ORIGINAL CONTRIBUTIONS

Mouse Phospholamban Gene Expression During Development In Vivo and In Vitro
John R. Ganim, Wusheng Luo, Sathivel Ponniyah, Ingrid Grupp, Hae Won Kim, Donald G. Ferguson, Vivek Kadambi, Jon C. Neumann, Thomas Doetschman, and Evangelia G. Kranias ........................................... 1021

Effect of Caffeine on Expression of Cardiac Myosin Heavy Chain Gene in Adult Hypothyroid and Fetal Rats
Shin-ichiro Imamura, Misa Kimura, Eriko Hiratsuka, Atsuyoshi Takao, and Rumi Matsuoka ............... 1031

Cellular Mechanisms for Synthesis and Secretion of Atrial Natriuretic Peptide and Brain Natriuretic Peptide in Cultured Rat Atrial Cells

Effect of Perfusate [Ca2+] on Cardiac Sarcoplasmic Reticulum Ca2+ Release Channel in Isolated Rat Hearts
Alaa E. Abdelmeguid and Joseph J. Feher .................................................. 1049

Brain Ouabain-Like Activity and the Sympathoexcitatory and Pressor Effects of Central Sodium in Rats
Bing S. Huang, Eef Harmsen, Huilian Yu, and Frans H.H. Leenen ........................................... 1059

Product Inhibition of the Actomyosin Subfragment-1 ATPase in Skeletal, Cardiac, and Smooth Muscle
Jean S. Drew, Vijay A. Harwalkar, and Leonard A. Stein .................................................. 1067

Sympathetic Stimulation and Norepinephrine Infusion Modulate Extracellular Potassium Concentration During Acute Myocardial Ischemia
Margaret R. Warner, Timothy S. Kroeker, and Douglas P. Zipes ........................................... 1078

Platelet-Derived Growth Factor Suppresses and Fibroblast Growth Factor Enhances Cytokine-Induced Production of Nitric Oxide by Cultured Smooth Muscle Cells:
Effects on Cell Proliferation
Timothy Scott-Burden, Valerie B. Schini, Edgar Elizondo, Didier Junquero, and Paul M. Vanhoutte .... 1088

Adenosine A1 Receptor Activation Attenuates Cardiac Injury Produced by Hydrogen Peroxide
Morris Karmazyn and Michael A. Cook .................................................. 1101

Myocardial Energetics During Ventricular Fibrillation Investigated by Magnetization Transfer Nuclear Magnetic Resonance Spectroscopy
Hideo Kusuo, V.P. Chacko, and Eduardo Marban .................................................. 1111

Effect of Ischemia and Reperfusion on Sarcoplasmic Reticulum Calcium Uptake
P. Kaplan, M. Hendrikx, M. Matheussen, K. Mubagwa, and W. Flameng ........................................... 1123

Reperfusion Arrhythmias in Isolated Perfused Pig Hearts: Inhomogeneities in Extracellular Potassium, ST and TQ Potentials, and Transmembrane Action Potentials
Ruben Coronel, Francien J.G. Wilms-Schopman, Tobias Opthof, Juan Cinca, Jan W.T. Fiolet, and Michiel J. Janse .................................................. 1131

Culture of Renal Arteriolar Smooth Muscle Cells: Mitogenic Responses to Angiotensin II
Raghvendra K. Dubey, Avijit Roy, and Henry W. Overbeck ........................................... 1143

Relation Between Vasa Recta Blood Flow and Renal Interstitial Hydrostatic Pressure During Pressure Natriuresis
Emanuel Farrugia, John C. Lockhart, and Timothy S. Larson ........................................... 1153

CIRCULATION RESEARCH (ISSN 0009-7330) is published monthly by the American Heart Association, 7272 Greenville Avenue, Dallas, TX 75231-4596. For rates in Japan, contact Nankodo Co., Ltd., 42-6 Hongo 3-chome, Bunkyo-ku, Tokyo 113, Japan. In the United States, individuals may subscribe for their personal use at the following annual rates: $122 for members of an American Heart Association scientific council and $152 for nonmembers. Outside the United States, add $60 for postage. Contact AHA for single copy rates and subscription rates for medical professionals in training and for libraries, reading rooms, and other multiple-use institutions. Second class postage paid at Dallas, Texas, and additional mailing offices. POSTMASTER: Send address changes to CIRCULATION RESEARCH, American Heart Association, 7272 Greenville Avenue, Dallas, TX 75231-4596.
Mechanism of Hind Limb Vasocostriction Due to Cyclosporin A in the Dog
Francois Tronc, Michel Carrier, and Conrad L. Pelletier ........................................... 1159

Partial Coronary Stenosis Is Sufficient and Complete Reperfusion Is Mandatory for
Preconditioning the Canine Heart
Michel Ovize, Karin Przyklenk, and Robert A. Kloner .................................................. 1165

Ejection Load Changes in Aortic Stenosis: Observations Made After Balloon Aortic Valvuloplasty
Youngtack Shim, Thomas G. Hampton, Craig A. Straley, J. Kevin Harrison, Laurence A. Spero,
Thomas M. Bashore, and Ares D. Pasipoularides .......................................................... 1174

Mechanisms of α1-Adrenergic Vascular Desensitization in Conscious Dogs
Kaname Kiuchi, Dorothy E. Vatner, Nobuhisa Uemura, Marc Bigaud, Naoyuki Hasebe,
Donna M. Hempel, Robert M. Graham, and Stephen F. Vatner ....................................... 1185

Branching Patterns in the Porcine Coronary Arterial Tree: Estimation of Flow Heterogeneity
E. VanBavel and J.A.E. Spaan .............................................................................................. 1200

Brain Death–Induced Impairment of Cardiac Contractile Performance Can Be Reversed by
Explantation and May Not Preclude the Use of Hearts for Transplantation
Manuel Galiñanes and David J. Hearse ................................................................................ 1213

Restoration of Cerebrovascular CO2 Responsivity by Glutamine Synthesis Inhibition in
Hyperammonemic Rats
Hideo Takahashi, Raymond C. Koehler, Takahiko Hinata, Saul W. Brusilow, and Richard J. Traystman 1220

Inward Sodium Current at Resting Potentials in Single Cardiac Myocytes Induced by the
Ischemic Metabolite Lysophosphatidylcholine
Albertas I. Undrovinas, Ilya A. Fleidervish, and Jonathan C. Makielski ............................... 1231

Endothelin-1 Enhances Calcium Entry Through T-Type Calcium Channels in Cultured Neonatal
Rat Ventricular Myocytes
Tetsushi Furukawa, Hiroshi Ito, Junichi Nitta, Motoyoshi Tsujino, Susumu Adachi, Michiaki Hiroe,
Fumiaki Marumo, Tohru Sawanobori, and Masayasu Hiraoka ........................................... 1242

Cholinergically Mediated Tachyarrhythmias Induced by a Single Extrastimulus in the Isolated
Canine Right Atrium
Richard B. Schuessler, Thomas M. Grayson, Burt I. Bromberg, James L. Cox, and John P. Boineau 1254

Interferon-γ and Tumor Necrosis Factor Synergize to Induce Nitric Oxide Production and
Inhibit Mitochondrial Respiration in Vascular Smooth Muscle Cells
Yong-jian Geng, Göran K. Hansson, and Elisabeth Holme ................................................ 1268

RAPID COMMUNICATION

Multiple Connexins Confer Distinct Regulatory and Conductance Properties of Gap Junctions in
Developing Heart

NEWS FROM THE AMERICAN HEART ASSOCIATION ............................................ A1284
