CONTRIBUTORS TO THIS ISSUE

William Adam, M.B., B.Ch.
Visiting Fellow of the Rotary Club of Northern Ireland with the Department of Physiology, McGill University, Montreal, Canada.

Abdo Bisteni, M.D.
Associate Professor of Medicine, Universidad Nacional Autónoma de México School of Medicine; Research Associate, Department of Electrocardiography, Instituto Nacional de Cardiología de México, México, D. F., México.

K. D. Bock, M.D.
Research Associate, Pharmaceutical Department, Ciba Research Laboratories, Basel, Switzerland.

William R. Boniface, M.D.
Fellow in Child Psychiatry, School of Medicine, University of Cincinnati, and Cincinnati General Hospital, Cincinnati, Ohio. Formerly: Resident Neurologist, St. Louis City Hospital (first year of this study); National Multiple Sclerosis Foundation Fellow in Neurology (second year of this study), Division of Neurology, School of Medicine, Washington University, St. Louis, Missouri.

Eugene Braunwald, M.D.
Chief, Cardiology Branch, National Heart Institute, Bethesda, Maryland.

Edwin C. Brockenbrough, M.D.
Senior Assistant Surgeon, Clinic of Surgery, National Heart Institute, Bethesda, Maryland.

Lee D. Cady, Jr., M.D.
Staff member, Department of Physical Medicine and Rehabilitation, School of Medicine, New York University, New York, New York.

Charles A. Chidsey, M.D.
Clinical Associate, Laboratory of Clinical Biochemistry, National Heart Institute, Bethesda, Maryland.

William P. Cornell, M.D.
Senior Assistant Surgeon, Clinic of Surgery, National Heart Institute, Bethesda, Maryland.

Robert Edelman
Student Research Fellow, Washington University School of Medicine, St. Louis, Missouri.

Theodore Ellison, Ph.D.

Frank A. Finnerty, Jr., M.D.
Assistant Professor of Medicine and Pharmacology, Georgetown University School of Medicine, Washington, D. C. Established Investigator, American Heart Association.

Sydney M. Friedman, M.D., Ph.D.
Professor and Head, Department of Anatomy, University of British Columbia, Vancouver, Canada.

Robert L. Frye, M.D.
Member, Research Staff, National Heart Institute, Bethesda, Maryland.

Menard M. Gertler, M.D.
Staff member, Department of Physical Medicine and Rehabilitation, School of Medicine, New York University, New York, New York.

Ralph Gorten, M.D.
Research Fellow in Medicine, USAF Aerospace Medical Center, Brooks Air Force Base, Texas.

Samuel M. Greenberg, Ph.D.
Staff Director, Metabolism Department, Smith Kline & French Laboratories, Philadelphia, Pennsylvania.

F. Gross, M.D.
Director, Pharmaceutical Department Ciba Research Laboratories; Privatdozent, Department of Physiology, University of Berne, Berne, Switzerland.

J. Canlie Gunnells, M.D.
Research Fellow in Medicine, U. S. Naval Hospital, Portsmouth, Virginia.
CONTRIBUTORS TO THIS ISSUE

Phyllis M. Hartroft, Ph.D.
Research Assistant Professor of Pathology, Washington University School of Medicine, St. Louis, Missouri.

Edward S. Hyman, M.D.
Research, Biochemistry Department, Touro Infirmary, New Orleans, Louisiana.

Elias S. Imperial, M.D.
Research Department, St. Vincent Charity Hospital, Cleveland, Ohio. Research Fellow, American Heart Association.

William D. Jackson, Ph.D.
Assistant Professor of Electrical Engineering and staff member, Research Laboratory of Electronics, Massachusetts Institute of Technology, Cambridge; Associate Staff, Peter Bent Brigham Hospital, Boston, Massachusetts.

James D. Jamieson, M.D.
Graduate Fellow, Rockefeller Institute, New York, New York.

Richard L. Kahler, M.D.
Member, Research Staff, National Heart Institute, Bethesda, Maryland.

Louis N. Katz, M.D.
Director, Cardiovascular Department, Medical Research Institute, Michael Reese Hospital and Medical Center, Chicago, Illinois.

Jose B. A. Keating, M.D.
Resident Neurologist, Barnes Hospital; Assistant in Neurology, School of Medicine, Washington University, St. Louis. Formerly: Resident Neurologist, St. Louis City Hospital (Washington University Unit); Institute of Medical Education, and Research Fellow in Neurology, Division of Neurology, School of Medicine, Washington University, St. Louis, Missouri.

Warren H. Kempinsky, M.D.
Associate Professor of Neurology, School of Medicine, Marquette University; Chief of Neurology Section, Milwaukee County Hospital, Milwaukee, Wisconsin. Formerly: Assistant Professor of Neurology, School of Medicine, Washington University; Section Head of Neurology, St. Louis City Hospital (Washington University Unit); Assistant Neurologist, Barnes Hospital, MacMillan Hospital, and Washington University Clinics, St. Louis, Missouri.

William H. Levison, S.M.
Research Assistant, Research Laboratory of Electronics, Massachusetts Institute of Technology, Cambridge, Massachusetts.

Matthew N. Levy, M.D.
Director of Research Department, St. Vincent Charity Hospital; Associate, Department of Physiology, Western Reserve University, Cleveland, Ohio.

Tien-Hui Lin, Ph.D.

Maurice McGregor, M.D., M.R.C.P. (London)
Assistant Professor of Medicine, McGill University; Associate Director, Joint Cardio-Respiratory Service of the Montreal Children's Hospital and the Royal Victoria Hospital, Montreal, Canada.

Lockhart B. McGuire, M.D.
Research Fellow in Medicine, Harvard Medical School; Assistant in Medicine, Peter Bent Brigham Hospital, Boston, Massachusetts. Post-doctoral Research Fellow, National Heart Institute, U. S. Public Health Service.

Gustavo A. Medrano, M.D.
Research Associate in the Department of Electrocardiography, Instituto Nacional de Cardiología de México, México, D. F., México.

Albert J. Miller, M.D.
Clinical Research Associate, Cardiovascular Department, Medical Research Institute; Associate Attending Physician, Department of Medicine, Michael Reese Hospital and Medical Center, Chicago, Illinois.

Peter P. Morgan, M.D.
Resident Neurologist, University of Indiana Hospital, Indianapolis, Indiana. Formerly: Resident Neurologist, St. Louis City Hospital, Washington University Unit, St. Louis, Missouri.

Eric Neil, M.D., D.Sc.
John Astor Professor of Physiology, University of London, Middlesex Hospital Medical School, London, England.

Veronica J. Parks, M.B.
Research Fellow, National Health and Medical Research Council of Australia; Department of Human Physiology and Pharmacology, University of Adelaide, Adelaide, South Australia.
CONTRIBUTORS TO THIS ISSUE

John L. Patterson, Jr., M.D.
Research Professor of Medicine, Medical College of Virginia, Richmond, Virginia.

Ruth Pick, M.D.
Assistant Director, Cardiovascular Department, Medical Research Institute, Michael Reese Hospital and Medical Center, Chicago, Illinois. Established Investigator, American Heart Association; supported by the Illinois Heart Association.

Paul Sekelj, D.Eng.
Assistant Professor of Physiology, McGill University; Director, Department of Biophysics, Montreal Children's Hospital; Research Associate, Royal Victoria Hospital, Montreal, Canada.

Herbert Sherman, D.E.E.
Staff member, Lincoln Laboratory, Massachusetts Institute of Technology, Lexington; Associate Staff, Peter Bent Brigham Hospital, Boston, Massachusetts.

Sandford L. Skinner, M.B.
Research Fellow, National Health and Medical Research Council of Australia; Department of Human Physiology and Pharmacology, University of Adelaide, Adelaide, South Australia.

Demetrio Sodi-Pallares, M.D.
Professor of Medicine, Universidad Nacional Autónoma de México School of Medicine, México, D. F.; Chief of the Department of Electrocardiography, Instituto Nacional de Cardiología de México, México, D. F., México.

Eugene A. Stead, Jr., M.D.
Professor of Medicine, Duke University Medical Center, Durham, North Carolina.

Mario R. Testelli, M.D.
Research Assistant in the Department of Electrocardiography, Instituto Nacional de Cardiología de México, México, D. F., México.

Leo J. Tick, Ph.D.
Staff member, Research Division, College of Engineering, New York University, New York, New York.

John Tuckman, M.D.
Research Fellow in Medicine, Georgetown University School of Medicine, Washington, D. C. Postdoctoral Research Fellow, National Heart Institute, U. S. Public Health Service.

Albert J. Wasserman, M.D.
Assistant Professor of Medicine, Medical College of Virginia; Chief, Medical Service, Veterans Administration Hospital, Richmond, Virginia.

Arnold M. Weissler, M.D.
University of Texas Medical Branch, Galveston, Texas.

Robert F. Whelan, Ph.D., M.D., D.Sc.
Professor and Head, Department of Human Physiology and Pharmacology, University of Adelaide, Adelaide, South Australia.

Max A. Woodbury, Ph.D.
Staff member, Research Division, College of Engineering, New York University, New York, New York.

Harrison Zieske, Jr.
Research Associate, Research Department, St. Vincent Charity Hospital, Cleveland, Ohio.
