular Calcium-Sensitive Dyes.
Donald W. Hilgemann and Glenn A. Langer ....................................................... 461

Quantitative Comparison of the Force-Interval Relationships of the Canine Right and Left Ventri-
cles.
Daniel Burkhoff, David T. Yue, Michael R. Franz, William C. Hunter, Kenji Sunagawa,
W. Lowell Maughan, and Kiichi Sagawa ............................................................ 468

LETTERS TO THE EDITOR ................................................................................. 474

NEWS FROM THE AMERICAN HEART ASSOCIATION ........................................ 476

No. 5 (May)

BRIEF REVIEWS
The Effect of Hyponatremia on the Regulation of Intracellular Volume and Solute Composition.
Jared Grantham and Michael Linshaw ............................................................... 483
