CONTENTS OF VOLUME 54

Complete Reversibility of Cat Right Ventricular Chronic Progressive Pressure Overload.
George Cooper, IV and Thomas A. Marino ........................................ 323

Activation Sequence and Potential Distribution Maps Demonstrating Multicentric Atrial Impulse Origin in Dogs.
John P. Boineau, Carey B. Miller, Richard B. Schuessler, William R. Roeske, Linda J. Autry,
Anita C. Wylds, and Debra A. Hill ........................................ 332

LETTERS TO THE EDITOR .................................................... 348

NEWS FROM THE AMERICAN HEART ASSOCIATION ......................... 349

No. 4 (April)

SPECIAL ARTICLE
The Angiotensin II Pressor System of the Rat Forebrain.
Diane K. Hartle and Michael J. Brody ........................................ 355

Atrophy Reversal and Cardiocyte Redifferentiation in Reloaded Cat Myocardium.
Ed W. Thompson, Thomas A. Marino, Cornelius E. Uboh, Robert L. Kent, and George Cooper, IV .... 367

Mechanism of Impaired Baroreflex Control in Prehypertensive Dahl Salt-Sensitive Rats.
Frank J. Gordon and Allyn L. Mark ........................................ 378

Altered Coronary Vascular Responsiveness to Leukotrienes in Alloxan-Diabetic Rats.
David M. Roth, Diane K. Reibel, and Allan M. Lefer ........................................ 388

Calcium-Dependent Mechanical Oscillations Occur Spontaneously in Unstimulated Mammalian Cardiac Tissues.
Arthur A. Kori and Edward G. Lakatta ........................................ 396

Robert B. Dunn ........................................ 405

Ultrastructure of Isolated Sarcolemma from Dog and Rabbit Myocardium: Comparison to Intact Tissue.
J.S. Frank, K.D. Philipson, and S. Beydler ........................................ 414

The Role of Cardiac Receptor and Arterial Baroreceptor Reflexes in Control of the Circulation during Acute Change of Blood Volume in the Conscious Rabbit.
John Ludbrook and William F. Graham ........................................ 424

Vagal Control of Pacemaker Periodicity and Intranodal Conduction in the Rabbit Sinoatrial Node.
Victor A.J. Slenter, Joseph J. Salata, and Jose Jalife ........................................ 436

Identification of Vascular Postsynaptic \( \alpha_1 \)- and \( \alpha_2 \)-Adrenoceptors in Man.
Kenneth Jie, Peter van Brummelen, Pieter Vermeij, Pieter B.M.W.M. Timmermans, and
Pieter A. van Zwieten ........................................ 447

Myocardial Monovalent Cation Transport during the Quinidine-Digoxin Interaction in Dogs.
Natalie J. Warner, J. Thomas Barnard, Edward B. Leahey, Jr., Thomas J. Hougen, J. Thomas Bigger, Jr.,
and Thomas W. Smith ........................................ 453

BRIEF COMMUNICATIONS
Transsarcolemmal Calcium Movements in Arterially Perfused Rabbit Right Ventricle Measured with Extracellular Calcium-Sensitive Dyes.
Donald W. Hilgemann and Glenn A. Langer ........................................ 461

Quantitative Comparison of the Force-Interval Relationships of the Canine Right and Left Ventricles.
Daniel Burkoff, David T. Yue, Michael R. Franz, William C. Hunter, Kenji Sunagawa,
W. Lowell Maughan, and Kiichi Sagawa ........................................ 468

LETTERS TO THE EDITOR .................................................... 474

NEWS FROM THE AMERICAN HEART ASSOCIATION ......................... 476

No. 5 (May)

BRIEF REVIEWS
The Effect of Hyponatremia on the Regulation of Intracellular Volume and Solute Composition.
Jared Grantham and Michael Linshaw ........................................ 483
# CONTENTS OF VOLUME 54

## Renal and Systemic Hemodynamic Responses to Intravenous Infusion of Leukotriene C4 in the Rat.
Kamal F. Badr, Christine Baylis, Janice M. Pfeffer, Marc A. Pfeffer, Roy J. Soberman, Robert A. Lewis, K. Frank Austen, Elias J. Corey, and Barry M. Brenner

## Purkinje and Ventricular Activation Sequences of Canine Papillary Muscle: Effects of Quinidine and Calcium on the Purkinje-Ventricular Conduction Delay.
Richard D. Veenstra, Ronald W. Joyner, and David A. Rawling

## Release of Histamine by Sympathetic Nerve Stimulation in the Guinea Pig Heart and Modulation of Adrenergic Responses: A Physiological Role for Cardiac Histamine?
Steven S. Gross, Zhao-Gui Guo, Roberto Levi, William H. Bailey, and Aida A. Chenouda

## Histamine H1 Receptor Antagonists Inhibit Autoregulation of Renal Blood Flow in the Dog.
Robert O. Banks, Edward W. Inscho, and Eugene D. Jacobson

## Adenine Nucleotide Metabolism and Compartmentalization in Isolated Adult Rat Heart Cells.
Timothy Geisbuhler, Ruth A. Altschuld, Ronald W. Trewyn, Ann Z. Ansel, Karla Lamka, and Gerald P. Brierley

## The Effect of Warming on Adrenergic Neurotransmission in Canine Cutaneous Vein.
John P. Cooke, John T. Shepherd, and Paul M. Vanhoute

Kenneth B. Pomerantz, Alan R. Tall, Steven J. Feinmark, and Paul J. Cannon

## Chronic Cerebroventricular Infusion of Hypertonic Sodium Chloride in Rats Reduces Hypothalamic Sympatho-Inhibition and Elevates Blood Pressure.
Eiji Miyajima and Ruben D. Bunag

## Effects of Tonicity on Tension and Intracellular Sodium and Calcium Activities in Sheep Heart.
Mario G. Lado, Shey-Shing Sheu, and Harry A. Fozzard

## Rabbit Papillary Muscle Myosin Isozymes and the Velocity of Muscle Shortening.
Edward D. Pagani and Fred J. Julian

## Effect of Arterial Impedance Changes on the End-Systolic Pressure-Volume Relation.
W.L Maughan, K. Sunagawa, D. Burkhojf, and K. Sagawa

## Removal of Adenosine from the Rabbit Pulmonary Circulation, in Vivo and in Vitro.
John D. Catravas

## An Atrial Peptide is a Potent Renal Vasodilator Substance.
Takeshi Oshima, Mark G. Currie, David M. Geller, and Philip Needleman

## News from the American Heart Association

## Brief Communications

### No. 6 (June)

## Brief Reviews

Interactions of Granulocytes with the Lungs.
Kenneth L. Brigham and Barbara Meyrick

Maximal Upstroke Velocity as an Index of Available Sodium Conductance: Comparison of Maximal Upstroke Velocity and Voltage Clamp Measurements of Sodium Current in Rabbit Purkinje Fibers.
Charles J. Cohen, Bruce P. Bean, and Richard W. Tsien

The Effects of Membrane Potential, Extracellular Potassium, and Tetrodotoxin on the Intracellular Sodium Ion Activity of Sheep Cardiac Muscle.
Craig T. January and Harry A. Fozzard

Input Impedance of the Pulmonary Arterial System in Normal Man: Effects of Respiration and Comparison to Systemic Impedance.
Joseph P. Murgo and Nico Westerhof

Artin Shoukas, Martha J. Brunner, Allan E. Frankle, Andrew S. Greene, and Clayton H. Kallman

Role of Prejunctional α2-Adrenergic Receptors in the Regulation of Myocardial Performance during Exercise in Conscious Dogs.
Guy R. Heyndrickx, Jean Paul Velaine, Emmanuel J. Moerman, and Isidoor Leusen

Myosin Types in the Human Heart: An Immunofluorescence Study of Normal and Hypertrophied Atrial and Ventricular Myocardium.
Luisa Gorza, Jean Jacques Mercadier, Keity Schwarz, Lars Eric Thornell, Saverio Sartore, and Stefano Schiaffino
