### ORIGINAL CONTRIBUTIONS

**Anion Manipulation: A New Antiarrhythmic Approach: Action of Substitution of Chloride With Nitrate on Ischemia- and Reperfusion-Induced Ventricular Fibrillation and Contractile Function**  
Paul D. Ridley and Michael J. Curtis .......................... 617

**Regulation of Acetylcholinesterase in Avian Heart: Studies on Ontogeny and the Influence of Vagotomy**  
Sangmee Ahn Jo, Dennis M. Higgins, and Harvey Alan Berman ........ 633

**Aggregating Human Platelets in Carotid Sinus of Rabbits Decrease Sensitivity of Baroreceptors**  
Zhi Li, François M. Abboud, and Mark W. Chapleau .................. 644

**Verapamil Prevents Slowing of Transmural Conduction and Suppresses Arrhythmias in an Isolated Guinea Pig Ventricular Model of Ischemia and Reperfusion**  
Gui-Rong Li and Gregory R. Ferrier .............................. 651

**Decreased Endothelium-Dependent Hyperpolarization to Acetylcholine in Smooth Muscle of the Mesenteric Artery of Spontaneously Hypertensive Rats**  
Koji Fujii, Mitsuhito Tominaga, Susumu Ohmori, Kazuo Kobayashi, Tokushi Koga, Yutaka Takata, and Masatoshi Fujishima .............. 660

**Effect of α-Adrenergic Stimulation on Activation of Protein Kinase C and Phosphorylation of Proteins in Intact Rabbit Hearts**  
Laszlo Talosi and Evangelia G. Kranias ......................... 670

**Swelling-Induced Chloride-Sensitive Current in Canine Atrial Cells Revealed by Whole-Cell Patch-Clamp Method**  
Steve Sorota .................................................. 679

**Increased Messenger RNA Level of the Inhibitory G Protein α Subunit Gαi-2 in Human End-Stage Heart Failure**  
Thomas Eschenhagen, Ulrike Mende, Monika Nose, Wilhelm Schmitz, Hasso Scholz, Axel Haverich, Stefan Hirt, Volker Döring, Peter Kalmár, Wolfgang Höppner, and Hans-Jörg Seitz .................. 688

**Capillary Geometrical Changes With Fiber Shortening in Rat Myocardium**  
David C. Poole, Sanjay Batra, Odié Mathieu-Costello, and Karel Rakusan .................. 697

**Effect of Field Stimulation on Cellular Repolarization in Rabbit Myocardium: Implications for Reentry Induction**  
Stephen B. Knisley, William M. Smith, and Raymond E. Ideker .................. 707

**Effects of Simulated Ischemia and Reperfusion on the Sarcoplasmic Reticulum of Digitonin-Lysed Cardiomyocytes**  
Charlene M. Hohl, Angela A. Garleb, and Ruth A. Altschuld ............... 716

**Bilateral Atrial Appendectomy Abolishes Increased Plasma Atrial Natriuretic Peptide Release and Blunts Sodium and Water Excretion During Volume Loading in Conscious Dogs**  
Julian M. Stewart, Roosevelt Dean, Miriam Brown, Donna Diasparra, Guillermo A. Zeballos, Mary Schustek, Michael H. Gewitz, Carl I. Thompson, and Thomas H. Hintze .................. 724

**Gap Junction Distribution Is Altered Between Cardiac Myocytes Infected With Trypanosoma cruzi**  

---

CIRCULATION RESEARCH (ISSN 0009-7330) is published monthly by the American Heart Association, 7272 Greenville Avenue, Dallas, TX 75231-4596. For rates in Japan, contact Nankodo Co., Ltd., 42-6 Hongo 3-chome, Bunkyo-ku, Tokyo 113, Japan. In the United States, individuals may subscribe for their personal use at the following annual rates: $122 for members of an American Heart Association scientific council and $152 for nonmembers. Outside the United States, add $60 for postage. Contact AHA for single copy rates and subscription rates for medical professionals in training and for libraries, reading rooms, and other multiple-use institutions. Second class postage paid at Dallas, Texas, and additional mailing offices. POSTMASTER: Send address changes to CIRCULATION RESEARCH, American Heart Association, 7272 Greenville Avenue, Dallas, TX 75231-4596.
Adenosine-Sensitive Afterdepolarizations and Triggered Activity in Guinea Pig Ventricular Myocytes
Yejia Song, Sheryl Thedford, Bruce B. Lerman, and Luiz Belardinelli ........................................ 743

Endocardial Endothelium Modulates Myofilament Ca\(^{2+}\) Responsiveness in Aequorin-Loaded Ferret Myocardium
Jianxun Wang and James P. Morgan ................................................................. 754

Pulsatile Pressure–Flow Relations and Pulse-Wave Propagation in the Umbilical Circulation of Fetal Sheep
S. Lee Adamson, K.J. Whiteley, and B. Lowell Langille .................................................. 761

Existence of Both Fast and Slow Channel Activity During the Early Stages of Ventricular Fibrillation
Xiaohong Zhou, Paul Guse, Patrick D. Wolf, Dennis L. Rollins, William M. Smith,
and Raymond E. Ideker ...................................................................................... 773

Contractile Proteins in Myocardial Cells Are Regulated by Factor(s) Released by Blood Vessels
George McClellan, Andrea Weisberg, Norman S. Kato, Claudio Ramaciotti, Angela Sharkey,
and Saul Winegrad ...................................................................................... 787

Dimethylthiourea, an Oxygen Radical Scavenger, Protects Isolated Cardiac Myocytes From Hypoxic Injury by Inhibition of Na\(^+\)-Ca\(^{2+}\) Exchange and Not by Its Antioxidant Effects
Roy C. Ziegelstein, Jay L. Zweier, E. David Mellits, Antoine Younes, Edward G. Lakatta,
Michael D. Stern, and Howard S. Silverman ...................................................... 804

A Method for Measuring the Rate of Oxygen Release From Single Microvessels
Norihiko Tateishi, Nobuji Maeda, and Takeshi Shiga ............................................. 812

Angiotensin II–Induced Mitogenesis of Spontaneously Hypertensive Rat–Derived Cultured Smooth Muscle Cells Is Dependent on Autocrine Production of Transforming Growth Factor-\(\beta\)
George A. Stouffer and Gary K. Owens .............................................................. 820

Effect of Thrombin Inhibition on the Dynamics of Thrombolysis and on Platelet Function During Thrombolytic Therapy
M. Audrey Rudd, Dorinda George, Michael T. Johnstone, Richard T. Moore, Laura Collins,
LeRoy E. Rabbani, and Joseph Loscalzo .......................................................... 829

Antisense Nonmuscle Myosin Heavy Chain and c-myb Oligonucleotides Suppress Smooth Muscle Cell Proliferation In Vitro
Michael Simons and Robert D. Rosenberg ....................................................... 835

RAPID COMMUNICATIONS

\(\beta\)-Adrenergic Modulation of Fast Inward Sodium Current in Canine Myocardium: Syncytial Preparations Versus Isolated Myocytes
Gary A. Gintant and Da-Wei Liu ................................................................. 844

Activation of Chloride Current by Purinergic Stimulation in Guinea Pig Heart Cells
Hiroshi Matsuura and Tsuguhisa Ehara ......................................................... 851

Neutralization of Endogenous Tumor Necrosis Factor Ameliorates the Severity of Myosin-Induced Myocarditis
Stacy C. Smith and Paul M. Allen ................................................................. 856
