Editorial: Circulation Research and Biochemistry. Niels Haugaard

Observations on the Circulation of Domestic Cattle. J. T. Doyle,

J. L. Patterson, Jr., J. V. Warren, and David K. Detwiler

Prolonged Aβ-Cholestenone Feeding in Birds. C. W. Nichols, S. Lindsay, D. D. Chapman, and J. L. Chaihoff

Effects of Experimental Regional Ischemia and Levarterenol on the RS-T Segment and Baseline of Ventricular Surface Electrocardiograms Obtained by Direct-Coupled Amplification. A. H. Katcher, G. Peirce, and J. J. Sayen

Influence of Polyvinyl Chloride Tubing on the Isolated Perfused Rat's Heart. F. L. Meyler, A. F. Willbrands, and D. Durrer

Plateau of the Action Potential of the Frog Ventricle. W. V. McFarlane

Local Effects of Sodium, Calcium and Magnesium Upon Small and Large Blood Vessels of the Dog Forelimb. F. J. Haddy

Further Studies on Experimental Atherosclerosis and Dietary Pyrimidines. C. L. Hijola, C. Naito, S. B. Andrus, and A. M. Roach

Influence of Boundary Conditions on the Amplitude of R and Other Accession Potentials in Leads from the Ventricular Wall. L. L. Conrad and T. B. Cuddy

Experimental Atheromatosis. A. J. Bollet, C. Wang, and D. Adlersberg

Components of the “Central” Blood Volume in the Dog. R. J. Marshall, Y. Wang, and J. T. Shepherd

Further Studies of the Effects on Myocardial Energy Utilization. T. D. Darby and E. E. Aldinger

Electrocardiogram of the Normal and Hypertensive Rat. M. P. Sambhi and F. N. White

Effect of Hemorrhage on the Cardiac Output and Its Distribution in the Rat. L. C. Hirshman, E. H. Saprstein, and A. Bredenbeker

Measurement of Flow in Single Blood Vessels Including Cardiac Output by Local Thrombilation. A. Fronc and V. Ganz

Left Ventricle as a Mixing Chamber. H. Irisawa, M. P. Wilson, and R. F. Rushmer

Metabolism of Ischemic Cardiac Muscle. J. P. Kaltenbach and R. B. Jennings

Comparative Analysis of Molar Sodium Lactate and Other Agents in Treatment of Induced Hypokalemia in Nephrectomized Dogs. S. Greenstein, W. P. Goldburgh, S. V. Guzman, and S. Bellet

Immediate Effects of Intravenous Endotoxin on Serum Protein Concentrations and Blood Platelets. R. B. Davis, W. R. Mesery, and D. G. McQuarrie
Effect of Tetraethylpyrophosphate on the Transmembrane Potentials of Pacemaker and Non-pacemaker Fibers of Isolated Rabbit Atrium. M. Kleinfield, J. Magin, and E. Stein................................................................. 240
Quinidine and Unidirectional Cation Fluxes in Atria. R. L. Klein, W. C. Holzel, and B. Tinsley................................................................. 246
Cineradiographic Study of the Snake Heart. K. Johansen and R. Hol......................... 253
Influence of Experimentally Induced Atherosclerosis on the Sulfate Content of the Aortic Wall. D. T. Forman, D. S. McCann, R. E. Mosher, and A. J. Boyle................................. 267
Atherosclerosis in Rats Induced by Repeated Breedings, ACTH and Unilateral Nephrectomy. B. C. Wexler, T. E. Brown, and B. F. Miller................................. 278
Histochemical Studies in Atherogenesis. F. T. Zugibe and K. D. Brown................................................................. 287
News from the American Heart Association................................................................. 296
Contributors to this Issue............................................................................................... 298

No. 2
Part I

Editorial: Central Nervous Control of the Circulation. Carl F. Schmidt......................... 301
Special article: Hemodynamic Effects of Ganglion Blocking Drugs. Domingo M. Aviado................................. 304
Behavior of the Right Ventricle Following Acute Constriction of the Pulmonary Artery. A. C. Taquini, J. D. Fermoso, and P. Aramendia................................................................. 315
Pattern of Cholesterol Ester Fatty Acids in Serum in Normal Subjects and in Patients with Essential Hypercholesterolemia. Per Björntorp and Bertil Hood................................. 319
Cardiopulmonary Effects of Pulmonary Venous Hypertension with Special Reference to Pulmonary Lymphatic Flow. Erwin R. Rabin and Edward C. Meyer................................. 324
Mineralocorticoid Hypertensive Cardiovascular Disease Induced in Hypophysectomized Rats. C. E. Hall, O. Hall, and E. G. Rennels................................................................. 336
Frequency Analysis of the Electrocardiogram. Allen M. Scher and Allan C. Young................................. 344
Early Stages in the Development of Collateral Circulation to the Lung in the Rat. Ewald R. Weibel................................................................. 353
Importance of Myocardial Reserve in Determining Changes in Heart Rate during Levarterenol Infusion. Louis A. Soloff, Felix Cortez, and William L. Winters, Jr................................................................. 377
Variability of the Viscoelastic Constants Along the Aortic Axis of the Dog. Richard W. Lawton................................................................. 381
Action of Long-Chain Polymers on Kidney Juxtaglomerular Cells and Connective Tissue Mast Cells. Aldo N. Corbasceo................................................................. 399
Indirect Induction of Vascular Damage by X-Irradiation. Charles K. Levy................................................................. 399
Studies on the Production of Intravascular Thrombi and Their Treatment with Fibrinolysis. A. H. Freiman, N. U. Bang, and E. E. Clifton................................................................. 409
Effect of Increased Fibrinogen Concentration on the Lysis of In Vivo Thrombi. N. U. Bang, A. H. Freiman, and E. E. Clifton................................................................. 419
Butter, Corn Oil and Fibrinolysis in Rats. Roosevelt L. Tillman, Robert M. O'Neal, Wilbur A. Thomas, and Barbara Bartels Hixon................................................................. 423
Comparison of Two Types of Mechanical Assistance in Experimental Heart Failure. Peter F. Salisbury, Cecil E. Cross, P. Andre Rieben, and Richard J. Lewin................................................................. 431
Pressure Variation in Small Veins in the Hindleg of the Dog. Mary P. Wiedeman................................................................. 440
### CONTENTS OF VOLUME VIII

#### Vascular Muscle Reactivity.
W. Alan Dodd and Edwin E. Daniel 446

#### Electrolytes and Arterial Muscle Contractility.
W. Alan Dodd and Edwin E. Daniel 451

#### Effect of Addition and Removal of a Kidney Transplant in Renal and Adrenocortical Hypertensive Rats.
A. H. Gomez, S. W. Hoobler, and P. Blaquier 464

#### Relative Effect of Chronic Ischemia and a Myocardial Revascularization Procedure on the Ventricular Fibrillation Threshold.
Lloyd D. MacLean and Clifford M. Phibbs 473

#### Electrocardiographic Changes Produced by Potassium and Other Ions Injected into the Coronary Arteries of Intact Dogs.
Louis A. Soloff, Guido Aseanio de los Santos, and M. J. Oppenheimer 479

#### News from the American Heart Association 485

#### Contributors to This Issue 487

### Part II

#### Selected List of Research Training Programs Supported by the National Heart Institute

No. 3

- **Editorial:** Brains, Data and Machines. C. W. Sheppard 489
- **Myocardial Necrosis in Experimental Occlusion of the Portal Vein.** Raúl H. Mejía 495
- **Effects of Bladder Distention on Pulmonary Vascular Bed.** Alberto Agrest and Aquiles J. Roneiro 501
- **In Vitro Effects of Estradiol on the Aorta of Chickens.** Manuel Réno Malinow 506
- **Effects of Drugs on the Pulmonary Circulation and Ventilation As Reflected By Changes in the Arterial Oxygen Saturation.** Albert H. Niden, Benjamin Burrows, and William R. Barclay 509
- **Factor Analysis of the Electrocardiogram. Test of Electrocardiographic Theory: Normal Hearts.** Allen M. Scher, Allan C. Young, and William M. Meredith 519
- **Influence of Sex Difference and Hormones on Elastin and Collagen in the Aorta of Chickens.** José Cembrano, Manuel Lillo, José Val, and Jorge Mardones 527
- **Reflex Effects of Left Ventricular Distension.** Peter F. Salisbury, Cecil E. Cross, and P. Andre Rieben 530
- **Effect of Liver Damage on Experimental Renal Hypertension in the Rat.** Hubert F. Loyke, John J. Plucinsky, and Thomas L. Crawford 535
- **Vascular Effects of Hypertonic Solutions.** Raymond C. Read, John A. Johnson, James A. Vick, and Maurice W. Meyer 538
- **Regulation of Cardiac Output Through Stroke Volume.** Homer R. Warner and Alan F. Toronto 549
- **Possible Reasons For Drop of Resting Potential of Mammalian Heart Preparations During Hypothermia.** Jean Delézé 553
- **Stroke Volume in the Dog During Graded Exercise.** Yang Wang, Robert J. Marshall, and John T. Shepherd 558
- **Adrenal Medullary Secretion of Epinephrine and Norepinephrine in Dogs Subjected to Hemorrhagic Hypotension.** Vincent V. Giavano, Noel Bass, and Florian Nykiel 564
- **Effect of Insulin in the Induction and Regression of Atherosclerosis in the Chick.** Jeremiah Stamler, Ruth Pick, and Louis N. Katz 572
- **Characteristics of the Frequency Spectrum in the Normal Electrocardiogram and in Subjects Following Myocardium Infarction.** Paul H. Langner, Jr. and David B. Geselowitz 577
- **Effects of Anoxia on the Vascular Resistance of the Dog's Hind Limb.** Jerzy Litwin, Abdul Habib Dil, and Domingo M. Avisdo 585
- **Volume Pressure Relationships of the Pulmonary-Left Heart Vascular Segment.** Bruno for a "Valve-like" Closure of the Pulmonary Veins and Robert C. Little 594
- **"Unidirectional" Atrioventricular Conduction Studied by Microelectrodes.** Toyomi Sano, Eiichi Ohtsuka, and Takio Shimanoto 600
CONTENTS OF VOLUME VIII

Cardiovascular Adaptation to Partial Heart-Lung Bypass.
   Pierre M. Galletti and Gerhard A. Brecher............................ 609

General and Pulmonary Hemodynamic Effects of Pure Decapeptide Angiotensin
   in Normotensive Man. Salvatore M. Sanacita.......................... 616

Mechanical Properties of Arteries in Vivo. Lysle H. Peterson,
   Roderick E. Jensen, and John Parnell............................... 622

Pulmonary Vasomotor Responses to Epinephrine and Norepinephrine in the
   and R. D. Stedeford.................................................. 640

Effect of Prolonged Periods of Anoxia on Atrioventricular Conduction and
   Cardiac Muscle. Jay D. Coffman, F. Bruce Lewis, and Donald E. Gregg... 649

Hemodynamic Effects of Continuous Positive and Negative Pressure Breathing
   in Normal Man. Kaye H. Kilburn and Herbert O. Sieker.............. 660

Arterial Lesions in the Kenya Baboon. Henry C. McGill, Jr., Jack P. Strong,
   Russell L. Holman, and Nicholas T. Werthessen.................... 670

News from the American Heart Association.............................. 680

Contributors to This Issue............................................. 683

No. 4

Editorial: The Old and the New in Therapeutics. Carl F. Schmidt........... 687

Special Article: Significance of Tissue Chromaffin Cells and Mast Cells in

Labeled Phosphate Distribution in Working and Nonworking Myocardium.
   Kenneth K. Tanbo, Nancy M. Buckley, and Norman J. Zeig............... 703

Histamine Release and Intracellular Potentials During Anaphylaxis in the
   Isolated Heart. George A. Feigen, E. M. Vaughan Williams,
   Janice K. Peterson, and C. B. Nielsen................................ 713

Influence of Cholesterol Feeding on Phospholipid Metabolism of Connective
   Tissue. Esther L. McCandless, Robert E. Bailey, and D. B. Zilversmit.... 724

Effect of Acute Myocardial Infarction on Electrical Recovery and Transmural
   Temperature Gradient in Left Ventricular Wall of Dogs. Ernest W.
   Reynolds, Jr., Condon R. Vander Ark, and Franklin D. Johnston...... 730

Nitrogen-Free Plasmalogen Observed in Infarcted Myocardium of the Dog.
   M. H. Hack and V. J. Ferrans.......................................... 738

Metabolism of Cholesterol-4-C\textsuperscript{14} in Bile Duct Cannulated Chicks and Rats.
   Toshio Nishida, Akira Ueno, and Fred A. Kummerow................... 742

Effect of Treatment with Radioactive Iodine and Iodine-Deficient Diet on
   Development and Maintenance of Renal Hypertension in Rats.
   M. J. Fregly, J. F. Cennaro, Jr., and A. B. Otis..................... 749

Inhibition of Experimental Hypercholesterolemia and Atherogenesis by
   4-Amino Pteroylglutamic Acid (Aminopterin). Carl Muschenheim,
   Seymour Advocate, and Donald W. Hoskins......................... 759

Regional Uptake of Radioactive Oxygen, Carbon Monoxide and Carbon
   Dioxide in the Lungs of Patients with Mitral Stenosis.
   C. T. Dollery and J. B. West.......................................... 765

Increased Sensitivity to Corticosterone as a Possible Factor in the
   Development of Adrenal Regeneration Hypertension. Floyd R. Skelton.... 772

Mechanism of S-T Segment Alteration During Acute Myocardial Injury.
   Werner E. Samson and Allen M. Scher................................ 780

Distensibility and Water Content of Heart Muscle Before and After Injury.
   Peter F. Salisbury, Cecil E. Cross, and P. Andre Rieben............ 788

Influence of Coronary Artery Pressure Upon Myocardial Elasticity.
   Peter F. Salisbury, Cecil E. Cross, and P. Andre Rieben............ 794

Spread of Activity Through the Atrioventricular Node.
   Antonio Paes de Carvalho and Darcy F. de Almeida.................... 801

Effect of Ethanol on Serum Cholesterol Concentration in Dog and Man.
   Franciscas Grande, Lyle J. Hay, H. William Heupel, and Donald S. Amatuzio.. 810

Effect of Cholesterol Atherosclerosis, Hypertension and Cortisone on Aortic

Factors Affecting the Filling of the Frog's Ventricle after Isotonic
   Contraction. Richard A. Henney and Eric Ogden...................... 825
CONTENTS OF VOLUME VIII

Effects of Epinephrine on Frog Ventricle. Richard A. Hennacy........... 831
Dye Dilution in Canine Heart-Lung Preparations. C. W. Sheppard,
Billy L. Couch, and Bennett L. Crowder, II...................... 837
Significance of Mesenteric Arterial Receptors in the Reflex Regulation of
Systemic Blood Pressure. Garry O. Boyer and Allen M. Secher......... 845
Ability of Serotonin and Norepinephrine to Mimic the Central Effects of
Reserpine on Vasomotor Activity. J. W. McCubbin, Y. Kaneko,
and Irvine H. Page............................................. 849
Hemodynamic Effects of Methoxamine in Mitral Valve Disease.
C. Alpheus Stanfield and Paul N. Yu.............................. 859
Electrolyte Changes in Heart Tissue and Coronary Arterial and Venous
Plasma Following Coronary Occlusion. John R. Cummings............. 865
Cause of Genuine Autoregulation of the Renal Circulation.
William H. Waugh and Robert G. Shanks.......................... 871
Effect of Dicumarol on Blood Vascular Integrity in the Rabbit.
Thomas E. Nelson, Jr............................................. 889
Book Reviews ......................................................... 897
News from the American Heart Association................................ 898
Contributors to This Issue........................................... 903

No. 5

Editorial Note .......................................................... 907
Tritium Assay by Liquid Scintillation Spectrometry: Comparison of Tritium and
Deuterium Oxides as Tracers for Body Water.
Jack Leibman, Frank A. Gotcli, and Isidore S. Edelman............... 907
Reflex Circulatory Effects Elicited by Hypertonic and Hypotonic Solutions Injected
into Femoral and Brachial Arteries of Dogs.
Richard P. Lasser, Myron R. Schoenfeld, Douglas F. Allen, and Charles K. Friedberg 913
Intestinal Perfusion in Hemorrhagic Shock. Benjamin Blattberg, Carlos Maldonado,
and Matthew N. Levy............................................. 920
Levels of Phosphate Compounds in Experimental Cardiac Hypertrophy.
Paul R. Minton, Paul M. Zoll, and Leona R. Norman.................. 924
Chronic Constriction of the External and Internal Carotid Arteries in Dogs:
Its Effect on the Blood Pressure. Paul Kedzi.......................... 930
Persistent Hypertension in the Dog Following Disruption of the Carotid Sinus
Nerves and Subsequent Unilateral Renal Artery Constriction. Paul Kedzi 934
Ventricular Endomyocardial Pathology Produced by Chronic Cardiac Lymphatic
Obstruction in the Dog. Albert J. Miller, Ruth Pick, and Louis N. Katz..... 941
Cardiac Arrhythmias Induced by Minimal Doses of Epinephrine in Cyclopropane-
Anesthetized Dogs. Peter E. Dresel, Keith L. MacCannell, and Mark Nickerson... 948
Negative Diastolic Pressure in the Isolated Hypothermic Dog Heart.
Larry J. O'Brien.................................................. 956
Cardiographic Observations on a Fin-Back Whale.
Alfred W. Senn and John R. Kanwisher................................ 961
Effect of Ischemia and Reoxygenation on Glycolytic Reactions and Adenosinetriphos-
phate in Heart Muscle. William H. Danforth, Siegfried Naegle, and R. J. Bing.... 965
Viscosity of Blood in Myocardial Infarction.
Frederick Kellogg and Joseph R. Goodman............................. 972
Hemodynamic Effects of a Presor Amine (Methoxamine) with Predominant Vaso-
constrictor Activity. William R. Brewster, Jr., Patricia F. Osgood, James P. Isaacs,
and Leon I. Goldberg............................................ 980
Ventricular Nonmixing as a Source of Error in the Estimation of Ventricular Volume
by the Indicator-Dilution Technic. H. J. C. Swan and Walter Beck.............. 989
Condensing Enzyme Levels in the Serum after Experimental Myocardial Infarction.
George W. Kosicki, Henry H. Swain, and Paul A. Srere.................. 999
Effect of Digitals Glycoconds on the Myocardial Sodium and Potassium Balance.
John R. Blackmon, Norman K. Hellenstein, Louis Gillespie, Jr., and Robert M. Berne 1003
Cofibrins and Fibrin-Intermediates as Indicators of Thrombin Activity in Vivo.
John R. Shainoff and Irvine H. Page.................................. 1013
Quantitative Analysis of the Development of Experimental Atherosclerosis in the
Dog. Leroy S. Dissen, Jr., and Katherine Buck........................ 1023
Study of the Relationship Between Plasma Volume and Transcapillary Protein Ex-
W. Gordon Walker, Richard S. Ross, and John D. S. Hammond............ 1028
Distribution and Transcapillary Exchange of Albumin in Congestive Heart Failure.
Richard S. Ross, W. Gordon Walker, and John D. S. Hammond................. 1041
Circulation of the Giraffe. Robert H. Goetz, James V. Warren, Otto H. Gauer,
John L. Patterson, Jr., Joseph T. Doyle, E. N. Keen, and Maurice McGregor...... 1049
Role of the Veins in Venous Return. Herbert J. Bartelstone....................... 1059
Homeometric Autoregulation in the Heart. S. J. Sarnoff, J. H. Mitchell, J. P. Gilmore,
and J. P. Remensnyder......................... 1077
Relation Between Left Ventricular Diastolic Pressure and Myocardial Segment
Length and Observations on the Contribution of Atrial Systole.
R. J. Linden and J. H. Mitchell............................................ 1092
Influence of Cardiac Sympathetic and Vagal Nerve Stimulation on the Relation
Between Left Ventricular Diastolic Pressure and Myocardial Segment Length.
J. H. Mitchell, R. J. Linden, and S. J. Sarnoff.................................... 1100
Regulation of Ventricular Contraction: Influence of Cardiac Sympathetic and Vagal
Nerve Stimulation on Atrial and Ventricular Dynamics. S. J. Sarnoff,
S. K. Brockman, J. P. Gilmore, R. J. Linden, and J. H. Mitchell.................. 1108
Regulation of Ventricular Contraction by the Carotid Sinus: Its Effect on Atrial and
Ventricular Dynamics. S. J. Sarnoff, J. P. Gilmore, S. K. Brockman, J. H. Mitchell,
and R. J. Linden............................................................... 1123
Book Reviews............................................................... 1137
News from the American Heart Association.............................................. 1139
Contributors to This Issue...................................................... 1142

No. 6

Longitudinal Waves in the Walls of Fluid-Filled Elastic Tubes. Robert L.
Van Citters ............................................................... 1145
Direct Measurement of Bronchial Arterial Flow. Bruno Horisberger and Simon
Redbard................................................................. 1149
Effects of Fat on Coronary Circulation in Dogs. Peter T. Kuo, Arthur F.
Whelan, Arthur A. Almam, and James W. West......................................... 1157
Investigation of Spontaneous Vasomotor Activity: Relation of the Sympathetic
and Somatic Nervous Systems to the Occurrence of Slow Waves (Alpha and
Beta) of the Plethysmogram of the Dog's Paw. Elizabeth M. Cuthbertson,
Rutherford S. Gilfillan, and Mikel Durno.............................................. 1164
Pericardial and Ventricular Pressure. J. P. Holt, E. A. Rhode, and Balga Kines
Mechanisms of Inhibition of Heart Rate by Phenylephrine. Sarla Yurma,
S. D. Johnsen, D. E. Sherman, and W. B. Youmans................................... 1182
Dicumarol Therapy: Some Effects of Platelets and Their Relationship to Clotting
Tests. E. A. Murphy and J. F. Mustard.............................................. 1187
Electrical Activity During the P-R Interval. Brian F. Hoffman, Paul F.
Cranefield, Jackson H. Stuckey, and Albin A. Bagdonas.............................. 1200
Intestinal Tissue Blood Flow in Shock Due to Endotoxin. Ralph R. Rayner,
Lloyd D. MacLean, and Eugene Grinn..................................................... 1212
Cardiac Malformations in Rats Induced by Exposure of the Mother to Carbon
Dioxide During Pregnancy. Olga M. Haring............................................ 1218
Mechanism by Which Serotonin, Norepinephrine and Reserpine Cause Central
Vasomotor Inhibition. Y. Kaneko, J. W. McCubbin, and Irvine H. Page............ 1228
Effects of Hypertensin on Arterial Pressure, Heart Work and Cardiac Oxygen
Utilization. Ivan E. Porto, Louis Potgieter, and Jerry E. Schmitthenner......... 1235
Effects of Metabolic Acidosis on Ventricular Isometric Systolic Tension and the
Response to Epinephrine and Levarterenol. Thomas D. Darby, Earl E.
Aldinger, Richard H. Godwin, and Wendell B. Thrower......................... 1242
Studies on Starling's Law of the Heart: Determinants of the Relationship Be-
tween Left Ventricular End-Diastolic Pressure and Circumference. Eugene
Braunwald, Robert L. Frye, and John Ross, Jr......................................... 1254
Electrolyte Content of Rat Heart Atria and Ventricles. J. A. Barclay, E. J.
Hooley, and Helga Houghton............................................................. 1264
Maturation of Small Pulmonary Arteries in Puppies. Clay E. Phillips, Jr.,
James A. DeWeese, James A. Manning, and Earl B. Mahoney....................... 1268
Some Histochemical Observations on the Human Aortic Wall in Atherosclerosis.
Maurice Sandier and Geoffrey H. Bourne.............................................. 1274
Book Review............................................................... 1275
News from the American Heart Association.............................................. 1279
Contributors to This Issue...................................................... 1281
Volume Author Index......................................................................... 1285
Volume Subject Index......................................................................... 1285
