Mini Review

Molecular Basis of Permeation in Voltage-Gated Ion Channels
Gordon F. Tomaselli, Peter H. Backx, and Eduardo Marban

Original Contributions

The Effect of Exchanger Inhibitory Peptide (XIP) on Sodium–Calcium Exchange
Current in Guinea Pig Ventricular Cells
Thomas K. Chin, Kenneth W. Spitzer, Kenneth D. Philipson, and John H.B. Bridge

Heterogeneity of ATP Receptors in Aortic Endothelial Cells: Involvement of P2y
and P2u Receptors in Inositol Phosphate Response
S. Motte, S. Pirotton, and J.M. Boeynaems

Inhibition of Nitric Oxide Formation in the Nucleus Tractus Solitarius Increases
Renal Sympathetic Nerve Activity in Rabbits
Seiki Harada, Shigehiko Tokunaga, Michiko Momohara, Hiroyuki Masaki, Tatsuya Tagawa, Tsutomu Imaizumi,
and Akira Takeshita

Acetylcholine Reversal of Isoproterenol-Stimulated Sodium Currents in Rabbit
Ventricular Myocytes
James J. Matsuda, Hon-Chi Lee, and Erwin F. Shibata

Characterization and Localization of Endothelin Receptor Subtypes in the
Human Atrioventricular Conducting System and Myocardium
Peter Molenaar, Gillian O'Reilly, Andrew Sharkey, Rhoda E. Kuc, Deborah P. Harding, Christopher Plumpton,
G. Austin Gresham, and Anthony P. Davenport

Selective Inhibition of Endothelin-Dependent Vasodilator Capacity by
Escherichia coli Endotoxin
Janet L. Parker and H. Richard Adams

Hepatorenal Reflex Plays an Important Role in Natriuresis After High-NaCl Food
Intake in Conscious Dogs
Hironobu Morita, Tsunenori Matsuda, Fujio Furuya, Mahluzur R. Khanchowdhury, and Hiroshi Hosomi

Dissociation Between Cellular K⁺ Loss, Reduction in Repolarization Time, and
Tissue ATP Levels During Myocardial Hypoxia and Ischemia
Gan-Xin Yan, Kathryn A. Yamada, André G. Kléber, Jane McHowat, and Peter B. Corr

Hypoxia Enhances Isoproterenol-Induced Increase in Heart Interstitial
Adenosine, Depressing β-Adrenergic Contractile Responses
R.A. Fenton and J.G. Dobson Jr.

Coronary Pressure–Flow Relation in Left Ventricular Hypertrophy: Importance
of Changes in Back Pressure Versus Changes in Minimum Resistance
Dirk J. Duncker, Jianyi Zhang, and Robert J. Bache

Fetal Ductus Arteriosus Ligation: Pulmonary Vascular Smooth Muscle
Biochemical and Mechanical Changes
Jaques Belik, A.J. Halayko, K. Rao, and Newman L. Stephens
Effects of the Positive Inotropic Agent Org 30029 on Developed Force and Aequorin Light Transients in Intact Canine Ventricular Myocardium
Youichi Kawabata and Masao Endoh ................................................................. 597

Coronary Venular Responses to Flow and Pressure
Lih Kuo, Frank Arko, William M. Chilian, and Michael J. Davis ......................... 607

Hypoxia Causes an Abnormal Contractile Response in the Atherosclerotic Rabbit Aorta: Implication of Reduced Nitric Oxide and cGMP Production
Serge Simonet, Jacques Porro de Baillencourt, Jean-Jacques Descombes, Philippe Mennecier, Michel Laubie, and Tony J. Verbeuren ............................................................ 616

Spiral Waves of Excitation Underlie Reentrant Activity in Isolated Cardiac Muscle
Arkady M. Pertsov, Jorge M. Davidenko, Remy Salomonsz, William T. Baxter, and José Jalife ................................................................. 631

Mechanisms of Ca\(^{2+}\)-Independent Contraction in Single Permeabilized Ferret Aorta Cells
Hideaki Katsuyama and Kathleen G. Morgan ............................................................ 651

Role of Platelet-Activating Factor in Hypotension and Platelet Activation Induced by Infusion of Thrombolytic Agents in Rabbits
Giuseppe Montrucchio, Giuseppe Alloatti, Filippo Mariano, Enrico Lupia, Pietro Greco Lucchina, Elma Musso, Giorgio Emanuelli, and Giovanni Camussi ................................................................. 658

Ionic Bases for Electrophysiological Distinctions Among Epicardial, Midmyocardial, and Endocardial Myocytes From the Free Wall of the Canine Left Ventricle
Da-Wei Liu, Gary A. Gintant, and Charles Antzelevitch ........................................ 671

Gene Injection Into Canine Myocardium as a Useful Model for Studying Gene Expression in the Heart of Large Mammals
Rüdiger von Harsdorf, Robert J. Schott, You-Tang Shen, Stephen F. Vatner, Vijak Mahdavi, and Bernardo Nadal-Ginard ................................................................. 688

Brief Definitive Communication
Isoprenaline Stimulates Gene Transcription of the Inhibitory G Protein \(\alpha\)-Subunit \(G_{\alpha\omega2}\) in Rat Heart
Frank Ulrich Müller, Kenneth R. Boheler, Thomas Eschenhagen, Wilhelm Schmitz, and Hasso Scholz ................................................................. 696

Rapid Communications
Phosphatidic Acid Stimulates Inositol 1,4,5-Trisphosphate Production in Adult Cardiac Myocytes
Thomas Kurz, Robert A. Wolf, and Peter B. Corr ........................................................ 701

Identification of a Specific Radioligand for the Cardiac Rapidly Activating Delayed Rectifier K\(^{+}\) Channel

Intracellular H\(^{+}\) and Ca\(^{2+}\) Modulation of Trypsin-Modified ATP-Sensitive K\(^{+}\) Channels in Rabbit Ventricular Myocytes
Z. Fan and J.C. Makielski ................................................................. 715

Erratum ................................................................. 723

News from the American Heart Association .......................................................... A724
Meetings Calendar ................................................................. A725
