Circulation Research

AN OFFICIAL JOURNAL OF THE AMERICAN HEART ASSOCIATION

No. 1

Editorial: Circulation Research and Biochemistry. Niels Haugaard

Observations on the Circulation of Domestic Cattle. J. T. Doyle,

J. L. Patterson, Jr., J. V. Warren, and David K. Detweiler

Effects of Experimental Regional Ischemia and Levarterenol on the RS-T Segment and Baseline of Ventricular Surface Electrocardiograms Obtained by Direct-Coupled Amplification. A. H. Katcher, G. Feirze, and J. J. Sayen

Influence of Polyvinyl Chloride Tubing on the Isolated Perfused Rat's Heart. F. L. Mayler, A. F. Willbrands, and D. Durrer

Plateau of the Action Potential of the Frog Ventricle. W. V. McFarlane

Effects of Sodium, Calcium and Magnesium Upon Small and Large Blood Vessels of the Dog Forelimb. F. J. Haddy

Local Effects of Sodium, Calcium and Magnesium Upon Small and Large Blood Vessels of the Dog Forelimb. F. J. Haddy

Further Studies on Experimental Atherosclerosis and Dietary Pyrimidines. L. C. Phihoo, C. Naito, S. B. Andrus, and A. M. Roach

Effect of 18-Norandrostenedione on Experimentally-Induced Atheroma in Cockerels. E. S. F. Campbell, T. D. V. Lawrie, J. C. Maslaurin, and R. Pirrie

Influence of Boundary Conditions on the Amplitude of R and Other Accession Potentials in Leads from the Ventricular Wall. L. L. Conrad and T. B. Cuddy

Components of the "Central" Blood Volume in the Dog. R. J. Marshall, Y. Wang, and J. T. Shepherd

Further Studies of the Effects on Myocardial Energy Utilization. T. D. Darby and E. E. Aldinger

Electrocardiogram of the Normal and Hypertensive Rat. M. P. Sambhi and F. N. White

Effect of Hemorrhage on the Cardiac Output and Its Distribution in the Rat. L. A. Sapirstein, E. H. Sapirstein, and A. Bredemeyer

Measurement of Flow in Single Blood Vessels Including Cardiac Output by Local Thermodilution. A. Ponce and V. Ganz

Left Ventricle as a Mixing Chamber. H. Irisawa, M. F. Wilson, and R. F. Rahnmer

Metabolism of Ischemic Cardiac Muscle. J. P. Kaltenbach and R. B. Jennings

Comparative Analysis of Molar Sodium Lactate and Other Agents in Treatment of Induced Hypokalemia in Nephrectomized Dogs. S. Greenstein, W. P. Goldburgh, S. V. Guzman, and S. Bellet

Immediate Effects of Intravenous Endotoxin on Serotonin Concentrations and Blood Platelets. R. B. Davis, W. R. Meeker, and D. G. McQuarrie
Effect of Tetraethylpyrophosphate on the Transmembrane Potentials of Pacemaker and Non-pacemaker Fibers of Isolated Rabbit Atrium. M. Kleinfield, J. Magin, and E. Stein .................................................. 240
Quinidine and Unidirectional Cation Fluxes in Atria. R. L. Klein, W. C. Holm, and B. Tinsley .......................................................... 246
Cineradiographic Study of the Snake Heart. K. Johansen and R. Hol .................................................. 253
Influence of Experimentally Induced Atherosclerosis on the Sulfate Content of the Aortic Wall. D. T. Forman, D. S. McCann, R. E. Mosher, and A. J. Boyle .................................................. 267
Atherosclerosis in Rats Induced by Repeated Breeding. ACTH and Unilateral Nephrectomy. B. C. Wexler, T. E. Brown, and B. F. Miller .................................................. 278
Histochemical Studies in Atherogenesis. F. T. Zugibe and K. D. Brown .................................................. 287
News from the American Heart Association .................................................. 296
Contributors to this Issue .................................................. 298

Editorial: Central Nervous Control of the Circulation. Carl F. Schmidt .................................................. 301
Special article: Hemodynamic Effects of Ganglion Blocking Drugs. Domingo M. Aviado .................................................. 304
Behavior of the Right Ventricle Following Acute Constriction of the Pulmonary Artery. A. C. Taquin, J. D. Fermoso, and P. Aramendia .................................................. 315
Pattern of Cholesterol Ester Fatty Acids in Serum in Normal Subjects and in Patients with Essential Hypercholesterolemia. Per Bjørntorp and Bertil Hood .................................................. 319
Cardiopulmonary Effects of Pulmonary Venous Hypertension with Special Reference to Pulmonary Lymphatic Flow. Erwin R. Rabin and Edward C. Meyer .................................................. 324
Mineralocorticoid Hypertensive Cardiovascular Disease Induced in Hypophysectomized Rats. C. E. Hall, O. Hall, and E. G. Rennels .................................................. 336
Frequency Analysis of the Electrocardiogram. Allen M. Scher and Allan C. Young .................................................. 344
Abdominal Baro- and Chemosensitivity in Dogs. C. Heymans, A. F. De Schepdryver, and G. K. De Vleeschhouwer .................................................. 347
Early Stages in the Development of Collateral Circulation to the Lung in the Rat. Ewald R. Weibel .................................................. 353
Importance of Myocardial Reserve in Determining Changes in Heart Rate during Levarterenol Infusion. Louis A. Soloff, Felix Corte, and William L. Winters, Jr. .................................................. 377
Variability of the Viscoelastic Constants Along the Aortic Axis of the Dog. Richard W. Lawton .................................................. 381
Action of Long-Chain Polymers on Kidney Juxtaglomerular Cells and Connective Tissue Mast Cells. Aldo N. Corbascio .................................................. 399
Indirect Induction of Vascular Damage by X-Irradiation. Charles K. Levy .................................................. 399
Studies on the Production of Intravascular Thrombi and Their Treatment with FibrinolYSIS. A. H. Freiman, N. U. Bang, and E. E. Clifton .................................................. 409
Effect of Increased Fibrinogen Concentration on the Lysis of In Vivo Thrombi. N. U. Bang, A. H. Freiman, and E. E. Clifton .................................................. 419
Butter, Corn Oil and Fibrinolysis in Rats. Roosevelt L. Tillman, Robert M. O'Neal, Wilbur A. Thomas, and Barbara Bartels Hixon .................................................. 423
Comparison of Two Types of Mechanical Assistance in Experimental Heart Failure. Peter F. Salisbury, Cecil E. Cross, P. Andre Rieben, and Richard J. Lewin .................................................. 431
Pressure Variation in Small Veins in the Hindleg of the Dog. Mary P. Wiedeman .................................................. 440
CONTENTS OF VOLUME VIII

**Vascular Muscle Reactivity.** W. Alan Dodd and Edwin E. Daniel 446

**Electrolytes and Arterial Muscle Contractility.** W. Alan Dodd and Edwin E. Daniel 451

**Effect of Addition and Removal of a Kidney Transplant in Renal and Adrenocortical Hypertensive Rats.** A. H. Gomez, S. W. Hoobler, and P. Blaquier 464

**Relative Effect of Chronic Ischemia and a Myocardial Revascularization Procedure on the Ventricular Fibrillation Threshold.** Lloyd D. MacLean and Clifford M. Phibbs 473

**Electrocardiographic Changes Produced by Potassium and Other Ions Injected into the Coronary Arteries of Intact Dogs.** Louis A. Soloff, Guido Asenio de los Santos, and M. J. Oppenheimer 479

**News from the American Heart Association** 485

**Contributors to This Issue** 487

**Part II**

Selected List of Research Training Programs Supported by the National Heart Institute

No. 3

**Editorial: Brains, Data and Machines.** C. W. Sheppard 489

**Myocardial Necrosis in Experimental Occlusion of the Portal Vein.** Raúl H. Mejía 495

**Effects of Bladder Distention on Pulmonary Vascular Bed.** Alberto Agrest and Aquiles J. Roneoroni 501

**In Vitro Effects of Estradiol on the Aorta of Chickens.** Manuel Réne Malinow 506

**Effects of Drugs on the Pulmonary Circulation and Ventilation As Reflected By Changes in the Arterial Oxygen Saturation.** Albert H. Niden, Benjamin Burrows, and William R. Barley 509

**Factor Analysis of the Electrocardiogram. Test of Electrocardiographic Theory: Normal Hearts.** Allen M. Scher, Allan C. Young, and William M. Meredith 519

**Influence of Sex Difference and Hormones on Elastine and Collagen in the Aorta of Chickens.** José Cembrano, Manuel Lillo, José Val, and Jorge Mardones 527

**Reflex Effects of Left Ventricular Distension.** Peter F. Salisbury, Cecil E. Cross, and P. Andre Rieben 530

**Effect of Liver Damage on Experimental Renal Hypertension in the Rat.** Hubert F. Loyke, John J. Plucinsky, and Thomas L. Crawford 535

**Vascular Effects of Hypertonic Solutions.** Raymond C. Read, John A. Johnson, James A. Vick, and Maurice W. Meyer 538

**Regulation of Cardiac Output Through Stroke Volume.** Homer R. Warner and Alan F. Toronto 549

**Possible Reasons For Drop of Resting Potential of Mammalian Heart Preparations During Hypothermia.** Jean Délèze 553

**Stroke Volume in the Dog During Graded Exercise.** Yang Wang, Robert J. Marshall, and John T. Shepherd 558

**Adrenal Medullary Secretion of Epinephrine and Norepinephrine in Dogs Subjected to Hemorrhagic Hypotension.** Vincent V. Glaviano, Noel Bass, and Florian Nykiel 564

**Effect of Insulin in the Induction and Regression of Atherosclerosis in the Chick.** Jeremiah Stamler, Ruth Pick, and Louis N. Katz 572

**Characteristics of the Frequency Spectrum in the Normal Electrocardiogram and in Subjects Following Myocardium Infarction.** Paul H. Langner, Jr., and David B. Geiselovitz 577

**Effects of Anoxia on the Vascular Resistance of the Dog's Hind Limb.** Jerzy Litwin, Abdul Habib Dil, and Domingo M. Avisado 585

**Volume Pressure Relationships of the Pulmonary-Left Heart Vascular Segment. Analysis for a "Valvulike" Closure of the Pulmonary Veins.** Robert C. Little 594

**"Unidirectional" Atrioventricular Conduction Studied by Microelectrodes.** Toyomi Sano, Eiichi Ohtsuka, and Takio Shimamoto 600
Cardiovascular Adaptation to Partial Heart-Lung Bypass. Pierre M. Galletti and Gerhard A. Brecher 609

General and Pulmonary Hemodynamic Effects of Pure Decapeptide Angiotensin in Normotensive Man. Salvatore M. Sancetta 616

Mechanical Properties of Arteries in Vivo. Lysle H. Peterson, Roderick E. Jensen, and John Parnell 622

Pulmonary Vasomotor Responses to Epinephrine and Norepinephrine in the Cat. Influence of the Sympathetic Nervous System. Helen N. Duke and R. D. Stedeford 640

Effect of Prolonged Periods of Anoxia on Atrioventricular Conduction and Cardiac Muscle. Jay D. Coffman, F. Bruce Lewis, and Donald E. Gregg 649

Labeled Phosphate Distribution in Working and Nonworking Myocardium. Kenneth K. Tanobe, Nancy M. Buckley, and Norman J. Zeig 703

Influence of Cholesterol Feeding on Phospholipid Metabolism of Connective Tissue. Esther L. McCandless, Robert E. Bailey, and D. B. Zilversmit 724

Nitrogen-Free Plasmalogen Observed in Infarcted Myocardium of the Dog. M. H. Hack and V. J. Ferrans 738

Metabolism of Cholesterol-4-C\textsubscript{14} in Bile Duct Cannulated Chicks and Rats. Toshiro Nishida, Akira Ueno, and Fred A. Kummerow 742

Effect of Treatment with Radioactive Iodine and Iodine-Deficient Diet on Development and Maintenance of Renal Hypertension in Rats. M. J. Fregly, J. F. Gennaro, Jr., and A. B. Otis 749

Inhibition of Experimental Hypercholesterolemia and Atherogenesis by 4-Amino Pteroylglutamic Acid (Aminopterin). Carl Muschenheim, Seymour Advaniote, and Donald W. Hoskins 759

Regional Uptake of Radioactive Oxygen, Carbon Monoxide and Carbon Dioxide in the Lungs of Patients with Mitral Stenosis. C. T. Dollery and J. B. West 765

Increased Sensitivity to Corticosterone as a Possible Factor in the Development of Adrenal Regeneration Hypertension. Floyd R. Skelton 772

Mechanism of S-T Segment Alteration During Acute Myocardial Injury. Werner E. Samson and Allen M. Scher 780

Distensibility and Water Content of Heart Muscle Before and After Injury. Peter F. Salisbury, Cecil E. Cross, and P. Andre Rieben 788

Influence of Coronary Artery Pressure Upon Myocardial Elasticity. Peter F. Salisbury, Cecil E. Cross, and P. Andre Rieben 794

Spread of Activity Through the Atrioventricular Node. Antonio Paes de Carvalho and Darley F. de Almeida 801

Effect of Ethanol on Serum Cholesterol Concentration in Dog and Man. Francesco Grande, Lyle J. Hay, H. William Heupel, and Donald S. Amstutz 810

Factors Affecting the Filling of the Frog's Ventricle after Isotonic Contraction. Richard A. Henney and Eric Ogden 825
